ABSTRACT

The guide, now in its 14th edition, provides information about requirements, course offerings, financial aid, and personnel for 150 graduate departments of geography in the United States and Canada. The objective is to assist college and university departments in answering student inquiries concerning graduate training in geography. The guide is divided into two sections: the United States and Canada. Each entry includes the dates the department and the graduate program were founded, degrees offered, number of graduate students in residence and not in residence, chairman of the department, address and telephone of person to write for further information, and a list of theses and dissertations completed from July 1980 to June 1981. The entry also thoroughly describes the scope, emphasis, and academic requirements of each program, available research facilities and equipment, admission requirements, and possible financial aid. A listing of staff includes highest degree attained, year and granting institution, rank, and specialization. A staff directory and geographical index conclude the guide. (Author/RM)

PREFACE

This is the fourteenth edition of the *Guide to Graduate Departments of Geography in the United States and Canada* designed to assist college and university departments in answering the many inquiries received from students concerning graduate training in geography. It provides a comprehensive listing of information about requirements, course offerings, financial aid, and personnel for colleges and universities.

There are 74 institutions in the U.S. and Canada which offer a Ph.D. in geography; 73 of these are listed in the 1981–1982 *Guide*. Of the 99 institutions which award the Master's degree, 77 are included here. Out of a total of 173 graduate departments of geography in the U.S. and Canada, 150 are listed in the current edition of the *Guide*.

Recently completed dissertations and theses are listed once again under each graduate school program. This listing provides a permanent record of graduate research in geography. An explanation of the format appears on the page facing the first entry.

Participating department chairpersons and secretaries have cooperated admirably with the production editor, Teresa Mulloy, who is responsible for organizing and copy editing all material. We would like to express our appreciation to the many individuals who have made this *Guide* possible.

We hope that the *Guide* will continue to be used profitably by both students and faculty members in facilitating the entry of students into graduate programs of geography.

Patricia J. McWethy
Executive Director
Association of American Geographers

Telephone (216) 375–7620

PROGRAMS AND RESEARCH FACILITIES: The Master of Arts in Geography degree is designed for those graduate students who wish to pursue a traditionally oriented master's program in geography. A thesis is required.

The Master of Science in Geography is structured to fill the needs of those graduate students who wish to pursue a program strongly oriented toward quantitative analysis. A thesis is not written, but at least 9 semester hours of advanced statistics courses must be successfully completed.

Facilities include, in addition to air-conditioned general classrooms and faculty offices, a completely modern cartographic drawing laboratory, with adjoining darkroom and major equipment rooms, an urban analysis laboratory, a physical geography laboratory, graduate student offices, and a selected map, air photo and remote sensing research collection. Major equipment includes Kelsh stereo plotter, digital plotter, electronic calculators, key punch machine, remote computer terminal, overhead map enlarger, field plotters, ERTS zoom transferscope, three dimensional Perspektomat, headliner and varityper, industrial camera, vacuum frame, and map scale changers. A laboratory for cartographic and spatial analysis operates as a part of the Department. Academic emphasis is upon cartography, planning, urban geography, environmental resource planning, and Asian geography.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The academic plan requires four semesters. The plan consists of required technique courses in geography and electives in geography and related fields. Electives include traditional course work, seminars, advanced technique courses and research.

Graduate geography programs are open to qualified students with either an undergraduate major in geography or a major acceptable to the department. Students with inadequate background in geography will be expected to remedy these deficiencies. No foreign language is required for the degree.

Grants are available in the form of teaching and research assistantships.

The Department operates an urban planning internship program with local planning agencies. Interns are paid an amount equivalent to that of teaching assistants (plus compensation for fees) and they work as planners gaining experience as well as receiving academic credit for that experience. Loan facilities are also available.

The national offices of the Pioneer America Society are housed in the Department. Publications produced in the Department include *Ohio Geographers: Recent Research Themes.*

STAFF:

Frank Costa, Ph.D., Wisconsin Madison, Associate Professor of Urban Studies and Geography—urban, regional and resource planning

Ashok Dutt, Ph.D., Patna (India), Professor of Geography and of Urban Studies—urban, regional and urban planning, South Asia, Southeast Asia

Margaret Geib, B.A., B.S., Kent State, Department Cartographer

Lathardus Goggins, Ph.D., Saint Johns, Assistant Professor—Africa, recreation, Anglo-America, climatology

Edward W. Hanten, Ph.D., Pittsburgh, Professor and Director of the Center for Urban Studies—urban, industrial location, regional methodology

Vern Harnapp, Ph.D., Kansas, Associate Professor—physical, Latin America, remote sensing, educational techniques

Albert Korsok, Ph.D., Illinois, Associate Professor—Europe, Soviet Union, economic, history of geographic thought

Laurence Ma, Ph.D., Michigan, Associate Professor—East Asia, cultural, political

Charles B. Monroe, Ph.D., Pennsylvania State, 1974, Assistant Professor—location analysis, transportation, applied geography

John Mulhauser, J.D., Akron, Associate Professor—economic, Anglo-America, cartography, remote sensing

Thomas Nash, Ph.D., Kent State, Associate Professor and Director of the Urban Planning Internship Program—planning, climatology, cartography

Allen G. Noble, Ph.D., Illinois, Professor, Head of the Department—South Asia, cultural, settlement landscape

Deborah Phillips, M.A., Georgia, Supervisor, Laboratory for Cartographic and Spatial Analysis

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Cheeseborough, Lawrence. "Urban Spatial Mobility Patterns of the Elderly: Akron, Ohio," 1981.

Fritsch, Thomas. "The Effect of Climate on Soybean Yields in Northwestern Ohio," 1981.

Rahman, A.H. "Regional Balance of Food and Population in Bangladesh," 1981.

Seymour, Janice K. "An Analysis of Outdoor Recreational Usage Patterns of Residents in Barberton, Ohio," 1980.

Skitch, Ron. "Land Utilization in Floodplains: A Rural Ontario Experience," 1981.

University of Alabama

NOT IN RESIDENCE: 6

CHAIRMAN: Travis H. Hughes

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Professor H. D.
Hays, PO Box 1945, University, Alabama 35486
Telephone (205) 348–5095

PROGRAMS AND RESEARCH FACILITIES: The graduate program in Geography is strongly committed to applied geography and to the fields of Regional and Urban Planning. Research and teaching focus on land use analysis, remote sensing, computer cartography, and energy and environmental issues. Recent publications include a state atlas, a computer based map abstract series, a land use-mineral rights ownership map series, and land suitability and land use activity surveys for various parts of the southeast.

The program is closely allied with various city and regional planning agencies in the state and many University of Alabama graduate students are employed by these agencies on a part-time basis or on internships. The Department is equipped for field work and laboratory studies. Facilities include a modern cartographic lab with map-o-graph and zoom transferscope, darkroom, U.S.G.S. map library, weather station, and aerial photo library. The Department is particularly well endowed with computer assets such as a HP 9845A micro-computer W/64 K bytes RAM, two cassette tape drives, internal thermal printer and CRT graphics system. This is linked to a TALOS 648 digitizer with 36" x 48" digitizing area and SMART option, and to a Houston Instruments DP–1–5 11" x 17" digital plotter. The Department has easy access to a UNIVAC 1100/61 time share computer system with a megaword of storage, to a Tektronix 4051 graphics station with digitizer, digital plotter, flexible disk storage, and to a ZETA 6000 series off-line 36" drum, four pen plotter.

Area studies remain a prominent part of the program, offering detailed physical and cultural analysis of Latin America, Soviet Union, Europe and other foreign regions. University graduates, through their academic training, are well prepared for work in the Foreign Service, C.I.A., D.I.A., and other federal agencies.

The graduate program in Geography is designed to include a thesis or a non-thesis track. Under the thesis track the student has considerable latitude to design a program to fit specific needs. The non-thesis track requires a rather strict conformity to specified guidelines. All entering students must specify one of the two tracks during the first semester of academic work. Students selecting the non-thesis track may select one of the following concentrations: Urban Systems Analysis and Management, Natural Systems Analysis and Management, Cultural Systems Analysis and Management, or Foreign Area Analysis.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester System. The academic program requires the completion of at least 24 semester hours with at least 12 hours in courses numbered 500 or above. A thesis, for which six semester hours is granted, is required. The program consists of required technique courses in geography and electives in geography and related fields. The Certificate in Urban and Regional Planning, an option, includes required courses in political science (public administration) and economics.

The graduate geography program is open to qualified students with either an undergraduate major in geography or a major acceptable to the department. A combined score of at least 1000 on the aptitude portions of the GRE and an undergraduate B average are required for unconditional admission. Students may be admitted with less than 1000 GRE on a conditional basis dependent on their grades in geography.

Teaching and research assistantships starting at $4550 for the academic year are regularly granted to well-qualified students. Paid internships are also available with local and regional planning agencies or with the Geological Survey of Alabama. Out-of-state tuition is waived for departmental assistants.

STAFF:

H. Donald Hays, M.A., Michigan, Professor—microclimatology, land use, planning

W. Gary Hooks, Ph.D., North Carolina, Professor—geomorphology, general geology

Travis H. Hughes, Ph.D., Colorado, Professor—environmental geology

Frank D. Huttlinger, M.S., Pennsylvania State, Assistant Professor—cartography, air photo interpretation, Latin American studies

Neal G. Lineback, Ph.D., Tennessee, Professor—urban, economic, computer geography, geographical inventories

John Nichols, M.A., Miami-Ohio, Temporary Instructor—quantitative methods, computer mapping

Jeffrey P. Richetto, Ph.D., Ohio State, Assistant Professor—social, economic

Patricia Tamarin, Supervisor, Cartographic Lab

David C. Weaver, Ph.D., Florida, Associate Professor and Director of the Regional and Urban Planning Program—urban, planning, economic, historic

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Freeman, John. "Camper Preferences for Recreation Facilities and Activities at Lake Lurleen State Park," 1980.

Preelen, George. "A Spatial Study of Emergency Medical Services in Tuscaloosa County, Alabama," 1980.

Appalachian State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1966 GRADUATE PROGRAM FOUNDED: 1968

DEGREES OFFERED: M.A., M.A. for teachers

GRANTED 7/1/80–6/30/81: 5

GRADUATE STUDENTS IN RESIDENCE: 7
NOT IN RESIDENCE: 2

CHAIRPERSON: William Imperatore

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Ole Gade, Chairperson, Graduate Committee, Department of Geography, Appalachian State University, Boone, North Carolina 28608
Telephone (704) 262-3001

PROGRAMS AND RESEARCH FACILITIES: The M.A. in Geography allows emphasis on areas of interest varying from physical and cultural geography to urban/rural planning and recreational site development. Beyond a set of core courses, lecture, independent study, internships and special topics, courses are available with which an individualized program of study can be designed. Also, two tracks in the M.A. for teachers program allow preparation for teaching in the junior/community college or at the secondary school level.

The geography department occupies the fourth floor of a modern science facility adjacent to the main library and contains well equipped cartographic/photo interpretation/remote sensing lab, map library and dark room facilities. A programmable calculator, microprocessing equipment, and a computer terminal, supplemental to the nearby university computer facility, are available within the department.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Graduate geography programs are open to qualified students with an undergraduate major in geography or a major approved by the graduate committee. A number of assistantships are available. Stipends range from $1600-$3600 per year with out-of-state tuition waived in selected cases. Internships in regional, urban and environmental analysis and planning are normally available during the internship period.

STAFF:

Terry E. Epperson, Ph.D., Tennessee, 1960, Professor—economic, Asia, Southern Appalachia

Ole Gade, Ph.D., Michigan State, 1972, Professor—migration, urban and regional development and planning, geographic theory, quantitative methods, Europe

William Imperatore, Ed.D., Georgia, 1970, Professor and Chairperson—geographic education, meteorology, physical

Robert E. Reiman, Ph.D., Florida State, 1964, AICP, Professor and Coordinator of Community and Regional Planning Program—environmental analysis, planning theory, tourist region design, community development

H. Daniel Stillwell, Ph.D., Michigan State, 1961, Professor—physical, biogeography, remote sensing, field techniques, cartography, recreational land use

Roger A. Winsor, Ph.D., Illinois, 1975, Associate Professor—historical, environmental perception, behavioral, political, research methods

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Carr, Thomas N. "Site Characteristics of Second Home Location in Watauga County, North Carolina," 1981.

Lloyd, Thomas J. "Population and Economic Projections and Traffic Zones with Limited Historical Data," 1980.

DATE FOUNDED: 1923 GRADUATE PROGRAM FOUNDED: 1961

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 8 M.A., 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 24 M.A. 15 Ph.D.
NOT IN RESIDENCE: 6 M.A. 2 Ph.D.

CHAIRMAN: W. Donald McTaggart

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. W. Donald McTaggart, Department of Geography, Arizona State University, Tempe, Arizona 85287
Telephone (602) 965-7533

PROGRAMS AND RESEARCH FACILITIES: The Master of Arts degree requires 30 semester hours; a thesis is required. There is a program designed for: (1) those students planning to continue their graduate career at the Ph.D. level; (2) those students interested in teaching careers at the high school or two-year college levels; (3) those students interested in careers in urban and regional planning or environmental evaluation; and (4) those students wishing to specialize in spatial analysis of land use. Every effort is made to arrange each student's program to fit individual interests, needs, and career objectives. The Ph.D. program emphasizes resource, environmental, and urban geography, and is tailored to student needs.

The large number of faculty and their diverse training provide for a wide range of course offerings and research guidance to include nearly all systematic or regional interests on the part of students. Faculty interest, combined with the location of the University in the greater Phoenix metropolitan area in southwestern United States, provides an ideal laboratory for urban geography, urban climatology, arid land research, and cultural geography. Northern Mexico and the Western mountains are within easy reach for field research.

The department moved into a new building last year. The University has an excellent research library.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Academic plan—semester system. Admission requirements for M.A.—undergraduate major in geography or 15 semester hours in geography and related fields, with a B average for the last two academic years; for Ph.D.—Master's degree in geography or related field or equivalent, and B average at the graduate level. GRE scores are also used in determining admittance.

Teaching assistantships, university scholarships, and other awards are available. Stipends range from $5,000 to $5,500 for the academic year. Out-of-state tuition is waived for graduate assistants and associates.

STAFF:

William J. Acker, Ph.D., Syracuse, 1969, Associate Professor—regional, economic, military, urban, Europe

Frank T. Aldrich, Ph.D., Oregon State, 1972, Associate Professor—biogeography, cartography/computer graphics, field methodology, remote sensing

Anthony J. Brazel, Ph.D., Michigan, 1972, Associate Professor and Director, Laboratory of Climatology—physical, microclimatology, Alpine climatology, applied meteorology

Malcolm L. Comeaux, Ph.D., Louisiana State, 1969, Associate Professor—cultural, historical, history of geographic thought, Southwestern United States

Robert W. Durrenberger, Ph.D., UCLA, 1955, Professor—arid lands, climatology, water resources

Melvin J. Frost, Ph.D., Florida, 1964, Assistant Professor—agricultural, physical, Latin America

Patricia Gober, Ph.D., Ohio State, 1975, Associate Professor—population, regional economic development, urban, elderly migration

William L. Graf, Ph.D., Wisconsin, 1974, Associate Professor—fluvial, man/environment, arid lands, Alpine geomorphology

L. Lloyd Haring, Ph.D., Iowa, 1959, Professor—political, social, research methods

Ray Henkel, Ph.D., Wisconsin, 1971, Assistant Professor—agricultural, Latin America, Africa, environmental

Sherwood B. Idso, Ph.D., Minnesota, 1967, Adjunct Associate Professor—agricultural climatology

John F. Lounsbury, Ph.D., Northwestern, 1951, Professor—field methodology, land use, research methods, physical, Caribbean America

Melvin G. Marcus, Ph.D., Chicago, 1963, Professor—physical, climatology, environmental, glaciology, Alpine and Polar regions

W. Donald McTaggart, Ph.D., Australian National, 1963, Professor and Chairman—underdeveloped nations, urban, Southeast Asia

Robert C. Mings, Ph.D., Ohio State, 1966, Associate Professor—recreational, economic, Latin America

L. Mayland Parker, Ph.D., Cornell, 1955, Professor—cultural, agricultural, economic, community development

Martin J. Pasqualetti, Ph.D., UC, Riverside, 1977, Assistant Professor—energy and society, energy education, cultural, Mexico

Charles S. Sargent, Jr., Ph.D., UC, Berkeley, 1971, Associate Professor—urban, historical, Europe, Latin America

Larry K. Stephenson, Ph.D., Cincinnati, 1973, Adjunct Associate Professor—economic, land use, medical, planning and community development

Guido G. Weigend, Ph.D., Chicago, 1949, Professor and Dean of the College of Liberal Arts—port and ocean transportation, political, Europe and Soviet Union

Leo E. Zonn, Ph.D., Wisconsin-Milwaukee, 1975, Associate Professor—social and urban, population, land use

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

GRADUATE STUDENTS IN RESIDENCE: 14 M.A. 6 Ph.D.
NOT IN RESIDENCE: 2 M.A. 1 Ph.D.

HEAD: Lay James Gibson

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Lay James Gibson, Department of Geography and Regional Development, University of Arizona, Tucson, Arizona 85721
Telephone (602) 626–1652, 1526

PROGRAMS AND RESEARCH FACILITIES: Candidates for the Master of Arts degree must earn 30 units of graduate credit, not more than 6 of which may be awarded for an optional thesis. Four specific courses are required: The Summer Field Camp, Advanced Physical Geography, Advanced Cultural Geography, and History of Geographic Thought. The Master of Education degree with a major in geography requires at least 32 units in Geography and in Education, but no thesis.

The Ph.D. requires completion of the M.A. requirements, specialization in one topical and one regional area, two foreign languages or one foreign language plus acceptable quantitative skills, and an original dissertation.

Fields of special emphasis include cultural-historical geography, economic geography and regional development, some aspects of physical geography, urban geography, Anglo-America, Arid Lands, and Latin America.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system; Field Camp offered in summer only. GRE scores, Aptitude and Advanced, required for admission. Several assistantships with stipends beginning at $5000 (one-half time) and including remission of out-of-state tuition are available to qualified applicants. Applications for assistantships must be complete by February 15.

STAFF:

D. Robert Altschul, Ph.D., Illinois, 1966, Associate Professor—rural settlement, physical, Africa

Daniel D. Arreola, Ph.D., UCLA, 1980, Visiting Assistant Professor—cultural, historical

Michael E. Bonine, Ph.D., Texas, 1975, Assistant Professor of Oriental Studies—Middle East, Middle Eastern urbanism

Judith M. Dworkin, Ph.D., Clark, 1978, Assistant Professor of Hydrology and Water Resources—water resources, resource management

Lay James Gibson, Ph.D., UCLA, 1968, Professor—economic, urban, regional development

Melvin E. Hecht, Ph.D., Kansas, 1962, Professor—U.S. historical-cultural, the Southwest

Charles F. Hutchinson, Ph.D., UC, Riverside, 1978, Program Director, Applied Remote Sensing, Office of Arid Lands Studies—remote sensing, physical, arid lands

Janice Monk, Ph.D., Illinois, 1972, Associate Director, Southwest Institute for Research on Women—women's studies, geographic education, minority settlement.

Gordon F. Mulligan, Ph.D., British Columbia, 1977, Assistant Professor—economic, urban, regional development

Leland R. Pederson, Ph.D., UC, Berkeley, 1965, Professor—historical, cultural, Latin America

David A. Plane, Ph.D. candidate, Pennsylvania, Assistant Professor—migration, transportation, regional development

Richard W. Reeves, Ph.D., UCLA, 1970, Professor—geomorphology, arid lands, cartography

Thomas F. Saarinen, Ph.D., Chicago, 1966, Professor—perception of environment, resource management, urban
Robert E. Dickinson, Professor Emeritus
Dan Stanislawski, Professor Emeritus
Andrew W. Wilson, Professor Emeritus

TITLES OF THESES COMPLETED 7/1/80–6/30/81:
Master's:
Kolbe, Phillip T. "Perception of Quality and Changes in Preferences of Recreational Resources of The Lower Colorado River Valley," 1980.
Sauerwein, Charles H. "An Application of Landsat Digital Data to Air Quality Management in the Tucson Urban Area," 1980.

University of Arkansas, Fayetteville

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1948 GRADUATE PROGRAM FOUNDED: 1949

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 3

GRADUATE STUDENTS IN RESIDENCE: 8
NOT IN RESIDENCE: 5

CHAIRPERSON: John G. Hehr

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. John G. Hehr, Chairperson, Department of Geography, University of Arkansas, Fayetteville, Arkansas 72701
Telephone (501) 575-3159

PROGRAMS AND RESEARCH FACILITIES: The department offers a broad and flexible curriculum of instruction and research in both topical and regional geography with work available in allied fields. The University Library houses a fine collection of geography materials, including major foreign periodicals, and northwest Arkansas and adjacent areas offer many outstanding opportunities for field work. Each student's program reflects his or her background, interests, and needs. Narrow specialization is not emphasized at the Master's level, but the student is expected to broaden and deepen the understanding of geographical concepts and methodology. A thesis and 24 semester hours of course work are minimum requirements for the degree.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. To enter Graduate School: an undergraduate degree with minimum

of 2.5 grade point; to enter departmental program: minimum of 18 hours in geography and allied fields. Half-time assistantships are available.

STAFF IN GEOGRAPHY:

Thomas O. Graff, Ph.D., Kansas, 1973, Associate Professor—population, location theory, quantitative methods

John G. Hehr, Ph.D., Michigan State, 1971, Assistant Professor—meteorology, climatology, Latin America

O. Orland Maxfield, Ph.D., Ohio State, 1963, Professor—geographic thought, natural resources, urban, historical U.S.

Earl M. Neel, Ph.D., Tennessee, 1963, Assistant Professor—cultural, manufacturing, Monsoon Asia

Richard M. Smith, D.A., Northern Colorado, 1974, Assistant Professor—cartography, [illegible]

Additional faculty will be appointed.

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Dohne, Randolph J. "Thunderstorm Intensities and Trajectories Over the Ozark Plateau Region," 1981.*

Hawks, Graham G. "The Effects of Climatic and Non-Climatic Influences on Growth Rates and the Distribution of American Beech, White Oak, and Eastern Red Cedar Along the Buffalo River in North Central Arkansas," 1981.*

Sylva, Michael F. "Black Arkansas Population Change, 1900-1970," 1981.*

Ball State University

DEPARTMENT OF GEOGRAPHY AND GEOLOGY

DATE FOUNDED: 1965 GRADUATE PROGRAM FOUNDED: 1955

DEGREES OFFERED: M.A., M.A.Ed., M.S.

GRANTED 7/1/80–6/30/81: 7

GRADUATE STUDENTS IN RESIDENCE: 24
NOT IN RESIDENCE: 9

CHAIRMAN: Gerald R. Showalter

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman, Department of Geography and Geology, Ball State University, Muncie, Indiana 47306—for Department information. Catalog—Graduate information: Graduate School, Ball State University.
Telephone (317) 285-6275

PROGRAMS AND RESEARCH FACILITIES: Graduate work through the Masters degree in Geography, Geology and Earth Science (M.A. or M.A.Ed., major 24–45 quarter hours) (M.S. in Geology). A cognate (minor) is available in geography or earth science on the doctorate program in Education. The Department also participates in the graduate natural resources program. Special research and work facilities include cartography and aerial photo, remote sensing, earth science, physical geography and geology laboratories, a fully equipped weather station, map rooms, materials resource center, and computer terminals.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Admission requirements comply with those of the University; forms obtainable from the Office of Admissions. Autumn, Winter, and Spring quarters, and two summer terms of five weeks each. Graduate assistantships $3300 per academic year available. Partial remission of fees.

STAFF:

George F. Beatty, Ph.D., Illinois, 1958, Professor—land utilization, agricultural-rural, physical, Asia

Robert L. Carmin, Ph.D., Chicago, 1953, Professor—frontier settlement, Latin America

Thomas P. Grimes, Ph.D., Kentucky, 1972, Associate Professor—physical, recreation, history and philosophy, quantitative methods

Barry N. Haack, Ph.D., Michigan, 1977, Assistant Professor—remote sensing, physical, wind energy simulation models, Africa

Stephen A. Justham, Ph.D., Illinois, 1974, Associate Professor—meteorology-climatology, geomorphology, dendrochronology

Henry E. Kane, Ph.D., UCLA, 1965, Professor—geomorphology, oceanography

Edward E. Lyon, Ph.D., Ohio State, 1972, Professor—education geography, physical, Anglo-America, geomorphology

Tom L. Martinson, Ph.D., Kansas, 1969, Professor—cultural, agricultural, bibliography, teaching strategies, Latin America

R. William Orr, Ph.D., Indiana, 1967, Professor—invertebrate paleontology, stratigraphy, historical geology

Raymond A. Peterson, Ph.D., Florida, 1967, Associate Professor—agricultural land use, U.S. and Canada, remote sensing

Walter H. Pierce, Ph.D., Colorado School of Mines, 1980, Assistant Professor—physical stratigraphy, economic geology, geochemistry

Harlan H. Roepke, Ph.D., Texas, 1970, Professor—field studies, sedimentology-mineralogy

Alan C. Samuelson, Ph.D., Pennsylvania State, 1972, Professor—structural geology, geophysics, environmental geology

Meera Schoen, Ph.D., London, 1951, Associate Professor—Third World urbanization, cultural, Asia

Gerald R. Showalter, Ph.D., Illinois, 1973, Associate Professor—thematic cartography, agricultural development, marketing, tourism, Caribbean

Michael E. Sullivan, Ph.D., Illinois, 1972, Associate Professor—industrial, location, urban-social

David L. Wheeler, Ph.D., Michigan, 1962, Professor and Dean of the Graduate School—land utilization, historical geography

Boston University

DEPARTMENT OF GEOGRAPHY

GRADUATE PROGRAM FOUNDED: 1922

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 3 M.A.

GRADUATE STUDENTS IN RESIDENCE: 27

CHAIRMAN: T. R. Lakshmanan

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. R. B. Batchelder, Director of Graduate Studies, Department of Geography, Boston University,
48 Cummington Street, Boston, Massachusetts 02215
Telephone (617) 353-2525

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography offers a strong training that emphasizes traditional geographic theory, quantitative techniques, and environmental and policy studies. Analytical rigor combined with training in decision and policy analysis provides graduates with flexibility for choosing a career in government at environmental, economic and resource analysis levels, cartography, research institutes, consulting firms, or international organizations.

Special emphasis of graduate study in the department lies in five subfields within the discipline: 1) urban and regional analysis and policy; 2) environmental systems and resource analysis; 3) energy analysis and policy; 4) geography of development; and 5) cartography. Opportunities exist in the department for graduate student participation in various applied research projects. Faculty have been engaged in research sponsored by such agencies as the National Science Foundation; U.S. Department of Energy; U.S. Environmental Protection Agency; U.S. Health, Education and Welfare Department; First National Bank of Boston; World Bank; United Nations; and U.S. Maritime Administration.

Interdisciplinary opportunities at Boston University are available at the Center for Energy and Environmental Studies, African Studies Center, Center for Latin American Development Studies, Center for Asian Development Studies, American and New England Studies Program, Afro-American Studies, Center for Applied Social Science, and Urban and Regional Planning Program.

University and departmental facilities open to the student include multiple terminals for the Computation Center's IBM 370/158, a cartographic laboratory, computer mapping and digitizing facilities, map library, meteorological station and soils laboratory. Extensive library and museum resources are accessible from the University's central location in Metropolitan Boston. The Boston area provides outstanding research opportunities.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Boston University is on the semester system. Prospective graduate students should write the Director of Graduate Studies for applications and instructions for submitting complete credentials. The Graduate Record Examination is requested of all applicants. Financial aid includes Teaching Fellowships of $4,000 plus remission of fees for up to five courses per academic year. Research Fellowships and Graduate Assistantships that provide financial assistance in exchange for research and other departmental duties are also available.

FACULTY:

Geoffrey Bannister, Ph.D., Toronto, 1974, Associate Professor and Dean of College of Liberal Arts—urban economic, location theory, regional policy

Patrick Bartlein, Ph.D., Wisconsin, 1978, Assistant Professor—climatology, quantitative methods, water resources

Robert Batchelder, Ph.D., Northwestern, 1951, Professor—environmental analysis, climatology, air quality, physical oceanography

Alan C. G. Best, Ph.D., Michigan State, 1965, Associate Professor—geography of development, political, Southern Africa

Armando Carbonell, Ph.D., Johns Hopkins, 1981, Assistant Professor—urban and environmental analysis, environmental images, geographic thought

Lata Chatterjee, Ph.D., Johns Hopkins, 1973, Associate Professor—urban and environmental analysis, housing, geography of development

Thomas E. Glick, Ph.D., Harvard, 1968, Professor—environmental history, historical geography, technology and development

Thomas Kontuly, Ph.D., Pennsylvania, 1978, Assistant Professor—geography of development, regional analysis and policy, population, economic, urban

T. R. Lakshmanan, Ph.D., Ohio State, 1965, Professor and Chairman, Director, Center for Energy and Environmental Studies—urban, environmental and energy modeling and policy, geography of development

George K. Lewis, Ph.D., Harvard, 1956, Professor—urban, environmental quality, New England, regional policy

Robert C. Mayfield, Ph.D., Washington, 1961, Professor and Vice President for External Programs—geography of development, South Asia

Patricia McDowell, Ph.D., Wisconsin, 1979, Assistant Professor—geomorphology, soils, biogeography, Quaternary environments

Judy M. Olson, Ph.D., Wisconsin, 1970, Associate Professor—general cartography, thematic mapping, map perception, automation, quantitative methods

Jeffrey P. Osleeb, Ph.D., SUNY Buffalo, 1974, Associate Professor—urban, economic, energy, regional policy, transportation

Samuel J. Ratick, Ph.D., Johns Hopkins, 1979, Associate Professor and Associate Director, Center for Energy and Environmental Studies—environment, energy, quantitative methods

ADJUNCT FACULTY:

Fred Mogolesko, Ph.D., New York University, 1978, Adjunct Assistant Professor and Environmental Sciences Group Leader, Nuclear Engineering Department Boston Edison Company—environmental and energy modeling and policy, meteorology

VISITING FACULTY:

R. H. Chaudhury, Ph.D., Johns Hopkins, 1973, Senior Research Demographer, Bangladesh Institute of Development Studies, Dacca—demography, geography of development

Qingyue Shao, Ph.D., China People's University, 1956, Central China College, Wuhan, China—economic and industrial geography

Bowling Green State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1952 GRADUATE PROGRAM FOUNDED: 1966

DEGREES OFFERED: M.A., M.A.T.

NOT IN RESIDENCE: 5

CHAIRMAN: Joseph G. Spinelli

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Adviser, Department of Geography, Bowling Green State University, Bowling Green, Ohio 43403
Telephone (419) 372-2925 or 2926

PROGRAMS AND RESEARCH FACILITIES: The Department is well equipped with a cartography laboratory which includes a NuArc Camera, Map-O-Graph, Facsimile Machine, Bruning Copier, darkroom facilities, and a Varitype machine. A recent addition has been a VT-100 CRT terminal located in the Department. The Department is also a depository for the Army Map Service, U.S. Geological Survey, and the National Ocean Survey-Great Lakes Series. Students and faculty have access to the IBM 370-158 and Univac 1110 computers on campus. The main emphases in our graduate work are Urban-Economic, Physical Geography, Cartography, and Cultural-Population, all with an applied orientation. The Department has its own internship program and is one of the University's most active participants in a Cooperative Education Program. *East Lakes Geographer* and *Journal of Cultural Geography* are edited by members of the faculty.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Quarter System. Maximum stipend of $3905 for graduate assistantships with tuition paid.

FULL-TIME AND PART-TIME STAFF:

Thomas D. Anderson, Ph.D., Nebraska, 1966, Professor—cultural, field methods, land use

William R. Buckler, Ph.D., Michigan State, 1981, Assistant Professor—soils, geomorphology

Joseph C. Buford, Ph.D., UCLA, 1962, Professor—political, Europe

Alvar W. Carlson, Ph.D., Minnesota, 1970, Professor—rural development, recreation, ethnicity

Stephen S. Chang, Ph.D., UCLA, 1971, Associate Professor—cultural, conservation, resources/regional development

Paul V. Crawford, Ph.D., Kansas, 1969, Professor—cartography, geomorphology, soils

Ralph W. Frank, Ph.D., Northwestern, 1952, Professor—economic, Asia, education

Glen R. Frey, Ph.D., Wisconsin-Milwaukee, 1972, Associate Professor—climatology, meteorology, hydrology

Jeffrey J. Gordon, Ph.D., Syracuse, 1978, Assistant Professor—cultural, economic

John Hiltner, Ph.D., Northwestern, 1958, Professor—urban, Middle East, gerontology

John W. Kunstmann, Ph.D., Northwestern, 1964, Associate Professor—physical, air photo, remote sensing

Mohan N. Shrestha, Ph.D., Iowa, 1969, Associate Professor—economic, quantitative analysis, computer mapping

Bruce W. Smith, Ph.D., Illinois, 1970, Professor—industrial location, gerontology, regional development

Joseph G. Spinelli, Ph.D., Florida, 1973, Associate Professor/Chairman—population, Latin America, Commonwealth Caribbean

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1966 GRADUATE PROGRAM FOUNDED: 1970

DEGREES OFFERED: M.A.

GRANTED 7/1/80-6/30/81: 11

GRADUATE STUDENTS IN RESIDENCE: 10
NOT IN RESIDENCE: 0

CHAIRMAN: Professor Bruce E. Bechtol

FOR FURTHER INFORMATION WRITE TO: Graduate Advisor, Department of Geography, California State University, Chico, California 95929
Telephone (916) 895-5285

PROGRAMS AND RESEARCH FACILITIES: The master of arts program in geography is intended to broaden the training and to prepare qualified students for: (1) public schools and community college teaching in geography and social science; (2) advanced academic work preparatory to the doctorate at other institutions; and (3) employment in public service and the private sector where an advanced degree is desirable.

Students may concentrate their studies in either physical or cultural geography and/or Planning and Development of the Rural Environment.

The department offers excellent facilities for study in geography. It occupies most of the fifth floor of a seven-story, air-conditioned, classroom-office building (Butte Hall). The facilities include the Geographical Services Office which houses an extensive collection of maps, technical equipment and slides which are available for student use.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: California State University, Chico operates two semesters and summer sessions. Applicants wishing to pursue a master's degree must have an undergraduate grade point average of at least 2.75 in the last sixty semester units and 3.00 in the last thirty semester units, and a grade point average of at least 3.00 in all post-baccalaureate graduate level coursework taken.

The entering geography student must, in addition, possess a baccalaureate degree in geography. If undergraduate geography work is deficient, the applicant will be required to take courses prescribed by the graduate committee.

Depending on budgetary allocations, the graduate program in geography normally offers two or three assistantships per academic year. The assistantships are granted to qualified graduate students to teach and do research in the department. Teaching is generally in laboratories in air photo interpretation. Research is generally related to various department and faculty study-related requirements. Awards are made on a competitive basis.

STAFF:

Bruce E. Bechtol, Ph.D., Oregon, 1969, Professor and Chairman—man and environment, field geography, Latin America, spatial concepts

Roland Berger, Ph.D., Wisconsin, 1973, Professor—planning, energy

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 1

GRADUATE STUDENTS IN RESIDENCE: 22
NOT IN RESIDENCE: 8

CHAIRMAN: Stanley F. Norsworthy

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Department of Geography, California State University, Fresno, Fresno, California 93740
Telephone (209) 487-2797

PROGRAMS AND RESEARCH FACILITIES: The Geography Department is authorized to grant the Master of Arts Degree with a major in Geography. The student may select one of two programs: Plan A (thesis) and Plan B (non-thesis). Plan A is designed to provide a thorough preparation leading to careers in research and scholarly work or in college or university teaching. Plan B is designed for those who will profit from a broader range of knowledge in geography rather than a more specific research interest. The objective of both plans is to provide a thorough preparation in general geography; experience in conducting independent research; and an opportunity for limited specialization.

The department is housed in the New Science Building. Excellent facilities are available for student use.

MASTER OF ARTS DEGREE IN GEOGRAPHY (THESIS PLAN)

1. Required courses: 12 units—Research and Writing (3); Geographic Thought (3); Thesis (6)
2. Select from the following seminars, including one physical, one human systematic, and one regional seminar, 9 units appropriate to program objective—Seminars: economic; human; physical; urban; selected regions.
3. Electives in geography: 3-6 units.
4. Electives outside of geography: 3-6 units.
5. Total required: 30 units.

MASTER OF ARTS DEGREE IN GEOGRAPHY (NON-THESIS PLAN)

1. Required courses: 6 units—Research and Writing (3); Geographic Thought (3).
2. Select 12 units from the following seminars including one physical, one human systematic, and one regional seminar—Seminars: economic; human; physical; selected regions.
3. Electives in geography: 6-9 units.
4. Electives outside of geography: 3-6 units.
5. Total required: 30 units.

In addition to the course requirements, applicants for the Master of Arts Degree must meet the entrance standards of the University and pass the department's qualifying examination. There will be a final written examination for non-thesis plan students and an oral thesis defense for thesis plan students.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: CSU, Fresno operates on the semester system (plus summer session). The general graduate school admission requirements are described in the CSU, Fresno *Bulletin*. Various forms of financial aid are available to graduate students. The graduate assistantship application deadline is April 1.

STAFF:

Michael Biechler, Ph.D., Michigan State, 1970, Professor and Assistant Vice President for Academic Affairs—agriculture, Latin America, population, natural resources

Chester F. Cole, Ph.D., Nebraska, 1951, Professor—political, historical

Geoffrey K. Conolly, M.A., Sydney, 1960; M.Ed., Sydney, 1975, Visiting Lecturer—geographic education, population, China

John A. Crosby, Ph.D., Washington, 1959, Professor—urban, map-air photo interpretation

Roger E. Ervin, Ph.D., Florida, 1954, Professor—Pacific world, soils

E. Frank Koller, Ph.D., Pennsylvania State, 1964, Professor—energy resources, Europe

James S. Kus, Ph.D., UCLA, 1972, Professor—cultural, Latin America

Robert E. Lee, Ph.D., UCLA, 1966, Professor—U.S.S.R., Africa, political

Charles G. Markham, Ph.D., UC, Berkeley, 1967, Professor Emeritus—climatology, Latin America, quantitative techniques

Richard C. Montgomery, Ph.D., Nebraska, 1962, Professor—landforms, environmental studies

Donald L. Morgan, Ph.D., UC, Davis, 1972, Professor—meteorology, hydrology, environmental studies

George N. Nasse, Ph.D., Michigan, 1960, Professor—field geography, Middle East

PROGRAMS AND RESEARCH FACILITIES: The department offers a program designed primarily for students interested in educational, governmental, and commercial employment. Seminars and advanced courses include work in physical and human geography and frequently focus on themes related to environmental change and planning. Facilities in the computer center and the departmental cartographic laboratory make it possible to provide advanced work in photo-cartography, computer graphics, and quantitative analysis.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The current course of study requires about three semesters of full-time enrollment. Each student normally takes 12 hours of seminars, 3 hours of thesis research, additional advanced courses, and must satisfy a requirement in advanced techniques, for a total of 30 hours. The prerequisite consists of 18 semester hours of geography, reflecting balanced training in physical, human, regional, and technical courses. Approximately three technical assistantships are available.

PROGRAMS AND RESEARCH FACILITIES: Graduate study leads to the degree Master of Arts in Geography, with a choice from nine specialties: biogeography, cartography, cultural geography, growth of geographic throught, historical geography, physical geography, regional geography, regional planning, and urban geography. Seminars are focused on intensive, directed readings interspersed with discussions of the content, principles, methods and techniques of the selected topic or theme. The intent of the program is to develop a subject to its research frontiers, emphasizing an awareness of both theoretical and pragmatic problems and their significance for the discipline. Seminars are accompanied or followed by directed research yielding oral and written reports intended to motivate the student to recognize problems and to conduct guided investigation of a topic or theme. The program comprises 45 units, including 6 units of thesis or a special project. A graduate internship program is open to students with classified standing. Students must demonstrate proficiency in either a modern foreign language *or* in statistical methods as they apply to geography *or* in mathematics. Cartographic, laboratory, library, and computer facilities are available on campus. The research facilities of the University of California, Berkeley and Stanford University are nearby.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: At present the university operates on a four-quarter, year-round calendar. A student with an undergraduate degree in geography could complete the requirements for the M.A. in three to five quarters. Once admitted, the department may be able to arrange part-time employment as technical assistant.

STAFF:

Herbert M. Eder, Ph.D., UCLA, 1963, Professor—cultural, agricultural, Middle America, the American tropics

Donald G. Holtgrieve, Ph.D., Oregon, 1973, Associate Professor—geographic education, historical, environmental impact analysis

John Lier, Ph.D., UC, Berkeley, 1968, Professor—urban, climatology, population, Europe

Thomas H. Pagenhart, Ph.D., UC, Berkeley, 1969, Associate Professor—water and energy resources, conservation, resource management, Anglo- and Latin America

Vincent K. Shaudys, Ph.D., Ohio State, 1956, Professor—political, regional theory, North America, South Asia, Pakistan (leave of absence, Fall 1980)

Richard S. Thoman, Ph.D., Chicago, 1953, Professor and Graduate Advisor—regional planning and development, economic, North America, growth of geographic thought

William L. Thomas, Ph.D., Yale, 1955, Professor—cultural, geographic theory and philosophy, Southeast Asia, Philippines, East and Southeast Asia, Pacific, tourism

John H. Vann, Ph.D., UC, Berkeley, 1960, Professor and Chairman—physical, geomorphology, alluvial and coastal morphology, Latin America, air photo and remote sensing

Robert E. Winter, Ph.D., candidate, Washington, Lecturer—cartography, map and air photo reading and interpretation

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Leyland, Robert. "Puerto Ricans in the San Francisco Bay Area, California: An Historical and Cultural Geography," 1980.

Lucoff, William. "The Changing Distribution of *Genji Oncorhynchus* (Pacific Salmon), *Salmo* (Trout), and *Salvelinus* (Char) in the Coastal and Inland Streams of California," 1980.

Miller, Kathleen. "Practical Applications of a Geographic Education," 1980.

Reilly, Patricia A. "Land Use Plans and Development Decisions: A Santa Barbara Case Study," 1981.

Risard, David. "Map of Pacific Air Transport, 1980—A 20th Year Revision," 1980.

Wong, Man-On. "Poultry-Raising Activities in Madera County, California," 1981.

NOT IN RESIDENCE: 3

CHAIRMAN: Sin-Fong Han

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Department of Geography and Urban Studies, California State University, Los Angeles, 5151 State University Drive, Los Angeles, California 90032
Telephone (213) 224-3822

PROGRAMS AND RESEARCH FACILITIES: The Master of Arts degree in Geography, at California State University, Los Angeles, requires intensive directed study aimed at depth of understanding and intellectual attainment.

The program is designed to prepare students for teaching at all levels, government employment, and advanced preparation in the fields of Geography and Urban Studies.

The department offers some forty undergraduate courses and five graduate seminars to meet degree program objectives. The instructional program is enriched by special topic classes offered by distinguished foreign visiting professors and regular staff. The department also offers a full quarter of instruction and field experience at a station in Mexico, staffed with an interdisciplinary faculty.

The department recognizes the individuality of each student; hence there is considerable flexibility in the program. The following requirements, however, must be satisfied:

1. A Bachelor's degree in geography or its acceptable equivalent.
2. A minimum of 23 quarter units of graduate courses in Geography which must include at least 4 seminars one of which must be the Nature of Geography .... Minimum 23 quarter units.
3. Electives in Upper Division or Graduate courses in geography .... Minimum 14 quarter units.
4. Electives in Upper Division or Graduate courses in field related to geography .... 0–8 quarter units.
   Minimum total 45 quarter units.
5. Graduate thesis or comprehensive examination.
6. Competency in a foreign language or statistics.
7. Completion of the program within 7 years.

The department is able to offer limited financial assistance to a few of its deserving graduate students. Inquiries should be directed to the Department Chair.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University operates year-round on the quarter system. Students can enter the program at the beginning of any quarter. An appropriate baccalaureate degree from an accredited institution and a formal application to the Office of Admissions and Records is required for admission to the University. Students in need of financial assistance to meet educational expenses are invited to correspond with the University's Financial Aids Office.

STAFF:

Richard Arvidson, Ph.D., Johns Hopkins, 1970, Professor—climatology, environmental perception, geomorphology

William Byron, Ph.D., Syracuse, 1954, Professor—cultural, cartography, Middle America

Norman Gosenfield, Ph.D., UCLA, 1973, Associate Professor—cultural, political, urban

Sin-Fong Han, Ph.D., Michigan, 1971, Professor and Chairman—population, location theory, China, developing countries

John Kirchner, Ph.D., Chicago, 1979, Assistant Professor—cultural, transportation, South America

Vincent Mazzucchelli, Ph.D., UCLA, 1973, Associate Professor—cartography, physical, California, deserts

Midori Nishi, Ph.D., Washington, 1955, Professor—cultural, Japan, ethnic minorities

Clement Padick, M.A., UCLA, 1957, Associate Professor—physical, field methods, remote sensing

David Radell, Ph.D., UC, Berkeley, 1969, Professor—cultural, urban, Middle America

John Rees, Ph.D., UCLA, 1971, Associate Professor—cultural, perspectives on environment, Middle America

EMERITUS FACULTY:

Harry Coffin, Ph.D., UC, Berkeley, 1961, Professor

William S. Ting, Ph.D., Glasgow, 1937, Professor

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Semotan, Carl. "The Revitalization of Abandoned Pacific Electric Railroad Right of Way," 1980.

California State University, Northridge

DEPARTMENT OF GEOGRAPHY

PROGRAMS AND RESEARCH FACILITIES: Major emphases: cartography, climatology-meteorology, cultural, economic, historical, urban, quantitative, geomorphology. Research facilities: Complete cartographic facilities to support drawing, production, and printing of maps (laboratories, cameras, dark room, press). Computerized climatology laboratory, Sanborn map library (depository for maps of cities west of the Mississippi River—145,000 plates). Research map library (275,000 flat maps, 75,000 air photographs). Quantitative laboratory and computer access.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. Admission to program with an adequate geographic preparation and a GPA of 3.0 or better. Provisional admission with GPA of 2.5 and an acceptable GRE score.

FACULTY:

James P. Allen, Ph.D., Syracuse, 1970, Professor—cultural, social, population, Anglo-America
Warren R. Bland, Ph.D., Indiana, 1970, Professor—economic, transportation, manufacturing, Canada
William A. Bowen, Ph.D., UC, Berkeley, 1972, Professor—historical, physical, California
Arnold Court, Ph.D., UC, Berkeley, 1956, Professor—climatology, quantitative
William Tim Dagodag, Ph.D., Oregon, 1972, Professor—urban, Latin America
Robert Gohstand, Ph.D., UC, Berkeley, 1973, Professor—Soviet Union, cartography
Robert Hoffpauir, Ph.D., Wisconsin, 1974, Professor—cultural, South Asia
David Hornbeck, Jr., Ph.D., Nebraska, 1974, Professor—historical, Southwest U.S., California, economic, applied geography
Robert B. Howard, Ph.D., UCLA, 1974, Associate Professor—geomorphology
Phillip S. Kane, Ph.D., UC, Berkeley, 1975, Associate Professor—geomorphology
Robert B. Lamb, Ph.D., UCLA, 1959, Professor—agricultural, climatology
Gordon Rowland Lewthwaite, Ph.D., Wisconsin, 1956, Professor—historical, Southwest Pacific, history of geographic thought
Gong-Yuh Lin, Ph.D., Hawaii, 1974, Professor—meteorology, cartography
C. Gary Lobb, Ph.D., UC, Berkeley, 1970, Professor—cultural, tropical ecology, Latin America
Elliot G. McIntire, Ph.D., Oregon, 1968, Professor—cultural, Southwest U.S., conservation
Eugene J. Turner, Ph.D., Washington, 1977, Associate Professor—cartography, computer applications
Ralph D. Vicero, Ph.D., Wisconsin, 1968, Professor—historical Anglo-America
I-shou Wang, Ph.D., Minnesota, 1971, Professor—population, East Asia

PART-TIME FACULTY:

Robert M. Newcomb, Ph.D., UCLA, 1958, Associate Professor—historical and contemporary Europe

EMERITUS FACULTY:

John F. Gaines, Ph.D., Nebraska, 1951, Professor—plant geography, California

David A. Henderson, Ph.D., UCLA, 1964, Professor—Mexico, historical, marine resources

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Danta, Darrick R. "Centrography of Planes, Perimeters, and Populations," 1981.

Dyroy, Lola Ann Mayes. "An Evaluation of the Effectiveness of Environmental Impact Reports in Regulating Urban Land Use," 1980.

NOT IN RESIDENCE: 34

CHAIRMAN: Allan R. Pred

FOR CATALOG send $2.75 to the Office of the Registrar, 120 Sproul Hall, University of California, Berkeley, California 94720. For admissions application and departmental information write to: Professors Robert Reed and Richard Walker, Graduate Advisors, Department of Geography, 501 Earth Sciences Building, Berkeley, California 94720
Telephone (415) 642-3903

PROGRAMS AND RESEARCH FACILITIES: A 6-million volume library with exceptional special collections in the Bancroft (Western Americana, Latin America) and East Asiatic libraries; a distinguished faculty of nearly 100 other departments and schools; a large computer center; and easy access to the matchless physical and cultural diversity of the San Francisco Bay Area and Northern California.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The department offers graduate training in cultural, economic, urban, social, regional, and physical geography, and places emphasis on the interrelationships among these specialties and related approaches in other disciplines. Cultural geography focuses on processes and relationships in the formulation of human-environment patterns, the culture of cities and rural areas, economic development, cultural influences on resource use, and the history of western and non-western ideas and knowledge of the environment. Urban geography stresses morphogenesis of American and European cities, the role of social forces in shaping cities, and transportation. In economic geography, themes include industrial location, city-system and regional development, and time-space interactions. Studies in environment and natural resources range from vegetational change and plant and animal domestication, species decline and habitat alteration, to government regulation of toxic wastes and land development. In physical geography, the department offers specialized training in structural, climatic, and regional geomorphology, atmospheric processes, paleoclimatology, biogeography, and pollen analysis. All of the fields noted above lend themselves to regional specialization. (See staff listing.) Cartography, statistics, field study and other methods courses are also available.

The department offers financial support in the form of a limited number of teaching assistantships, as well as the Holway Fellowship and Society of Woman Geographers Fellowship. Outstanding applicants are also considered for University Fellowships. Application deadlines: December 1 for Admission/Fellowship; February 1 for Admission only.

FULL-TIME STAFF:

Roger Byrne, Ph.D., Wisconsin, 1972, Associate Professor—historical biogeography, vegetation history, pollen analysis

Orman Granger, Ph.D., Toronto, 1974, Assistant Professor—climatology, micrometeorology, the Caribbean

Peter Hall, Ph.D., Cambridge, 1959, Professor—urban and applied geography

David J. M. Hooson, Ph.D., London, 1955, Professor—Soviet Union, history of geographic thought, political geography

Bernard Q. Nietschmann, Ph.D., Wisconsin, 1970, Professor—cultural geography, cultural ecology, aboriginal environmental knowledge, fishing societies, tropical marine ecology, Latin America, Melanesia

Theodore M. Oberlander, Ph.D., Syracuse, 1963, Professor—structural and climatic geomorphology, deserts, thematic cartography

James J. Parsons, Ph.D., UC, Berkeley, 1948, Professor—Latin America (especially Central America and the Andean countries) and California, tropical biogeography, descriptive economic geography

Allan R. Pred, Ph.D., Chicago, 1962, Professor—time-geographic perspective on the individual and society, the growth and development of systems of cities in advanced economies

Robert R. Reed, Ph.D., UC, Berkeley, 1971, Associate Professor—cultural and historical geography, urbanism in the non-western world, religious geography, Southeast Asia

Hilgard O'Reilly Sternberg, Ph.D., Louisiana State, 1956, Professor—Portuguese America (Brazil) with emphasis on settlement and development in problem areas (Amazonia, the Northeast), humid tropics and the arid zones, the zonal approach to disjunct regions

James E. Vance, Jr., Ph.D., Clark, 1952, Professor—morphogenesis of U.S. and European cities, social structuring of cities, historical transportation geography, Canada

Richard A. Walker, Ph.D., Johns Hopkins, 1976, Assistant Professor—environmental regulation, water resources, industrial location, economic development, Marxist theory, U.S. and California

Michael J. Watts, Ph.D., Michigan, 1979, Assistant Professor—natural hazards, Third World economic development, Africa, peasant economy, human and cultural ecology

PART-TIME STAFF:

Douglas R. Powell, M.A., UC, Berkeley, 1962, Lecturer—California, Alaska, field methods, physical

EMERITUS FACULTY: Clarence J. Glacken; John Leighly; Daniel B. Luten

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1955 GRADUATE PROGRAM FOUNDED: M.A. 1964, Ph.D. 1966

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 3 M.A., 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 14 M.A., 4 Ph.D.
NOT IN RESIDENCE: 14 M.A., 5 Ph.D.

CHAIRPERSON: Stephen C. Jett

FOR PROGRAM DESCRIPTION WRITE TO: Graduate Adviser, Department of Geography, University of California, Davis, California 95616
Telephone (916) 752-0790
For catalog, admission forms, and description of financial aid, write to: Dean, Graduate Studies and Research
Telephone (916) 752-0650

PROGRAMS AND RESEARCH FACILITIES: Fields of graduate study include cultural/historical geography, physical geography (especially climatology and water), economic geography (especially agricultural geography), and urban geography. Regional specializations include Anglo-America (particularly California and the West), Latin America, Europe, Soviet Union, Africa, the Near East, and South Asia. Familiarity with the methods and contributions of allied disciplines is also stressed; the Davis campus has an unusual number of departments which complement geography, with particular strength in the biological and environmental sciences.

The M.A. degree program calls for completion of 30 quarter units of course work and a thesis, or 36 units and a comprehensive examination.

The doctoral candidate is expected to qualify as a general geographer and as a specialist in two distinct fields, one topical and one regional; a written comprehensive examination and an oral qualifying examination must be passed. Also required is a reading knowledge of two foreign languages, or one language and a program of statistics and mathematics.

Besides having the normal cartographic and map facilities, the department enjoys access to a wealth of library materials, on the campus, in the State Library and other state offices in adjacent Sacramento, and in Berkeley and other communities of the San Francisco Bay metropolitan area. The location of the Davis campus near two major urban centers, its proximity to the Pacific Coast and to the Sierra Nevada and Coast Ranges, and its position in the heart of the Central Valley also provide unusual field opportunities.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The Davis campus operates on the quarter system (with two 6-week summer sessions rather than a summer quarter). Forms for admission and for scholarships may be obtained from the Dean, Graduate Studies and Research, University of California, Davis, California 95616. Teaching Assistantships may be applied for directly to the Graduate Adviser, Department of Geography. All applicants must supply GRE Aptitude Test scores and three letters of recommendation, and students from non-English-speaking countries must submit TOEFL scores.

STAFF:

Conrad J. Bahre, Ph.D., UC, Riverside, 1974, Assistant Professor—cultural, plant geography, Latin America

Dennis J. Dingemans, Ph.D., UC, Berkeley, 1975, Associate Professor—urban, social, economic, Soviet Union

Deborah L. Elliot-Fisk, Ph.D., Colorado, 1979, Visiting Assistant Professor—biogeography, arctic/alpine and coastal environments of North America

Howard F. Gregor, Ph.D., UCLA, 1950, Professor—economic, agricultural, Anglo-America, California

Louis E. Grivetti, Ph.D., UC, Davis, 1976, Assistant Professor—cultural, food and nutrition, Near East, Africa

Stephen C. Jett, Ph.D., Johns Hopkins, 1964, Professor and Chairperson—cultural, conservation, native cultures, southwestern United States

Marlyn L. Shelton, Ph.D., Southern Illinois, 1973, Assistant Professor—climatology, water resources, physical systems

Frederick J. Simoons, Ph.D., UC, Berkeley, 1956, Professor—cultural, food habits, domestication, Africa, South Asia

Kenneth Thompson, Ph.D., Northwestern, 1955, Professor—historical, political, perception, California, Western Europe

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Ph.D.:

Fitzwater, Michael. "Summer and Fall Low Level Mesoscale Wind Patterns in the Sacramento Valley, California," 1981.

Master's:

May, David. "Stream Incision and Gully Erosion along Yorty Creek, California," 1981.

Nystrom, Marcelle. "The Use of Computerized Data Bases: A Case Study of the Los Angeles Metropolitan Region Land Use Data Base," 1981.

CHAIRPERSON: G. J. (Pete) *Fielding*

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Advisor, School of Social Sciences, University of California, Irvine, California 92717 Telephone (714) 833-5924

PROGRAMS AND RESEARCH FACILITIES: The School of Social Sciences is an interdisciplinary program which links geography with the disciplines of Anthropology, Economics, Political Science, Psychology, and Sociology. The faculty recognizes that many of the most interesting questions in the study of human behavior are not fixed within the traditional disciplinary boundaries. Some of the new and evolving areas which cross these orthodox boundaries are: Economic Geography, Public Policy, Comparative Culture, and Cognitive Studies. With regard to their methodological orientation, the educational programs place substantial emphasis on understanding social science phenomena through the development of theories that can be used to guide empirical studies.

The University offers an excellent opportunity to study Public Policy and Transportation Geography. The two organized research units in these areas—The

Public Policy Research Organization and Institute of Transportation Studies—provide support for geographers continuing with Ph.D. research. Normally, geography students will be associated with the Program in Economics and Public Choice. Students are expected to have a grade point average above 3.0 and scores on the two parts of the Graduate Record Examination (GRE Aptitude Test) which total over 1,100. Decisions on admissions are strongly influenced by letters of recommendation and statements of student interests. Foreign students will be evaluated primarily on the basis of letters of recommendation and completed research papers.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: U.C. Irvine in on a quarter system.

STAFF:

Shirley C. Anderson, Ph.D., UCLA, 1979, Postdoctoral Fellow

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Advisor, Department of Geography, University of California, Los Angeles, California 90024
Telephone (213) 825–4655 or 825–1071

PROGRAMS AND RESEARCH FACILITIES: The large staff of the Department covers major research areas in geography. The fields of geomorphology, climatology, biogeography, ecosystem analysis and conservation, cultural geography, urban geography, and regional geography receive special emphasis. Contributing strength to the departmental offerings are many distinguished departments in cognate disciplines in which students are encouraged to do part of their work, and area studies programs embracing most parts of the world.

Laboratories are maintained for work in geomorphology, climatology, biogeography, cartography, remote sensing, and quantitative methods. The Campus Computing Network's IBM 3033 has terminals in the Department.

A thesis is a part of the M.A. program for continuing students. Emphasis is placed on the Ph.D. degree. At least one research tool is required for graduate study, subject to approval by the graduate student's committee.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: UCLA operates on a quarter system; students may enter in the Fall, Winter, and Spring quarters. Students are selected for admission to the graduate program on the basis of a completed B.A. in Geography or an allied field, a high grade point average, the GRE Aptitude Test, and three letters of recommendation. The M.A. is a prerequisite to the Ph.D. degree. University fellowships and teaching assistantships are available on a competitive basis. Application deadline for admission, fellowships, and assistantships: December 30 for following Fall Quarter.

STAFF:

Susan W. Beatty, Ph.D., Cornell, 1981, Visiting Assistant Professor—plant ecology, biogeography, soils

Charles F. Bennett, Ph.D., UCLA, 1959, Professor—biogeography (especially human influences on ecosystems), Latin America, humid tropics, conservation, Iberia

Rainer Berger, Ph.D., Illinois, 1960, Professor—scientific dating methods in environmental sciences and archeology, physical geography, geophysics

Henry J. Bruman, Ph.D., UC, Berkeley, 1940, Professor—historical geography of Latin America, culture history of tropical agriculture, agricultural colonization in Brazil, Alexander von Humboldt

William A. V. Clark, Ph.D., Illinois, 1964, Professor—urban, quantitative analysis

DEPARTMENT OF EARTH SCIENCES

DATE FOUNDED: 1954 GRADUATE PROGRAM FOUNDED: 1962

DEGREES OFFERED: M.A., M.S., Ph.D.

GRANTED 7/1/80–6/30/81: 5 Masters, 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 12 Masters, 8 Ph.D.
NOT IN RESIDENCE: 1 Masters, 2 Ph.D.

CHAIRMAN: Michael O. Woodburne

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Homer Aschmann, Department of Earth Sciences, University of California, Riverside, California 92521
Telephone (714) 787-3415 or 3435

The Department of Earth Sciences offers both undergraduate and graduate degrees in geography, geology, and geophysics. The following material describes the program in geography.

PROGRAMS AND RESEARCH FACILITIES: Both the M.A. and M.S. degrees are offered. The M.A. is for students interested in teaching or in pursuing a further degree. It requires satisfactory completion of 36 quarter units of course work and a comprehensive examination. The M.S. is for students interested in applied geography. Its requirements include a thesis.

Candidates for the Ph.D. degree are expected to show basic competence in both physical and cultural geography, and the history and methodology of the discipline. Research problems in Latin America, arid lands, and climatology are favored by the location of the campus as well as the interests of the staff. Recently emphasis has been placed on geographic applications of remotely sensed imagery and automated cartography, supported by a large and diversified collection of images gathered from aircraft and spacecraft.

A well-equipped cartographic laboratory is present in Department quarters, as well as desk and shelf space for all graduate students. The University Library contains a map library which is a depository of the Army Map Service, and subscribes to several hundred periodicals in geography and supporting fields. The complex regional character of Southern California offers many field situations of interest to students of both cultural and physical geography.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University of California is on a quarter calendar, although a summer session rather than summer quarter is offered at present. Admission based on previous course work, experience and references. Positions are available to graduate students as Teaching or Research Assistants. Fellowships are available to especially well-qualifed applicants.

GEOGRAPHY STAFF:

Homer Aschmann, Ph.D., UC, Berkeley, 1954, Professor—cultural, Latin America, arid lands

Joseph Beaton, M.A., UCLA, 1977, Lecturer—urban, geography, urban planning, economic geography

Carl Hansen, Ph.D., Wisconsin, 1966, Associate Professor—geomorphology, Africa, arid lands

Claude Johnson, M.S., UC, Riverside, 1968, Lecturer—remote sensing, automated cartography, agricultural geography

Stephen McRae, Ph.D., Cornell, 1979, Assistant Professor—geographic information systems, environmental planning and impact analysis

Richard Minnich, Ph.D., UCLA, 1978, Assistant Professor—remote sensing, plant geography, climatology

Robert Pease, Ph.D., UCLA, 1964, Professor—physical, California, cartography, urban climatology

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

El-Meheshi, Abdelkader M. "The Transformation of Libyan Agriculture: The Impact of Oil Revenues on Agriculture of a Developing Country," 1980. Mf., Univ. Microfilms.

Master's:

Kelly, Robert A. "Natural Resource Development in Western Ireland," 1981.*

Muchow, Charlotte I. "Aspects of Precipitation Measurement Relevant to Landslide Prediction," 1980.*

Schild, David A. "Comparative Evapotranspiration Calculations," 1981.*

Weinstock, Kenneth J. "Geomorphic Hazards and Their Interrelationships to the Development of the Coastal Zone of Southern California," 1981.*

University of California, Santa Barbara

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1975 GRADUATE PROGRAM FOUNDED: 1975

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 6 M.A., 0 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 41 M.A., 14 Ph.D.
NOT IN RESIDENCE: 32 M.A., 6 Ph.D.

CHAIRMAN: Reginald G. Golledge

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Teresa Everett, Graduate Coordinator, Department of Geography, University of California, Santa Barbara, California 93106
Telephone (805) 961-3663

PROGRAMS AND RESEARCH FACILITIES: The department offers specialized graduate training in urban geography, location theory, movement systems, behavioral geography, geomorphology, hydrology, agricultural geography, and biogeography. In all these fields the program places particular emphasis on the acquisition of mathematical and technical skills, especially those of remote sensing and digital image processing of remotely sensed data, computer applications in geography, computer cartography, and multivariate data processing.

Research facilities include a remote sensing laboratory which contains specialized equipment, a soils laboratory, and a well-equipped cartography laboratory. The campus library with over a million volumes maintains a map library with close to 170,000 sheets of maps and 118,000 items of imagery. The campus computer center houses a Hitachi AS-6 and a PDP 11/70 which provides interactive Basic. The Computer Systems Laboratory has a VAX 11/780, PDP 11/45 and numerous peripherals. It is used for much Geography research and has over $500,000 of Geography equipment. The location of the campus provides easy access to a wide diversity of environments including the Pacific Ocean marine environment, the agricultural environment of the Central Valley, and the Los Angeles metropolitan region.

The Master's Program offers two plans: 1) 30 quarter units of course work and a thesis; or 2) 36 quarter units of course work and a comprehensive examination. Coursework outside the department is actively encouraged where it leads to a stronger program and such courses may account for up to one third of the credits necessary for completion of the degree.

The Ph.D. program is designed around seven systematic specialties, (Area A) and three techniques (Area B). The systematic areas (Area A) are Water Resource Geography, Vegetation Resource Geography, Geographical Movement Systems, Geographical Behavior Systems, Land Use and Land Cover Analysis, Marine Resource Geography, and Urban and Regional Modelling. In addition all students are expected to develop great depth in one or more skills drawn from the following techniques (Area B): mathematical, quantitative and computer analysis; computer cartography and geographical information systems; and remote sensing. A variety of programs can be generated based on selections of major and minor emphases from Areas A and B.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: UCSB operates on the quarter system and incoming students may enter at the beginning of any quarter. Students applying for entrance to the program should have a demonstrated capability in Geography or other appropriate fields, have acquired a high grade point average, and should submit both their verbal and quantitative GRE scores upon formal application. The department has a number of teaching assistantships and research fellowships available and students may also apply for University fellowships.

STAFF:

Richard L. Church, Ph.D., Johns Hopkins, 1974, Associate Professor—facilities location and related computational algorithms, water resources and environmental research

Jeffrey C. Dozier, Ph.D., Michigan, 1974, Associate Professor—hydrology, geomorphology, quantitative

John E. Estes, Ph.D., UCLA, 1968, Professor—remote sensing, agricultural, field methods

Reginald G. Golledge, Ph.D., Iowa, 1966, Professor and Chairman—urban, behavioral

Joel Michaelsen, Ph.D., UCB, 1981, Assistant Professor—climatology/meteorology, marine resources

David S. Simonett, Ph.D., Sydney, 1954, Professor and Dean of the Graduate School—remote sensing, soils, agricultural

Terence R. Smith, Ph.D., Johns Hopkins, 1971, Associate Professor—economic, urban, quantitative

Alan H. Strahler, Ph.D., Johns Hopkins, 1969, Associate Professor—biogeography, physical, quantitative

Waldo R. Tobler, Ph.D., Washington, 1961, Professor—cartography, location theory

Other positions to be filled.

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Gale, Nathan. "An Analysis of the Distortion and Fuzziness of Cognitive Maps by Location," 1980.

Hajic, Earl J. "Digital Processing of Side Scan Sonar Imagery for Mapping the Anacapa Passage Seafloor in the Santa Barbara Channel," 1980.

Hallada, Wayne. "Crop Identification Using Principal Component Analysis of Multitemporal Landsat Data," 1980.

Milliff, Ralph F. "Boundary Condition Specification for a Model of Geographical Movement," 1980.

Wilson, Michael. "An Analysis of Marine Oil Slick Detection Capabilities for the Seasat-A Synthetic Aperture Radar," 1981.

Chicago State University

GEOGRAPHY DEPARTMENT

DATE FOUNDED: 1970 GRADUATE PROGRAM FOUNDED: 1958

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 7

GRADUATE STUDENTS IN RESIDENCE: 9
NOT IN RESIDENCE: 29

CHAIRMAN: Irving Cutler

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. G. Munir Ahmed, Chicago State University, Ninety-Fifth Street at King Drive, Chicago, Illinois 60628
Telephone (312) 995-2188

PROGRAMS AND RESEARCH FACILITIES: The flexible M.A. program in geography is designed for students interested in teaching, government, private employment, or further research. Half of the necessary 30 semester hours constitutes a required core program. The other half (5 courses) consists of electives selected from the present offerings of over 30 graduate courses in geography. An M.A. in geography is also offered with a concentration in urban geographic studies. There are no language requirements. Two seminar papers are required in lieu of a thesis and a final comprehensive examination is given before graduation. Work can be pursued either in the day or evening programs or in both.

The library and laboratory facilities are enhanced by the vast resources of the Chicago Metropolitan Area, which also serves as a source of extensive and varied urban field work opportunities. In 1972 the university occupied a completely new $100,000,000 campus containing modern departmental classrooms, laboratories, reading room, and map library.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Admission requirements: (1) a Bachelor's degree with a grade average of B or better although promising students may be admitted conditionally with a slightly lower average and (2) fifteen hours of undergraduate work in geography, although conditional admission is sometimes possible with fewer hours. The school is on the trimester system and has an extensive system of scholarships, assistantships, and loan and work-study programs.

STAFF:

G. Munir Ahmed, Ph.D., Chicago, 1956, Professor—economic, Asia, Middle East, political

Fredrick Blum, M.A., Chicago, 1961, Associate Professor—urban, planning, historical, cultural

Vernon W. Brockmann, Ph.D., Northwestern, 1951, Professor—climatology, conservation, energy

Irving Cutler, Ph.D., Northwestern, 1964, Professor—transportation, industrial, urban, Anglo-America

John Muhr, M.A., Chicago State, 1975, Assistant Professor—cartography, measurement, computer, Africa

Herbert L. Rau, Jr., Ph.D., Northwestern, 1958, Professor—Latin America, regional analysis, physical, climatology

Irvin Roth, Ph.D., Syracuse, 1968, Professor—economic, industrial, planning, teaching of geography

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 3 M.A., 5 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 10 Masters 17 Ph.D.
NOT IN RESIDENCE: 6 Masters 22 Ph.D.

CHAIRMAN: Norton Ginsburg

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Secretary, Department of Geography, University of Chicago, 5828 South University Avenue, Chicago, Illinois 60637
Telephone (312) 753–3921

PROGRAMS AND RESEARCH FACILITIES: Graduate programs in Geography at the University of Chicago at both the Master's and Doctorate levels are tailored to the needs and experience of the individual student. At the Master's level requirements include an orientation course and additional courses in Geography chosen in consultation with the faculty. Doctoral course requirements include the same orientation course as well as a number of other courses in Geography also chosen in consultation with the faculty. At the doctoral level the development of research capabilities in one or more of the following fields is emphasized: cultural geography, historical geography, economic geography, political geography, urban geography, environmental geomorphology, Pleistocene ecology, and regional specializations in East Asia, Southeast Asia, East Europe and the Soviet Union, Western Europe, and the

Middle East. Each of the regional specializations necessitates study of the relevant cultures and languages. Doctoral dissertations are published in the Department's *Research Papers* which are widely distributed to research libraries in North America and abroad.[1]

---

[1] In 1980-81 the following *Research Papers* were published:

No. 193: Harris, Chauncy D., and Fellman, Jerome D. *International List of Geographical Serials, Third Edition, 1980.*

No. 194: Harris, Chauncy D. *Annotated World List of Selected Current Geographical Serials, Fourth Edition, 1980.*

No. 195: Leung, Chi-keung. *China: Railway Patterns and National Goals*

No. 196: Leung, Chi-keung and Norton Ginsburg, eds. *China: Urbanization and National Development*

No. 197: Daiches, Sol. *People in Distress: A Geographical Perspective on Psychological Well-being.*

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University of Chicago is on a four-quarter system. Since the orientation course for incoming graduate students takes place in the autumn, new graduate students are advised to initiate their work in that quarter, but it is not necessary that they do so.

Applications for admission should be made to the Office of Admissions and Aid, University of Chicago, 5801 South Ellis Avenue, Chicago, Illinois 60637, on forms obtained from that office. Although applications for admission can be considered at any time, students seeking financial aid should ordinarily file an application for admission and aid before January 15 of the year in which they hope to begin graduate work. Students having questions about opportunities for studies related to their special interests are invited to write to the chairman.

Scholarship and fellowship aid is available on a competitive basis. The Department has no teaching assistantships, but research assistantships are available.

STAFF:

Karl W. Butzer, D.Sc., Bonn, 1957, Henry Schultz Professor of Environmental Archeology—prehistoric man-land interactions, geomorphology (on leave 1981-82)

Michael P. Conzen, Ph.D., Wisconsin, 1972, Associate Professor—historical, urban, North America

Norton Ginsburg, Ph.D., Chicago, 1949, Professor—political, marine affairs, economic development, urban, East and Southeast Asia

Chauncy D. Harris, Ph.D., Chicago, 1940, D. Litt., Oxford, 1973, Samuel N. Harper Distinguished Service Professor—Soviet Union, bibliography of geography, urban, economic

James T. Meyer, Ph.D. candidate, Pennsylvania State, Instructor—urban geography, research design and methodology

Marvin W. Mikesell, Ph.D., California, Berkeley, 1959, Professor—cultural conflict, Middle East

William D. Pattison, Ph.D., Chicago, 1957, Associate Professor—history of geography, geography in education

Paul Wheatley, Ph.D., D.Litt., London, 1958, Irving B. Harris Professor, Geography and Social Thought—comparative urbanism, historical, East and Southeast Asia

ASSOCIATES:

Doris Holleb, M.A., Harvard, 1947, Professorial Lecturer—urban planning
Jon Leverenz, M.S., Wisconsin, 1960, Senior Lecturer—cartographic techniques
Philip D. Phillips, Ph.D., Minnesota, 1973, Lecturer—industrial location
Gerson M. Rosenthal, Jr., Ph.D. (Zoology), California, Berkeley, 1954, Associate Professor, Biology (the College)—ecological systems

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Bishop, Barry Chapman. "Karnali under Stress: Livelihood Strategies and Seasonal Rhythms in a Changing Nepal Himalaya," 1980.

Daiches, Sol. "People in Distress: A Geographical Perspective on Psychological Well-being," 1980.

Johnson, Joseph Thomas. "Location and Trade Theory: Industrial Location, Comparative Advantage, and the Geographical Pattern of Production in the United States," 1980.

Liang, Ernest Pak-Lek. "China: Railways and Agricultural Development, 1875-1935," 1981.

Stevenson, Arthur J. "The New York-Newark Air Freight System," 1980.

Master's:

Culbreth, Terry Randolph. "The Acceptance of the Regional Council as an Area of Organization," 1980.

Kozak, Rita. "Nuclear Waste Sites in Illinois: Sheffield, Morris, West Chicago," 1981.

Turner, Joyce Olson. "Impact of Change on an Older Suburban Community: Oak Park, Illinois," 1981.

University of Cincinnati

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1907 GRADUATE PROGRAM FOUNDED: 1931

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80-6/30/81: 5 M.A., 0 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 12 M.A. 3 Ph.D.
NOT IN RESIDENCE: 8 M.A. 9 Ph.D.

HEAD: K. Bruce Ryan

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Director of Graduate Studies in Geography, Department of Geography, University of Cincinnati, Cincinnati, Ohio 45221
Telephone (513) 475-3421

PROGRAMS AND RESEARCH FACILITIES: The Department continues its long tradition of urban research and Community involvement. Within that tradition, four applied programs are offered—locational analysis (geared to site selection and market research for both the public and private sectors); cultural-historical geography (population dynamics and community development); environmental quality and management (including government regulations); and regional development (mainly in the Third World).

Over the years, students of the Department have found employment in planning and development (30 percent of those graduating), education (35%), public administration (7%), and business (28%). Work experience and training in marketable skills are integral parts of the graduate program. In fact, America's first "co-op" system of higher education began in Cincinnati in 1906, and continues to make the city a living laboratory for studies of all kinds. There is also a well-established three-year program leading jointly to the Masters degree in Geography and the Master of Community Planning.

Six million books are available in the twenty research collections that comprise the Cincinnati Libraries Consortium, among them the Archival Library of the AAG. Computer facilities (fifth largest in the U.S.) include AMDAHL 470/V6-II, IBM 1401, and an experimental hybrid system. The Department's quarters in Swift Hall have just been modernized at a cost of $2.7 million, and now contain advanced computer graphics capabilities including a Tektronix Graphic Computing System, digital plotter and graphics tablet.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Quarter System. Application for admission to the Geography program of the Division of Graduate Studies, or for graduate aid, obtained by writing to the Department of Geography, University of Cincinnati, Cincinnati, Ohio 45221 for application form and a current Graduate School Bulletin. GRE scores are required.

Financial Aid includes Graduate Assistantships, Research Assistantships, Tuition Scholarships, and University Internships.

STAFF:

Percy H. Dougherty, Ph.D., Boston, 1979, Assistant Professor—karst, hydrology, climatic geomorphology, computer cartography

Robert B. McNee, Ph.D., Syracuse, 1953, Professor—theory of urban and economic geography, multinationals

Jonathan S. Mesinger, Ph.D., Syracuse, 1977, Assistant Professor—cultural landscape, historical, historic preservation, urban social

Wolf Roder, Ph.D., Chicago, 1965, Professor—resources and economic development, field methods, statistical methods, Africa

Kenneth Bruce Ryan, Ph.D., Australian National, 1966, Professor—rural settlement policy, architectural diffusion, Australia

Roger M. Selya, Ph.D., Minnesota, 1971, Associate Professor—economic development (especially East Asia), population and health, history and philosophy of geography

Robert B. South, Ph.D., Maryland, 1972, Associate Professor—economic, Latin America

Howard A. Stafford, Ph.D., Iowa, 1960, Professor—industrial location, economic, urban

Laurence G. Wolf, Ph.D., Syracuse, 1966, Associate Professor—cartography, cultural, population, urban

ASSOCIATED FACULTY:

David Prosperi, Ph.D., Indiana, 1978, Assistant Professor of Planning—transportation, economic geography, quantitative methods

David P. Varady, Ph.D., Pennsylvania, Associate Professor of Planning—housing, urban residential mobility, social policy

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Capawanna, Leonard J. "A Multivariate Analysis of the Spatial Variation in the Utilization of the Police Department as a Means of Access to the Emergency Medical Delivery System in Cincinnati, Ohio, 1978," 1981.

Ho, Dick Yui-Kwan. "A Spatial Analysis of the Retail Sales Variation Among the Major Retail Centers: A Case Study of the SMSAs in Louisville, Columbus, Cincinnati and Indianapolis," 1980.

Lawson, David L. "Office Location in Cincinnati," 1981.

Morone, Christopher R. "Infant Mortality in Four Rural Ohio Counties—A Geographic Approach to Mortality Reduction," 1980.

Nyagweta, Valentine. "Reinvestment and Disinvestment Displacement: The Dilemma of Revitalization in the Over-the-Rhine Neighborhood in Cincinnati, 1975 to 1979," 1980.

Clark University

GRADUATE SCHOOL OF GEOGRAPHY

DATE FOUNDED: 1887 GRADUATE PROGRAM FOUNDED: 1921

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 5 M.A., 6 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 38 Ph.D.
NOT IN RESIDENCE: 3 M.A., 30 Ph.D.

DIRECTOR: Leonard Berry

FOR FURTHER INFORMATION WRITE TO: Katherine A. Parella, Administrator, Graduate School of Geography, Clark University, Worcester, Massachusetts 01610
Telephone (617) 793-7337

PROGRAMS AND RESEARCH FACILITIES: Clark University remains an anachronism! In the era of the multiversity, a University that offers doctoral programs to 350 graduate students with a total student body around 2,000 is unique. Clark is human scale, a 35 acre campus in the midst of Worcester, where students and faculty can communicate and the opportunities for interdisciplinary work are enhanced. The program is broadly structured through joint faculty-student efforts. Features of the geography curriculum include principal emphasis upon doctoral programs although a pre-doctoral M.A. is offered; greater emphasis on selected concentrations; options to the language requirement; and an A.B.-Ph.D. program.

Cross-disciplinary training is encouraged. Major fields of concentration include: 1) cultural/humanistic; 2) environmental affairs/management; 3) physical geography of human systems; 4) regional/international development/political economy; 5) urban/social/planning. Cartography is also one of our areas of special competence.

Important innovations include: College teaching internships, fellowships at overseas universities for advanced graduate students; and summer foreign field research for selected students. Special research opportunities are available in the school's sponsored research projects.

The journal *Economic Geography* is edited by a staff member, and the graduate students produce their own journal, *Monadnock*. Each graduate student is provided with a personal work space and joint facilities for both research and relaxation. The school occupies modern quarters—a complex of laboratory, classroom, office, reading library and research space that provides good opportunities for the development of geographical research and teaching.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system with 7-week modular term at end of spring semester. Three year residency required for Ph.D. (2 years for those entering with an M.A.). *Admission Requirements:* interests coincident with those of department; evidence of competence to pursue graduate work at the Ph.D. level; GRE scores required of U.S. and Canadian students; applicants from related fields will be considered; application deadline—February 15th. *Financial Aid* includes tuition fellowships, research and teaching assistantships.

FULL-TIME FACULTY:

Leonard Berry, Ph.D., Bristol, 1969, Professor of Geography, Director Graduate School of Geography, Co-Director International Development Program—applied geomorphology, East Africa

Martyn J. Bowden, Ph.D., UC, Berkeley, 1968, Professor of Geography—historical-cultural, humanistic studies, urban environmental cognition

Anne Buttimer, Ph.D., Washington, 1965, Professor of Geography—social, urban social space, philosophy of geography

Douglas L. Johnson, Ph.D., Chicago, 1972, Associate Professor of Geography—cultural, landscape, economic development, arid lands

Kirsten Johnson, Ph.D., Clark, 1977, Associate Professor of Geography—environmental management, cultural

Gerald J. Karaska, Ph.D., Pennsylvania State, 1962, Professor of Geography and Editor of Economic Geography—urban, economic, quantitative methods

Roger E. Kasperson, Ph.D., Chicago, 1966, Professor of Geography and Government—urban-political decision making, nuclear risk assessment. On sabbatical 1981-82.

Robert W. Kates, Ph.D., Chicago, 1962, Professor of Geography and Research Professor in the Center for Technology, Environment and Development

Duane F. Knos, Ph.D., Iowa, 1956, Professor of Geography—geography and its teaching, urban, simulation as a learning process

William A. Koelsch, Ph.D., Chicago, 1966, Professor of Geography and History, University Archivist—historical, history of geographic education

Laurence A. Lewis, Ph.D., Northwestern, 1965, Associate Professor of Geography—geomorphology, slope processes, food production, soil erosion

David C. Major, Ph.D., Harvard, 1966, Research Professor—water resource economics

Sharon Nicholson, Ph.D., Wisconsin, 1976, Assistant Professor of Geography—climatology, arid lands

J. Richard Peet, Ph.D., UC, Berkeley, 1968, Associate Professor—social, economic, community planning, Marxist geography

Harry E. Schwarz, B.C.E., George Washington, 1964, Professor of Environmental Affairs—water resource planning and water reuse

Harry Steward, Ph.D., Wales (Swansea), 1972, Associate Professor of Geography—cartography, remote sensing imagery

Bill L. Turner II, Ph.D., Wisconsin, 1974, Associate Professor of Geography—cultural, ecology, agriculture, tropics, prehistory

ADJUNCT FACULTY:

Dennis W. Ducsik, Ph.D., M.I.T., 1976, Assistant Professor of Science, Technology and Society

AFFILIATE FACULTY:

Saul B. Cohen, Ph.D., Harvard, 1955, President of Queens College, CUNY, Research Professor of Geography—political, educational networks

Daniel M. Dworkin, Ph.D., Clark, 1974, Associate Professor of Geography—water resources, international development

Philip O'Keefe, Ph.D., London, 1973, Associate Professor of Geography—resource economics, natural hazards, underdeveloped countries, Marxist resource theory

EMERITUS:

Raymond E. Murphy, Ph.D., Professor of Geography

Henry J. Warman, Ph.D., Professor of Geography

STAFF:

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1927 GRADUATE PROGRAM FOUNDED: 1930

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 6 M.A., 7 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 38 M.A. 21 Ph.D.
NOT IN RESIDENCE: 3 M.A. 8 Ph.D.

CHAIRMAN: M. John Loeffler

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Secretary, Department of Geography, Campus Box 260, University of Colorado, Boulder, Colorado 80309
Telephone (303) 492-8311

PROGRAMS AND RESEARCH FACILITIES: Faculty members based on the University's campuses in Boulder, Colorado Springs, and Denver jointly form the Geography Graduate Faculty. Students' programs may entail work on one or more of these campuses and include research and study in a wide range of interests. Prospective students are urged to consult the accompanying list for specific subfields of faculty expertise and interest.

The Department maintains teaching and research relationships with the Institute of Behavioral Science (IBS), the Institute of Arctic and Alpine Research (INSTAAR) in Boulder, and the Centers for Urban Affairs and Urban Transportation Studies in Denver. The University's Norlin Library in Boulder has a combined collection of 1,500,000 volumes as well as a large map library. Campuses at Colorado Springs and Denver have terminals linked to the two CDC 6400 computers in the Computing Center in Boulder. Such agencies as the National Center for Atmospheric Research, National Oceanographic and Atmospheric Administration, and Social Science Education Consortium in Boulder, and the U.S. Geological Survey and many more federal, state, and metropolitan agencies in Denver, offer opportunities to the student.

ADMISSION REQUIREMENTS, ACADEMIC PLAN, AND FINANCIAL AID: Students who are admitted to the graduate program should have a good undergraduate background in the physical or social sciences. Students with strong backgrounds in disciplines other than geography are encouraged to apply. In addition to department approval, an applicant for admission as a regular degree student must (1) hold a baccalaureate degree from a college or university of recognized standing for M.A. admission, and an M.A. degree for Ph.D. admission, or have adequate preparation to enter graduate study; (2) show promise of ability to pursue satisfactorily advanced study and research, as judged by his or her previous scholastic record, and have at least a 2.75 undergraduate grade point average on a 4.0 system. GRE verbal and quantitative scores are required.

Entering graduate students' first fall semester will normally include three graduate geography courses, with three different professors, one in physical and one in human geography, and if appropriate, the History and Nature of Geography. Beyond this requirement, students' programs are individually structured in consultation with faculty advisors.

Financial aid may be available in the form of Teaching and Research Assistantships and University Fellowships. The application deadline for Fellowships is January 15, and for Teaching or Research Assistantships it is February 15.

FACULTY:

University of Colorado at Boulder:

Roger G. Barry, Ph.D., Southampton, 1965, Professor—climatology (synoptic, paleo-climatology), Arctic; Director, World Data Center-A for Glaciology (Snow and Ice)

Columbia University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1916 GRADUATE PROGRAM FOUNDED: 1920

DEGREES OFFERED: M.A., M.Phil., Ph.D.

GRANTED 7/1/80-6/30/81: 8 M.A., 5 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 16 Masters 18 Ph.D.
NOT IN RESIDENCE: 5 Masters 10 Ph.D.

CHAIRMAN: Robert A. Lewis

FOR BULLETIN AND FURTHER INFORMATION WRITE TO: Professor Robert A. Lewis, 1028 International Affairs Building, Columbia University, 420 West 118th Street, New York, New York 10027
Telephone (212) 280–4641

PROGRAMS AND RESEARCH FACILITIES: The Department offers comprehensive and rigorous preparation for research and teaching in geography, with particular strength in the following areas: Economic and Urban Geography, Environmental Studies, Population, Resources, Remote Sensing, and Regional Specialization. The expanding opportunities for geographers in these and other areas make Columbia's resources especially attractive.

The Department is housed in a new building with special class, laboratory, seminar, and student-study facilities for geography. It shares in the resources and facilities of a great university and a great city. The Department has a close relationship with the Goddard Institute for Space Studies and its remote sensing facilities.

Requirements for the M.A. degree consist of eight one-term courses, certification of proficiency in quantitative methods, and the writing of a research paper.

Students preparing for the Ph.D. degree complete four additional terms of course work, fulfill the language requirement, if any, for their area of specialization, pass written and oral qualifying examinations in one major and two minor fields, and write and successfully defend a doctoral dissertation.

Majors offered: Environmental Geography (including Biogeography, Climatology, Conservation, Geomorphology, Hydrology, Oceanography, and Pedology); Social Geography (including Cultural Geography, Economic Geography, Location Theory and Regional Analysis, Medical Geography, Population Geography, and Urban Geography); Resources Geography (including Conservation Theory, Energy, Food Supply, and World Resources); and Regional Geography (including Africa, Latin America, and the U.S.S.R.).

Minors offered: in any of the above fields and in research methods, such as remote sensing techniques, spatial analysis, or cartography, or in a cognate discipline.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* Emphasis on Ph.D. degree, normally requiring 4 to 7 years. M.A. degree program also available, usually requiring 1 to 2 years. University operates on a semester system. A new part-time M.A. program has been added. *Admission Requirements:* A baccalaureate or master's degree including no less than three years of undergraduate liberal arts courses, of which two courses are in physical geography and two courses in human geography or the equivalent. The Department does not require an undergraduate major in geography. *Financial Aid:* A comprehensive program including fellowships, teaching and research assistantships, and loans.

Society of Woman Geographers Fellowship in Geography: One or more to women geography students; provides tuition, fees, and a stipend.

Fellowship application deadline is January 2.

STAFF:

Stephen R. Baker, M.D., Albert Einstein, 1968, Lecturer—medical geography

Samuel N. Goward, Ph.D., Indiana State, 1978, Lecturer—remote sensing, environmental systems

William A. Hance, Ph.D., Columbia, 1949, Professor—economic, energy

Paul E. King, Ph.D., Ohio State, 1972, Assistant Professor—urban, social, quantitative

Robert A. Lewis, Ph.D., Washington, 1964, Professor—U.S.S.R., population

Sara L. McLafferty, Ph.D., Iowa, 1979, Assistant Professor—economic, public policy

Miklos Pinther, B.S., Columbia, 1967, Lecturer—cartography

Garry F. Rogers, Ph.D., Utah, 1980, Assistant Professor—environment, biogeography, climatology, environmental science

Theodore Shabad, Ph.D., Columbia, 1976, Lecturer—resources of the U.S.S.R.

Kempton E. Webb, Ph.D., Syracuse, 1958, Professor—Latin America, cultural, food supply, resources

Warren E. Yasso, Ph.D., Columbia, 1964, Associate Professor—geomorphology, oceanography

Leonard Zobler, Ph.D., Columbia, 1953, Professor—resource use, soils, hydrology, conservation theory, land use

University of Delaware

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1966 GRADUATE PROGRAM FOUNDED: 1971

DEGREES OFFERED: M.A., M.S.; Ph.D. (Applied Sciences-Climatology)

GRANTED 7/1/80-6/30/81: 1 Master's

GRADUATE STUDENTS IN RESIDENCE: 17 Masters 1 Ph.D.
NOT IN RESIDENCE: 8 Masters

CHAIRMAN: John R. Mather

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Laurence S. Kalkstein, Graduate Coordinator, Department of Geography, University of Delaware, Newark, Delaware 19711
Telephone (302) 738-2294

PROGRAMS AND RESEARCH FACILITIES: The Graduate Program provides the opportunity for a select number of Masters and Doctoral students to interact frequently with a staff whose interests touch upon one of two particular themes—climatology and urban landscapes. The climatology program emphasizes energy and water budgets and their application to environmental problems. The faculty's research interests include climatic modelling, human impact upon energy and moisture exchanges, climatic influences on socio-economic activity, and applied studies in agriculture, biogeography, and micro-climatology. The urban program focuses on historic development, spatial organization, and human behavior in urban landscapes, as well as cultural attitudes and philosophies of urban civilization. Interdisciplinary work with other departments and the College of Urban Affairs is encouraged. A University Center for Climatic Research has been established in the Department, which also houses the Office of the State Climatologist for Delaware. Facilities include instruments for microclimatic investigations and the extensive library holdings of the C. W. Thornthwaite Laboratory of Climatology. Computer facilities are primarily supported by a Burroughs B7700 system with advanced graphics capabilities, and users also have access to HP2000, PDP 11/70 and DEC 10 systems. The Department has four on-line terminals that connect to all campus computers. An interdisciplinary Ph.D. program in Applied Sciences-Climatology, which is fundamentally quantitative with an emphasis on the understanding, development, and use of analytical, numerical, and/or statistical analogues to climate and climatic processes, is also administered by the Department. *Publications in Climatology* jointly published by the Center for Climatic Research and the Thornthwaite Laboratory of Climatology.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University operates on a semester system. General admissions requirements are an undergraduate index of 2.5 or more and combined GRE scores of at least 1050; the Department will consider qualified applicants without previous background in geography, though additional preliminary work may be required. Financial aid is available through research assistantships to highly qualified applicants.

STAFF:

Edmunds V. Bunkse, Ph.D., UC, Berkeley, 1973, Associate Professor—cultural-historical, landscape aesthetics, urban U.S.

Richard T. Field, M.S., Chicago, 1962, Lecturer—microclimatology, energy budgeting in human and natural systems, ecology

Franklin E. Gossette, Ph.D., UCLA, 1979, Assistant Professor—urban, social, computer cartography, China

Laurence S. Kalkstein, Ph.D., Louisiana State, 1974, Associate Professor—biogeography, conservation, ecological problems, climatology

Vytautas Klemas, Ph.D., Technical University, Braunschweig, 1965, Professor (joint appointment with Marine Studies)—remote sensing, environmental monitoring, coastal resource management

John R. Mather, Ph.D., Johns Hopkins, 1951, Professor and Chairman, Director, Center for Climatic Research—applied climatology, meteorology, water resources

Thomas C. Meierding, Ph.D., Colorado, 1977, Assistant Professor—climatic geomorphology, cartography, air photo interpretation

Peter W. Rees, Ph.D., UC, Berkeley, 1971, Associate Professor and Associate Dean, College of Arts and Science—urban, historical-economic, Latin America

Roger S. Ulrich, Ph.D., Michigan, 1973, Associate Professor—behavioral, urban, visual landscapes, economic

Cort J. Willmott, Ph.D., UCLA, 1977, Assistant Professor (joint appointment with Marine Studies)—climatology, quantitative methods

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Schulz, Robert J. "Investor Confidence in Revitalizing Inner City Neighborhoods; A Geographic Analysis of Society Hill, Philadelphia," 1981.

University of Denver

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1945 GRADUATE PROGRAM FOUNDED: 1947

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 2 M.A., 0 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 7 M.A. 1 Ph.D.
NOT IN RESIDENCE: 5 M.A. 1 Ph.D.

CHAIRPERSON: Laurance C. Herold

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Laurance C. Herold, Chairman, Department of Geography, University of Denver, Denver, Colorado 80208
Telephone (303) 753–2513

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography at the University of Denver offers graduate work in the following areas of concentration: geomorphology, urban and regional studies, and social geography. In each of these areas, stress is placed on interdisciplinary studies; the Department enjoys close working relations with other departments within the University. Cooperative programs of work-study can be arranged occasionally with local planning agencies, and there is opportunity for cooperative research in physical geography with locally-based federal agencies.

The Department is housed in a group of offices, classrooms, and special purpose rooms in Pioneer Hall. Library and map resources include those of the Department, the University, and the Denver metropolitan area. Field work and in-service experiences are encouraged.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University of Denver operates on a quarter system.

Candidates for graduate degrees in the Department of Geography are required to take the Graduate Record Examination as part of their admission requirements. Among the criteria applied in determining eligibility for admission are an acceptable undergraduate scholastic record, satisfactory scores on the Aptitude Test for the Graduate Record Examination, and appropriate references.

Application for the admission to graduate study is advisable at least two quarters prior to the expected date of enrollment.

A limited number of University teaching and research assistantships as well as tuition scholarships are available. Assistantships carry a stipend with remission of tuition.

STAFF:

John E. Costa, Ph.D., Johns Hopkins, 1973, Associate Professor—fluvial geomorphology, environmental geology

Richard F. Hadley, M.A., Minnesota, 1950, Adjunct Professor—geomorphology, erosion and sedimentation, hydrology

Laurance C. Herold, Ph.D., Southampton, 1968, Associate Professor and Chairman—systematic specialization, cultural, regional, British Isles, American Southwest and Northern Mexico

David B. Longbrake, Ph.D., Iowa, 1972, Associate Professor—urban, urban and regional planning, land use and development, quantitative methods

Robert D. Rudd, Ph.D., Northwestern, 1953, Professor—physical, remote sensing, climatology

Terrence J. Toy, Ph.D., Denver, 1973, Associate Professor—climatic geomorphology, quantitative, hydrology

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Graczyk, Richard J. "The Relationship between Expansive Soils and Housing Turnover," 1980. (Research paper)

Rudd, Lawrence Parker. "An Analysis of the Hillslope-Floodplain Boundary," 1980.*

East Carolina University

DEPARTMENT OF GEOGRAPHY AND PLANNING

GRADUATE PROGRAM FOUNDED: 1964

DEGREES OFFERED: M.A., M.A.Ed.

GRANTED 7/1/80–6/30/81: 1

GRADUATE STUDENTS IN RESIDENCE: 10
NOT IN RESIDENCE: 5

CHAIRMAN: Ennis L. Chestang

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Douglas C. Wilms, Graduate Advisor, Department of Geography and Planning, East Carolina University, Greenville, North Carolina 27834
Telephone (919) 757-6230

PROGRAMS AND RESEARCH FACILITIES: The Department offers two Masters degrees, the M.A. and the M.A.Ed. There are thesis and non-thesis programs for both degrees.

The Departmental map library is a depository for U.S.G.S., Defense Mapping Agency, National Ocean Survey, and, on temporary basis, Aeronautical Charts. There is a sizeable air photo collection which concentrates on North Carolina and the other Southeastern States. Separate laboratories for physical geography, air photo interpretation, quantitative methods, and cartography are available. The Institute for Coastal and Marine Resources, in which the Department participates, offers additional support, facilities, and courses for graduate students.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The graduate program is open to students with either an undergraduate major in geography or satisfactory course work in the field. Students with limited backgrounds in geography may be accepted under certain conditions. Requirements for admission are set forth in the Graduate Bulletin, which is available from the Graduate School.

Assistantships are available to qualified students. The stipend is normally $2950 per academic year. A limited number of Special Talent assistantships to aid in defraying out-of-state tuition are available. They are awarded by invitation. A prospective Special Talent student should have a transcript and two letters of recommendation sent to the Graduate Advisor. This will permit a determination to be made whether to invite the student to apply for a Special Talent Assistantship.

STAFF:

Simon Baker, Associate Professor, B.S., M.S. Arizona, Ph.D. Clark

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

McCluskey, James Michael. "Selected Morphometric Characteristics and Their Relationship to the Genetic Provinces of the Southern Appalachian Highlands," 1980.

East Tennessee State University

DEPARTMENT OF GEOGRAPHY AND GEOLOGY

DATE FOUNDED: 1951   GRADUATE PROGRAM FOUNDED: 1960

DEGREES OFFERED: M.A.

GRANTED 7/1/80-6/30/81: 6

GRADUATE STUDENTS IN RESIDENCE: 18
NOT IN RESIDENCE: 0

CHAIRPERSON: Donald H. Poole

FOR CATALOG AND FURTHER INFORMATION WRITE TO: The Graduate Committee, Department of Geography and Geology, East Tennessee State University, Johnson City, Tennessee 37601
Telephone (615) 929-4360

PROGRAMS AND RESEARCH FACILITIES: The department offers a major concentration in the following areas: Urban and Region Planning, Physical Geography, and In-Service Teacher Training.

A well-equipped cartographic and air photo-remote sensing laboratory is present in a Departmental Research Annex. A map depository is housed in the University library. In addition, the library subscribes to many hundreds of periodicals in geography and in supporting fields.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The Department of Geography offers graduate programs leading to the Master of Arts degree. Three types of programs in geography may be followed: a professional program emphasizing Urban and Regional Planning, a professional program in Physical Geography, and a regional specialization for persons seeking training for teaching in the elementary and secondary school systems.

Students determine their own curriculum, depending on interests, with the help of the advising committee; however, the following four graduate courses are required of all students: Field Methods, Quantitative Techniques, Evolution of Geographic Thought, and Research in Geography.

The Department of Geography urges its graduate students to participate in the cooperative educational experience at East Tennessee State University. By doing so the student not only can work but can gain valuable experience in his desired field of expertise.

Minimum degree requirements for the M.A. are: 1) 32 semester hours of geography which includes 3 papers of a directed research nature, 2) 27 semester hours of geography plus a thesis (3 semester hours), 3) A minimum of 21 semester hours of geography following a thesis or non-thesis option and 9 semester hours in a chosen minor field.

University teaching and research assistantships are available. Selection for admission and financial assistance will be based on the applicant's academic record, letters of recommendation, GRE scores, and a statement concerning professional goals.

STAFF:

CHAIRMAN: Ronald L. Marionneaux

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Ronald L. Marionneaux, Department of Geography and Planning, Eastern Kentucky University, Richmond, Kentucky 40475
Telephone (606) 622-2251

PROGRAMS AND RESEARCH FACILITIES: Five major areas of interest are offered at the Masters level. They are: Planning, Community Development, Cartography-Remote Sensing, General, and Education.

In addition to special teaching equipment, such as a large collection of wall maps and modern visual aids, the departmental spaces include laboratories housing cartographic, climatic, photographic, and photogrammetric equipment and data for instruction and research. A department map library is available for student convenience and study. The department maintains a weather station.

Departmental programs are aided by the Geographical Studies and Research Center. The Center, while independent of the Department, is closely allied and provides research opportunities for graduate students.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Academic plans and admission requirements are outlined in the Graduate Bulletin of Eastern Kentucky University. Graduate assistantships of $2500 and $2800 are available. The University is on a semester system.

DEPARTMENT OF GEOGRAPHY AND GEOLOGY

DATE FOUNDED: 1903   GRADUATE PROGRAM FOUNDED: 1927

DEGREES OFFERED: M.A., M.S.

GRANTED 7/1/80–6/30/81: 8

GRADUATE STUDENTS IN RESIDENCE: 42

HEAD: Elwood J. C. Kureth

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Robert Ward, Department of Geography and Geology, or Dr. Marshall McLennan, Historic Preservation Planning, Eastern Michigan University, Ypsilanti, Michigan 48197
Telephone (313) 487-0218

PROGRAMS AND RESEARCH FACILITIES: *GEOGRAPHY*. The Department of Geography and Geology offers courses leading to the degrees of Master of Arts and Master of Science. Students who complete programs emphasizing man and his works receive the degree of Master of Arts; those whose programs stress physical geography, land use analysis and other aspects of environmental studies receive the Master of Science degree. The department also offers a Master of Science in historic preservation with concentrations in historic preservation planning and historic administration.

The department awards 8 1/2 graduate assistantships each year. A graduate assistantship stipend ranges from $3,150-$3,350. In addition, the University pays full tuition for 16 credit hours for each fiscal year of the assistantship, as well as registration and health service fees. The total package approximates $4,800, depending whether you are a resident or nonresident of Michigan.

Degree Requirements. The Master's degree in geography may be completed by choosing Option One (30 semester hours), Option Two (30 semester hours), or Option Three (30 semester hours). The differences between these options are discussed below.

Option One: Students whose life/career goals include research activity may elect to complete a thesis (representing six semester hours credit). The thesis topic and design are developed by the Master's candidate with the advice of a departmental graduate faculty member. The completion of a thesis is especially recommended as a valid learning experience for those who intend to pursue further advanced degrees, but is also useful for those who seek employment with organizations that perform research functions.

Option One requires the completion of 30 semester hours broken down as follows: 18–24 hours in geography, 0–6 hours in approved cognates, and the remaining 6 hours in thesis credit.

Option Two: This option is designed to serve individuals who may prefer additional course work and/or work experience as a substitute for thesis research and would benefit from an off campus internship experience. It also offers scope to in-service individuals (e.g., planners, soil scientists, and others) to reorganize and apply the subject matter of their work experience to an E.M.U. course under the supervision of a departmental graduate faculty member who evaluates the student's performance. Either of these supervised experiences may be accomplished by enrolling in GEO 687 or GEO 688 or GEO 689, with approval of the graduate coordinator.

Of the 30 hour total a maximum of six hours may be taken as cognate hours outside the department. A requirement of this option is the successful completion, while in residence at E.M.U., of two hours achieved through the composition of a paper of publishable quality. Graduate faculty in the department must be consulted in the initiation, design, and completion of the paper.

Option Three: This option is designed to enhance the career of practicing or prospective elementary and secondary teachers. Students may elect to develop their teaching units under the supervision of three different faculty members. Each unit, worth two credit hours, shall be taken under the catalog number GEO 698.

HISTORIC PRESERVATION PROGRAM. The Department of Geography administers an interdepartmental program in historic preservation. The program includes a 36 hour Master of Science curriculm in historic preservation, and, as a

Special Student, a five course curriculum granting a certification of completion and satisfactory academic performance. Students in the Master's program may elect to pursue a general curriculum in historic preservation or to take their degrees in historic preservation with a concentration in either historic planning or historic administration. This choice must be formally declared to the program coordinator by the time the student has completed 20 hours of graduate work in historic preservation.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* Quarter System. *Admission Requirements:* Undergraduate Grade Average of B or better. *Financial Aid:* Departmental graduate assistants and teaching fellows ($3150 to $3350).

PROGRAMS AND RESEARCH FACILITIES: Florida Atlantic University is an upper division and graduate university in the state system, offering advanced training at the junior, senior, master's, and doctorate levels. The facilities available to geographers include fully-equipped cartography and remote sensing interpretation laboratories containing NASA and other imagery and more than 23,000 maps; a quantitative techniques laboratory; complete computer facilities with printer and plotter output; a darkroom; and an 800,000 item library.

Departmental strengths are in the following areas: urban studies, planning, Latin America, biogeography, remote sensing, and environmental perception. Strong programs in other physical and social science departments provide for cognate and inter-departmental work.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: A GRE score of 1000 and an upper division GPA of B are required for admission. Out-of-state tuition waivers are available. M.A. requirements: 30 credits (12 of which are geography seminars); preliminary oral examination; thesis. Any geography, foreign language, or statistics deficiencies are additional to the 30 credit minimum.

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1929 GRADUATE PROGRAM FOUNDED: 1930

DEGREES OFFERED: M.S., M.A. (Cooperative Ph.D. with University of Florida)

GRANTED 7/1/80–6/30/81: 8

GRADUATE STUDENTS IN RESIDENCE: 14
NOT IN RESIDENCE: 9

CHAIRMAN: Patrick O'Sullivan

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Coordinator, Department of Geography, The Florida State University, Tallahassee, Florida 32306
Telephone (904) 644-1706

PROGRAMS AND RESEARCH FACILITIES: The requirements for a Master's degree in Geography can be met by completing either (1) a thesis and 30 semester hours or (2) a research report and 32 semester hours or (3) an interdepartmental program for junior and community college instructors. Whichever mode is selected, one of five substantive curricular tracks can be followed: land use analysis, natural resource and environmental management, rural settlement and agriculture, cities and regional systems, transport. The Department cooperates with the University of Florida in offering a Ph.D. program (participation requires prior admission into the University of Florida Ph.D. program in Geography).

The University has a rich variety of support courses and the library houses a good collection of maps, atlases and data sources. The Department's research facilities include a cartography laboratory. Computing time is available on the University's CDC Cyber 73. Proximity to state and regional agencies in Florida's capital city is advantageous for graduate research. The Florida Resources and Environmental Analysis Center (housed within the Department of Geography) provides opportunities for funded research for both graduate students and faculty.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Florida State University operates on a semester system. An undergraduate major in geography is not required for admission to the Geography program; rather, students with majors in other disciplines are encouraged to apply with the understanding that minimal deficiencies must normally be rectified for completion of the program. Applicants must submit evidence of strong academic performance in their undergraduate work and must have taken the general aptitude test of the Graduate Record Examination. Undergraduate training in mathematics, statistics, or computer science is desirable. University Fellowships at a stipend of $3,600 for two semesters are available as are Department of Geography Graduate Assistantships at $3,200-$4,800 for two semesters. Both may carry a waiver of out-of-state fees. Other financial aid is available in the form of Research Assistantships and hourly wage employment in research projects through the Florida Resources and Environmental Analysis Center.

GRADUATE FACULTY:

Earl J. Baker, Ph.D. Colorado, 1974, Associate Professor—behavioral analysis, perception of natural hazards

William R. Brueckheimer, Ph.D., Michigan, 1954, Professor—conservation, resource problems, political, recreation

Edward A. Fernald, Ph.D., Michigan State, 1968, Professor—geographic education, land and resource use, Florida

Harold McConnell, Ph.D., Iowa, 1964, Professor—quantitative methods, geomorphology

Patrick O'Sullivan, Ph.D., London School of Economics, 1967, Professor—transport, economic

Donald J. Patton, Ph.D., Harvard, 1949, Professor—resources, environmental perception, economic, Anglo-America

Burke G. Vanderhill, Ph.D., Michigan, 1956, Professor—settlement, historical landforms, Canada, United States, Europe

Morton D. Winsberg, Ph.D., Florida, 1958, Professor—geographic thought, agricultural, research methods, computer graphics, Latin America

Richard E. Zeller, Ph.D., Ohio State, 1978, Assistant Professor—urban, economic marketing

Additional faculty will be appointed.

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Ahghari, Mohammad R. "Land Reform and Agricultural Development in Iran," 1980.

Childers, William. "An Assessment of Development Strategies Employed in Brazilian Amazonia," 1980.

Clark, Terry. "An Assessment of the Influence of Tallahassee's Retail Sector on Its Surrounding Smaller Communities Between 1953 and 1977," 1980.

Cumbie, Richard S. "Elderly Mobility Improvement; Target Area Identification," 1980.

Dawdy, Richard. "Residential Land Use Patterns in Tallahassee," 1981.

Kennedy, Leonard R. "Forecasting the Demand for Residential Water Use," 1981.

Miller, Gary. "A Methodology for the Development of a Physical Cultural Profile of Florida's State-Owned Lands," 1981.

University of Florida

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1941 GRADUATE PROGRAM FOUNDED: 1948

DEGREES OFFERED: M.A., M.S., M.A.T., M.S.T., Ph.D.

GRANTED 7/1/80-6/30/81: 1 Masters, 3 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 11 Masters, 10 Ph.D.
NOT IN RESIDENCE: 2 Masters, 8 Ph.D.

CHAIR: Robert B. Marcus

FOR CATALOG AND FURTHER INFORMATION WRITE TO: David L. Niddrie, Graduate Coordinator, Department of Geography, University of Florida, Gainesville, Florida 32611
Telephone (904) 392-0494

PROGRAMS AND RESEARCH FACILITIES: The Master of Arts degree may be taken with emphasis on economic or cultural geography, or the student may elect a Master of Science degree with emphasis on physical geography. The Masters degree is required for entry to the Ph.D.

The Master of Arts and Master of Science in Teaching degrees may be earned in geography. These non-thesis degrees are designed for persons who intend to teach in community colleges or to go into planning.

The Doctor of Philosophy degree is offered with specialization in economic geography, particularly agricultural geography, environmental studies, the geography of resource use, and urban geography and with regional specialization in Southeastern United States, Latin America, and Africa south of the Sahara. This degree program operates cooperatively with Florida State and Florida Atlantic Universities. Under the program students may take work on any campus.

Of many university-wide facilities, the following deserve special mention: the Centers for Latin American and African Studies; the University Library with its large map and Latin American collection; the Hume Agricultural Library, which is one of the best such libraries in the South; the Latin American Data Bank; the Computing Center; the Urban and Regional Studies Center; the Water Resources Research Center; and participation in the Organization for Tropical Studies (OTS).

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University of Florida operates on the quarter system. In August 1981 the University of Florida will change to the modified semester system. Admission to the Graduate School requires (1) presentation of a baccalaureate degree from an accredited college, (2) a B average or its equivalent in prior junior or senior level undergraduate work, (3) a minimum combined score of 1,000 on the aptitude test of the Graduate Record Examination (GRE). Three letters of recommendation are required by the Department.

Applications for admission to the University and the Graduate School must be made not later than ten weeks before the proposed date of entry. The necessary information and forms, including requests for housing, may be obtained from the Office of Admissions, University of Florida. Applicants may at the same time request a copy of the Graduate School Catalog. Foreign students should direct their requests to the Adviser to Foreign Students.

The University offers graduate fellowships and assistantships ranging from $3600 to $5400 for nine months; waivers of out-of-state fees of $900 may be arranged. NDEA Title VI Fellowships may be available for students interested in Latin American Studies and in African Studies.

The Department of Geography also offers one-third time assistantships which provide a stipend of $3600 for nine months; waivers of out-of-state fees of $900 may be arranged. Service generally consists of teaching and infrequently research duties.

Applications for fellowships and assistantships should be received before February 1.

STAFF:

Elizabeth F. Abbott, Ph.D., Florida, 1972, Assistant Professor—conservation, physical, climatology

Gustavo A. Antonini, Ph.D., Columbia, 1968, Professor—Caribbean, tropical resource utilization, geomorphology

HelenJane Armstrong, Ph.D., Oregon State, 1977, Associate Librarian—map use and interpretation, geographical bibliography

Cesar N. Caviedes, D.Sc., Freiburg, 1969, Professor—social, South America, environmental systems

John R. Dunkle, Ph.D., Clark, 1955, Professor—cartography, political

Herbert C. Dupree, Ph.D. candidate, Michigan, Assistant Professor—urban, environmental perception, cultural

Kay M. Eoff, Ph.D., Florida, 1962, Assistant Professor—conservation, energy resources, astronomy

Stephen M. Golant, Ph.D., Washington, 1972, Associate Professor—[illegible]ial, behavioral, social gerontology

James A. Henry, Ph.D., Kansas, 1978, Assistant Professor—climatology, physical, remote sensing

Ary J. Lamme III, Ph.D., Syracuse, 1969, Associate Professor—historical, Anglo-America, geographic thought

Robert B. Marcus, Ed.D., Florida, 1956, Professor and Chair—Florida, physical, geomorphology, resource use

David L. Niddrie, Ph.D., Manchester, 1965, Professor—Southern Africa, Caribbean, agricultural, land use

Carl N. Olsson, Ph.D., Florida, 1970, Associate Professor—climatology, energy resources, astronomy

Louis A. Paganini, Ph.D., Florida, 1970, Associate Professor—Latin America, cultural, physical, biogeography

Earl C. Pirkle, Ph.D., Cincinnati, 1956, Professor and Associate Chair—mineral resources, geomorphology

Hugh L. Popenoe, Ph.D., Florida, 1960, Professor and Director of International Programs—tropical land use, tropical ecology

Leonidas H. Roberts, Ph.D., Florida, 1958, Professor—physical, astronomy

Herbert R. A. Schaeper, Ph.D., Florida, 1969, Assistant Professor—remote sensing, energy use, Jamaica

Nigel Smith, Ph.D., UC, Berkeley, 1976, Associate Professor—conservation, human ecology, Third World development, medical

Carl W. Spurlock, Ph.D., Oklahoma, 1972, Associate Professor—economic, land use and resource analysis, geographic information systems

PROFESSORS EMERITI:

Raymond E. Crist, Ph.D., Grenoble, 1937, Research Professor Emeritus—Caribbean, Andean America, Mediterranean basin, land tenure use

Clark I. Cross, Ph.D., Washington, 1951, Professor—physical, resource use, air photo interpretation, U.S.S.R.

Shannon McCune, Ph.D., Clark, 1939, Professor Emeritus—eastern Asia, economic, political

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Al-Ankary, Khalid M. "A Comparative Factorial Ecology: Kuwait City, Kuwait and Jacksonville, Florida," 1981. Mf., University Microfilms.

Brandes, Donald. "The Significance of Tropical Rainfall in the Water Supply of South Florida," 1981.

Skinner, James L. "The Background Characteristics of Doctors as a Contributing Factor to Their Changing Distribution in Western Cleveland, Ohio, SMSA: 1912-1969," 1980. Mf., University Microfilms.

Master's:

Isaacs, Jeffrey A. "Precipitation Regimes of Florida: Spatial Analysis and Time Series," 1981. Mf., University Microfilms

George Mason University

DEPARTMENT OF PUBLIC AFFAIRS

DATE FOUNDED: 1972 GRADUATE PROGRAM FOUNDED: 1978

DEGREES OFFERED: M.S. in Geographic and Cartographic Sciences

GRANTED 7/1/80–6/30/81: 0

GRADUATE STUDENTS IN RESIDENCE: 3
NOT IN RESIDENCE: 34

CHAIRPERSON: Dr. Robert P. Clark

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Admissions Office, George Mason University, Fairfax, Virginia 22030
Telephone (703) 323-2104

PROGRAMS AND RESEARCH FACILITIES: The M.S. Degree is organized around two tracks: Cartography and Applied Geography. Cartography students may choose the Topographic or Thematic Specializations.

The Geography Program attempts to utilize the vast cartographic and geographic resources of the Washington, D.C. area through the hiring of adjunct faculty who are specialists in their field, and by allowing students access to state-of-art cartography at off-campus locations. On campus facilities include laboratories for computer graphics, cartographic reproduction, photo interpretation, and photogrammetry. The Geography Program publishes the *Virginia Geographer*, the official semiannual journal of the Virginia Geographical Society. For further information write to Geography Program Director, Department of Public Affairs, George Mason University, Fairfax, Virginia 22030, or telephone (703) 323-2272.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. Most graduate courses are offered evenings. Many students are employed full or part-time in geography related jobs.

Applicants should have a bachelor's degree in geography or cartography or equivalent with a grade point average of 3.0 (on a 4.0 scale) in their last two years of undergraduate work. Other applicants may be considered for provisional or non-degree status.

Various scholarships and loans are available through the Financial Aid Office (703) 323-2176. Assistantships are available through the Department of Public Affairs.

STAFF:

Alice C. Andrews, Ed.D., George Washington, 1975, Associate Professor—cultural, population, Soviet Union
Jean-Claude Boswell-Thomas, Ph.D., University of Aix-Marseille, 1967, Associate Professor—economic, remote sensing, Europe and Mediterranean, urban
Carleton W. Cox, Ph.D., Wisconsin-Madison, 1977, Assistant Professor—thematic and computer cartography, aerial photography and photogrammetry
James W. Fonseca, Ph.D., Clark, 1974, Associate Professor— political, Latin America, Anglo-America
Robert S. Hayden, Ph.D., Georgia, 1979, Assistant Professor—geomorphology, conservation, field methods, meteorology and climatology
G. H. Stopp, Jr., Ph.D., Louisiana State, 1975, Assistant Professor—physical geography, environmental management, land use

ADJUNCT FACULTY:

Eric Anderson, Ph.D., Northwestern, 1978—geographic information systems
William H. Chapman, M.S., Ohio State, 1966—geodesy
John Koutsandreas, M.T.S., Catholic, 1975—environmental management
Subramaniam Moryadas, M.A., Maryland, 1963—transportation geography
Roger L. Payne, M.A., East Carolina, 1972—environmental resource management
Robert Smith, Ph.D., North Carolina, 1979—political, marine resource management
Richard W. Stephenson, M.S., Catholic, 1976—history of cartography

Norton D. Strommen, Ph.D., Michigan State, 1975—climatology and meteorology
Bradford L. Thomas, M.A., Kansas, 1958—cartography, aerial photograph interpretation

George Washington University

DEPARTMENT OF GEOGRAPHY AND REGIONAL SCIENCE

DATE FOUNDED: 1945 GRADUATE PROGRAM FOUNDED: 1949

DEGREES OFFERED: M.A., M.A. Ed.

GRANTED 7/1/80–6/30/81: 0

GRADUATE STUDENTS IN RESIDENCE: 10
NOT IN RESIDENCE: 5

CHAIRMAN: Eldor Pederson

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Eldor Pederson, Chairman, Department of Geography, George Washington University, Washington, D.C. 20052
Telephone (202) 676–6185

PROGRAMS AND RESEARCH FACILITIES: Located in newly remodeled quarters four blocks from the White House, the Department of Geography and Regional Science of the George Washington University is within walking distance of the Departments of State and Interior, the World Bank, and the Organization of American States, and it is a short subway ride from the Library of Congress and the many other major research facilities of Washington, D.C. This access combines with excellent facilities and diverse programs on campus (including the Environmental Studies and Latin American Studies programs managed by the department, and the Geobiology and Sino-Soviet programs in which it participates) to provide unparalleled opportunities for the study of geography. The department has designed its offerings to make use of these resources while providing the student with a strong background in the major fields of geography.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* The course of study leading to the degree of Master of Arts consists of 30 semester hours with thesis and 36 semester hours without thesis. Each student may select a program of studies from one of the following: resources and the physical environment; population and resources; transportation and urbanization; and regional development. Additionally, students must show a proficiency in an approved foreign language, statistics, or computer programming.

STAFF:

Judith Banister, Ph.D., Stanford, Lecturer—China
Joseph Fehrenbach, M.A., Georgia, Lecturer—remote sensing, cartography
Allan Fitzsimmons, Ph.D., UCLA, Associate Professor—resources, energy
Marvin Gordon, Ph.D., Columbia, Professor—agriculture, Latin America
John Lowe, Ph.D., Clark, Professor—urban, transportation
Edward Marasciulo, B.A., Miami, Lecturer—Latin America
Shelley Mastran, M.A., George Washington, Lecturer—cultural
Eldor Pederson, Ph.D., UC, Berkeley, Associate Professor—urban, political
Jerome Pickard, Ph.D., Syracuse, Research Professor—regional development
John Sibert, Ph.D., Michigan, Associate Research Professor—cartography
Arthur Viterito, Ph.D., Denver, Assistant Professor—climatology, remote sensing
Cynthia Weber, M.A., Kentucky, Lecturer—U.S.S.R.

Georgia State University

DEPARTMENT OF GEOGRAPHY

NOT IN RESIDENCE: 5

CHAIRMAN: Truman A. Hartshorn

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. John M. Ball, Director of Graduate Studies, Department of Geography, Georgia State University, University Plaza, Atlanta, Georgia 30303
Telephone (404) 658-3232

PROGRAMS AND RESEARCH FACILITIES: The department specializes in two areas of study: Cartography, and Urban Geography, but also offers program training in Population, Cultural Heritage, Energy/Resource Management, and Regional Geography. Students may select any one of these areas of specialty. Further information about the department and its program is found in the booklet, *Graduate Programs in Geography at Georgia State University*. This booklet can be obtained from the department without charge.

Georgia State University is a major commuter institution with an enrollment of 20,000 students, graduate and undergraduate, located in downtown Atlanta. It has the largest graduate enrollment among universities in the Southeast. The university is near excellent public transportation service, including a stop on the new MARTA rapid rail line. The department maintains close working relations with the university's College of Public and Urban Affairs, planning agencies and private sector firms in the metropolitan area, and with other geography departments in the state and region. Many opportunities for part-time employment are available in the metropolitan area. Internship opportunities are available.

The department is housed on the eleventh floor of the Urban Life Center with excellent facilities including a fully equipped cartography production laboratory, computer terminal, and electronic digitizer. The department publishes both a map and a research paper series. Listings of titles in print are available.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The university follows the quarter system. Applicants for admission to the graduate school must have completed a bachelor's program from an accredited institution and present acceptable scores on both the Aptitude and Advanced portions of the Graduate Record Examination. Graduate assistantships are available on a competitive basis. Georgia State University is an Affirmative Action/Equal Employment and Educational Opportunity Institution.

STAFF:

John M. Ball, Ph.D., Michigan State, 1961, Professor of Geography and Professor of Education-geographic education, Latin America

Sanford H. Bederman, Ph.D., Minnesota, 1973, Professor-cultural, Africa, poverty

Borden D. Dent, Ph.D., Clark, 1970, Professor-map design, cartography, urban

Frank Drago, M.A., Georgia State, 1976, Staff Cartographer

Truman A. Hartshorn, Ph.D., Iowa, 1968, Professor and Chairman-urban, transportation, American cities

L. Hugh Hutchinson, M.Ed., Georgia State, 1975, Assistant Professor and Assistant Dean, College of Urban and Public Affairs—meteorology, climatology

Malcolm A. Murray, Ph.D., Syracuse, 1955, Professor-population, energy, medical

Richard Pillsbury, Ph.D., Pennsylvania State, 1968, Associate Professor-historical-urban, social

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Campana, Joanna. "Spatial Distribution of Occupational Classes in Third World Cities: A Select Annotated Bibliography, 1960-1977," 1980.

Dillard, Claudette. "West End: Population and Commercial Changes, 1960-1980," 1981.

Norman, David. "The New Kid on the Block: UDAG," 1980.

University of Georgia

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1946 GRADUATE PROGRAM FOUNDED: 1951

DEGREES OFFERED: M.A., Ph.D., M.Ed., Ed.D.

GRANTED 7/1/80–6/30/81: 6 Masters, 2 Doctoral

GRADUATE STUDENTS IN RESIDENCE: 33 Masters 11 Ph.D.
NOT IN RESIDENCE: 9 Masters 6 Ph.D.

HEAD: James O. Wheeler

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chair, Graduate Studies Committee, Department of Geography, University of Georgia, Athens, Georgia 30602
Telphone (404) 542-2856

PROGRAMS AND RESEARCH FACILITIES: Work is offered in human, physical, and regional geography and in the various techniques used in geography. A considerable degree of latitude is allowed students in designing their programs of study. A student may concentrate in one aspect of geography or strive for understanding in two or more divisions. All students develop research and organizational skills by completing a thesis or dissertation. The M.Ed. and Ed.D. degrees with a concentration in geography are awarded in conjunction with the College of Education. Students interested in geographic education should correspond directly with the Head, Department of Social Science Education, University of Georgia, Athens, Georgia 30602.

The Department of Geography is housed in a modern, air-conditioned building which provides well equipped teaching and research accommodations including cartographic, climatic, photo interpretation, photogrammetric, and remote sensing equipment and laboratories. The department has a broad range of computer and related facilities such as Teletype and video display, remote terminals, keypunch, digitizer, interactive computer graphics systems, program library, and many kinds of calculating machines. Photographic and darkroom facilities, individual student carrels, research rooms, a rooftop weather station, field vehicles and equipment combine to make the department a stimulating place in which to study. Located in the same building is the Cartographic Services Laboratory which assists faculty and student research efforts.

The University's library holdings, particularly in geography, are extensive. Approximately 260,000 sheet maps and over 140,000 aerial photos are maintained in the nearby Science Library. The Computer Center operates one of the largest and most advanced computer facilities in the U.S., including the IBM 370/158, CYBER and Calcomp 900/1136 Plotter.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Graduates of any accredited institution are eligible to apply for admission to the

University's Graduate School. All correspondence concerning admission should be directed to the Department of Geography. Upon receipt of all required admission materials, the department's Graduate Studies committee will evaluate the application. A $10.00 application fee is required, payable if the comitte recommends admission. This fee is non-refundable. Normally graduate students are admitted to initiate their course work in the fall quarter, though exceptions are sometimes made. Whenever possible, prospective students should file completed applications no later than February 15 for admission in the following fall quarter.

Applicants should normally have had a "B" or higher undergraduate grade average and at least 1000 on the Aptitude Test of the Graduate Record Examination or its equivalent on the Miller Analogies Test.

Foreign language requirements are flexible for both the M.A. and Ph.D. programs at Georgia. For the Ph.D., the Department of Geography requires either a reading knowledge of two languages, one of which will be either French, German, or Russian; or an advanced knowledge (including conversational ability) in one language; or reading knowledge of one language plus an advanced knowledge of an acceptable alternative research tool (statistics, mathematics, computer programming). For the M.A., reading knowledge of one foreign language or an acceptable alternative research tool is required.

Financial assistance is often available. Departmental assistantships are generally awarded for the nine-month academic year, contingent upon satisfactory performance and maintenance of a satisfactory (B or better) academic record. These assistantships pay $4577-4890 to $6103-6520, plus out-of-state tuition, and require one-third time work (13 hours per week). Up to 25 such appointments are made annually. Graduate School Assistantships pay $4577-4890 for nine-month appointments and $6103-6520 for twelve-month appointments plus out-of-state tuition, and require one-third time work. Recipients are selected from applicants from all University departments on a competitive basis. Recipients are employed in research or as assistants to faculty members. The Atlantic Steel Company annually provides funds that are used to support dissertation and thesis research in economic geography. Support through funded research projects is occasionally available. The University of Georgia operates on the academic quarter plan with three quarters constituting an academic year. Summer sessions are also held. Normally the department sponsors deserving graduate students for at least two years in an M.A. program and three years in a Ph.D. program.

STAFF:

Masamu Aniya, Ph.D., Georgia, 1975, Temporary Assistant Professor—cartography, photogrammetry, remote sensing

Joseph W. Bencloski, Ph.D., Pennsylvania State, 1976, Temporary Assistant Professor—population, cultural, Anglo-America

**William H. Berentsen, Ph.D., Ohio State, 1976, Assistant Professor*—development, transportation, East Europe and U.S.S.R., quantitative methods

Elgene O. Box, Ph.D., North Carolina, Chapel Hill, 1978, Assistant Professor—biogeography, climatology, soils and environmental studies

**George A. Brook, Ph.D., McMaster, 1976, Associate Professor*—geomorphology, Africa

**Louis De Vorsey, Ph.D., London, 1965, Professor*—historical

**James S. Fisher, Ph.D., Georgia, 1967, Associate Professor*—North America, economic, methodology

R. James Heyl, Ph.D., Illinois, 1962, Associate Professor—transportation, recreation, industrial

**Don R. Hoy, Ph.D., Illinois, 1960, Professor*—Latin America, economic

**James B. Kenyon, Ph.D., Chicago, 1960, Associate Professor*—urban, manufacturing, transportation, planning

**Vernon G. Meentemeyer, Ph.D., Southern Illinois, 1971, Associate Professor*—physical, climatology, microclimatology

Ronald L. Mitchelson, Ph.D., Ohio State, 1979, Assistant Professor—transportation, quantitative methods

**Clifton W. Pannell, Ph.D., Chicago, 1971, Professor*—East Asia, urban and regional systems, political

Albert J. Parker, Ph.D., Wisconsin, 1980, Assistant Professor—biogeography, climatology

**Merle C. Prunty, Ph.D., Clark, 1944, Alumni Foundation Distinguished Professor*—economic, Anglo-America, land utilization and settlement, U.S. South

Philip W. Suckling, Ph.D., British Columbia, 1977, Assistant Professor—solar radiation climatology, energy balance microclimatology

**Roy A. Welch, Ph.D., Glasgow, 1968, Research Professor*—remote sensing, photogrammetry, glacial geomorphology

**James O. Wheeler, Ph.D., Indiana, 1966, Professor and Head*—transportation, manufacturing, urban

*Members of Graduate Faculty who serve as Ph.D. Advisory Committee Chairmen.

EMERITUS FACULTY:

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1920 GRADUATE PROGRAM FOUNDED: 1931

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80-6/30/81: 7 M.A., 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 28 M.A. 18 Ph.D.
NOT IN RESIDENCE: 12 M.A. 3 Ph.D.

CHAIRMAN: Roland J. Fuchs

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman, Graduate Admissions Committee, Department of Geography, 2424 Maile Way, University of Hawaii at Manoa, Honolulu, Hawaii 96822
Telephone (808) 948-8465

PROGRAMS AND RESEARCH FACILITIES: In conjunction with other departments and research institutes affiliated with the University of Hawaii, the Geography Department offers programs of graduate study and research leading to the M.A. and Ph.D. degrees. Faculty interests and supporting strengths of the University provide advantages for the study of the following general topics: environmental studies and policies; resource systems; population, urbanization and regional development; cartography, remote sensing and computer applications; Pacific and Asian regional problems.

The Department is housed in a new Social Science building; departmental quarters provide graduate students with desk space and common facilities. Graduate students also have access to modern cartographic and data processing facilities (IBM 7040-1401 system and IBM 360-65 system). Research on topics of departmental specialization is backed by strong collections in several libraries. These include the University libraries, the Bishop Museum Library, the Hawaiian Sugar Planters' Association Library, and the East-West Center collections.

The M.A. program requires a core program of seminars, 15 credits in the field of specialization, an oral examination, and a thesis research paper.

Ph.D. requirements include a seminar on the history of geographic thought, a 30-credit major and 15-credit minor field of specialization, competence in one language plus an approved sequence of advanced courses in research techniques. The candidate must pass written and oral comprehensive examinations and submit a dissertation which is usually based on field work.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester System. Admission to the M.A. program generally requires a minimum grade point average of B (3.00 on a four-point scale) during the junior and senior years. Admission to the Ph.D. program requires a superior record in graduate work and promise of research ability. Both M.A. and Ph.D. applicants must submit transcripts, GRE results (aptitude tests only), and letters of appraisal from three referees. Available financial aids include teaching assistantships with stipends beginning at $5360 with remission of tuition, research assistantships, tuition remission awards, and NDEA (title VI) fellowships. In addition, attention is called to East-West Center Scholarships which are available to Americans studying Asian or Pacific topics, as well as students from Asian or Pacific countries. The grants include travel to and from Hawaii, tuition, books, food, lodging and a personal allowance. If academic requirements have been met, American students may be eligible for a research period in the Asian or Pacific regions. The deadlines for application for assistantships are March 1 and September 1, and for East-West Center Scholarships, December 1.

FACULTY:

R. Warwick Armstrong, Ph.D., Illinois, 1963, Professor—public health and human ecology, medical geography

Jen-hu Chang, Ph.D., Clark, 1954, Professor—climatology, agriculture, China

Sen-dou Chang, Ph.D., Washington, 1961, Professor—China, cartography

Murray Chapman, Ph.D., Washington, 1970, Professor—population (mobility), field methods, Melanesia

Willard T. Chow, Ph.D., UC, Berkeley, 1974, Associate Professor—urban, social

Donald W. Fryer, Ph.D., London, 1958, Professor—economic development, Southeast Asia

Roland J. Fuchs, Ph.D., Clark, 1959, Professor—urbanization and population distribution policies, regional development, U.S.S.R. and Asia

Gary A. Fuller, Ph.D., Pennsylvania State, 1972, Associate Professor—population (fertility, policy aspects, diffusion), geography of prophylaxis

David H. Kornhauser, Ph.D., Michigan, 1956, Professor—urbanization and impact of technological change, Japan

Nancy D. Lewis, Ph.D., UC, Berkeley, 1981, Assistant Professor—medical geography, marine resources, Pacific

Brian J. Murton, Ph.D., Minnesota, 1970, Professor—folk-historical geography, peasant agrarian societies, tropical agriculture, South Asia

Peter N. D. Pirie, Ph.D., Australian National, 1964, Professor—population-resource interrelations and management, Pacific

Forrest R. Pitts, Ph.D., Michigan, 1955, Professor—social, cultural, computer applications, Korea and Japan

John M. Street, Ph.D., UC, Berkeley, 1960, Professor—tropical biogeography and agricultural geography, modification of biosphere

Lyndon L. Wester, Ph.D., UCLA, 1975, Assistant Professor—plant geography, Quaternary geography, man-plant relationships

Everett A. Wingert, Ph.D., Washington, 1973, Associate Professor—cartography, remote sensing

PART-TIME FACULTY:

Bryce G. Decker, Ph.D., UC, Berkeley, 1970—biogeography, Pacific

Joseph R. Morgan, Ph.D., Hawaii, 1978—marine geography

Patrick W. Naughton, Ph.D., West Indies, 1977—hazard assessments

ADJUNCT AND AFFILIATE FACULTY:

John E. Bardach, Ph.D., Wisconsin, 1949—marine and aquatic resources

Kent Bridges, Ph.D., UC, Irvine, 1970—computer cartography

Harrison E. Brown, Ph.D., Johns Hopkins, 1941—resource systems

Fereidun Fesharaki, Ph.D., Surrey, 1974—energy resources

Juanita Liu, Ph.D., Simon Fraser, 1979—tourism, regional development

Fu-chen Lo, Ph.D., Pennsylvania, 1968—regional development and planning

Abraham Piianaia, B.A., Hawaii, 1953—Hawaii, Pacific

Paul J. Schwind, Ph.D., Chicago, 1970—land use and regional planning

Kirk R. Smith, Ph.D., UC, Berkeley, 1977—energy, environmental health

Andrew N. White, Ph.D., Pennsylvania, 1976—health and public facility location

VISITING FACULTY:

Ronald D. Hill, Ph.D., Singapore, 1974—agriculture and land use (Spring)

Graeme J. Hugo, Ph.D., Australian National, 1975—population and mobility studies (Fall)

Daniel B. Luten, Ph.D., UC, Berkeley, 1933—environmental conservation (Fall)

Lisle S. Mitchell, Ph.D., Ohio State, 1967—urban and recreation geography (Fall)

Henry J. Steward, Ph.D., Wales, 1972—cartography (Fall)

Songqiao Zhao, Ph.D., Clark, 1948—physical geography and China (Fall)

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Lee, Jeong Sik. "Development Strategies in a Lagging Region: The Case of Centralized Polarization in Korea," 1981.

Rockie, John D. "Image Evaluation of Landsat Data for Monitoring Change in Forest Vigor: The Ohia Rain Forest Decline on the Island of Hawaii," 1980.

Master's:

Bergman, Alan. "Tokyo's Public Bath Houses: A Study of Place," 1980.

Elliott, Margaret E. "Survey and Classification of Wetlands and Wetland Vegetation of the Hawaiian Islands," 1981.

Isaak, David H. "Transportation Energy Use in the OECD Countries," 1981.

Klasse, Dorothy F. "Satellite Imagery to Monitor Oasis Agriculture Within Turpan Depression, People's Republic of China," 1981.

Rotondo, Gary M. "A Reconstruction of Linear Island Chain Positions in the Pacific: A Case Study Using the Hawaiian-Emperor Chain," 1980.

Tagawa, Michael K. "A Modified Factorial Approach to the Assessment of Soil Organic Carbon Content," 1980.

University of Idaho

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1970 GRADUATE PROGRAM FOUNDED: 1965

DEGREES OFFERED: M.S., M.A.T.

GRANTED 7/1/80–6/30/81: 5

GRADUATE STUDENTS IN RESIDENCE: 16
NOT IN RESIDENCE: 7

HEAD: Harley E. Johansen

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Jan Goetz, Secretary, Graduate Admissions, Department of Geography, University of Idaho, Moscow, Idaho 83843
Telephone (208) 885–6216

PROGRAMS AND RESEARCH FACILITIES: M.S. is a minimum 30-semester-credit program, thesis or non-thesis options, with final examination. M.A.T. is a 30-semester-credit non-thesis program with two options. If B.A. or B.S. degree is in geography, then M.A.T. is taken in Department of Education; if B.A. or B.S. in Education, then M.A.T. taken in Geography. Final examination required. No language requirement for M.S. or M.A.T.

Emphases are regional development, resource, and land management issues including local planning applications. The systematic and analytical perspective is stressed. Cartography, computer applications and "micro" and main computer experience is encouraged.

Administratively the Department is housed within the College of Mines and Earth Resources and the Department's programs are increasingly allied to the College's mission to serve the Northwest and the Nation as a professional source of research and education with respect to resource issues, in particular as regards minerals.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: (Semester System). Admission requires minimum grade point of 2.4 overall, letters of recommendation from three professors and/or job supervisors evaluating applicant's ability to pursue graduate studies. Transcripts of all academic experience and General Graduate Record Examination required. Undergraduate program need not be in geography. Part-time teaching assistantships and other aid available.

FACULTY:

Harry H. Caldwell, Ph.D., Clark, 1951, Professor—political, recreation, economic, land use planning, Asia
Richard L. Day, Ph.D., Illinois, 1959, Associate Professor—weather and climate, Pacific Northwest, rail passenger transportation

Alan A. DeLucia, Ph.D., Washington, 1974, Professor and Director, Cart-O-Graphics Laboratory—cartography, air photo interpretation and remote sensing

John F. Hultquist, Ph.D., Iowa, 1972, Associate Professor—regional development, geographic methodology, values and behavior in relation to the spatial organization of society, quantitative methods (on leave 1981-82)

Nancy B. Hultquist, M.A., Cincinnati, 1967, A.B.D., Iowa, Assistant Professor, half time—computer mapping and graphics, man-environment interaction, quantitative and computer methods

Harley E. Johansen, Ph.D., Wisconsin, 1973, Professor and Head—economic, population, settlement and diffusion, rural development

O. Paul Matthews, J.D., Idaho, 1975, Ph.D., Washington, 1980, Assistant Professor—legal aspects of land and resource regulation, mineral law and mining regulation, political

Sam M. W. Scripter, Ph.D., Wisconsin, 1967, Professor and Associate Dean of the College of Mines & Earth Resources—computer applications, local and regional planning, geographical information systems, transportation

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Allen, Gale Eugene. "The 1976 Local Public Works Act: Analysis of the Funding Approach," 1981.

McFeeley, Sarah A. "The Spatial Distribution of Churches in Rural Latah County, Idaho, 1870-1980," 1980.

Plumb, Gregory A. "Mapping the Potential Vegetation of the Palouse Range, Idaho and Adjacent Areas," 1981.

Illinois State University

DEPARTMENT OF GEOGRAPHY-GEOLOGY

DATE FOUNDED: 1900 GRADUATE PROGRAM FOUNDED: 1945

DEGREES OFFERED: M.A., M.S.

GRANTED 7/1/80-6/30/81: 4

GRADUATE STUDENTS IN RESIDENCE: 10
NOT IN RESIDENCE: 2

CHAIRPERSON: Michael D. Sublett

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Michael D. Sublett, Department of Geography-Geology, Illinois State University, Normal, Illinois 61761
Telephone (309) 436-7649

PROGRAMS AND RESEARCH FACILITIES: Program fields available to graduate students which correspond to faculty interest and expertise include: physical geography, cartography, remote sensing, urban-economic geography, rural land use, historical-cultural geography, and resource management. Most faculty also have regional strengths, and many have done intensive foreign area, national, or local field work.

Illinois State University has a superlative map collection housed in the new University Library. The Library's holdings of more than 800,000 volumes are supplemented by the 3,000,000 volume collection of the Center for Research Libraries and by a courier service to the University of Illinois Library. The University Computer Services has programming and statistical consulting services available to students engaged in quantitative research. Computer Services also maintains a 30-inch Calcomp digital plotter. A digitizer and keypunch facility are housed in the Department, and a large library of spatially oriented programs, including GRID, POLYVRT, SYMAP, SYMVU, and CALFORM, are also available. The University and Department both maintain weather observation stations. The Department has a modern photographic darkroom and large stream table for student use.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Illinois State University admits persons to master's degree programs on the basis of academic record and other criteria. All students seeking admission to the master's degree program in geography must submit scores on the Aptitude Test of the Graduate Record Examination.

Graduate assistantships and various loans and scholarships are available to qualified students. Illinois State University operates on a semester system.

GEOGRAPHY STAFF:

George Aspbury, Ph.D., Michigan, 1975, Assistant Professor—computer cartography, quantitative methods, regional economic development

Michael L. Barnhardt, Ph.D., Illinois, 1979, Assistant Professor—geomorphology, soils, Quaternary research

Norman C. Bettis, Ph.D., Michigan State, 1974, Associate Professor (adjunct)—geographic education

Wesley C. Calef, Ph.D., Chicago, 1948, Professor—resource management, physical

Eric S. Johnson, Ph.D., Kansas, 1968, Assistant Professor—conservation, meteorology, economic

Donald E. Luman, Ph.D., Illinois, 1978, Assistant Professor—cartography, quantitative geomorphology, aerial photo interpretation

Paul F. Mattingly, Ph.D., Pennsylvania State, 1961, Professor—urban, land use, planning

E. Joan Miller, Ph.D., North Carolina, 1965, Professor—cultural landscapes, geography in education, Northwestern Europe, United States

James E. Patterson, Ph.D., Illinois, 1958, Professor—resource management, field geography, physical, Illinois, United States

Else T. A. Schmidt, Ph.D., Munich, 1959, Professor—Common Market land use planning, Europe, Africa, Middle East

Stanley B. Shuman, Ph.D., Illinois, 1957, Professor—physical, Australia and Pacific

Michael D. Sublett, Ph.D., Chicago, 1974, Associate Professor and Chairperson—rural, applied, Illinois

William D. Walters, Jr., Ph.D., Indiana, 1974, Associate Professor—historical, historic preservation

GEOLOGY STAFF:

Richard Hart, Ph.D., Iowa, 1961, Associate Professor—micropaleontology, oceanography

James Kirchner, Ph.D., Iowa, 1969, Associate Professor—mineralogy, igneous petrology, field geology

Edwin Morse, M.S., Wayne State, 1970, Instructor—groundwater, engineering geology

Robert Nelson, Ph.D., Iowa, 1970, Associate Professor—structural geology, Quaternary research, geomorphology

Thomas Searight, Ph.D., Illinois, 1959, Professor—sedimentation, stratigraphy, field geology, fuels

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Doolen, Ann. "Air Charter Service in Central Illinois: A Hinterland Analysis," 1980.*

Gumbs, Howard Emile. "Problems of Increasing Agricultural Production on St. Thomas, United States' Virgin Islands," 1981.*

Yong, Richard Sin Fat. "Map and Graph Reading Competencies Among Selected Sixth-Grade Students, Inservice, and Preservice Teachers," 1981.

University of Illinois

DATE FOUNDED: 1945 GRADUATE PROGRAM FOUNDED: 1950

DEGREES OFFERED: M.A., M.S., Ph.D.

GRANTED 7/1/80–6/30/81: 13 Masters, 3 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 17 Masters 23 Ph.D.
NOT IN RESIDENCE: 0 Masters 2 Ph.D.

HEAD: Arthur Getis

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Professor Arthur Getis, Head, Department of Geography, University of Illinois, 607 South Mathews, Urbana, Illinois 61801
Telephone (217) 333-1880

PROGRAMS AND RESEARCH FACILITIES: Programs of graduate study at the University of Illinois may be classified into five broad fields with specialization in a variety of interest areas. *Economic Geography* and *Regional Science* including: Urban and Regional Analysis, Industrial Location, Regional Economic Development, Resources Utilization, Transportation, and Public Policy Evaluation. *Historical Geography:* Analysis of historic landscapes, including: Historic Preservation, Morphology of U.S. Cities, Cultural Landscape Evolution, and the Perception of Past Landscapes. *Geomorphology:* Periglacial, Quaternary studies, coastal. Other interest areas include: Climate, Soils and Biogeography. *Social Geography:* Geographic aspects of social processes and patterns, including: Cognition, Communications/Diffusion, Migration, Voting Behavior, Ethnic and Racial Minorities, Urban Residential Patterns, and Urban Pathologies. *Technical Master's* including: Remote Sensing and Cartography.

Departmental facilities include the Spatial Data Analysis Laboratory as well as cartographic and soils laboratories, a diffractometer and spectrometer, and computer terminals. Other research facilities include a library which is the largest publicly supported university library in the United States, a Map and Geography Library containing an excellent collection of monographs and journals and one of the largest map collections in the country, the Social Science Quantitative Laboratory, and large multiple component computing and graphics systems.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester System. Minimum standard for admission to the Masters program is a B average, higher for the Ph.D. program. Teaching assistantships, research assistantships and fellowships are available. Currently, one-half time appointments for assistants carry a stipend of about $4600 plus remission of tuition. Nearly all resident graduate students are supported by fellowships, scholarships and assistantships.

FACULTY:

Charles S. Alexander, Ph.D., UC, Berkeley, 1955, Professor—geomorphology (particularly coastal), ecology, field methods, Quaternary and Caribbean studies

James A. Bier, M.S., Illinois, 1955, Instructor—thematic cartography, map production

Marilyn A. Brown, Ph.D., Ohio State, 1977, Assistant Professor—environmental cognition, innovation diffusion, contemporary urban ecology

James E. Burt, Ph.D., 1980, UCLA, Assistant Professor—climatology, hydrology, quantitative analysis

Jerome D. Fellmann, Ph.D., Chicago, 1950, Professor—urban, historical, bibliographic techniques, U.S.S.R.

Thomas D. Frank, Ph.D. Utah, 1979, Assistant Professor—remote sensing, computer cartography

Arthur Getis, Ph.D., Washington, 1961, Professor and Head —settlement theory, spatial patterns, urban analysis

Geoffrey J.D. Hewings, Ph.D., Washington, 1969, Associate Professor—transportation, regional development, methods of urban and regional analysis

James O. Huff, Ph.D., Northwestern, 1973, Associate Professor—urban geography, population redistribution, central place theory, mathematical structures

John A. Jakle, Ph.D., Indiana, 1967, Associate Professor—historical and social geography

Donald L. Johnson, Ph.D., Kansas, 1972, Associate Professor—geomorphology, zoogeography, soils, paleoecology, Quaternary studies

John V. O'Loughlin, Ph.D., Pennsylvania State, 1973, Associate Professor—urban, political, social, Europe

Howard G. Roepke, Ph.D., Northwestern, 1953, Professor—industrial location manufacturing, economic development, resource management

Curtis C. Roseman, Ph.D., Iowa, 1969, Associate Professor—social, migration, quantitative

John Thompson, Ph.D., Stanford, 1958, Professor—cultural, historical, Latin America

Colin E. Thorn, Ph.D., Colorado, 1974, Associate Professor—periglacial geomorphology, Quaternary studies, geomorphic paradigms

AFFILIATED FACULTY:

David E. Boyce, Ph.D. (Regional Science), Pennsylvania, 1966, Professor—transportation models and methods, urban location and transportation

Stanley Changnon, M.S., Illinois, 1956, Professor and Chief, Illinois Water Survey—meteorology, climatology

David A. Cobb, M.S. (Library Science), Indiana, 1973, Associate Professor—Map and Geography Librarian

Bruce M. Hannon, Ph.D., Illinois, 1970, Associate Professor—energy use and conservation, environmental planning

William P. Lowry, Ph.D., Oregon State, 1962, Professor—meteorology, climatology, environmental planning

Demitri B. Shimkin, Ph.D., Berkeley, 1939, Professor—public health, human ecology, North America, Siberia

Frank Southworth, Ph.D., Leeds, 1977, Assistant Professor—transportation modeling

Wayne M. Wendland, Ph.D., Wisconsin, 1972, Associate Professor—climatology, meteorology, paleoclimatology

TITLES OF DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Cohen, Stewart. "Climatic Influences on Residential Energy Consumption," 1981. Mf., Univ. Microfilms.

Hansel, Ardith. "Sinkhole Form as an Indicator of Process in Karst Landscape Evolution," 1980. Mf., Univ. Microfilms.

Reynarsson, Bjarni. "Residential Mobility, Life Cycle States, Housing and the Changing Social Patterns in Reykjavik, 1974 to 1976," 1980. Mf., Univ. Microfilms.

University of Illinois at Chicago Circle

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1964 **GRADUATE PROGRAM FOUNDED: 1972**

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 2

GRADUATE STUDENTS IN RESIDENCE: 16
NOT IN RESIDENCE: 6

HEAD: Silm Sööt

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Douglas B. Carter, Director of Graduate Studies, Department of Geography, P.O. Box 4348, University of Illinois at Chicago Circle, Chicago, Illinois 60680
Telephone (312) 996-3112

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography offers an M.A. in Environmental Studies and Urban Geography. The program reflects the premise that geography is a spatial science which is concerned with people's relationship with the social, economic and physical environment. Although the graduate curriculum is tailored to the special needs of each student many choose from established curricula such as environmental behavior, environmental management, industrial and commercial development, transportation, and environmental impact of urbanization. Furthermore, student curricula can take advantage of the Geography faculty's affiliations with the Energy Resources Center, Urban System Laboratory, School of Urban Sciences and the School of Public Health (at the Medical Center). Many students also avail themselves of the employment opportunities and training capabilities of the department's Chicago Area Geographical Information Study (CAGIS Laboratory), a division of the department specializing in the development and management of information systems and data banks.

The Department of Geography is located in the Behavioral Science Building, which also houses a remote computer terminal room with a highspeed printer, numerous interactive terminals, and a full time consultant. Additionally the department has two computer terminals, an Auto-Trol 3900 (4' x 6') Digitizer, a keypunch, a fully equipped dark room, a complete line of cartographic equipment and several specialized teaching laboratories.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The department, operating on the quarter academic system—with 8 week summer quarters—offers a large number of teaching and research assistantships. These assistantships carry tuition and fee waivers, although some tuition-only waivers are also available. Opportunities for part-time professional employment also exist in the Chicago area. The department welcomes students who wish to pursue work toward a master's degree in Geography while maintaining their employment.

Students may be admitted to UICC at the beginning of each quarter. Students desiring financial aid are encouraged to submit their completed applications before March 1, when most assistantships and tuition and fee waivers for the following academic year are awarded. Late applications may also be eligible for financial aid including aid from other academic units on campus. Requests for further information and applications for admission and financial aid should be addressed to the Director of Graduate Studies.

STAFF:

Lyndon R. Babcock, Ph.D., University of Washington, Director, Environmental Health, University of Illinois Medical Center—environmental quality, pollution studies and policy

James B. Blaut, Ph.D., Louisiana State—cultural, behavioral, geographic learning, history and philosophy, peasant agriculture, Latin America

Raymond M. Brod, M.A., Northeastern Illinois, Cartographer, UICC Cartographic Laboratory

Douglas B. Carter, Ph.D., Washington, Director of Graduate Studies—climatology, surface environmental conditions, biogeography, North America

Alden S. Cutshall, Ph.D., Ohio State (Emeritus)—regional development, Asia

Edwin H. Draine, Ph.D., Chicago—environment and resource management and policy, economic, Soviet Union

Gary L. Fowler, Ph.D., Syracuse, Associate Director, Energy Resources Center—behavioral, regional development and migration, energy studies and policy, North Africa and the Middle East

Bruce G. Gladfelter, Ph.D., Chicago—geomorphology, geoarcheology, paleogeography and environmental studies (joint appointment with Anthropology)

James E. Landing, Ph.D., Pennsylvania State—cultural, religious, historical, teaching of geography, North America (joint appointment with Religious Studies)

Albert J. Larson, Ph.D., Nebraska—historical, cultural, rural environments and settlement, cartography, North America, Europe

David A. Merrill, M.A., Illinois at Chicago Circle, Director of Research, Chicago Area Geographic Information Study

Ross M. Mullner, Ph.D., Illinois at Chicago Circle—health care systems (joint appointment with Epidemiology, Medical Center)

David M. Solzman, Ph.D., Chicago—urban, urban environments, economic, philosophy of the landscape

Siim Sööt, Ph.D., Washington, Department Head—transportation, economic, quantitative methods, computer cartography, Soviet Union, Europe

Edwin H. Thomas, Ph.D., Northwestern—geographic information systems, urban (joint appointment with Health Resources Management, Medical Center)

Clifford E. Tiedemann, Ph.D., Michigan State—economic, settlement and land use, pattern analysis, cartography (joint appointment with Environmental Health, Medical Center)

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Belenky, Daniel N. "A Piggyback Terminal Proposal for the Chicago Metropolitan Area," 1981.

Indiana State University

DEPARTMENT OF GEOGRAPHY AND GEOLOGY

DATE FOUNDED: 1893 GRADUATE PROGRAM FOUNDED: 1963

DEGREES OFFERED: M.A. in Geography, M.A. in Geology, M.A. in Earth Science, Ph.D. in Geography. Minors are available in appropriate number of fields.

GRANTED 7/1/80–6/30/81: 2 Masters, 3 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 16 Masters 12 Ph.D.
NOT IN RESIDENCE: 18 Masters 13 Ph.D.

CHAIRPERSON: Benjamin Moulton

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Benjamin Moulton, Chairperson, Department of Geography and Geology, Indiana State University, Terre Haute, Indiana 47809
Telephone (812) 232-6311

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography and Geology is housed in contemporary quarters with space and excellent facilities for research and laboratories. A staff cartographer is available. There are at present a map library, remote sensing laboratory, cartography laboratories, darkrooms, quantitative laboratory, graduate office space and preparation rooms. The department owns a bank of electronic calculators. For field work and research, three vans are available. An experiment station 16 miles away is suitable for soils study, mapping and field laboratory.

The University Library has a science library in the same building that houses the Department of Geography and Geology. The University acts as a depository for the Superintendent of Public Documents. The map library contains 160,000 maps and a growing aerial photo collection. A Control Data Corporation 171 computer and a Houston Instruments DP8 plotter are available for research through the Computer Center.

The remote sensing laboratory has state-of-art capabilities for machine-assisted processing of spectral data via a remote computer terminal to the Laboratory for Applications of Remote Sensing (LARS)/Purdue University. In addition this laboratory has a GOES weather satellite receiving station, Kelsh plotter, Numonics digitizer, zoom transfer scope, diazo image processing equipment, digital image display, and standard aerial photointerpretation equipment.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University operates on the semester system and has an active summer program of 10 weeks. Students requesting admission must complete application papers. All students must take the Graduate Record Examination. Transcripts and letters of reference must be submitted. Assistantships and Fellowships are available. The amount would depend upon qualifications. Holders of financial assistantships are exempted from tuition charges.

STAFF:

Donald W. Ash, Ph.D., SUNY Binghamton, 1979, Assistant Professor—hydrology, geomorphology

Byron K. Barton, Ph.D., Nebraska, 1949, Professor—regional research geography

Robert W. Bastian, Ph.D., Indiana, 1968, Professor—historical

William D. Brooks, Ed.D., Indiana, 1969, Professor—physical, cartography

Adelord J. Cantin, M.A., Iowa, 1957, Assistant Professor—physical

John H. Cleveland, Ph.D., Indiana, 1962, Professor—economic geology, petrology

Robert R. Drummond, Ph.D., Northwestern, 1953, Professor—urban, geomorphology

James L. Guernsey, Ph.D., Northwestern, 1957, Professor—land use, resource management

John C. Hook, Ph.D., Iowa, 1956, Professor—physical, astronomy, quantitative

Robert Howe, Ph.D., Wisconsin, 1968, Professor—paleontology, remote sensing

Robert Larson, Ph.D., Indiana, 1975, Assistant Professor—urban

Lois Latta, Ph.D., Illinois, 1959, Associate Professor—Anglo-America, Latin America

Paul Mausel, Ph.D., North Carolina, 1966, Professor—soils, remote sensing

John R. McGregor, Ph.D., Illinois, 1965, Professor—economic, industrial

Victor C. Miller, Ph.D., Columbia, 1953, Professor—geomorphology, photo interpretation

Benjamin Moulton, Ph.D., Indiana, 1950, Professor and Chairman—field geography, Anglo-America

John E. Oliver, Ph.D., Columbia, 1969, Professor—climatology, physical

Donald E. Owen, Ph.D., Wisconsin, 1963, Professor—paleontology, stratigraphy

Akhtar Siddiqi, Ph.D., London, 1964, Professor—Asia, economic

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Kingoriah, George. "Policy Impacts on Land Use Patterns in Nairobi, Kenya: 1899 to 1979," 1980.

Trapasso, Louis. "Cold Front Cloud Morphometry: A Climatological Assessment Using Satellite Imagery," 1980.

Wilkinson, Gary F. "Delineation of the Hierarchy of Nodal Regions Using Telephone Message Flows Within Selected Telephone Exchanges in Indiana," 1980.

Master's:

Badger, Carla. "The Reclamation of the Victory Mine Site, Vigo County, Indiana," 1980.

Stanley, Steven A. "Surface Characteristics of Geologic Materials and Their Relation to Topography, Halloran Springs Area, California Through Computer Processing of Multispectral Scanner Data," 1980.

Indiana University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1946 GRADUATE PROGRAM FOUNDED: 1946

DEGREES OFFERED: M.A., M.A.T., Ph.D.

GRANTED 7/1/80–6/30/81: 3 M.A., 2 M.A.T., 3 Ph.D.

GRADUATE STUDENTS IN RESIDENCE:15 M.A. 1 M.A.T. 18 Ph.D.
NOT IN RESIDENCE: 5 Ph.D.

CHAIRMAN: Robert N. Taaffe

FOR CATALOG AND FURTHER INFORMATION WRITE TO: John Odland, Director of Graduate Admissions, Department of Geography, Indiana University, Bloomington, Indiana 47405
Telephone (812) 337-6303

PROGRAMS AND RESEARCH FACILITIES: The M.A. and Ph.D. programs of the Geography Department are research-oriented degree programs in the science of geography. Courses in advanced quantitative methods in geography, research design, geographic theory, and models in geography constitute the core of study for both degrees.

Requirements for the M.A. degree: (1) completion of the core courses noted above; (2) completion of a Master's thesis or two research papers and 30 hours credit; (3) completion of a comprehensive examination covering the core courses and the student's research.

The Ph.D. degree involves (1) competence in research skills; (2) completion of an oral and written exam covering the student's major area of specialization within the department and his minor in a related department; and (3) completion of a Ph.D. dissertation.

The M.A.T. degree provides the skills and basic geographical knowledge necessary for teaching geography in secondary schools or junior colleges. Requirements for the M.A.T. degree are 36 credits, of which 30 must be graduate credit; no thesis is required.

Since 1979–80, the Geography Department and the School of Public and Environmental Affairs have offered a combined M.A.-M.S.E.S. program in environmental science and a new Ph.D. degree in Regional Analysis and Planning for students who are interested in careers in planning.

Research facilities include the Geography and Map Branch Library; cartographic, photogrammetric, and photographic equipment; and the Research Computing Center, which houses a CDC 6600 Computer system. The department contains a quantitative research laboratory with a terminal to the Computing Center, a Wang 2200B system, a CRT Plotter and Typewriter, and a Stacor digitizer.

The Department works very closely with several other divisions of the University including the School of Public and Environmental Affairs, the Water Resources

Research Center, the Russian and East European Institute, and the Department of East Asian Languages and Cultures.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University is on the semester system. Admission to the M.A. program requires an undergraduate major in geography or its equivalent. The Ph.D. program requires an M.A. in geography from Indiana or its equivalent. Academic year financial awards include NDEA, Title IV; National Science Foundation Fellowships; University Fellowships; graduate teaching assistantships ($3800 and over for 10 months). The Department also awards a fairly large number of Departmental Fee Remission Awards which will pay all fees up to 12 hours credit, except for allocated fees which are currently $78 per semester. For an out-of-state student, the combined assistantship and fee-remission represents an award of over $6000. Assistants may carry up to 12 hours of graduate credit per semester and are expected to work 20 hours per week for the Department. Also available are Graduate Fee Remission Scholarships, Dissertation Year Fellowships ($2000 to $3600), and Doctoral Student Grant-in-Aid awards. Applications for the 1982–83 academic year should be received by March 1, 1982. Notification of awards will be made by April 1. Many graduate students also serve as research assistants on externally funded research projects.

STAFF:

Thomas F. Barton, Ph.D., Nebraska, 1935, Professor Emeritus—urban, conservation, Southeast Asia

Don C. Bennett, Ph.D., Syracuse, 1957, Associate Professor—cultural, urban, Southeast Asia

William R. Black, Ph.D., Iowa, 1969, Professor—economic, transportation, quantitative methods

Dennis Conway, Ph.D., Texas, 1976, Assistant Professor—migration, urban

A. Stewart Fotheringham, Ph.D., McMaster, 1980, Assistant Professor—spatial interaction models, transportation, quantitative

Charles E. Greer, Ph.D., Washington, 1975, Assistant Professor—China, resource management

Kingsley E. Haynes, Ph.D., Johns Hopkins, 1971, Professor and Director, Center for Urban and Regional Analysis—economic, location theory, geographical methodology

John M. Hollingsworth, M.S., Indiana, 1970, Lecturer and Departmental Cartographer

Robert C. Kingsbury, A.M., Kansas, 1951, Associate Professor—cartography, aerial photography, South Asia

David B. MacKay, Ph.D., Northwestern, 1971, Associate Professor of Marketing and Geography—spatial consumer behavior, cognitive mapping

Theodore K. Miller, Ph.D., Northwestern, 1971, Associate Professor and Associate Director, Center for Urban and Regional Analysis—urban, fluvial, quantitative

John Odland, Ph.D., Ohio State, 1972, Professor—urban, quantitative methods, mathematical models

Greg A. Olyphant, Ph.D., Iowa, 1979, Assistant Professor—geomorphology, mathematical models, Arctic

Lawrence Onesti, Ph.D., Wisconsin, 1973, Associate Professor—fluvial geomorphology, Arctic

Rickie Sanders, Ph.D., Ohio State, 1980, Assistant Professor—migration, urban, sub-Saharan Africa

Daniel Seldin, M.L.S., Maryland, 1973, Geography and Map Librarian

Robert N. Taaffe, Ph.D., Chicago, 1959, Professor—economic, transportation, urban, U.S.S.R. and Eastern Europe

Ernest H. Wohlenberg, Ph.D., Washington, 1970, Associate Professor—economic, natural resources, economic development

ASSOCIATED PROFESSORS IN OTHER DEPARTMENTS:

David F. Parkhurst, Ph.D., Wisconsin, 1970, Associate Professor, Public and Environmental Affairs—plant geography

James C. Randolph, Ph.D., Carleton, 1972, Associate Professor, Public and Environmental Affairs—zoology-ecology

George M. Smerk, D.B.A., Indiana, 1963, Professor of Transportation—urban transportation

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Abolkhair, Yahya Mohammed. "Sand Encroachment by Wind in Al-Hasa of Saudi Arabia," 1981.

Sharma, Kamal Kishore. "Spatial Aspects of Modernization and Crime in Rajasthan (India)," 1980.

Master's:

Osborne, John Richard. "A Scaling Model of Human Impact in Wilderness-Like Areas," 1980.

IUP—Indiana University of Pennsylvania

DEPARTMENT OF GEOGRAPHY AND REGIONAL PLANNING

DATE FOUNDED: 1930's GRADUATE PROGRAM FOUNDED: 1960

DEGREES OFFERED: M.A., M.S., M.Ed.

GRANTED 7/1/80–6/30/81: 2 M.A., 2 M.S.

GRADUATE STUDENTS IN RESIDENCE: 8

CHAIRPERSON: Ruth I. Shirey

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairperson, Department of Geography and Regional Planning, IUP, Indiana, Pennsylvania 15705
Telephone (412) 357-2250

PROGRAMS AND RESEARCH FACILITIES: The M.A. and M.S. programs at IUP provide a common core of course work in geographic philosophy, research, and techniques. The M.S. student must elect a concentration in regional development, regional planning, or cartography while the M.A. student is free to custom design his or her program. Thesis and non-thesis options are available.

The department occupies the ground floor of Leonard Hall. Facilities include the cartography and computer labs, a reading room and map library and graduate student offices.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Applicants must have Bachelor's degree with 2.6 QPA, satisfactory score on GRE, and satisfactory recommendations.

Graduate assistantships available. Full-time students interested in appointments for the academic year should request applications from the Dean of the Graduate School prior to February 1.

STAFF:

Donald J. Ballas, Ph.D., Nebraska, Professor—cultural, historical, Africa

Noland R. Heiden, Ph.D., Michigan, A.I.C.P., Associate Professor—planning

Gopal S. Kulkarni, Ph.D., Pittsburgh, Professor—urban, economic, Asia

Vincent P. Miller, Jr., Ph.D., Michigan State, Professor—political, Europe, regional development

James E. Payne, M.A., North Carolina, Professor—cartography, map and photo interpretation, remote sensing

Ruth Shirey, Ph.D., Tennessee, Professor—Latin America, energy, industrial

Leonard P. Tepper, Ph.D., Pittsburgh, Professor—research methods, population, economic

Charles E. Weber, Ed.D., Columbia, Professor— conservation, Asia, land use

Maurice M. Zacur, Ed.D., Pennsylvania State, Professor—geographic education, Pennsylvania

The University of Iowa

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1946 GRADUATE PROGRAM FOUNDED: 1946

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 6 M.A., 3 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 12 M.A. 17 Ph.D.
NOT IN RESIDENCE: 1 M.A. 6 Ph.D.

CHAIRMAN: James B. Lindberg

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Rex Honey, Graduate Admissions Coordinator, The University of Iowa, Iowa City, Iowa 52242 Telephone (319) 353-3131

PROGRAMS AND RESEARCH FACILITIES: The Iowa Ph.D. program has long held a reputation for excellence in quantitative geographical analysis. Research encompasses both current policy issues and longer-range theoretical concerns. Areas of specialization include:

- ecosystems analysis
- environmental policy, energy, and water resources
- locational analysis of political, economic, and social processes
- medical geography
- regional growth and international development
- transportation planning and policy analysis.

An applied Master's Program has been designed to provide special training for students interested in non-academic careers. Graduates of the program are prepared for positions with private firms or governmental agencies involved in market analysis, urban and transportation analysis, land development, environmental impact studies, resource evaluation, health services planning, and related areas.

The faculty strives to maintain an atmosphere in which each student can attain not only the intellectual rigor growing out of close student-faculty research interests, but also the excitement of truly independent creativity.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: In determining the admission of a student to its graduate program, the department considers the total record of each student individually, including: (1) undergraduate grade point average (admitted on condition if GPA is below 2.75); (2) scores on the Graduate Record Examination Aptitude Test (applicants for assistantships must submit GRE scores of 1100 on verbal and quantitative examinations combined); (3) at least three letters of recommendation; (4) an essay in which the applicant sets forth the reasons for wanting to continue the study of geography at the University of Iowa.

Regular departmental Teaching and Research Assistantships carry stipends upwards from $5600 for the two semester academic year. Also available are a limited number of Teaching and Research Fellowships which provide stipends of at least $7000 for year-round support, plus full tuition scholarships for up to four years. Funded projects also provide for research assistants. Of 31 full-time students in 1980-1981, 87 percent received funding from University or government sources.

The 1981-82 tuition rate for in-state graduate students is $1,080 for the academic year. Out-of-state students pay $1,243. All teaching and research assistants are charged at in-state rates. Deadline for applicants who wish to be considered in the initial round of financial aid awards is February 15.

STAFF:

John W. Fuller, Ph.D., Washington State, 1968, Professor (joint with Urban and Regional Planning and Economics) and Director of the Institute of Urban and

Regional Research—transportation and policy analysis

Rex Honey, Ph.D., Minnesota, 1972, Associate Professor—political geography, urban and regional policy analysis

Andrew M. Isserman, Ph.D., Pennsylvania, 1975, Associate Professor (joint with Urban and Regional Planning and Economics)—methods of urban and regional analysis, regional development and policy, spatial demographic analysis

Mary Ann Lee, Ph.D., Hawaii, 1979, Assistant Professor—ecosystem analysis

James B. Lindberg, Ph.D., Wisconsin, 1963, Professor and Chairman—industrial location, energy resources and use

Michael L. McNulty, Ph.D., Northwestern, 1966, Professor—geographic perspectives on development, urban, Africa

R. Rajagopal, Ph.D., Michigan, 1973, Associate Professor—resource and environmental management, information systems

David R. Reynolds, Ph.D., Northwestern, 1966, Professor—location theory and collective decision-making, behavioral analysis, political

Gerard Rushton, Ph.D., Iowa, 1964, Professor—location theory, medical, spatial planning in developing countries, behavioral

Graham A. Tobin, Ph.D., Strathclyde, 1978, Assistant Professor—water resources, hydrology, flood hazard and environmental management

ADJUNCT FACULTY:

Mickey Lauria, Ph.D., Minnesota, 1980, Assistant Professor, Graduate Program in Urban and Regional Planning—community development

Russell Lee, Ph.D., McMaster, 1978, Research Associate, Oak Ridge National Laboratory, Adjunct Assistant Professor—urban and regional modeling, medical, regional policy

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Agunbiade, Ajiboye Onaolapo. "Regional Development Policy and Economic Structural Change in the Appalachian Region 1960-1975," 1981.

Joyal, Alfred Napoleon III. "Outdoor Recreation Site Evaluation: The Influence of Activity Preferences," 1980.

Klugman, Marie Rose Popp. "Variability of Seasonal Precipitation over the Conterminous United States, 1948-1976," 1981.

The Johns Hopkins University

DEPARTMENT OF GEOGRAPHY AND ENVIRONMENTAL ENGINEERING

DATE FOUNDED: 1948 GRADUATE PROGRAM FOUNDED: 1948

DEGREES OFFERED: M.A., M.S.E., Ph.D.

GRANTED 7/1/80–6/30/81: 6 Masters, 7 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 1 Masters 56 Ph.D.
NOT IN RESIDENCE: 1 Masters 10 Ph.D.

CHAIRMAN: M. Gordon Wolman

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. M. Gordon Wolman, Chairman, Department of Geography and Environmental Engineering, The Johns Hopkins University, Baltimore, Maryland 21218
Telephone (301) 338-7090

PROGRAMS AND RESEARCH FACILITIES: Program objectives include the study of (1) the natural processes of land, air, and water including underlying physical, chemical and biological principles, (2) the relationship between man as an individual and as a member of social groups to his natural and social environment; and (3) systems analysis and economics for public decision making. Specific graduate programs are tailormade and designed to permit each student to focus upon topics of interest and to develop competence in fundamental skills essential to research in his chosen field and problem area. In pursuit of these objectives students are expected to pursue work beyond the confines of the Department. Areas of special strength are: a) surficial earth processes of geomorphology, plant geography, soils, and hydrology; b) environmental biology including aquatic biology, ecology and population dynamics; c) human spatial location, with emphasis on behavioral models, perception of the natural and social environment, models of urban population dynamics, and regional science; d) engineering science and technology with emphasis on sanitary engineering systems analysis, and physical and chemical processes in the environment.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester System. *Admission requirements:* interests in the field coincident with those of the Department, and evidence of competence to pursue graduate work at the M.A. or Ph.D. level; *Financial Aid:* fellowships, stipends, research support including Federal programs available.

STAFF:

Dr. John Boland, Associate Professor—environmental engineering
Dr. Lucien Brush, Professor—sediment transport
Dr. John Cady, Lecturer—soil science
Dr. Charles Chamberlin, Assistant Professor—sanitary engineering

Dr. Jared Cohon, Professor—environmental systems
Dr. Jack Fisher, Professor—urban studies
Dr. Jerome Gavis, Associate Professor—chemical engineering
Dr. Steve Hanke, Professor—resource economics
Dr. David Harvey, Professor—behavioral geography
Dr. Cornelius W. Kruse, Professor—public health engineering
Dr. Charles ReVelle, Professor—systems analysis
Dr. M. Gordon Wolman, Professor—geomorphologic processes

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Barron, William. "Evaluating the Economics of Direct Applications of Geothermal Energy," 1980.

DeFries, Ruth. "Sedimentation Patterns in the Potomac Estuary Since European Settlement: A Palynological Approach," 1980.

Engberg, David. "Multiobjective Programming Models for the Planning of Offshore and Onshore Natural Gas Pipeline Systems," 1980.

Knapp, Keith. "Optimal Operation and Capacity of Grain Reserves in Importing Countries," 1980.

Milton, Nancy. "The Occurrence, Causes and Remote Detection of Vegetation Patterns in Two Hydrothermally Altered Areas in the Great Basin of the Western United States," 1981.

Shobrys, Donald. "A Model for the Selection of Shipping Routes and Storage Locations for a Hazardous Substance," 1981.

Smith, James. "Point Process Models of Rainfall," 1980.

Master's:

Harris, Benjamin. "Two Multiobjective Systems Models for Regional Coal Development Planning," 1981.

Hereford, Lance. "Multiobjective Systems Model of Methods of Transporting Coal for Electricity Generation from Mining to End Use," 1980.

Lystad, Lisa. "Growth and Nutrient Uptake Kinetics of *Scenedesmus Quadricauda* in Phosphate-Limited Continuous Culture," 1980.

Tasker, Gary. "Estimating Peak Flow Characteristics at Ungaged Sites with Ridge Regression," 1981.

Kansas State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1946 GRADUATE PROGRAM FOUNDED: 1961

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 3

GRADUATE STUDENTS IN RESIDENCE: 14
NOT IN RESIDENCE: 5

HEAD: Stephen E. White

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Professor David E. Kromm, Department of Geography, Kansas State University, Manhattan, Kansas 66506
Telephone (913) 532-6727

PROGRAMS AND RESEARCH FACILITIES: Advanced work consisting of classes and seminars is offered as part of the Master of Arts curriculum. Close supervision of the thesis research, and frequent visits by geographers from other universities, help to provide a thorough and well-balanced program. The moderate size of the Geography Department makes possible an informal atmosphere and a close rapport between faculty and graduate students.

A cartographic laboratory, photographic reproduction equipment, remote sensing imagery, a collection of topographical maps for research purposes, and a reference library are all contained within the Department. The University library, with its large collection of geographical journals and the complete American Geographical Society research catalog, is nearby.

Other parts of the University offer opportunities for enrichment of the graduate student's program. Advanced study is possible in such areas as regional economic analysis, regional and community planning, natural resources management, transportation engineering, agriculture, and the South Asia Center.

The attractive university campus, rolling and tree-shaded, is located in Manhattan, a town with a population of 33,000. Just to the north of the town is the 25-square-mile Tuttle Creek reservoir and an attractive area of the Flint Hills that was considered by the Interior Department for a new national park.

ACADEMIC PLAN, ADMISSION REQUIREMENTS AND FINANCIAL AID: The University operates on a semester system. Admission to the Graduate School ordinarily requires a "B" average in the junior and senior years plus three letters of recommendation. In some cases applicants with less than a "B" average may be admitted on a provisional basis. Six graduate teaching assistantships are available.

STAFF:

Charles Bussing, Ph.D., Nebraska, 1968, Assistant Professor—cultural, agricultural, Latin America

David E. Kromm, Ph.D., Michigan State, 1967, Professor—resource management, environmental behavior, Eastern Europe, environmental education

M. Duane Nellis, Ph.D., Oregon State, 1980, Assistant Professor—land use, remote sensing applications

Huber Self, M.S., Oklahoma State, 1947, Emeritus Professor—physical, cartography, Kansas

H. L. Seyler, Ph.D., Indiana, 1971, Associate Professor—economic-urban, regional development, quantitative methods

William R. Siddall, Ph.D., Washington, 1959, Professor—transportation, environmental quality, Anglo-America

Stephen L. Stover, Ph.D., Wisconsin, 1960, Associate Professor—agricultural, historical, Oceania

Stephen E. White, Ph.D., Kentucky, 1974, Associate Professor—population and migration, environmental perception, social

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Dotzauer, Peter J. "The Impact of Location Relative to Cities on Village Population Changes in Kansas," 1980.

Myers, Marilyn S. "Processes Altering Patterns of Urban Open Space: Wichita and Comotara; A Case Study," 1980.

Nilchang, Sunandpattira. "The Diffusion of Grain Sorghum in Kansas," 1981.

University of Kansas

DEPARTMENT OF GEOGRAPHY-METEOROLOGY

DATE FOUNDED: 1947 GRADUATE PROGRAM FOUNDED: 1958

DEGREES OFFERED: M.A., M. Phil., Ph.D.

GRANTED 7/1/80–6/30/81: 6 M.A., 2 M.Phil., 3 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 33 M.A. 15 Ph.D.
NOT IN RESIDENCE: 3 M.A. 9 Ph.D.

CHAIRMAN: Glen A. Marotz

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Student Affairs Committee, Department of Geography-Meteorology, University of Kansas, Lawrence, Kansas 66045
Telephone (913) 864-5143

PROGRAMS AND RESEARCH FACILITIES: Departmental options for graduate programs emphasize systematic fields and selected regional coverage. Physical geography is well represented, particularly in soils, geomorphology (supplemented by work in geology), plant geography, and climatology (especially water resources, agro- and microclimatology). Well-equipped soils, vegetation, and climatological laboratories are available for research. Photo-analysis and remote sensing facilities are housed within the Department and at the Center for Research in Engineering Sciences. Within the broad scope of human and economic geography, specialization is encouraged in urban, transportation, energy policy, political and cultural ecology. Cartography retains an important position as a field of emphasis as well as a supplement to work in other facets of geography. A similar role is played by the sequence of courses and seminars on quantitative methods as applied to the various subfields of geography. Research and teaching are supported by well-equipped computational and cartographic laboratories, access to the University's computer, and the Department's extensive remote access and graphics terminal facilities.

Regional emphases, aside from elements of North American geography, are possible in Latin America, Europe-USSR, East and Southeast Asia. Opportunities for regional competence in geography are enhanced by well-developed interdisciplinary language and area programs for East Asia, Latin America, and Eastern Europe-USSR.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Admission to graduate standing requires superior academic performance at the undergraduate level and demonstrated competence in basic courses in physical, cultural, economic, quantitative methods, cartography and a regional course. Submission of GRE scores is required. The University follows the two-semester system with fifteen credit hours as the usual load. Half-time assistants are limited to a maximum of ten hours of classwork. Thesis hours, directed readings, and some course work are also offered during an eight-week summer session.

The Department offers a thesis and non-thesis track at the Master's level. The M.A. thesis program requirement is for thirty hours of graduate-level work, including the thesis. Two seminars and distribution requirements are designed to provide a core of training in regional, systematic fields, and skills. These are supplemented by courses in the student's area of interest. The non-thesis track requires thirty-six hours of graduate-level work including two research seminars. Students electing this option are not admitted to the Ph.D. program without completing a thesis in addition to the thirty-six hour requirement.

A greater degree of specialization is expected for the Ph.D. Sixty hours beyond the M.A. are required, including twenty to thirty hours of work on the dissertation. Various options are available for the language requirement, including reading knowledge of one foreign language and proficiency in a research skill related to the candidate's area of specialization.

Over three-fourths of graduate students in residence receive some financial support. Teaching and research assistantships within the Department, the Center for Research in Engineering Science, and the Center for Public Affairs constitute the major source of aid; some funds are available for the summer period. Other sources of support include Graduate School Honors Fellowships, Dissertation Fellowships, and the several categories of grants from the Office of Education, National Science Foundation, etc.

STAFF:

Robert T. Aangeenbrug, Ph.D., Wisconsin, 1965, Professor—transportation, economic, urban planning and computer graphics, Western Europe

John P. Augelli, Ph.D., Harvard, 1951, Professor—Latin America, political, settlement

John C. Davis, Ph.D., Wyoming, 1967, Adjunct Professor—statistical methods, computer graphics

Leslie Dienes, Ph.D., Chicago, 1968, Professor—industrial, economic, Eastern Europe and the Soviet Union

Joe R. Eagleman, Ph.D., Missouri, 1963, Professor—meteorology, climatology, water and energy budgets, microclimatology

George F. Jenks, Ph.D., Syracuse, 1950, Professor—cartography, computer application to map symbolization, conservation

William C. Johnson, Ph.D., Wisconsin, 1976, Associate Professor—plant geography, physical

Walter M. Kollmorgen, Ph.D., Columbia, 1940, Emeritus Professor of Geography

A. William Kuchler, Ph.D., Munich, 1935, Emeritus Professor of Geography

Glen A. Marotz, Ph.D., Illinois, 1971, Professor and Chairman—climatology, biogeography, field methods

Edward A. Martinko, Ph.D., Kansas, 1976, Adjunct Assistant Professor—applied remote sensing, ecological systems

George F. McCleary, Jr., Ph.D., Wisconsin, 1969, Associate Professor—map making and cartography

Robert W. McColl, Ph.D., Washington, 1964, Professor—political, traditional societies in transition, China and Southeast Asia

Robert E. Nunley, Ph.D., Michigan, 1958, Professor—population, quantitative methodology, Middle America

Valerie A. Preston, Ph.D., McMaster, 1978, Assistant Professor—urban/social, quantitative methods

James Shortridge, Ph.D., Kansas, 1972, Associate Professor—cultural, North America, historical

Kent State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1914 GRADUATE PROGRAM FOUNDED: 1935

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 6 M.A., 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 14 M.A. 14 Ph.D.
NOT IN RESIDENCE: 6 M.A. 11 Ph.D.

CHAIRMAN: Bart J. Epstein

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Brian P. Holly, Graduate Program Coordinator, Department of Geography, Kent State University, Kent, Ohio 44242
Telephone (216) 672-2045

PROGRAMS AND RESEARCH FACILITIES: The Department offers programs of study leading to Master of Arts and Doctor of Philosophy degrees. The Master of Arts degree emphasizes the acquisition of research skills and expertise in the subfields of Geography, and is planned for students expecting to pursue a professional career in industry, government or education or who intend to study for the Ph.D. degree. The Ph.D. program is designed for the student who wishes to conduct research in a specialized area of Geography. An individualized program of study is designed by the student in conjunction with an advisory committee comprised of three Geography faculty and one non-geographer from a cognate discipline. A program of coursework and independent research is planned around a proposed dissertation topic. Candidacy examinations involve both written specialties and an oral defense of the dissertation proposal.

Graduate level work can be pursued under a number of specializations including: quantitative modelling, industrial, urban, behavioral, marketing, recreation, energy and water resources, geomorphology, climatology, cartography, regional economic development, cultural, medical, Soviet Union, Eastern Europe, sub-Saharan Africa, and India.

Research facilities include a one million volume library, the University's map collection (130,000 sheets) housed in the Geography Department, a computer based information system which provides data on the location and availability of books and serials within the Ohio College Library Consortium (OCLC). On line literature searches and data bases are also available.

University computer facilities include a Burroughs 6812 and a Honeywell 66/DPS with both batch and timesharing capability. The system supports a Cal-Comp drum plotter, advanced software and text editing systems, as well as a large self instruction center.

The Department maintains cartography, photogrammetry and computing laboratories as well as a darkroom. Specialized equipment includes Tektronix graphics terminal, hardcopy unit and digitizer, keypunch, reflecting projectors, stereoscopes, stereoplotters, headliners, transits, drafting equipment, and meteorological monitoring stations.

Situated in urbanized northeastern Ohio, the University has ready access to a variety of research environments: large cities, small towns, agricultural regions and the Applachian Highlands.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Kent State University operates on a semester system.

All applicants for admission to the M.A. and Ph.D. programs must meet the requirements of the Graduate College and the Department. A minimum grade point average of 2.75 on a 4.0 scale or its equivalent is required for regular admission. Applicants must have the equivalent of either Kent State's B.A. degree in Geography (for M.A. program) or M.A. in Geography (for Ph.D. program). Any deficiencies can be made up after admission. A minimum of thirty-two hours of credit is required for the M.A. degree. Sixty semester hours beyond the Master's degree is required for the Ph.D., with thirty of these credits assigned to the dissertation.

Applications are encouraged from qualified students representing all minority groups, the physically disabled, and women.

Financial aid is available in the form of: Graduate Assistantships valued at $3350 for M.A. students and $4300 for Ph.D. students, Doctoral Teaching Fellowships at $4800 and University Fellowships (non-service) at $4000 per academic year. Research Assistantships from funded research projects are sometimes available. All appointments provide a partial fee remission of $934 per academic year.

STAFF:

Surinder M. Bhardwaj, Ph.D., Minnesota, 1970, Professor—cultural, India, medical, geographic thought

Erich F. Bordne, Ph.D., Syracuse, 1954, Professor—climatology, water resources, conservation, North America, Western Europe

NOT IN RESIDENCE: 0 M.A. 3 Ph.D.

CHAIRMAN: Stanley Brunn

FOR CATALOG AND FURTHER INFORMATION WRITE TO: R. Ulack, Director of Graduate Studies, Department of Geography, University of Kentucky, Lexington, Kentucky 40506
Telephone (606) 258–2931 or 257–1276

PROGRAMS AND RESEARCH FACILITIES: The Department offers a flexible approach to graduate education in geography. Except for core courses on concepts in geography, research design, quantitative methods, and the development of geographic thought, each graduate student has the responsibility to formulate his/her own program of study and research. Graduate advisors approve each student's research interests and academic goals. Fields of concentration include:

CULTURAL GEOGRAPHY OF THE UNITED STATES - Urban and rural settlement patterns and processes, past and present; distribution and interaction of ethnic groups.

GEOGRAPHIC ANALYSIS - Computer modelling, computer cartography; locational analysis; diffusion simulation; geographic information systems; normative models.

GEOGRAPHY OF THE THIRD WORLD - Problems of development in Africa, Latin America, South Asia, and especially Southeast Asia; topics include population, urbanization, industrial development, transportation, political-social issues, and economic growth.

INDUSTRIAL GEOGRAPHY - Location theory; nonmetropolitan industrialization; industrial development; spatial analysis of manufacturing systems.

MEDICAL GEOGRAPHY - Health care delivery; space, time, and illness behavior; epidemiology; disease ecology.

POLITICAL GEOGRAPHY - Viability of political units; political development; economic interdependence; electoral geography; governmental policy; organization of space.

POPULATION GEOGRAPHY - Dynamics of population growth and change; internal migration.

REGIONAL DEVELOPMENT - Economic, social, and political problems within developed countries especially Appalachia and the southeastern United States.

SOCIAL GEOGRAPHY - Ethnic and minority groups; aging; welfare issues; social impact assessment; environmental perception; technological hazards.

TRANSPORTATION GEOGRAPHY - Influence of transport systems on human activity; route locations; network flows; regulation impact; commuting behavior.

URBAN GEOGRAPHY - Basic principles and theories of urban systems; social geography of the city; geographies of growth

Department offices and the newly equipped and staffed Cartographic Laboratory are on the fourteenth floor of the modern Patterson Office Tower. The University Library and Computing Center (IBM 370) are excellent research facilities. The M.I. King Library has a special Appalachian collection of the papers of the prominent Kentucky geographer, Ellen Churchill Semple, and a separate Map Department. Related research facilities available on campus include an Appalachian Center, a Center of Gerontology, an Institute for Mining and Mineral Research, and a Tobacco and Health Research Institute. The University also is a sponsor of the Oak Ridge Associate Universities.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The academic year consists of two semesters and two summer sessions. An undergraduate grade-point average of 3.0 (A = 4.0) and a combined GRE score of 1000 are desirable for admission to the Master's Program. A grade-point average of 3.50 in graduate work and a combined GRE score of 1200 are desirable for admission to the Ph D. program. GRE scores should be submitted with application materials. Prospective students should submit two official transcripts of all previous college work and a written application at least two months before anticipated entrance. The department offers a number of teaching assistantships with stipends of about $420 per month for the academic year. Applications for fellowships must be submitted on official forms not later than February 1; assistantship applications must be submitted not later than March 1.

STAFF:

W. A. Bladen, Ph.D., Kentucky, 1972, Associate Professor—political, regional planning, Appalachia

Stanley D. Brunn, Ph.D., Ohio State, 1966, Professor and Chairman—social, political, urban, futures

Robert G. Cromley, Ph.D., Ohio State, 1978, Assistant Professor—locational analysis, industrial, transportation, quantitative methods, computer cartography

Thomas P. Field, Ph.D., North Carolina, 1948, Professor—land settlement, demography, Australia

Justin C. Friberg, Ph.D., Syracuse, 1977, Assistant Professor—population, urbanization and migration, field methods, cartography, Latin America

P. P. Karan, Ph.D., Indiana, 1956, Professor—urban and regional planning, political and economic, research methods, Central and South Asia

Thomas R. Leinbach, Ph.D., Pennsylvania State, 1971, Associate Professor—transportation, industrial, regional development, quantitative methods, Southeast Asia

Gyula Pauer, M.A., Kentucky, 1975, Cartographic Laboratory Director—thematic maps, production cartography, East Europe

Karl B. Raitz, Ph.D., Minnesota, 1970, Professor—cultural, settlement, ethnic, field methods, U.S. and Canada, Appalachia

Gary W. Shannon, Ph.D., Michigan, 1970, Professor—medical, urban, social

Richard Ulack, Ph.D., Pennsylvania State, 1972, Associate Professor and Director of Graduate Studies—population, migration, economic development, Southeast Asia, Appalachia

W. A. Withington, Ph.D., Northwestern, 1955, Associate Professor—cultural, urban development, Southeast Asia, Kentucky

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Master's:

Weddle, Linda. "An Analysis of Visitation Patterns and the Economic Impact of the Kentucky State Horse Park," 1980.

Louisiana State University

DEPARTMENT OF GEOGRAPHY AND ANTHROPOLOGY

DATE FOUNDED: 1928 GRADUATE PROGRAM FOUNDED: 1933

DEGREES OFFERED: M.A., M.S. in both Geography and Anthropology, Ph.D. in Geography

GRANTED 7/1/80–6/30/81: 9 Masters, 0 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 31 M.A. 14 Ph.D.
NOT IN RESIDENCE: 7 M.A. 4 Ph.D.

CHAIRMAN: Milton B. Newton, Jr.

FOR CATALOG AND FURTHER INFORMATION WRITE TO: W. V. Davidson, Graduate Coordinator, Department of Geography and Anthropology, Louisiana State University, Baton Rouge, Louisiana 70803
Telephone (504) 388–5942, 5943, 5944

PROGRAMS AND RESEARCH FACILITIES: Departmental emphases are cultural-historical geography and physical geography. In cultural-historical geography attention is directed toward settlement, agricultural, and historical geography in the southern United States, the tropics, and in Latin America. The combination of geography and anthropology in a single department provides the student of the cultural landscape with a unique opportunity to select methods from each discipline.

In physical geography attention is directed toward alluvial and coastal morphology, water-budget climatology, and closely related aspects of vegetation and soils. Regional emphases include the southern United States, the tropics, Latin America, and the Arctic. Close working ties connect the interested student with the Department of Geology, the Coastal Studies Institute, and the Center for Wetland Resources.

Research techniques are vital to the training in both the cultural and physical curricula, and courses in aerial photography, remote sensing, cartography, computer cartography, and statistics are offered. Fieldwork is especially encouraged and several trips are planned. Research by faculty and graduate students is underway in each Central American country, Mexico, Peru, West Africa, India, Pakistan, Korea, Japan, China, and throughout the Southern U.S.

The 1.7 million volume library is especially strong in geography and anthropology with an outstanding journal collection. Aerial photo collections include coverage of Louisiana, Mexico, and parts of southeast Asia. Facilities for cartographic and aerial photo, and remote sensing interpretation, laboratories for sediment analysis and palynology, and an up-to-date computer graphics center with a terminal in the department are available.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. Selection is based on compatibility of interests with departmental programs; on grades, letters of recommendation, and Graduate Record Examination scores. The LSU Graduate School requires an undergraduate grade point average of at least 2.5, plus acceptable GRE scores. Applicants for financial aid should normally have a 3.0 and 1000+ GRE scores.

Graduate Assistantships start at $4000 for nine months and include the waiver of tuition (including nonresident fee) except for $75 per semester University fee and $25 transportation fee per semester. Research Assistantships are occasionally available to the highly qualified student. Grants for summer field work are available through the Robert C. West Field Research Fund.

FULL-TIME STAFF:

Nigel J. R. Allan, Ph.D., Syracuse, 1978, Assistant Professor—biocultural geography, South and Southwest Asia

Roland E. Chardon, Ph.D., Minnesota, 1961, Professor—cultural, Latin America

William V. Davidson, Ph.D., Wisconsin-Milwaukee, 1972, Associate Professor—cultural, historical, Caribbean, Central America

Jay D. Edwards, Ph.D., Tulane, 1970, Associate Professor—anthropology, Latin America

Sharon I. Goad, Ph.D., Georgia, 1978, Assistant Professor—archaeology, southeastern Indians

Sam B. Hilliard, Ph.D., Wisconsin, 1966, Professor—historical, agricultural, Anglo-America

Richard H. Kesel, Ph.D., Maryland, 1971, Professor—geomorphology, soils, biogeography

Philip B. Larimore, M.S., Virginia, 1954, Assistant Professor—cartography

Robert A. Muller, Ph.D., Syracuse, 1962, Professor—climatology, hydrology, North America

Robert W. Neuman, M.A., Louisiana State, 1956, Assistant Professor and Curator of Anthropology—archaeology, prehistoric ecology, Southeastern United States

Milton B. Newton, Jr., Ph.D., Louisiana State, 1967, Professor—cultural, prehistoric settlement, Louisiana, U.S. Southeast

Douglas W. Owsley, Ph.D., Tennessee, 1978, Assistant Professor—physical anthropology, paleodemography

Robert R. Rathburn, Ph.D., Wisconsin, 1976, Assistant Professor—linguistics, Pacific Northwest

Miles R. Richardson, Ph.D., Tulane, 1965, Professor—material culture and behavior, Spanish America

Donald E. Vermeer, Ph.D., UC, Berkeley, 1964, Professor—cultural, physical, Africa

H. J. Walker, Ph.D., Louisiana State, 1960, Boyd Professor—alluvial and coastal morphology, geomorphology, Arctic

Frederick M. Wiseman, Ph.D., Arizona, 1978, Assistant Professor—biogeography, Quaternary paleoecology, Middle America

A position in remote sensing to be filled.

PART-TIME STAFF:

William G. Haag, Ph.D., Michigan, 1948, Alumni Professor Emeritus—ethnology, archaeology, West Indies

Fred B. Kniffen, Ph.D., UC, Berkeley, 1930, Boyd Professor Emeritus—cultural, ethnology, Louisiana, Eastern U.S.

William G. McIntire, Ph.D., Louisiana State, 1954, Professor Emeritus—geomorphology, archaeology, coastal environments

Robert C. West, Ph.D., UC, Berkeley, 1946, Boyd Professor Emeritus—cultural, historical, ethnology, Latin America

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Bass, Sandra Ann. "Raw Materials Acquisition at the Poverty Point Site, West Carroll Parish, Louisiana," 1980.*

Baumann, Robert H. "Interrelationships of Marsh Elevation, Water Level, Sedimentation and Other Selected Variables in the Lower Barataria Basin, Louisiana," 1980.*

Brassieur, Charles Ray. "A New Look at the Cultural Resources of the Atchafalaya Basin, Louisiana," 1980.*

Fulgham, Susan. "The Differential Use of Raw Materials in the Icehouse Bottom Site, Tennessee," 1980.*

Gable, Frank. "Landfill Projects in the Port of Boston--The South Boston Flats, 1863-1920," 1980.*

Lawrence E. L'Herisson, Jr. "The Evolution of the Texas Road and the Sequential Settlement Occupancy of Northwestern Louisiana, 1528-1819," 1981.*

McCloskey, Kathleen G. "Early Acadian Settlement in St. James Parish, Louisiana," 1981.*

Robertson, George A. "Quaternary Discharges of the Lower Red River in Bossier, Webster, and Bienville Parishes, Louisiana," 1981.*

Shelley, Steven D. "An Analysis of the Coles Creek Settlement System of Louisiana's Chenier Coastal Plain," 1981.*

Mankato State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1953 **GRADUATE PROGRAM FOUNDED: 1953**

DEGREES OFFERED: M.S., M.A.

GRANTED 7/1/80-6/30/81: 5

GRADUATE STUDENTS IN RESIDENCE: 4
NOT IN RESIDENCE: 8

CHAIRMAN: Philip S. Kelley

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Department of Geography, Mankato State University, Mankato, Minnesota 56001
Telephone (507) 389-2617

PROGRAMS AND RESEARCH FACILITIES: The department stresses broad preparation for advanced graduate work, preparation for teaching at various levels, and careers in applied geography. Major strengths are in urban and regional planing and in techniques. The M.A. requires a language or statistical skill, plus a thesis or internship; the M.S. also permits an alternate paper. The department maintains a small book and map library, a well-equipped cartography laboratory (including an Apple II microcomputer, Numonics digitizer, a process camera and complete darkroom facilities) and a wide variety of field and laboratory equipment. A UNIVAC 1100/80 Computer is readily available for graduate student and faculty use; graphics support includes a Tektronix terminal, a Complot DP-1 drum plotter, and a growing library of applications software. The University library has most of the major U.S. geographic journals and is a depository of the U.S. Government and the United Nations. The University library has a substantial map collection and is an AMS and USGS depository.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Students must fulfill the requirements for admission to the Graduate College and be admitted by the department for the degree program desired. Students may enroll at the start of any quarter or summer session. The department has a limited number of graduate assistantships.

FACULTY:

John F. Allison, M.A., Mankato State, 1979, Instructor—general education courses

Lawrence C. Anderson, Ed.D., Idaho, 1968, Professor—geographic education, agriculture, polar lands

Darrell F. Apitz, M.S., Mankato State, 1963, Assistant Professor—physical, regional

Branko Colakovic, Ph.D., Minnesota, 1970, Associate Professor—Eastern Europe, cultural, urban

Mary T. Dooley, Ph.D., Michigan State, 1975, Professor—historical, Anglo-America

William W. Girard, Ph.D., Iowa, 1976, Associate Professor—geomorphology, quantitative techniques

James F. Goff, Ph.D., Illinois, 1970, Professor—political, Soviet Union, military

Philip S. Kelley, Ph.D., Washington, 1977, Associate Professor and Chairman—cartography, image interpretation, environmental quality, computer techniques

Miriam Kui Kiaw Lo-Lim, Ph.D., Western Ontario, 1973, Assistant Professor—cultural, economic development

Donald Roscoe, M.S., Mankato State, 1966, M.S., Houston, 1968, Assistant Professor—earth science education, physical

George Stoops, M.S., AIP, Illinois, 1968, Associate Professor—urban and regional planning

David L. Thurston, M.S., Chicago, 1964, Associate Professor—manufacturing, recreation, quantitative techniques

Perry S. Wood, Ph.D., Nebraska, 1973, Associate Professor—urban, field methods

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

M.A.:

Favero, David. "Comparison of Le Sueur River Sediment Grain-Size Distribution in the Flocculated and Disaggregated Condition," 1980.

Lau, Kei-Chei. "Hong Kong's New Towns," 1980.

University of Maryland

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1941 GRADUATE PROGRAM FOUNDED: 1941

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 2 M.A., 3 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 24 M.A. 14 Ph.D.
NOT IN RESIDENCE: 15 M.A. 13 Ph.D.

CHAIRMAN: Kenneth E. Corey

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Director of Graduate Records, Room 2125, South Administration Building; for further geography information write to: Director of Graduate Studies, Department of Geography, University of Maryland, College Park, Maryland 20742
Telephone (301) 454-2241

PROGRAMS AND RESEARCH FACILITIES: Graduate programs, especially the Ph.D. program, provide individual specialization. Departmental specialties are:

ENVIRONMENTAL SYSTEMS STUDIES: physical geography and environmental planning, including specialization in process geomorphology, morphometric analysis, microclimatology, and water resources and coastal environments. Interdisciplinary study in support of the selected specialization is encouraged.

CULTURAL STUDIES: with particular attention to historical geography. Broad interdisciplinary approach is encouraged. Special interest in colonization processes, tropical areas, health and disease, and resource use.

METROPOLITAN STUDIES: with emphasis on urbanization processes, the functions, internal structure and interrelationships, and planning of urban regions. This specialty encompasses quantitative, historical, and systems approaches to urban problems. It is supported particularly by work in the University's behavioral and social sciences departments, and the Departments's Institute for Urban Studies.

NEW DIRECTIONS: the faculty is in the midst of developing additional graduate study options; these will include emphasis on professional geographic careers and geographic methods. Developing specialties will include: cartography and computer mapping applications, international development and settlement, and policy issues in geography and metropolitan planning.

REGIONAL specialization is possible in several areas (see staff listings).

The University of Maryland is eight miles (20 min.) from the incomparable library and research facilities of Washington, D.C. Its location in the Baltimore-Washington urban region provides students with the opportunity to examine at first hand the southern portion of Megalopolis, while the proximity of the Appalachians, the Piedmont and the Coastal Plain with the Chesapeake Bay offers additional research challenges. The Department's new quarters include separate teaching and research labs for physical geography and cartography, complete darkroom facilities, and a self-instruction laboratory.

The Department's Computer Mapping Laboratory is supported by a dedicated PRIME 550 minicomputer or the University's UNIVAC mainframe computers; computer graphics terminals include Tektronix 4014, two Tektronix 4025 raster terminals, one with graphics memory, and a stand-alone Tektronix 4051, a BASIC programmable graphics terminal with cartridge tape input. Output devices include a Tektronix interactive digital plotter and a Tektronix hand-copy unit. Data capture is achieved by two Tektronix digitizing tablets and an ALTEK backlighted table. Ancillary video projection equipment enables computer-generated displays to be demonstrated before large groups. Adjacent to the Department is a computer terminal classroom, with twelve terminals and closed-circuit TV, that is designed for man/machine simulations.

The University's Institute for Urban Studies is a program of the Department of Geography. The Institute offers a program leading to a degree in the Master of Arts in Urban Studies; for admission and financial aid materials write Urban Studies Director of Graduate Studies, c/o 1113 Social Sciences Building, University of Maryland, College Park, Maryland 20742; telephone (301) 454-5195, 5718. The program is interdisciplinary and professionally oriented to educate students in metropolitan-area problem solving through the use of generic planning and management methods. A graduate of the program would be prepared to enter a career in metropolitan organizations from the non-profit, voluntary, profit, and governmental sectors relating to urban affairs. The Institute's faculty specialize in: metropolitan and regional planning, public policy analysis and management, quantitative planning methods, and economic-development planning. Internships are encouraged; career-oriented management and planning competencies are stressed. The Institute has a working cooperative relationship with the professional APA-recognized Master of Community Planning Program, University of Maryland, Baltimore City Campus; for more information, contact Dr. Melvin Levin, c/o 525 West Redwood Street, Baltimore, Maryland 21201; (301) 528-3600.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester. Admission (M.A. and Ph.D.): B (3.0) average, Graduate Record Examination (verbal and mathematical), and three letters of recommendation. Ph.D. students should provide a complete and focused statement of study objectives and specialization together with specific research plans; this statement is important—it is used to assign individual faculty sponsors to prospective doctoral students. Graduate Assistantships currently provide a stipend of $4900 for new graduate students and additional steps for Ph.D. students plus remission of tuition and are renewable. Various competitive university fellowships and government-supported traineeships are available.

GEOGRAPHY STAFF:

Harold Brodsky, Ph.D., Washington, 1966, Associate Professor—economic development, quantitative, urban

Antonio F. Chaves, Ph.D., Havana, 1946, Associate Professor and Assistant Chairman—hispanic world, political, historical

Charles M. Christian, Ph.D., Illinois, 1975, Associate Professor (joint appointment with Urban Studies)—urban social policy, minorities in public service, demography

Joseph Cirrincione, Ph.D., Ohio State, 1970, Associate Professor (joint appointment with Secondary Education) and Director of Undergraduate Studies—geography in education

Kenneth E. Corey, AICP, Ph.D., Cincinnati, 1969, Professor and Chairman (joint appointment in planning) and Director, Institute for Urban Studies—planned organizational change, metropolitan planning, neighborhood grantsmanship

Thomas M. Corsi, Ph.D., Wisconsin-Milwaukee, 1976, Assistant Professor of Transportation, College of Business Administration and Management—transportation (affiliate)

Walter W. Deshler, Ph.D., Maryland, 1957, Visiting Professor—remote sensing

L. Schuyler Fonaroff, Ph.D., Johns Hopkins, 1961, Professor and Director of Graduate Studies—cultural, medical, biogeography

Paul A. Groves, Ph.D., UC, Berkeley, 1969, Associate Professor—urban, historical metropolitan structure, ethnic groups in cities

Robert A. Harper, Ph.D., Chicago, 1950, Professor—urban systems in modern societies, geography in education (on leave 1981-82)

Michael S. Kearney, Ph.D., Western Ontario, 1981, Assistant Professor—environmental geomorphology, soils, remote sensing

Stephen P. Leatherman, Ph.D., Virginia, 1976, Assistant Professor—coastal geomorphology, remote sensing, coastal resource management, quantitative geomorphology

Robert D. Mitchell, Ph.D., Wisconsin, 1969, Associate Professor—historical, cultural, European overseas colonization

Dixie Ann Pemberton, Ph.D., Kansas, 1970, Research Associate Professor, Center for Environmental and Estuarine Studies—environment, education (affiliate)

Donald Petzold, Ph.D., McGill, 1980, Assistant Professor—climatology, microclimatology, high latitude climatology

Stephen W. Sawyer, Ph.D., Clark, 1980, Assistant Professor—energy, environmental policy, pollution, water resources planning

Michael A. H. Smout, Ph.D., London, 1971, Visiting Professor—development planning, Southern Africa (Spring, 1982)

Bradford L. Thomas, M.A., Kansas, 1958, Director, Cartographic Services Laboratory—cartography

Derek Thompson, Ph.D., Indiana, 1966, Associate Professor—transportation, locational analysis of urban and regional systems, population migration

Martha Vill, Ph.D., Maryland, 1976, Lecturer—historical urban, land development, nineteenth century urbanization

Joseph W. Wiedel, M.A., Maryland, 1963, Associate Professor—cartography

Wilbur Zelinsky, Ph.D., UC, Berkeley, 1953, Visiting Professor—population, cultural, historical, North America

URBAN STUDIES STAFF (full time):

William F. Collins, Ph.D., Cincinnati, 1974, Assistant Professor—land use planning, regional development planning, Mexico

Marie Howland, Ph.D., Massachusetts Institute of Technology, 1981, Assistant Professor—employment, urban and regional economics, capital markets (begins Spring semester)

Hyun-Sik Kim, Ph.D., Princeton, 1981, Assistant Professor—housing market analysis and finance, quantitative analysis and computer application in urban affairs, environmental planning, developing countries, East Asia

Vincent L. Marando, Ph.D., Michigan State, 1967, Professor—urban public policy, public management, and intergovernmental relations

Barbara W. Williams, M.P.A., American, 1976, Lecturer, Assistant to the Director and Director of Graduate Studies—management, personnel administration, internships

Other faculty—The Institute also maintains joint and adjunct faculty appointments with other campus units, see Dr. Christian above, and with practicing, full-time planners and managers in the Washington, D.C.-Baltimore region.

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Christy, Michael Scott. "Investigation Into the Dynamics of Water Movement on a Low Relief Landscape on the Eastern Shore of Maryland," 1980.

Hall, Dorothy Kay. "Analysis of the Origin of Water Which Forms Large Aufeis Fields on the Arctic Slope of Alaska Using Ground Landsat Data," 1980.

Wu, Ming-Shyong. "Spatial Discrimination of Mortage Financing and Home Ownership in the City of Baltimore, 1970-76," 1981.

Master's:

Levy, Anneli. "Washington D.C. and the Growth of Its Early Suburbs: 1860-1920," 1980.

Nessel, Joseph Carl III. "The Effects of Distance on the Attitudes of Rail Commuters in Maryland," 1980.

University of Massachusetts (Amherst)

DEPARTMENT OF GEOLOGY AND GEOGRAPHY

DATE FOUNDED: 1967 **GRADUATE PROGRAM FOUNDED: 1980**

DEGREES OFFERED: M.S.

GRANTED 7/1/80–6/30/81: 0

GRADUATE STUDENTS IN RESIDENCE: 5
NOT IN RESIDENCE: 0

CHAIRPERSON: George E. McGill

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. James A. Hafner, Department of Geology and Geography, University of Massachusetts, Amherst, Massachusetts 01003
Telephone (413) 545-2286, 2296, 0778

PROGRAM AND RESEARCH FACILITIES: The department has a strong general program in graduate training and research leading to the M.S. degree in geography. The geography program has special strengths in Urban and Regional Geography, Climatology and Paleoclimatic Studies, Land and Water Resource Management, Rural Economic Development, Migration, Environmental Perception, and Cartography. Special problems in these areas may be explored in the regional context of North America, New England, Western Europe, Latin America, East and Southeast Asia, and the Arctic.

The department has facilities for cartographic design and photographic cartography, and computer terminals to the University Computing Center. The impending formation of a Regional Remote Sensing Center at the University will provide access to a full range of digital and visual data display and analytical processes for satellite imagery. Close cooperation is maintained with allied programs in regional planning, geology, anthropology, Five College Latin American and Asian Studies Programs, the National Park Service Cooperative Unit, and the Water Resources Research Center.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. A minimum cumulative average of 2.75 (4 point system) or equivalent is required. Deadlines for applications are March 1 for the fall semester and October 1 for the spring semester. Thesis or non-thesis tracks are available. Teaching assistantships are awarded on a competitive basis subject to availability and carry a waiver of tuition fees. Full- and half-time research assistantships are also available.

STAFF:

Raymond S. Bradley, Ph.D., Colorado, 1974, Associate Professor—paleoclimatology, climatology, Arctic regions, western United States

Terence Burke, Ph.D., Birmingham, 1967, Professor and Associate to the Chancellor—economic and political geography, Western Europe

James A. Hafner, Ph.D., Michigan, 1970, Associate Professor—agricultural systems, developing areas, population, Southeast Asia

E. Bruce MacDougall, Ph.D., Toronto, 1967, Associate Professor—regional planning, land resource inventory, remote sensing

Allen R. McNeill, Ph.D. candidate, Illinois, Visiting Lecturer—physical geography, recreation, Australasia, Oceania

David R. Meyer, Ph.D., Chicago, 1970, Associate Professor—economic, quantitative methods, systems of cities, industrial

Rutherford H. Platt, J. D., Chicago, 1967; Ph.D., Chicago, 1971, Associate Professor—land and water resource management, planning law

Richard W. Wilkie, Ph.D., Washington, 1967, Professor—migration, cartography, environmental perception, Latin America

GEOLOGY FACULTY:

Joseph H. Hartshorn, Ph.D., Harvard, 1955, Professor—glacial geomorphology, Arctic and New England

Richard F. Yuretich, Ph.D., Princeton, 1976, Assistant Professor—environmental geochemistry, East African lake environments

Memphis State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1926 GRADUATE PROGRAM FOUNDED: 1952

DEGREES OFFERED: M.A., M.S.

GRANTED 7/1/79-6/30/80: 2

GRADUATE STUDENTS IN RESIDENCE: 13
NOT IN RESIDENCE: 4

CHAIRMAN: W. Theodore Mealor, Jr.

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Advisor, Department of Geography, Memphis State University, Memphis, Tennessee 38152
Telephone (901) 454-2386

PROGRAMS AND RESEARCH FACILITIES: The goal of the geography master's program is to provide students with a sound education in the fundamentals and applications of geographic research as preparation for work or for further education. The program assures breadth within the discipline yet is flexible enough to allow the student to place emphasis upon one of the following: (1) environment and earth sciences (atmosphere, landforms, and water resources); (2) human-economic spatial systems (land use, industrial location, urban-rural systems); and (3) geographic techniques (cartography, map production, computer mapping, and remote sensing). A minimum of 30 hours (thesis) or 33 hours (non-thesis), designed by the student in consultation with an advisor, is required. Corollary areas of study in other departments are available to support the major interests.

The location of the University in a large urban area, yet in the heart of one of the nation's leading agricultural regions, and within a half-day's drive of five physiographic provinces, provides an ideal workshop for a variety of environmental and cultural topics. Departmental facilities insure ample space for student offices and research activities. The Department maintains a graphics terminal, digitizer, and plotter, a micro-computer (for graphics and basic image processing), a copy camera, and a variety of other cartographic and remote sensing equipment that support not only academic and research endeavors but also the activities of the Cartographic Services Laboratory.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University is on the semester system. Acceptance by the University Graduate School is prerequisite to admission by the Department. The Graduate School requires all applicants to submit transcripts of all college grades and to present satisfactory scores on either the Graduate Record Examination or the Miller Analogies Test. Three letters of recommendation are required by the Department for all students seeking financial aid.

Financial aid in the form of teaching and research assistantships are available. Teaching assistants normally conduct introductory physical geography laboratories or assist in the human-economic and cartography courses. Stipends provide a minimum of $4,000 for eight months and carry exemption from out-of-state tuition fees.

STAFF:

Melvin C. Barber, Ph.D., Southern Illinois, 1971, Associate Professor—marketing, urban analysis, industrial location, U.S. South

John H. Corbet, Ph.D., Florida, 1966, Associate Professor—geomorphology, aerial photo interpretation, hazards, U.S.S.R.

Howard E. Frye, M.A., Michigan, 1954, Assistant Professor—Europe, Anglo-America

Hsiang-te Kung, Ph.D., Tennesee, 1980, Assistant Professor—water resources, urban environment, Asia

John T. Matson, Ph.D., Ohio State, 1979, Assistant Professor—behavioral, urban, computer applications, quantitative

W. Theodore Mealor, Jr., Ph.D., Georgia, 1972, Professor—economic, land use, remote sensing, transportation

L. Arnold Siniard, M.A., Memphis State, 1964, Assistant Professor—resource management, agriculture

John A. Sobol, Ph.D., Michigan, 1961, Professor—atmosphere, cartography, Latin America

Charles T. Traylor, Ph.D., Kansas, 1979, Associate Professor and Director, Cartographic Services Laboratory—cartography, remote sensing, computer mapping

Miami University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1906 GRADUATE PROGRAM FOUNDED: 1929

DEGREES OFFERED: M.A., M.A. in Teaching

GRANTED 7/1/80–6/30/81: 5

GRADUATE STUDENTS IN RESIDENCE: 10
NOT IN RESIDENCE: 6

CHAIR: John L. Thompson

FOR CATALOG AND FURTHER INFORMATION WRITE TO: John C. Klink, Department of Geography, 216 Shideler Hall, Miami University, Oxford, Ohio 45056
Telephone (513) 529–4728

PROGRAMS AND RESEARCH FACILITIES: The M.A. program is a broadly conceived professional curriculum for students intending to pursue work in geography beyond the master's degree or to enter directly into local and federal government or industrial employment. The department operates in the belief that the M.A. degree should further broaden the student's geographical background, but the program is sufficiently flexible to allow for strengthening his systematic or regional interest. Areas of emphasis include Urban Analysis and Physical-Environmental Analysis. The M.A. with a thesis or practicum requires a minimum of 36 hours including 30 hours of course work. An all course work option is available and requires completion of 45 credit hours. The University provides corollary strengths in the social sciences and languages for students with urban, political, European, and Latin American interests.

The M.A.T. program requiring 36 hours of course work is designed for students certified to teach and intending to pursue a school teaching career.

The department occupies new facilities, utilizes a modern cartography and aerial photography laboratory, map and photo collections, reproduction equipment, calculators, digitizer, keypunch, graphics terminal, climatology/meteorology instrumentation, and soil lab equipment. All students have access to the facilities of the Computing Center, Scripps Foundation for Research in Population Problems, and the Audio-Visual Service.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* Semester System. *Admission Requirements:* Bachelor's degree from an accredited college or university; cumulative minimum grade point average of 2.5 (of a possible 4.0); departmental approval. *Financial Aid:* Graduate Assistantships: Average stipend $4,150 plus remission of out-of-state tuition and instruction fee. Qualified assistantship-holders are eligible for two Summer Fellowships, each with a stipend of $500 plus remission of out-of-state tution and instruction fee. *Grants-in-aid:* Tuition.

STAFF:

Robert S. Bacon, Ph.D. (Psychology), Nebraska, 1955, Ph.D. (Geography), Colorado, 1975, Associate Professor—population, behavioral-cultural, urban

Martin E. Dulgarian, Ph.D., Michigan, 1965, Associate Professor—Asia, history and philosophy of geography, political

Jerry E. Green, Ph.D., North Carolina, 1976, Assistant Professor—physical natural resources, land use planning, remote sensing

John C. Klink, Ph.D., Minnesota, 1974, Associate Professor—climatology, soils

Howell C. Lloyd, Ph.D., Northwestern, 1964, Professor—political, Europe, settlement

Byron E. Logan, Ph.D., North Carolina, 1956, Associate Professor—Africa, economic, Brazil

James M. Rubenstein, Ph.D., Johns Hopkins, 1975, Associate Professor—planning, urban policy analysis, new towns

Lee H. Slorp, Ph.D., Illinois, 1977, Assistant Professor—plant geography, land forms, cartography, remote sensing

Richard V. Smith, Ph.D., Northwestern, 1957, Professor—urban, population, recreation

John L. Thompson, Ph.D., Wisconsin, 1955, Professor and Chair—conservation, Soviet Union, energy resources

Joseph T. Urell, Ph.D., Cincinnati, 1976, Assistant Professor—urban-residential mobility, twentieth-century geographic thought

Cyrus W. Young, Ph.D., Michigan State, 1970, Associate Professor—transportation, urban, urban planning

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Gardner, John D. Practicum Report: "Internship Activities Within the Fort Wayne Planning Commission," 1980.*

Pomroy, Karen H. Practicum Report: "Lynn, Massachusetts Economic Development Study," 1981.*

Smith, Edwin R. Practicum Report: "An Internship in Urban Planning with the Village of Germantown, Ohio," 1981.*

Tytler, Colin G. Practicum Report: "A Study of Displacement in South Baltimore," 1981.*

University of Miami

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1946 GRADUATE PROGRAM FOUNDED: 1971

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 1

GRADUATE STUDENTS IN RESIDENCE: 6
NOT IN RESIDENCE: 4

CHAIRPERSON: Peter O. Muller

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Thomas D. Boswell, Graduate Advisor, Department of Geography, P.O. Box 248152, University of Miami, Coral Gables, Florida 33124
Telephone (305) 284–4087

PROGRAMS AND RESEARCH FACILITIES: The University of Miami is located in a growing, uniquely cosmopolitan urban area on the margins of the Caribbean. Appropriately, the Department of Geography has particular strength in the fields of urban geography and tropical area studies (in combination with the Center for Advanced International Studies). Programs leading to the Master's Degree tend to focus systematically upon urban problems and regionally upon tropical studies, though not to the exclusion of other combinations; there is much flexibility and arrangements are made to serve individual needs. The possibilities involved are reflected by the faculty's areas of specialization, given below.

The Department's facilities incorporate a large map library and a cartographic laboratory whose equipment includes a darkroom and complete color production facilities. The University Library houses a substantial collection of geographic literature; modern computer facilities (Univac and IBM) exist on campus, and an expanding terminal installation is housed in the Department. The University maintains nearby field stations, available for use by the Department, on Biscayne Bay and in the Florida Keys and the Everglades.

The publications of the Miami Geographical Society are produced in the Department, the latest title being *Geography of Viticulture* by H. J. deBlij.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University of Miami operates on the semester system. The general requirements for the M.A. include: (1) thirty credits at the graduate level, of which 18 should be in the major and 6 in the thesis work; (2) successful completion of the core program which includes courses in field research, cartography, methodology, and quantitative analysis; (3) satisfactory performance in three two-hour written examinations; and (4) submission and successful oral defense of a Master's thesis. Applicants should have a B average in their undergraduate work and should have a combined four-figure score in the Graduate Record Examination. Financial aid includes Departmental assistantships ($3500) and University Fellowships.

STAFF:

Thomas D. Boswell, Ph.D., Columbia, 1973, Associate Professor—population and migration, the Caribbean and Middle America, urban social problems

Donald L. Capone, Ph.D., Michigan State, 1971, Associate Professor—cartography, conservation and resource management, East Africa, crime

James R. Curtis, Ph.D., UCLA, 1978, Assistant Professor—urban cultural landscapes, folk and popular culture, U.S. historical geography, ethnic groups

Harm J. deBlij, Ph.D., Northwestern, 1959, Professor—political, regional studies, viticulture, Southern Africa

David M. Helgren, Ph.D., Chicago, 1975, Assistant Professor—geomorphology, Quaternary studies, archeology, Southern Africa

Peter O. Muller, Ph.D., Rutgers, 1971, Professor and Chairperson; Director, American Studies Program—intrametropolitan spatial structure, U.S. economic geography, energy and settlement patterns

Ira M. Sheskin, Ph.D., Ohio State, 1977, Assistant Professor—urban transportation, quantitative, urban and regional planning, energy systems

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Britt, Linda Lisbeth. "A Study in Spatial Diffusion: Lethal Yellowing in *Cocos Nucifera*," 1981.

Michigan State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1955 GRADUATE PROGRAM FOUNDED: 1952

DEGREES OFFERED: M.A., M.S., Ph.D.

GRANTED 7/1/80–6/30/81: 11 Masters, 12 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 32 Masters 32 Ph.D.
NOT IN RESIDENCE: 1 Masters 4 Ph.D.

CHAIRMAN: Gary A. Manson

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Admissions and Awards Committee or Gary Manson, Chairman, Department of Geography, M.S.U., East Lansing, Michigan 48824
Telephone (517) 355-4649

PROGRAMS AND RESEARCH FACILITIES: Graduate programs are designed to give various levels of professional competence in the tools, substance, methodology and theory of geography. Systematic fields of emphasis are urban, physical, cartography and regional development with other programs possible. Faculty research and travel give regional strength in Africa, Latin America, Europe, East Asia and the United States.

Strong supporting fields include the social sciences, history, soils, geology, food sciences, community medicine, resource development, marketing, urban planning, recreation, and transportation. Geographic study and research are facilitated by the African, Asian, and Latin American Studies Centers, and the University Computer Center.

The MSU library contains well over 2 million volumes and a map library. The Department facilities include an extensive aerial photo collection, a well-equipped cartography laboratory and a Center for Cartographic Research and Spatial Analysis, a graphics laboratory with multiple terminals, and easy access to the University CDC 6500 computer. University housing includes numerous on-campus apartments and a graduate dormitory.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan*—quarter system. *Admission requirements for M.A.*—completion of an undergraduate degree with a 3.4 average for the last two academic years; encourage any qualified student to apply. *Ph.D.*—completion of master's degree or equivalent, satisfactory grade-point average.

Teaching assistantships, university scholarships, research assistantships in cartography, M.S.U. Graduate Office scholarships, and other awards are available. Half-time stipends starting at $4,952 are available depending on the degree held (1980–81 rates). Deadline for applications is February 15 for financial aid the following autumn.

STAFF:

Georg Borgstrom, Professor Emeritus

Dieter Brunnschweiler, Ph.D., Zurich, 1952, Professor—physical, remote sensing, Latin America

David Campbell, Ph.D., Clark University, 1977, Assistant Professor—Africa, social/economic change in developing world

Michael Chubb, Ph.D., Michigan State, 1967, Associate Professor—recreation geography, resource geography, environmental quality, research methods

Joe T. Darden, Ph.D., Pittsburgh, 1972, Professor—urban-social, cultural, U.S.

Richard Groop, Ph.D., Kansas, 1976, Assistant Professor—cartography, population

Jay R. Harman, Ph.D., Illinois, 1968, Professor—physical (plant geography, synoptic climatology)

John M. Hunter, Ph.D., Reading, 1954, Professor—medical, Africa

Daniel Jacobson, Ph.D., Louisiana State, 1954, Professor—cultural-historical, education

Gary A. Manson, Ph.D., Washington, 1970, Associate Professor—geographic education

Ian M. Matley, Ph.D., Michigan, 1961, Professor—cultural, U.S.S.R., East Europe

Assefa Mehretu, Ph.D., Johns Hopkins, 1969, Visiting Associate Professor—economic development, location theory, Africa

Bruce W. Pigozzi, Ph.D., Indiana, 1979, Assistant Professor—economic, transportation, quantitative

Lawrence M. Sommers, Ph.D., Northwestern, 1950, Professor—methodology, Western Europe

Robert N. Thomas, Ph.D., Pennsylvania State, 1968, Professor—population, migration systems, Latin America

Clarence L. Vinge, Professor Emeritus

Jack Williams, Ph.D., Hawaii, 1973, Associate Professor—agricultural, East Asia, Southeast Asia, cartography

Harold A. Winters, Ph.D., Northwestern, 1960, Professor—physical (geomorphology), Michigan

Robert I. Wittick, Ph.D., Iowa, 1972, Associate Professor—transportation, information systems, quantitative, computer techniques

The University of Michigan

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1923 GRADUATE PROGRAM FOUNDED: 1923

DEGREES OFFERED: M.A., M.S., Ph.D.

GRANTED 7/1/80–6/30/81: 2 Master's, 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 12 Masters 18 Ph.D.
NOT IN RESIDENCE: 3 Masters 3 Ph.D.

CHAIRMAN: John D. Nystuen

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Admissions Secretary, Department of Geography, 4028 LSA Building, The University of Michigan, Ann Arbor, Michigan 48109
Telephone (313) 764-0340

PROGRAMS AND RESEARCH FACILITIES: *Systematic Human Geography:* Two focuses include urban, social and transportation geography in the industrial nations and cultural and ecological processes in the developing nations. Interdisciplinary contacts throughout the University include the Transportation Studies, Urban and Regional Planning, Center for Research on Economic Development and Area Study Centers.

Physical Geography: Fields of study include climatology; glaciology; alpine, polar and subpolar environments; soils and plant geography in relation to geomorphic processes. Facilities include physical geography laboratories and field equipment.

Theoretical Geography: Formal geographical theory is presented in subject matter courses and quantitative methods courses. Exceptional computer facilities and cognate courses on social sciences methodology are available at the University.

Cartography: The department offers training in the history of cartography, modern concepts of analytical cartography and computer assisted cartography. The department participates in remote sensing and photogrammetry programs. Facilities include cartographic laboratories, dark room and graphic computer laboratory.

History of Geography: A unique collection of rare books, manuscripts, atlases and maps on the history of cartography and exploration is available in the Clements Library. In addition the University Library has a large map collection.

Regional Geography: Several members of the staff have major interest and extensive field experience in South, Southeast and East Asia; the Near East and North Africa; Europe and the Soviet Union. The University's resources for the study of Asia make it a leading center in the world.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Trimester system. *Admission Requirements:* Applications for admission are invited from students with superior records in geography as well as students with strong backgrounds in the social or natural sciences who desire professional training in geography. An application and a booklet which contains information for prospective graduate students may be obtained upon request from the department. Requests for the Graduate School catalog should be directed to the Mail Room, Horace H. Rackham School of Graduate Studies, The University of Michigan, Ann Arbor, MI 48109. The Department of Geography requires that applicants submit GRE scores and three letters of recommendation whether or not they are applying also for financial aid. Early application is desirable, not later than February 1 for admission the following autumn. *Financial aid:* The department grants various kinds of financial assistance to graduate students and may also recommend students for support from sources outside the department. An application for financial aid is forwarded with the admission application and should be returned to the Department of Geography. The majority of resident graduate students are supported by fellowships and scholarships including the following: Rackham School of Graduate Studies fellowships and scholarships, teaching assistantships and program fellowships in the Graduate School.

STAFF:

Gordon R. Brewster, Ph.D., Western Ontario, 1979, Assistant Professor—soils, environmental systems

Kathleen M. Brown, Ph.D., Minnesota, 1976, Assistant Professor—urban, economic

James D. Clarkson, Ph.D., Chicago, 1967, Associate Professor—cultural, Southeast Asia

Donald R. Deskins, Jr., Ph.D., Michigan, 1970, Professor and Associate Dean, Rackham School of Graduate Studies—urban, social

L. A. Peter Gosling, Ph.D., Michigan, 1958, Professor—Southeast Asia

George Kish, D.Sc., Budapest, 1939, Ph.D., Michigan, 1945, Professor—political, U.S.S.R., Europe

John F. Kolars, Ph.D., Chicago, 1963, Professor—cultural, non-Western resource use, Near East

Ann E. Larimore, Ph.D., Chicago, 1958, Professor—cultural, cultural ecology

Rhoads Murphey, Ph.D., Harvard, 1950, Professor—historical, China, South Asia

Yasuo Noguchi, Ph.D. candidate, Hawaii, Lecturer—geomorphology, hydrology, biogeography

John D. Nystuen, Ph.D., Washington, 1959, Professor—theoretical, urban, regional planning

Samuel I. Outcalt, Ph.D., British Columbia, 1970, Professor—physical, climatology, arctic geomorphology

Richard A. Taketa, Ph.D., Washington, 1979, Assistant Professor—cartography, urban, remote sensing

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Bajwa, Rajinder S. "Irrigation Potentials in Humid Regions With Drought and Land Use Models," 1980.* Mf., Univ. Microfilms.

Hoag, Peter L. "Acculturating Eskimo Arts: The Diffusion of Government Sponsored Production Facilities in Alaska and Canada," 1981. Mf., Univ. Microfilms.

Master's:

Akerman, James R. "Environmental Cognition and Urban Supportive Functions in Maps of England and the Low Countries, 1350-1575," 1981.

Al-Thomaley, Mohammad M. "The Pilgrimage to Makkah: A Study in Population Movement," 1981.

University of Minnesota

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1925 GRADUATE PROGRAM FOUNDED: 1930s

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80-6/30/81: 9 M.A., 4 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 24 M.A. 30 Ph.D.
NOT IN RESIDENCE: 3 M.A. 7 Ph.D.

CHAIRMAN: John S. Adams

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Professor John S. Adams, Chairman, Department of Geography, University of Minnesota, 414 Social Science Building, Minneapolis, Minnesota 55455
Telephone (612) 373-2661

PROGRAMS AND RESEARCH FACILITIES: The special character of the Geography Department at Minnesota has evolved over a considerable length of time. The most pervasive elements have been the strong historical orientation deriving from the era of Ralph Brown and the interest in cultural geography introduced by Jan O.M. Broek. As the department has grown and developed since the late 1940's, increasing attention has been devoted to the history and philosophy of geography, cartography and quantitative analysis as well as to problems of urban and regional development. More recently the specialty in physical geography has been reinforced. The faculty have a wide range of regional interests, and the department participates in all area or regional studies programs. Graduate students are encouraged to develop with their advisers a program which fits their individual talents and needs. Laboratory, cartography and lecture classrooms are directly connected with departmental facilities. Computer facilities and programming services are available through the Social Sciences Research Facilities Center nearby.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University of Minnesota is on the quarter system. Students entering graduate studies normally have a strong undergraduate major in geography and some preparation in a related field or fields. Half-time teaching assistantships in courses in the departmental curriculum and assistantships in cartography, bibliography, computer programming, planning, and in team research projects are available for the academic year. Assistantship stipends at present range from $5454 to $6408 for nine months, plus remission of nonresident tuition and fees. Students may be nominated for Graduate School Fellowships, which pay tuition and offer a stipend of $4500.

HUMAN RIGHTS STATEMENT: The Board of Regents has committed itself and the University of Minnesota to the policy that there shall be no discrimination on the basis of race, creed, color, sex, age, or national origin. In adhering to this policy, the University abides by the requirements of Titles VI and VII of the Civil Rights Act of 1964, Revised Order No. 4, Executive Orders 11246 and 11375, Sections 799A and 845 of the Public Health Service Act, and other federal regulations and pertinent acts of Congress.

It is also the policy of the University of Minnesota not to discriminate on the basis of sex in its educational programs, admissions, activities, or employment policies as required by Title IX of the Education Amendments of 1972.

Inquiries regarding compliance may be directed to Lillian H. Williams, Director, Office of Equal Opportunity and Affirmative Action, 419 Morrill Hall, Minneapolis, Minnesota 55455, (612) 373-7969, or to the Director of the Office of Civil Rights, Department of Health, Education, and Welfare, Washington, D.C. 20201.

Mississippi State University

DEPARTMENT OF GEOLOGY AND GEOGRAPHY

DATE FOUNDED: 1916 GRADUATE PROGRAM FOUNDED: 1925

DEGREES OFFERED: M.S., M.A.T., M.S.S.

GRANTED 8/1/80–6/30/81: 2 M.S., 1 M.A.T.

GRADUATE STUDENTS IN RESIDENCE: 9 M.S.
NOT IN RESIDENCE: 3 M.S.

HEAD: Troy J. Laswell

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Troy J. Laswell, Head, Department of Geology and Geography, Mississippi State University, P.O. Drawer GG, Mississippi State, Mississippi 39762
Telephone (601) 325–3915

PROGRAMS AND RESEARCH FACILITIES: The Master of Arts in Teaching and the Master of Social Studies are non-thesis, interdisciplinary degrees. The Master of Science program requires a minimum of thirty semester hours credit, including six hours of thesis, and proficiency in one foreign language. In the Master of Science program the emphasis is to provide a strong background in systematic and regional geography with techniques and training for independent research. Limited specialization within the department is presently available (quantitative techniques, urban and regional planning, cartography, climatology, economic, and some regional specialties). There are numerous opportunities for interdisciplinary studies within this program. Mississippi State University has many strong departments within the Colleges of Agriculture, Arts and Sciences, Business and Industry, Education, Engineering, Veterinary Medicine, and the Schools of Architecture and of Forest Resources. Campus and off-campus research facilities include Mitchell Library, a depository for government publications and a member of many library interchange networks, a large computing center, the Gulf Coast Research Laboratory at Ocean Springs, and the National Space Technology Laboratory at Bay St. Louis. The University is a member of several consortia, such as Gulf Universities Research Consortium, Mississippi-Alabama Sea Grant Consortium, and Oak Ridge Associated Universities.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Minimum admission standards are a 2.5 grade point average for the last two years of undergraduate study, or a minimum of 800 on the aptitude tests of the Graduate Record Examination. Undergraduate programs need not have been in geography, but at least 18 undergraduate hours in geography are prerequisite to the M.S. program in geography. Several graduate assistantships are available. Reimbursement begins at $3600 for nine months, plus remission of out-of-state fees. Graduate assistants may carry a maximum of ten hours credit per semester. Some additional financial aid may be available from contractual research carried on by the department.

FULL-TIME STAFF:

Donald M. Keady, Ph.D., Texas A & M, 1970, Professor (Geology)—geomorphology, environmental, water resources, engineering geology

Troy J. Laswell, Ph.D., Missouri, 1953, Professor (Geology and Geography) and Head of Department—climatology, Gulf Coast studies, photo interpretation, physical, earth sciences

Thomas W. Lins, Ph.D., Kansas, 1969, Associate Professor (Geology)—environmental, oceanography, sedimentology

Merle W. Myers, Ph.D., Clark, 1948, Professor, Emeritus (Geography)—cartography, environmental, Europe, North America, physical, urban

Karl A. Riggs, Ph.D., 1956, Associate Professor (Geology)—economic mineral resources

Ernest E. Russell, Ph.D., Tennessee, 1965, Professor (Geology)—geomorphology, Gulf Coast studies, paleogeography, paleontology

Charles L. Wax, Ph.D., Louisiana State, 1977, Assistant Professor (Geography)—climatology, meteorology, environmental, conservation, North America

One additional Assistant Professor to be added in Geography in 1981.

PART-TIME STAFF:

Ester Breland, Jr., M.S., Mississippi State, 1973, Acting Instructor (Geography)—cultural, conservation, world regional

John M. Kaye, Ph.D., Louisiana State, 1974, Assistant Professor (Geology)—earth sciences, paleogeography, vertebrate paleontology

ADJUNCT STAFF:

James I. Jones, Ph.D., Wisconsin, 1964, Adjunct Professor (Geology)—Director, Mississippi-Alabama Sea Grant Consortium

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Lloyd, Ruth Elizabeth. "Geology of the Sulligent Quadrangle, Alabama-Mississippi," 1980.

Yip, Freddy Yat-Fung. "Trace Fossils of the Tallahatta Formation (Claiborne Group) in East-Central Mississippi," 1981.

University of Missouri–Columbia

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1950 GRADUATE PROGRAM FOUNDED: 1950

NOT IN RESIDENCE: 0

CHAIRMAN: Walter A. Schroeder

FOR CATALOG AND FURTHER INFORMATION, WRITE TO: Director of Graduate Studies, Department of Geography, University of Missouri-Columbia, Columbia, Missouri 65211
Telephone (314) 882–8370

PROGRAMS AND RESEARCH FACILITIES: The department offers the M.A. degree on alternative programs, with or without a thesis. Thirty-two hours of course work, with varying amounts of individual reading and research, are required. Close contact between graduate students and staff is emphasized. Programs are tailored to fit the individual needs and interests of students, making liberal use of collateral fields such as atmospheric science, geology, anthropology, economics, history, and planning. Programs focussed on North America, physical geography and environmental studies, economic and planning-related geography, cartography, and Asia are common. The University library holdings in books, journals, and documentary materials in geography and related fields are very extensive. In addition, the department itself has a large collection of books, journals, bibliographical and other research aids and maps. Computer facilities, including new graphics equipment, are readily available, and their use is encouraged. The department's cartographic program and equipment are supplemented by those of the Geographic Resources Center, an interdisciplinary center for computer graphics and remote sensing. Graduate minors are available in Regional Science and Environmental Science. The department interacts very closely with a vigorous statewide Geography Extension program, through which internships are available. Graduates are prepared for Ph.D. work, for cartographic work, planning, teaching, and other kinds of employment.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. Admission: An applicant with an undergraduate G.P.A. of at least 3.0, on a 4.0 system, may be admitted on the basis of this record alone. Lower G.P.A.'s require strong support in the form of letters of recommendation and good scores on the Graduate Record Examination. Applicants must take the Verbal and Quantitative parts of this examination and may also submit a score in geography or another subject if they so desire. Eight to twelve teaching assistantships of approximately $4440 for nine months and a few grant-related research assistantships are available on a competitive basis.

STAFF:

Robert F. Austin, Ph.D., Michigan, 1977, Assistant Professor—Southeast Asia, population, cultural

John L. Beets, M.A., Kansas, 1980, Instructor—cartography, remote sensing

William A. Noble, Ph.D., Louisiana State, 1968, Associate Professor—cultural, architectural, South Asia

Walter A. Schroeder, M.A., Chicago, 1958, Instructor and Chairman—physical geography, Missouri

Jesse H. Wheeler, Jr., Ph.D., Chicago, 1950, Professor—United States, Britain, geographic bibliography, college teaching of world regional geography, historical

Ann L. Wright, M.A., Missouri, 1980, Instructor—world regional geography, geographic education

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Astroth, Joseph H., Jr. "Influence of a Growth Center on Indian Rural Life," 1980.*

University of Montana

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1956 GRADUATE PROGRAM FOUNDED: 1965

DEGREES OFFERED: M.A. in Geography, M.S. in Rural, Town, and Regional Planning

GRANTED 7/1/80–6/30/81: 1

GRADUATE STUDENTS IN RESIDENCE: 3 M.A. 16 M.S.
NOT IN RESIDENCE: 3 M.A. 14 M.S.

CHAIRMAN: Evan Denney

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman, Department of Geography, University of Montana, Missoula, Montana 59812
Telephone (406) 243–4302

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography at Montana is a 7-person department with a small graduate group and an atmosphere in which the student can receive a good deal of individual attention. The mountain location of Missoula offers many research opportunities as well as amenities. Encouragement is given to involvement in research on local, Pacific Northwest, or Rocky Mountain problems.

Programs: The M.A. in geography requires a minimum of 45 graduate credits, a reading knowledge of a foreign language or a substantial competency in quantitative analysis, and a thesis. Thesis topics will be considered in any of the areas of specialization, listed below, of the faculty and faculty affiliates. The M.S. in Rural, Town, and Regional Planning is intended to prepare students for positions in agencies which provide planning services for sparsely populated areas. It involves 70 graduate credits, a six-month internship, and a professional paper. The program relies on course offerings and expertise not only in geography but also in forestry, geology, sociology, economics, political science, and business administration.

The M.S. in Rural, Town, and Regional Planning has been designated a WICHE (Western Interstate Commission for Higher Education) program. As a result, students from Alaska, Idaho, Oregon, and Washington can enroll in this program at a resident tuition rate.

Research Facilities: Physical facilities and library holdings are modest but generally adequate for the areas of geography and planning in which theses and professional papers will be accepted. Facilities may not be adequate for highly specialized research.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID:
Academic Plan: Quarter system. Students may enter any quarter.

Admission Requirements: Applications are examined for evidence of potential for scholarly achievement. A 3.0 GPA (on 4.0 systems) is required for admission on regular status. All applicants must supply Graduate Record Examination scores (verbal and quantitative), and applicants from non-English speaking countries must have taken the Test of English as a Foreign Language. Applications are welcome from prospective students whose prior training was not in geography or planning. Requirements to make up undergraduate deficiencies are kept to a minimum.

Financial Aid: The Department has a limited number of $4000 Graduate Teaching Assistantships which carry remission of most fees. The successful candidates are selected from among those whose applications for admission to the Graduate School are complete on April 1. Opportunities for employment on faculty research or consulting projects are occasionally available.

FACULTY:

Harold W. Bockemuehl, Ph.D., Massey, 1974, Associate Professor—cartography, map and air photo interpretation, urban, Australia-New Zealand-S.W. Pacific

John M. Crowley, Ph.D., Minnesota, 1964, Professor—mountain geography, ecosystem mapping and land-capability analysis, North American West, Montana

Evan Denney, Ph.D., Washington, 1970, Professor—resources, land subdivision, land use planning, economic, Pacific Northwest

John J. Donahue, Ph.D., Syracuse, 1971, Associate Professor—landforms, air photo interpretation, terrain evaluation, morphometric analysis

Chris Field, Ph.D., UCLA, 1969, Associate Professor—cultural, environmental change, irrigation, Hispanic America

Darshan S. Kang, Ph.D., Nebraska-Lincoln, 1975, Assistant Professor—water resources, climatology, meteorology, quantitative methods, South Asia

Paul B. Wilson, Ph.D., Nebraska-Lincoln, 1972, Associate Professor—cartography, map and air photo interpretation, historical, United States

FACULTY AFFILIATES:

John H. Crowley, B.A. Maine, 1968—planning

Christopher J. Daly, Ph.D., Michigan, 1979

John Gilliam, M.A., Montana, 1972

Robert C. Lucas, Ph.D., Minnesota, 1972, U.S. Forest Service—geography of recreation, resource management and conservation, cultural

Philip Maechling, M.A., Pennsylvania, 1975—environmental design, landscape architecture

Daniel A. Obermeyer, B.A., Montana State, 1971—planning

George H. Stankey, Ph.D., Michigan State, 1970, U.S. Forest Service—land use and recreation planning, social

A. L. Zimmerman, B.S., Montana State, 1949, U.S. National Weather Service (retired)—climatology, meteorology, hydrology

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Schwartzman, Kristina Haus. "Case Study in Planning a Small Farm Operation in Ravalli County, Montana," 1980.

Murray State University

DEPARTMENT OF GEOSCIENCES

DATE FOUNDED: 1930 GRADUATE PROGRAM FOUNDED: 1969

DEGREES OFFERED: M.A. and M.S. in Geography, M.A. in Education (emphasis in Geography), M.A.C.T., S.C.T.

GRANTED 7/1/80-6/30/81: 1

GRADUATE STUDENTS IN RESIDENCE: 6
NOT IN RESIDENCE: 3

ACTING CHAIRMAN: Gary W. Boggess

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman,
Department of Geosciences, Murray State University, Murray, Kentucky 42071
Telephone (502) 762-2591

PROGRAMS AND RESEARCH FACILITIES: The Geosciences Department offers both the M.A. and M.S. degrees with the thesis (30 hours) or non-thesis (33 hours) option. A third offering is an emphasis in Urban and Regional Planning requiring a nine-hour internship. An oral exam on the thesis material is required of the thesis student and a written comprehensive for the non-thesis student.

The department also participates in three additional graduate programs. They are the M.A. in Education with 18 hours of geography, the Specialist in College Teaching with 30 hours of geography, and the Master of Arts in College Teaching (junior college) requiring also 30 hours in geography. The department has a well-equipped cartography laboratory, remote sensing laboratory, a departmental library/reading room, and a map library. The cartography laboratory houses a Numonics digitizer, Dell-Foster Quantizer, zoom transferscope, Ke sh plotter and a map-o-graph as specialized equipment. A number of geosciences faculty teach and do research in association with the Mid-America Remote Sensing Center (MARC). There, aerial photographic and digital satellite (LANDSAT) data is processed and analyzed using a UNIVAC V77-612 computer and a COMTAL-Dual Image Processor. Other major equipment items include a STATOS 9222 Plotter, Talos SBL660 Digitizer, CROMALIN color processing system, and Kern Stereoplotter.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The university operates on the semester system and has two five-week summer sessions. To be admitted to graduate school, an undergraduate major in Geography is desirable but not necessary for admittance to the program. However, beginning graduate students are expected to have an adequate knowledge of the field. Students should have completed one undergraduate course in cartography. If this undergraduate requirement has not been met, it is possible to take cartography for undergraduate credit while enrolled in the graduate program. The applicant should have an overall undergraduate grade point average of 2.5 (based on 4.0) or above with a grade point average of 3.0 in geography. Students who do not meet these requirements may be admitted to the program with the approval of the geography faculty.

STAFF:

Armin L. Clark, Ph.D., Tennessee, 1961, Professor—Cenozoic stratigraphy, petrology, paleontology

David H. Irwin, M.S., Tennessee, 1949, Associate Professor—climatology, history of geography, Southeast Asia

Thomas C. Kind, Ph.D., Indiana State, 1976, Associate Professor—physical geography, remote sensing, digital cartography

James P. Matthai, Ed.D., Teachers College, Columbia, 1962, Professor—conservation

John E. Mylroie, Ph.D., Rensselaer Polytechnic Institute, 1977, Assistant Professor—karst geomorphology

Neil V. Weber, Ph.D., Indiana State, 1972, Associate Professor—resources management/planning

Peter W. Whaley, Ph.D., Louisiana State, 1968, Professor—depositional environments, coal geology

AFFILIATED STAFF:

Carson R. Dayley, B.S. (geography), Murray State, 1980, Photogrammetrist

Louis E. Hicks, M.A. (geography/planning), Murray State, 1972, Instructor

Kandis K. Jenings, M.S. (geography), 1981, Northern Kentucky, Photogrammetrist

University of Nebraska - Lincoln

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1907 GRADUATE PROGRAM FOUNDED: 1907

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 7 M.A., 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 16 M.A. 4 Ph.D.
NOT IN RESIDENCE: 2 M.A. 4 Ph.D.

CHAIRPERSON: Merlin P. Lawson

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman of the Graduate Committee, Department of Geography, University of Nebraska, Lincoln, Nebraska 68588
Telephone (402) 472-2865

PROGRAMS AND RESEARCH FACILITIES: There is substantial flexibility in designing programs, but course work and staff interests tend to group into several distinct areas.

M.A. LEVEL: (1) *Climatology and Meteorology*, with a focus on climatic change, dendroclimatology, air-sea interaction, severe storms, air pollution, and snow and ice studies. (2) *Historical-cultural geography*, with work tending to focus on the Great Plains. (3) *Spatial analysis and theory*, together with separate emphases on diffusion studies and issues concerned with environment and behavior. (4) *Industrial location* with an applied focus, supplemented by courses in regional economics. (5) *Cartography*, including thematic mapping, computer cartography, and photogrammetry.

Ph.D. LEVEL: (1) *Climatology and Meteorology*. With good facilities and seven staff in this area, several programs of specialization are available. Faculty interests center on long-range forecasting, severe storms, climatic change, and computer graphics. (2) *Historical-cultural geography*. Continuing a long tradition of work in this area, the work of various faculty tends to focus on early settlement (especially on Great Plains), land use, history of cartography, perception of past environments, and the interaction between the Anglo frontier and native Americans. (3) *Environmental and social issues*, with a focus on the importance of space in social organization, rural and urban problems, and experiences, perceptions, and thoughts about one's environmental setting. (4) *Cartography*, with emphases on thematic map design and computer assisted cartography.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester System. For admission to the M.A. program, a person should have a bachelor's degree in geography or some other appropriate field. GRE scores are strongly recommended. The M.A. degree requires 24 hours of course work, plus a thesis (or 36 hours without a thesis) and a written examination. For admission to the Ph.D. program, a person should have an M.A. in geography (with thesis) or its equivalent, and GRE scores are required. Some 36 hours of course work is necessary, plus a dissertation, written and oral comprehensives, and one research tool.

Graduate teaching assistantships ($4600-5500) carry with them remission of non-resident tuition fees and free summer tuition, and six hours of free tuition each semester. Duties are 14 hours per week, most commonly involving laboratory teaching. M.A. students are eligible for two years' support, and Ph.D. students up to three years'. University fellowships are available to persons with outstanding qualifications. Also available are research assistantships and part-time teaching positions (freshman-level courses). Inquire early if possible; completed applications are due March 1.

The University of Nebraska is an Affirmative Action Equal Opportunity Institution.

STAFF:

Douglas M. Amedeo, Ph.D., Iowa, 1967, Associate Professor—spatial theory, quantitative analysis, environment and behavior, diffusion

Robert C. Balling, Ph.D., Oklahoma, 1979, Assistant Professor—climatic fluctuation, applied climatology, computer graphics

Brian W. Blouet, Ph.D., Hull, 1964, Professor and Director of Center for Great Plains Studies—historical settlement, Great Plains, Mediterranean

Kenneth F. Dewey, Ph.D., Toronto, 1973, Associate Professor—applied climatology, meteorology, snow and ice studies, severe storms

Arthur V. Douglas, Ph.D., Arizona, 1976, Assistant Professor—meteorology, climatology, air-sea interaction, dendrochronology

Leslie Hewes, Ph.D., U.C., Berkeley, 1940, Professor Emeritus—historical and cultural geography, Great Plains

Jay S. Hobgood, Ph.D., Ohio State, 1981, Assistant Professor—dynamic meteorology, tropical weather systems, computer graphics

Bruce E. Kopplin, A.B.D., Georgia, Visiting Assistant Professor—applied climatology, meteorology

Stephen J. Lavin, Ph.D., Kansas, 1979, Assistant Professor—map design, map perception, computer cartography

Merlin P. Lawson, Ph.D., Clark, 1973, Associate Professor and Chairman—Pleistocene and historic environments, climatic change, dendroclimatology

Richard E. Lonsdale, Ph.D., Syracuse, 1960, Professor—industrial location, small towns, Australia, Soviet Union

C. Barron McIntosh, Ph.D., Nebraska, 1955, Professor—applied climatology, Great Plains settlement

Dean S. Rugg, Ph.D., Maryland, 1962, Professor—urban, history and philosophy of geography, Eastern and Western Europe

Robert H. Stoddard, Ph.D., Iowa, 1966, Associate Professor—field techniques, social, South Asia

Michael M. Swann, Ph.D., Syracuse, 1980, Assistant Professor—historical urban geography, historical demography, Latin America

David J. Wishart, Ph.D., Nebraska, 1971, Associate Professor—historical, cultural, perception of past environments, Great Plains

AFFILIATED STAFF: Other persons teaching geography courses and/or working closely with geography students:

Larry J. Edwards, Ph.D., (geological engineering), Arizona—photogrammetry

Frederick C. Luebke, Ph.D., (history), Nebraska, Professor—Great Plains, ethnic group settlement

Gary E. Moulton, Ph.D., (history), Oklahoma State—Center for Great Plains Studies, editor of Lewis and Clark Expedition journals

Mary Louise Quinn, Ph.D., (geography), U.C., Berkeley, Assistant Professor—water resources

Donald C. Rundquist, Ph.D., (geography), Nebraska, Assistant Professor—remote sensing

John F. Shroder, Jr., Ph.D., (geology), Utah, Associate Professor—tropical and periglacial geomorphology

William J. Wayne, Ph.D., (geology), Indiana, Professor—geomorphology, urban geology, Quaternary studies

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Kinworthy, John C. "Spatial Sensitivity of Omaha's Dental Facilities: An Inquiry," 1981.* Mf., Univ. Microfilms.

Master's:

Buckwalter, Donald W. "The Spatial Extent of Cities: Methods of Separating Urban and Rural Land and Their Effects on Urban Population Densities in Lincoln, Nebraska and Lubbock, Texas," 1981.*

Embry, Debra R. "Empirically Derived Probability Estimates of Drought Parameters for the Western Unites States Back to 1700 A.D.," 1981.*

Kuivinen, Karl C. "Comparative Analysis of Climatic Reconstruction Derived from Tree-Ring and Ice Core Indicators in Southern Greenland," 1981.*

University of Nebraska at Omaha

DEPARTMENT OF GEOGRAPHY-GEOLOGY

DATE FOUNDED: 1958 **GRADUATE PROGRAM FOUNDED: 1965**

DEGREES OFFERED: M.A.

GRANTED 7/1/80-6/30/81: 6

GRADUATE STUDENTS IN RESIDENCE: 27

NOT IN RESIDENCE: 5

CHAIRPERSON: Charles R. Gildersleeve

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Joseph S. Wood, Chairman, Graduate Program Committee, Department of Geography-Geology, University of Nebraska at Omaha, Omaha, Nebraska 68182
Telephone (402) 554-2662

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography-Geology provides opportunities for graduate work in a broad spectrum of systematic and technical fields. The department is well staffed and equipped to prepare students for careers in remote sensing applications, environmental analysis, planning, and further academic endeavors.

The University of Nebraska Computer Network includes an IBM 360/65, a CDC Cyber 172, and two IBM 370/158 computers.

The Remote Sensing Applications Laboratory has its own Compucolor II Microprocessor and interacts with the computer system through its own Raytheon PTS-100 CRT and DEC-Writer LA 36. Software includes UNORSAL, DIRS, and LARSYS-III Multispectral alogrithms. The Remote Sensing Applications Laboratory also houses Bausch and Lomb Zoom Transfer Scopes, a Numonics 1224 Digitizer/Planimeter, a Spatial Data Density Slicer, and a sizeable collection of all types of imagery.

The department maintains excellent cartographic and darkroom facilities including a 16" x 20" negative-format copy camera and full color reproduction capabilities.

The University Library maintains an especially good collection of urban materials, some 200 periodicals and journals of interest to geographers, and an extensive map collection.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The *Master of Arts* degree is offered. Students must complete a minimum of 24 semester hours of approved graduate work and up to 6 semester hours of thesis for a total of 30 semester hours. Two general concepts courses are required in addition to the thesis. Internships are available with local agencies.

Admission Requirements: An applicant for admission should present as a prerequisite a minimum of 15 semester hours of geography, including human and physical geography and cartography, with a minimum GPA of 3.0 on a 4.0 scale in the major program. Some background in physical geography is expected for teaching assistants. Deficiencies must be made up before a student is admitted to candidacy.

Financial Aid: A number of teaching and research assistantships are available each year for qualified applicants. Most assistants teach labs, but during the 1980-81 school year three research assistantships in remote sensing, supported by the NASA University Affairs Program were also offered. The standard nine-month assistantship carries a stipend of about $3,820 and requires 20 hours of work per week. In addition, the university waives out-of-state fees and tuition for six hours each semester including summer semester.

Part-time and summer employment is occasionally available in the Remote Sensing Applications Laboratory. In addition, several firms provide compensation for work performed under the internship program.

STAFF:

Nicholas Bariss, Ph.D., Clark, 1967, Professor—geomorphology with emphasis on loess topography, climatology, Europe

George F. Engelmann, Ph.D., Columbia, 1978, Assistant Professor—vertebrate paleontology, Tertiary stratigraphy and sedimentation

Charles R. Gildersleeve, Ph.D., Nebraska, 1978, Associate Professor and Chairperson—economic, urban, Latin America, with emphasis on location theory and urban ethnicity

William D. Gosnold, Ph.D., Southern Methodist, 1976, Assistant Professor—geophysics, geothermal energy, heat flow

Jeffrey S. Peake, Ph.D., Louisiana State, 1977, Assistant Professor—physical, climatology, resource conservation, remote sensing

Harold J. Retallick, Ph.D., Clark, 1950, Professor—urban geography, environmental studies

Donald C. Rundquist, Ph.D., Nebraska-Lincoln, 1977, Assistant Professor and Director, Remote Sensing Applications Laboratory—urban, remote sensing, cartography

John F. Shroder, Jr., Ph.D., Utah, 1967, Professor—geology, tropical and periglacial geomorphology, East Africa, Afghanistan

Philip E. Vogel, Ph.D., Nebraska-Lincoln, 1960, Professor—historical, agricultural, United States, history and philosophy of geography

Joseph S. Wood, Ph.D., Pennsylvania State, 1978, Assistant Professor—human geography, cultural landscapes of North America, historic preservation

University of New Mexico

GEOGRAPHY DEPARTMENT

GRADUATE PROGRAM FOUNDED: 1970

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 2

GRADUATE STUDENTS IN RESIDENCE: 12
NOT IN RESIDENCE: 4

CHAIRMAN: Richard E. Murphy

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Professor Rodman E. Snead, Geography Department, University of New Mexico, Albuquerque, New Mexico 87131
Telephone (505) 277-2253

PROGRAMS AND RESEARCH FACILITIES: The Department offers a considerable range of courses and thesis direction in systematic and regional geography. The fields with greatest depth are: climatology, cartography, cultural geography, urban geography, geomorphology, remote sensing, Southwestern U.S., Latin America, Europe, Africa, and Southern Asia. The Department is an active participant in the University's strong program of Inter-American Affairs. Library holdings are good, particularly with respect to Arid Lands and Latin American materials.

ACADEMIC PLAN, ADMIS[illegible] REQUIREMENTS, AND FINANCIAL AID: The University operates on th[illegible]mester system.

Each application is reviewed individually, but in general an overall undergraduate average of near B and a full B average in undergraduate work in geography are necessary for admission to the program.

Thesis and non-thesis plans are offered. Candidates for the degree must pass a reading examination in a foreign language, or complete successfully two semesters of quantitative methods. Each candidate must pass an oral comprehensive examination.

Two teaching assistantships and one graduate assistantship are available. The stipend is $4500. Application for other types of financial aid may be made to the Graduate Office.

STAFF:

Elinore M. Barrett, Ph.D., UC, Berkeley, 1970, Professor—cultural-historical, Latin America

Iven Bennett, Ph.D., Boston, 1962, Professor—climatology, United States and Canada

Bradley T. Cullen, Ph.D., Michigan State, 1980, Assistant Professor—economic, quantitative methods

Dennis E. Fitzsimons, A.B.D., Kansas, Assistant Professor—cartography, field methods

Stanley A. Morain, Ph.D., Kansas, 1970, Associate Professor—biogeography, geography of soils, remote sensing

Richard E. Murphy, Ph.D., Clark, 1957, Professor and Chairman—cultural, political, Europe

Rodman E. Snead, Ph.D., Louisiana State, 1963, Professor—geomorphology, map reading and air photo interpretation, Middle East, South Asia

Stuart H. White, A.B.D., Wisconsin, Assistant Professor—Latin America, conservation, resources

Jerry L. Williams, Ph.D., Oregon, 1977, Assistant Professor—urban, land use planning, Africa

University of North Carolina, Chapel Hill

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1936 GRADUATE PROGRAM FOUNDED: 1936

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 3 M.A., 4 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 23 M.A. 10 Ph.D.
NOT IN RESIDENCE: 7 M.A. 7 Ph.D.

CHAIRMAN: Richard J. Kopec

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Richard J. Kopec, Chairman, Department of Geography, UNC-Chapel Hill, 203 Saunders Hall 043–A, Chapel Hill, North Carolina 27514
Telephone (919) 933–8901

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography offers both M.A. and Ph.D. degrees. Intensive training is offered in urban-economic, population-medical, physical environment and cartographic fields. Emphasis is placed on analysis of problems which have an applied aspect and consequently have implications for policy development. Programs are tailored to the student's interests and normally include courses in other departments such as economics, city and regional planning, sociology, political science, epidemiology, or environmental science and engineering.

Students have access to the facilities of the Institute for Research in Social Science, Institute of Latin American Studies, Institute of Government, Carolina Population Center, Institute of Statistics and the Water Resources Research Institute. Cooperative programs among the University of North Carolina, Duke University and North Carolina State University permit use of their combined library holdings, courses, and facilities. IBM System 360/75 and 370/165 computers are available through the Computation Center on campus and are linked to the Department by Tektronix, Apple II, TSR-80, and TelRay remote terminals. Cartographic facilities include a computer graphics room equipped with a Bendix Datagrid Digitizer interfaced to an IBM 029 cardpunch machine and to a Tektronix CRT-Processor, two Plotters, and a Hard-copier. The nearby Research Triangle Park provides a unique complement of private and governmental research facilities.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University operates under the semester system. Several University fellowships are available for first-year students with superior academic records.

Departmental graduate assistantships are awarded on a competitive basis as are research assistantships provided by the various centers and institutes. These assistantships usually carry in-state tuition. Departmental assistantships normally require the recipient to teach discussion sections of introductory courses. Part-time teaching of extension courses and in nearby colleges also may be available to qualified applicants. Presently, 25 graduate students are financially supported through the Geography Department.

Forms for admission to the Graduate School and for financial assistance are obtained directly from the Graduate School Admissions Office, Steele Building, University of North Carolina, Chapel Hill, NC 27514.

Two copies of all undergraduate and graduate transcripts and scores from the general aptitude section of the Graduate Record Examination are a part of the application. Prospective students should include a brief one- to two-page statement explaining their purposes and goals in undertaking graduate study in geography.

February 1st is the deadline for applications and notification of fellowships awards is sent out shortly thereafter. Applications for admission without aid will be considered until late spring.

STAFF:

David G. Basile, Ph.D., Columbia, 1964, Professor Emeritus—economic resources, Latin America

University of North Carolina, Charlotte

DEPARTMENT OF GEOGRAPHY AND EARTH SCIENCES

DATE FOUNDED: 1965 GRADUATE PROGRAM FOUNDED: 1973

DEGREES OFFERED: M.A.

GRANTED 7/1/80-6/30/81: 5

GRADUATE STUDENTS IN RESIDENCE: 15
NOT IN RESIDENCE: 7

CHAIRMAN: Alfred W. Stuart

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman, Graduate Advisory Committee, Department of Geography and Earth Sciences, University of North Carolina at Charlotte, UNCC Station, Charlotte, North Carolina 28223
Telephone (704) 597-2293

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography and Earth Sciences offers an M.A. degree that is strongly oriented to the application of geographic concepts and methods to the contemporary world. Applications of cartography, computerized graphics, quantitative methods and remote sensing are emphasized. Major facilities include a fully equipped cartography lab with three darkrooms and a terminal room that houses the computerized Regional Information System, a joint undertaking with the Urban Institute. Graduates of the program are prepared to work as professionals in areas such as urban and regional planning research, locational analysis, community college teaching, marketing research, cartography, and environmental problems. Most students are placed with a local company or agency, in a directed internship in lieu of the traditional thesis research. Each internship student completes a research project that is the basis for a final thesis-type report.

Student programs are individually tailored, and up to one-third of courses can be taken in related fields.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University operates under the semester system. Teaching assistantships carry stipends of $4000 and remission of the nonresident portion of tuition is usually available. Part-time teaching is sometimes available as is employment in the departmental cartographic lab. Students on internships receive a stipend that is usually more than that paid to teaching assistants. Application forms should be obtained from the Director of Graduate Studies, University of North Carolina at Charlotte, UNCC Station, Charlotte, North Carolina 28223, or from the Department. An official transcript of all previous academic work is required plus scores from either (1) the general aptitude section of the Graduate Record Examination, or (2) the Miller Analogies Test and the Doppelt Mathematical Reasoning Examination. An undergraduate geography major is not required, but those students who are deficient in the basic concepts and methods of geography will be required to take prerequisite coursework.

Applications for teaching assistantships should be received by March 1. Awards are announced by about April 1. Applications for admission without aid are considered until one month prior to the beginning of any semester. Financial aid is sometimes available beginning in the Spring semester as well.

FULL-TIME AND PART-TIME STAFF:

James W. Clay, Ph.D., UNC Chapel Hill, 1969, Professor and Director, Urban Institute—resources, Latin America, environment, cartography

Jeffrey L. Dunn, Ph.D., South Carolina, 1979, Visiting Assistant Professor—geologic education

Joseph P. Frizado, Ph.D., Northwestern, 1980, Assistant Professor—geochemistry, geohydrology

Owen J. Furuseth, AICP, Ph.D., Oregon State, 1978, Assistant Professor—land use planning, environmental impact analysis, man-land studies

Gerald L. Ingalls, Ph.D., Michigan State, 1973, Associate Professor—political, urban, crime

Sallie M. Ives, Ph.D., Illinois, 1977, Assistant Professor—urban, social cognition, social impact analysis

Robert E. Lemmon, Ph.D., UNC Chapel Hill, 1973, Assistant Professor—petrology, geochemistry, structural geology

J. Dennis Lord, Ph.D., Georgia, 1970, Associate Professor—urban-economic, marketing, quantitative

David L. Martin, Ph.D., South Carolina, 1976, Assistant Professor—sedimentology, stratigraphy

Walter E. Martin, Ph.D. candidate, Tennessee, Lecturer—cultural, historical, physical

Nelson R. Nunnally, Ph.D., Illinois, 1965, Professor—physical, quantitative methods, remote sensing

Douglas M. Orr, Jr., Ph.D., UNC Chapel Hill, 1968, Professor and Vice Chancellor for Research and Public Service—political, cultural, Europe

Gerald F. Pyle, Ph.D., Chicago, 1970, Professor—urban, medical

Norman W. Schul, Ph.D., Syracuse, 1962, Professor and Special Assistant to the Chancellor—Asia, economic

Jefferson L. Simpson, M.Ed., UNC Charlotte, 1974, Lecturer and Staff Cartographer—cartography

Paul D. Smith, M.A., Michigan State, 1980, Lecturer and Director of Regional Information System—computer graphics

Alfred W. Stuart, Ph.D., Ohio State, 1966, Professor and Chairman—the South, manufacturing, polar regions

Taz Tally, Ph.D., UC, Santa Barbara, 1980, Assistant Professor—geomorphology, environmental geology

Wayne A. Walcott, Ph.D., Illinois, 1974, Associate Professor —transportation, industrial, location theory

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Brunnemer, Nancy. "Child Care Facility Location Preferences of Uptown Charlotte Employees," 1981.

Hallett, Patrick D. "A Rapid Low-Cost Technique for Estimating Peak Flow for Selected Flood Events," 1981.

Lynds, Charles. "An Evaluation of Southern Metropolitan Areas for Future Market Expansion," 1981.

Roberts, Cheryl. "Medical Facilities in the Metro Town," 1981.

Wright, David. "Locating Micro Electronics Facilities in North Carolina," 1981.

University of North Dakota

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1884 GRADUATE PROGRAM FOUNDED: 1940

DEGREES OFFERED: M.A., M.S., M.Ed.

GRANTED 7/1/80-6/30/81: 2

GRADUATE STUDENTS IN RESIDENCE: 18
NOT IN RESIDENCE: 8

CHAIRMAN: Kang-tsung Chang

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Kang-tsung Chang, Department of Geography, University of North Dakota, Grand Forks, North Dakota 58202
Telephone (701) 777-4246

PROGRAMS AND RESEARCH FACILITIES: Graduate programs available include the Master of Arts and Master of Science degrees (thesis required) and the Master of Education degree (non-thesis). Designed to prepare graduate students for doctoral study or for a professional level career in government, industry, or education, the geography curriculum is oriented to professional competence in the discipline. The graduate student in geography is expected to develop both a systematic and a regional interest, basic research tools and techniques, and a knowledge of geographic theory and concepts.

The Department of Geography operates the U.S. National Oceanographic and Atmospheric Service Weather Station at Grand Forks complete with evapotranspiration and meteorological instrumentation including air quality surveillance monitors. The Department maintains an extensive collection of climatic data for the Northern Plains region and is a depository for the Army Map Service. The departmental library contains a large topographic and wall map collection as well as selected books and periodicals. In addition to well-equipped cartographic, photographic, computer, and statistical facilities, the Department houses the University of North Dakota Institute for Remote Sensing.

Research reflecting the interests of individual faculty members includes systematic and topical aspects of geography. Technique interests include cartography, computer graphics, air photo interpretation,remote sensing, quantitative applications and field techniques. Regional interests extend over much of the world although completed master's theses reflect an emphasis on the Northern Great Plains region.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The graduate program in geography at the University of North Dakota has been developed with the presumption that entering students normally would have successfully completed an undergraduate major and hold a Bachelor's degree in geography from a recognized institution. However, outstanding applicants are evaluated on an individual basis and those with limited backgrounds in geography but a distinguished record in another discipline may be accepted on a provisional basis with the understanding that deficiencies would be remedied early in the graduate program. Admission to approved status for graduate work in geography requires a GPA of at least 3.00 in all undergraduate work and a minimum of 18 semester credits of undergraduate work in geography (at least one course in each of the following fields: physical, cultural, regional, and techniques) plus 6 credits in fields cognate to geography.

STAFF:

Ted J. Alsop, Ph.D., Oregon State, 1979, Assistant Professor—natural environments, climatology, remote sensing, Latin America

Ralph C. Brown, Ph.D., Syracuse, 1964, Professor—economic, rural, population, political, map reading, North Polar Region, Africa, North America

Kang-tsung Chang, Ph.D., Clark, 1971, Associate Professor—cartography, spatial analysis, computer applications

William A. Dando, Ph.D., Minnesota, 1969, Professor—agriculture, field methods, physical, meteorology, climatology, remote sensing, U.S.S.R., Eastern Europe

Floyd C. Hickok, A.B.D., U.C., Davis, 1978, Research Fellow and Staff Cartographer—cartography, computer graphics, agriculture, North America

Gary E. Johnson, Ph.D., Indiana State, 1974, EROS Data Center (faculty associate)—agriculture, land use, remote sensing, cartography, quantitative methods, economic, North America

Roland D. Mower, Ph.D., Kansas, 1971, Associate Professor—agriculture, land use, remote sensing, conservation, Latin America, cultural, physical, meteorology, climatology

Douglas C. Munski, Ph.D., Illinois, 1978, Assistant Professor—historical, geographic education, North America, transportation

Bernt L. Wills, Ph.D., Northwestern, 1953, Professor—Regional Geography: North Dakota, North America, Europe, Australia and New Zealand; teaching methods

John W. Wyckoff, Ph.D., Utah, 1980, Assistant Professor—remote sensing, biogeography, land use, air photo interpretation, field methods, environmental impact analysis

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Hammen, John L. "Flooding of the Red River of the North: An Analysis of Climatic and Land-Use Parameters," 1980.

Tveter, Marlo R. "Some Administrative and Geographic Considerations for the Proposed Creation of the Farmington School District in Richland County, North Dakota," 1981.

North Texas State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1920 GRADUATE PROGRAM FOUNDED: 1978

DEGREES OFFERED: M.S., M.P.A.

GRANTED 7/1/80–6/30/81: 2

GRADUATE STUDENTS IN RESIDENCE: 10

CHAIRMAN: Terry G. Jordan

FOR CATALOG AND FURTHER INFORMATION WRITE TO: John L. Bean, Jr., Graduate Advisor, Department of Geography, North Texas State University, Denton, Texas 76203
Telephone (817) 788–2091 or 788–2562

PROGRAMS AND RESEARCH FACILITIES: Two programs are offered: (1) *Master of Science in Interdisciplinary Studies: Regional Science and Planning*—The Master of Science degree offered through the Department of Geography also draws upon courses in economics, sociology, real estate, and political science. The program meets the selective needs of professional planners in both the public and private sectors, in particular spatial planning and development at the regional and local level, with emphasis on urban and economic patterns. The program provides a solid foundation in spatial theory and practical-technical skills, including computer applications and mapping and quantitative methods. An internship is optional in the 36-hour program. (2) *Master of Public Administration: Urban and Regional Planning*—The Departments of Geography and Political Science jointly offer a graduate track in Urban and Regional Planning, leading to the degree of Master of Public Administration. This program prepares planners to function effectively within a governmental system. Focus is on spatial analysis in the planning process. The 36-hour program includes an internship, plus 15 hours each of courses and seminars in geography and political science.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. *Admission:* Applicants must submit scores on the Graduate Record Examination. No specific number of undergraduate hours in geography is required for admission to the M.S. program, but remedial undergraduate courses may be necessary in individual cases. Admission to the M.P.A. program requires completion of at least 6 undergraduate hours in geography and 12 in political science. *Financial Assistance:* For full-time on-campus students, teaching assistantships are available.

STAFF:

John L. Bean, Ph.D., Pittsburgh, 1967, Associate Professor—computer graphics, urban regional science

Stephen A. Hall, Ph.D., Michigan, 1975, Assistant Professor—environmental planning

William M. Holmes, Ph.D., Texas, 1975, Assistant Professor—cartography, rural land use

Terry G. Jordan, Ph.D., Wisconsin, 1965, Professor and Chairman—historical preservation

F. Andrew Schoolmaster III, Ph.D., Kent State, 1979, Assistant Professor—recreational geography, quantitative methods

Northeastern Illinois University

DEPARTMENT OF GEOGRAPHY AND ENVIRONMENTAL STUDIES

DATE FOUNDED: 1961 GRADUATE PROGRAM FOUNDED: 1970

DEGREES OFFERED: M.A., Geography and Environmental Studies
M.A., Geography and Environmental Studies: Urban Land-Use Planning

GRANTED 7/1/80–6/30/81: 4

GRADUATE STUDENTS IN RESIDENCE: 92
NOT IN RESIDENCE: 0

CHAIRPERSON: Barbara J. Winston

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Karl M. Kriesel, Graduate Coordinator, Department of Geography and Environmental Studies, Northeastern Illinois University, 5500 N. St. Louis Avenue, Chicago, Illinois 60625 Telephone (312) 583–4050, ext. 780

PROGRAMS: Course requirements include 33 semester hours tailored to the individual's program and career interests. The sequence leading to an M.A. in Geography and Environmental Studies is designed to train persons for positions in education, industry, government, environmental interpretation, and other areas where geographers and environmentalists are needed. The sequence in Urban Land-Use Planning is designed to train city planners specializing in land-use. Internships are required in the Urban Land-Use Planning Sequence.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Students must fulfill requirements for admission to the Graduate College, must have at least 15 hours in geography, or may be admitted conditionally with 6 semester hours in geography and must remove the deficiency. Contact Dean, Graduate College, for financial aid information.

STAFF:

C. Wallace Dierickx, Ph.D., Northwestern, 1955, Professor—economic, Africa, comparative world cultures

Robert F. Easton, M.A., Northwestern, 1967, Assistant Professor—physical, geomorphology, climatology

William L. Howenstine, Ph.D., Michigan, 1959, Professor—natural resources policy, planning, and management; environmental interpretation; population policy

Ying-Cheng Kiang, Ph.D., Columbia, 1955, Professor—urban, Chicago, Asia

Karl M. Kriesel, Ph.D., Michigan, 1970, AICP, Professor—cultural, political, scope and philosophy of geography, planning

William Millard, Ph.D., Minnesota, 1969, Associate Professor—recreation, conservation, urban historic preservation

Musa Qutub, Ph.D., Iowa State, 1969, Professor—physical, hydrology and water resources, environmental education

Lowry Taylor, M.A., Northwestern, 1975, Assistant Professor—quantitative and computer methods, cartography, regional development

Barbara Winston, Ph.D., Northwestern, 1974, Professor and Chair—environmental education, environmental perception, geographic education

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:
Master's:

Buckman, Emily S. "Developing a Skilled Energy Workforce: The Integrated Training Experiences Concept," 1980.*

University of Northern Colorado

GEOGRAPHY DEPARTMENT

DATE FOUNDED: 1968 GRADUATE PROGRAM FOUNDED: 1968

DEGREES OFFERED: M.A. in Social Science, D.A. (Doctor of Arts) in Geography

GRANTED 7/1/80–6/30/81: 6 M.A. 1 D.A.

GRADUATE STUDENTS IN RESIDENCE: 11 M.A. 3 D.A.
NOT IN RESIDENCE: 6 D.A.

CHAIRMAN: Steven L. Scott

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Steven L. Scott, Chairman, Geography Department, University of Northern Colorado, Greeley, Colorado 80639
Telephone (303) 351-2715

PROGRAMS AND RESEARCH FACILITIES: *Doctor of Arts*—The Doctor of Arts degree is designed for those interested in creative teaching at the junior (community) or senior college level with a complementary commitment to research. Most course work is in geography; however, based upon individual needs and interests, the program is adequately flexible and the opportunity to work in supportive areas is strongly encouraged. Graduate level course work in pedagogy and a supervised teaching experience prepare the candidate for a college teaching career.

Research training culminates in a dissertation based upon original independent investigation of a geographic problem, a teaching strategy or technique pertinent to geography, or an original synthesis and evaluation of materials potentially valuable to college teaching in the discipline. *Master of Arts*—The Geography Department offers a Master of Arts degree in social science with a concentration in geography. The program is flexible and may be designed as a terminal degree or as a foundation for additional graduate study.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University operates year-round on the quarter system. Students may enter the program at the beginning of any quarter. An appropriate baccalaureate degree from an accredited institution and a formal application to the Office of the Graduate School are required for admission. Students in need of financial assistance to meet educational expenses are invited to correspond with the Financial Aids Office and Geography Department.

STAFF:

David B. Cole, Ph.D., Colorado, 1975, Associate Professor—geographic education, social geography, population

Charles O. Collins, Ph.D., Kansas, 1973, Associate Professor—Mexico and Caribbean, population, agriculture, cultural

John L. Dietz, Ph.D., Syracuse, 1970, Professor—economic, Anglo-America, Great Plains, U.S.S.R.

Kevin C. Kearns, Ph.D., St. Louis, 1966, Professor—political, South America, Ireland

Katherine L. Kutsche, Ph.D., Indiana, 1978, Assistant Professor—urban, transportation, planning

Paul L. Lehrer, Ph.D., Nebraska, 1962, Professor—physical, soils, Africa, western Europe

Richard K. Ormrod, Ph.D., Pennsylvania State, 1974, Associate Professor—recreation, man-environment, Caribbean

Steven L. Scott, D.A., Northern Colorado, 1973, Associate Professor—cartography, Anglo-America, Great Plains

TITLES OF DISSERTATIONS COMPLETED 7/1/80-6/30/81:

D.A.

Green, D. Brooks, "Irrigation Potential and Agricultural Settlement in Submarginal Land: An Example from Weld County, Colorado," 1980. Mf., Univ. Microfims.

Northern Illinois University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1968 GRADUATE PROGRAM FOUNDED: 1957

DEGREES OFFERED: M.S.

GRANTED 7/1/80–6/30/81: 4

GRADUATE STUDENTS PART-TIME: 15
FULL-TIME: 20

CHAIRMAN: Donald W. Maxfield

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Prof. Donald W. Maxfield, Chairman, Department of Geography, Northern Illinois University, De Kalb, Illinois 60115
Telephone (815) 753–0631

PROGRAMS AND RESEARCH FACILITIES: A student who elects a major in geography leading to the Master of Science degree arranges a program of courses totaling a minimum of 30 semester hours in consultation with his adviser. This program will include a course in research design, and usually, a total of 20 semester hours of geography courses. Students may choose to write a thesis or elect the non-thesis option. Additional requirements include: (1) passing a course in advanced quantitative techniques or passing a reading knowledge examination in a modern foreign language appropriate to the student's research interests or satisfactory completion of a course in advanced field methods. This alternative is intended only for individuals teaching or planning to teach at the elementary or secondary levels and (2) passing a comprehensive written examination.

Special facilities include laboratories for studies in cartography, climatology, meteorology, remote sensing and soils. The Department has two computer terminals. The Cartographic Laboratory is equipped with a Calcomp 663 drum plotter, 770 tape drive, Altek digitizer, Bausch and Lomb zoom transfer scope, Balplex plotter, Kelsh plotter, Diatype phototypesetting unit, Brown 3n1 process camera, and a photographic darkroom. A student-run weather station is equipped with Service A teletype and National Weather facsimile circuits. Additional equipment includes a variety of air quality monitoring instruments, radar facsimile receiver, and a low-altitude tethered balloonsonde. The University AMDAHL V7 and CDC CYBER 170 computers are accessible to any graduate student. In addition to the facilities of a rapidly growing University library, a map library with holdings of 139,000 maps and over 900 atlases is conveniently located.

The Department of Geography has developed staff strength in four clusters: applied meteorology/climatology, environmental management, applied urban/economic, and area studies. Graduate course groupings include applied meteorology, agro-climatology, climatic change, and environmental quality, evaluation and management. Other examples are programs in planning that include growth management, locational analysis, and the development of mapping systems for local and regional agencies. In addition, Geography participates in the programs of the Center for Southeast Asian Studies and the Center for Governmental Studies. The location of the University relative to the Chicago and Rockford metropolitan areas provides an impressive range of research opportunities in urban studies, planning, and environmental management.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: N.I.U. operates on a semester system. Admission as a graduate student requires a bachelor's degree from an accredited college or university, a GPA of at least 2.5 (4-point system), and approval of the Department of Geography. Admission beyond the Master's degree requires a GPA of 3.0 or above and Department approval. All prospective graduate students must take the Graduate Record Examination (verbal and quantitative) prior to admission.

Assistantships and fellowships carry stipends to $4500 for the academic year plus waiver of registration and out-of-state fees. Applications for graduate assistantships and fellowships for 1982–83 should be sent prior to February 15, 1982. Geography also offers a variety of internships with planning agencies in the northern Illinois area. These internships provide a stipend and, in some cases, waiver of tuition and summer support. Students interested in internships should direct inquiries to the Department Chairman. N.I.U. does not discriminate on the basis of the race, creed, color or national origin of any applicant.

STAFF:

Lloyd D. Black, Ph.D., Michigan, 1940, Professor—regional planning, development (foreign aid)

Kenneth L. Bowden, M.S. Ed., Northern Illinois, 1957, Assistant Professor—hydrology, water resources, physical

Alan L. Cole, Ph.D., Michigan, 1962, Associate Professor—applied meteorology, instrumentation and measurements

Richard E. Dahlberg, Ph.D., Wisconsin, 1959, Professor—cartography

C. Daniel Dillman, Ph.D., Michigan, 1968, Professor—Latin America, rural landscapes, physical

B. Ross Guest, Ph.D., Chicago, 1951, Professor—environmental management, U.S.S.R., Anglo-America

Leonard J. Kouba, Ph.D., Boston, 1970, Associate Professor—conservation, physical, Africa

Cornelius J. Loeser, Ph.D., UCLA, 1965, Assistant Professor—cultural, East Asia

Donald W. Maxfield, Ph.D., Iowa, 1967, Associate Professor and Chairman—urban, remote sensing

A. Steven Messenger, Ph.D., Michigan State, 1966, Associate Professor—soils, forestry, biogeography

Ralph A. Petersen, Ph.D., Wisconsin, 1975, Associate Professor—synoptic climatology, cyclone dynamics

Clayton H. Reitan, Ph.D., Wisconsin, 1971, Associate Professor—meteorology, climatology

Allen E. Staver, Ph.D., Wisconsin, 1969, Associate Professor—dynamic meteorology, numerical weather prediction

Charles E. Trott, Ph.D., Ohio State, 1969, Associate Professor and Associate Dean, College of Liberal Arts and Sciences—urban, migration analysis, health planning, applied statistics

Jack R. Villmow, Ph.D., Wisconsin, 1955, Professor—climatology, meteorology, Eastern Europe, U.S.S.R.

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Anderson, Mark R. "A Statistical Analysis of the Thermodynamic Structure of the Atmosphere During Various Snowfall Events for Peoria, Illinois," 1980.

Renzas, James H. "Scale of Production as a Factor in Nonmetropolitan Facility Location," 1981.

Tremback, Craig J. "A Moist Adiabatic Trajectory Computation Based on a Modified 'Discrete Model' Formulation," 1980.

Wallace, Debbie L. "Regionalizing Water Quality: The Province Model," 1980.

GRADUATE STUDENTS IN RESIDENCE: 4
NOT IN RESIDENCE: 6

HEAD: Basheer K. Nijim

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Basheer K. Nijim, Head, Department of Geography, University of Northern Iowa, Cedar Falls, Iowa 50614
Telephone (319) 273-2772

PROGRAMS AND RESEARCH FACILITIES: The prospective student will especially benefit from the Department's offerings in planning and applied economic and urban geography, cartography, methodology (theoretical and quantitative), population studies, environmental and resource management, cultural, political, and rural geography. Regional emphases include Anglo-America, East Asia, the Middle East, and Europe.

The Department has separate labs for cartography, photography, and physical geography, and it has access to excellent computer facilities.

The program is flexible and provides extensive personal contact between the faculty and the students.

The Department publishes *Geographical Perspectives*, a semiannual journal.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester System. A graduate of an accredited undergraduate program may be admitted. A departmentally administered diagnostic examination is required of all new students. A minimum grade average of B must be maintained. Assistantships and other possibilities of financial support are available.

STAFF:

C. Murray Austin, Ph.D., Pennsylvania, 1971, Associate Professor—urban, economic, quantitative methods, theoretical, futures, geographic education

CHAIRMAN: Michael F. Dacey

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Professor John C. Hudson, Department of Geography, Northwestern University, Evanston, Illinois 60201
Telephone (312) 492-7030

PROGRAMS AND RESEARCH FACILITIES: Courses and seminars in the various areas of faculty specialization listed below are augmented with substantial course work in other departments and programs such as economics, industrial engineering, urban systems engineering, management and transportation. Programs of study are worked out individually for each student and permit flexibility within the basic focus of the department.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Admission is limited to mature students having a Master's degree in geography or a closely related field. The basic Ph.D. degree program consists of a three-year sequence of courses, seminars and dissertation research. There is emphasis on independent study supplemented by course work in cognate departments. Successful defense of an evaluation paper and a dissertation proposal, normally in the second year, admits the student to Ph.D. candidacy. Departmental financial support for the first three years of the program is available to qualified students; the stipend for 1981-82 is $5,500 plus full remission of tuition ($6,885). All students participate both as teaching and research assistants. Applicants seeking financial support are encouraged to submit GRE scores. Currently, there is no Master's degree program.

STAFF:

Michael F. Dacey, Ph.D., Washington, 1960, Professor of Geography and Geological Sciences—mathematical geography, spatial statistics, location theory

Jacqueline M. Desbarats, Ph.D., Bordeaux, 1971, Assistant Professor—social, behavioral

Edward B. Espenshade, Jr., Ph.D., Chicago, 1943, Professor Emeritus

Alan G. Ferguson, Ph.D., Bristol, 1976, Assistant Professor—spatial statistics, computer applications, underdevelopment

Gary L. Gaile, Ph.D., UCLA, 1976, Assistant Professor—economic, Africa

John C. Hudson, Ph.D., Iowa, 1967, Professor—settlement, diffusion models, North America

Peter A. Rogerson, Ph.D., SUNY Buffalo, 1981, Assistant Professor—economic, population

TITLES OF DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

McCall, Michael K. "The Diffusion of Regional Underdevelopment: Articulation of Capital and Peasantry in Sukumaland, Tanzania," 1980. Mf., University Microfilms.

Quinn, Angelo Ko. "Some Small Sample Non-Parametric Space-Time Clustering Tests," 1981. Mf., University Microfilms.

Ohio State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1907 GRADUATE PROGRAM FOUNDED: 1907

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 3 M.A., 6 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 11 M.A., 16 Ph.D.
NOT IN RESIDENCE: 3 M.A., 4 Ph.D.

CHAIRPERSON: John N. Rayner

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. A. John Arnfield, Chairman, Graduate Committee, Department of Geography, The Ohio State University, 103 Administration Building, 190 North Oval Mall, Columbus, Ohio 43210
Telephone (graduate program) (614) 422-7954, (other matters) (614) 422-2514

PROGRAMS AND RESEARCH FACILITIES: Programs of study stress theoretical and conceptual approaches to geographic problems. Methodologically, the emphasis is largely quantitative. Indeed, in the past, the department has been known primarily for its quantitative and analytical orientation. Although this focus remains strong, there is also a significant degree of activity in other directions, including institutional and historical approaches to geography, studies in a developing world context, political economy, policy studies and alternative geographic paradigms. Research problems undertaken by students may be of a fundamental or applied nature. The overall program is intended to be flexible enough to provide the geographer with an appropriate background to undertake a career in academia, private industry, consulting firms, government or research institutes.

Graduate level programs are offered in cartography, climatology, the geography of development, locational analysis, political geography, quantitative analysis, social-population geography, transportation geography and urban geography. Further details on any of these fields are available on request.

Research is supported by an excellent library system housing some 3.5 million volumes, 1 million microforms, and 145,000 map sheets. Current serial subscriptions number 25,000 series and include virtually all journals of value in geographic research. A computer-based circulation system provides access to catalog data and information on location and availability of materials via public terminals. Computer-based literature searches also are available.

University computer facilities are based on an Amdahl 470V6, a large central processing system which, with an interconnected IBM 4341, supports a large baseload of batch and interactive processing. The system supports advanced software and text editing systems, graphic CRT terminals and plotters. A large digitizing system also is available.

The department supports laboratories for work in cartography and climatology.

A large range of meteorological instrumentation is available, including radiometers, humiditiy, temperature and wind profile systems, an infrared thermometer and a variety of analog and digital electronic recording devices. A facsimile machine circuit to the National Weather Service in Washington provides current forecasts, satellite imagery and other products. The departmental numerical cartography laboratory has several state-of-the-art graphic CRT terminals interfaced to the main university computing system as well as hardcopy units, a digitizing tablet, plotter and graphic printer. Conventional cartographic equipment also is available.

Teaching associates are provided with office space and access to services and facilities to support their instructional activities.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan.* Quarter System. Research skills are assessed in the Master's program by means of a research paper. Course work includes a core group of seminars emphasizing theoretical understandings and quantitative skills. The Master's comprehensive examination stresses one of the fields of specialization of the department. The doctoral program is designed intentionally to permit advanced graduate students the flexibility to pursue their specialized interests. A seminar on the scope, nature and methodology of the discipline is the only required element. Major and minor fields are examined; the Ph.D. dissertation topic falls within one or both of these fields. Work in related disciplines is encouraged and Ph.D. minor topics in other departments are possible in certain cases. *Admission Requirements.* Minimal grade point average of 2.7 (4=4.0) or equivalent for foreign applicants. All applicants must take the aptitude portion of the Graduate Record Examination. *Financial Aid.* Teaching associateships are available. The 1980-81 first year stipend (9 month contract) is $4311, plus tuition and fees. Summer teaching is available for qualified students. Additional sources of funding include University Fellowships and research assistantships. Applicants requesting funding are encouraged to complete admission procedures by February 1. Further details on degree requirements, admissions procedures and financial aid are available on request.

STAFF:

A. John Arnfield, Ph.D., McMaster, 1973, Associate Professor—climatology

J. William Bradfield, M.A., Kent State, 1966, Assistant Professor—(OSU Regional Campus, Mansfield, Ohio)

Lawrence A. Brown, Ph.D., Northwestern, 1966, Professor—population, urban, development, Latin America

S. Earl Brown, Ph.D., Wisconsin, 1957, Professor and Dean, Social & Behavioral Sciences—locational analysis, development (Europe)

Emilio Casetti, Ph.D., Northwestern, 1964, Professor—quantitative analysis, population, economic development

Victor Colombini, Ph.D., Boston, 1961, Associate Professor—(OSU Regional Campus, Lima, Ohio)

Kevin R. Cox, Ph.D., Illinois, 1966, Professor—political, social, urban

George J. Demko, Ph.D., Pennsylvania State, 1964, Professor—population, population distribution policy, regional development, socialist systems

Howard L. Gauthier, Ph.D., Northwestern, 1966, Professor—transportation

Vera L. Herman, M.A., Ohio State, 1947, Assistant Professor—physical, world regional

Henry L. Hunker, Ph.D., Ohio State, 1953, Professor—urban, industrial, resource analysis

Robert D. Klingensmith, Ph.D., Southern Illinois, 1975, Assistant Professor—(OSU Regional Campus, Newark, Ohio)

Nina S-N. Lam, Ph.D. Western Ontario, 1980, Assistant Professor—cartography, geographic information systems, locational analysis

Harold Moellering, Ph.D., Michigan, 1973, Associate Professor—numerical and analytical cartography, geographic information systems

Ellen Mosley-Thompson, Ph.D., Ohio State, 1979, Adjunct Assistant Professor—climatology, glaciology

Morton E. O'Kelly, Ph.D., McMaster 1981, Assistant Professor—locational analysis, quantitative analysis

George P. Patten, Ph.D., Northwestern, 1955, Professor—tropical agriculture, development (Latin America, Africa)

John N. Rayner, Ph.D., Canterbury, 1965, Professor and Chairman—climatology, quantitative analysis

Jeffery C. Rogers, Ph.D., Colorado, 1979, Assistant Professor—climatology

W. Randy Smith, Ph.D., York, 1978, Assistant Professor—urban, regional urban systems, urban historical

Frank C. Stetzer, Ph.D., Iowa, 1977, Assistant Professor—urban, quantitative

Edward J. Taaffe, Ph.D., Chicago, 1952, Professor—transportation, geographic thought, development (North America)

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Gilliard, Rickie Sanders. "The Spatial Differentiation of Informal Sector Activities Across the Urban Hierarchy and Implications for Theory." 1980.* Mf., Univ. Microfilms.

Hoyt, William Frederick. "Spatial Patterns of Development and the Land Conversion Process in the Urban Fringe," 1980.* Mf., Univ. Microfilms.

Maraffa, Thomas Anthony. "Extended Commuting and Non-Metropolitan Population Change: The Case of the Columbus, Ohio Commuting Field," 1980.* Mf., Univ. Microfilms.

Morrow-Jones, Hazel Ann. "The Spatial Impact of Federal Housing Policy on Population Distribution in the United States," 1980.* Mf., Univ. Microfilms.

Nyerges, Timothy Lee. "Modeling the Structure of Cartographic Information for Query Processing," 1980.* Mf., Univ. Microfilms.

Sagers, Matthew Jay. "Regional Inequalities in the USSR: 1940 - 1975," 1980.* Mf., Univ. Microfilms.

Ohio University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1969 GRADUATE PROGRAM FOUNDED: 1971

DEGREES OFFERED: M.A., M.S.

GRANTED 7/1/80-6/30/81: 9

GRADUATE STUDENTS IN RESIDENCE: 26
NOT IN RESIDENCE: 4

CHAIRMAN: Frank E. Bernard

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman, Graduate Committee, Department of Geography, Ohio University, Porter Hall, Athens, Ohio 45701
Telephone (614) 594-5555

PROGRAMS AND RESEARCH FACILITIES: The Geography Department grants both the M.A. and M.S. degrees. The student may select one of two programs to obtain either degree: a thesis or a non-thesis track. The thesis track allows for some research specialization, usually requires two years to complete, and is designed for those continuing to the doctoral level. The non-thesis track allows for broad geographic training in areas of emphasis: cartography, resource management, area studies, economic, cultural, physical, land use planning, and urban. There is a two-part comprehensive exam for this program.

In addition, Ohio University offers excellent opportunities for interdisciplinary coursework in international studies and environmental science.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* Quarter System. *Admission Requirements:* Bachelor's degree with a minimum grade point average of 2.75 (4.0 scale), Graduate Record Examination. *Financial Aid:* Graduate teaching assistantships of $3800 for nine months plus full tuition scholarship. Appointment includes fee waivers for summer sessions before and after the term of employment. Several tuition scholarships are also available. Financial assistance deadline is March 1.

STAFF:

Nancy R. Bain, Ph.D., Minnesota, 1973, Associate Professor—population, economic, urban

Frank E. Bernard, Ph.D., Wisconsin, 1968, Professor—resources, agriculture, Africa

Hubertus H. L. Bloemer, Ph.D., Union, 1977, Assistant Professor—cartography, remote sensing, transportation

James L. Cobban, Ph.D., UC, Berkeley, 1970, Associate Professor—cultural, land use planning, Southeast Asia

Ronald H. Isaac, Ph.D., Southern Illinois, 1974, Assistant Professor—bioclimatology, quantitative methods, computer mapping

Bob J. Walter, Ph.D., Wisconsin, 1968, Professor—political, geographic thought, Africa

Hubert G. H. Wilhelm, Ph.D., Louisiana State, 1968, Professor—settlement, historical, Anglo-America

Lynden S. Williams, Ph.D., Kansas, 1973, Associate Professor—population, Latin America, urban

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Choto, Moses Tigere. "The Core-Periphery Model: Application and Implications for the Coastal and Landlocked States in the Southern African Subsystem," 1980.

Hardenberg, Mark J. "Land Parcel Fragmentation as a Measure of Land Use Change in Appalachian Ohio: 1930-1976," 1980.

Iliya, Mohammed. "The Diffusion of Agricultural Innovations in the Sokoto-Rima Basin," 1981.

Olson, Daniel E. "Water Body Symbology on Thematic Black and White Maps," 1980.

Salma, Nasser. "Cartograms: A Cross Cultural Comparison of the Perception of Relative Space," 1981.

Schlundt, Gail. "The Impact of Urbanism on the Protestant Religious Landscape of Athens County, Ohio," 1980.

Sindiga, Isaac. "European Perceptions as a Factor in Degrading Maasai Ecology," 1981.

Skinner, Sarah Jane. "Influences on Man's Perceptual Ability: A Study of the Mental Maps of Downtown Athens, Ohio," 1980.

Yurko, Steven A. "Eastern Ohio Strip Mines and Land Reclamation, 1973-1979, An Analysis of LANDSAT Imagery," 1981.

Oklahoma State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1940 GRADUATE PROGRAM FOUNDED: 1947

DEGREES OFFERED: M.S., Ed.D.

GRANTED 7/1/80–6/30/81: 2 M.S.

GRADUATE STUDENTS IN RESIDENCE: 18 M.S., 1 Ed.D.
NOT IN RESIDENCE: 2 M.S., 1 Ed.D.

HEAD: Richard D. Hecock

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Richard D. Hecock, Department of Geography, Oklahoma State University, Stillwater, Oklahoma 74078
Telephone (405) 624–6250

PROGRAMS AND RESEARCH FACILITIES: Program of study leads to the M.S. degree and in certain instances to the Ed.D. degree. Emphasis is on human geography, resource management, and applications of remote sensing. Interdisciplinary options are available in Environmental Sciences and Historic Preservation. Cognate course work is often taken in economics, engineering, biological sciences, architecture, agricultural economics, and statistics. All plans of study for the M.S. require research reports or a thesis. Field experience required. Credit for internship experience may be earned. The University Cartographic Service and the Center for the Applications of Remote Sensing are affiliated with the Department. The latter is equipped with state-of-the-art computing, plotting, digitizing, and image processing equipment, and offers students an opportunity to learn and practice modern techniques of interpretation and analysis of a wide range of remotely sensed images. The University Library has large geography and periodical holdings, as well as good map, aerial photography and documents collections. Students have access to the University's IBM 370/158 computer, its peripheral equipment, and extensive software packages, both through batch processing stations and the remote terminals available within the department.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system, including summer. Undergraduate grade point average of 3.0 (4.0 system) or better normally required for admission. Teaching and research assistantships, planning internships and other stipends range from $3500 to $4500 per 9-month academic year and include remission of out-of-state tuition. Summer assistantships may also be available. Special minority assistantships and tuition scholarships are available for Oklahoma residents.

STAFF:

W. A. "Tony" Blanchard, M.S., Louisiana State, 1979, Research Associate—Center for Applications of Remote Sensing

George O. Carney, Ph.D., (History), Oklahoma State, 1971, Professor—historical, cultural, music, United States

Jerry D. Croft, Ed.D., Tulsa, 1971, Associate Professor—geographic education, Europe

Robert C. Fite, Northwestern, 1951, Professor—physical geography, meteorology, climatology

Brad Gambill, M.R.C.P., Oklahoma, 1973, Visiting Assistant Professor—city planning

Mark Gregory, M.S., Penn State, 1975, Research Associate—Center for Applications of Remote Sensing

Keith D. Harris, Ph.D., UCLA, 1969, Professor—social, urban

Richard D. Hecock, Ph.D., Clark, 1966, Professor and Head—outdoor recreation, resource management, Asia

Herbert Kershaw, M.S., Oregon State, 1960, Professor Emeritus and Visiting Professor—meteorology, climatology, oceanography

Gayle Maxwell, M.S., Georgia, 1964, Director, Cartography Service

Razia Nanji, M.Ed., McGill, 1972, Visiting Assistant Professor—Africa

Robert E. Norris, Ph.D., Iowa, 1970, Professor—political, quantitative methods, data processing

John F. Rooney, Jr., Ph.D., Clark, 1966, Professor—sport and recreation, resource management, United States

Stephen J. Stadler, Ph.D., Indiana State, 1979, Assistant Professor—climatology, remote sensing

James H. Stine, M.S., Oklahoma State, 1953; Advanced Graduate Work, Washington, Associate Professor—economic and urban systems, location and interaction theory, cartography

Steven W. Tweedie, Ph.D., Syracuse, 1969, Associate Professor—computer techniques, socio-cultural, United States

John D. Vitek, Ph.D., Iowa, 1973, Associate Professor—physical, geomorphology, natural hazards

Stephen J. Walsh, Ph.D., Oregon State, 1977, Assistant Professor and Director of Center for Applications of Remote Sensing—remote sensing, climatology, physical, resource management

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Master's:

Rabolt, Stephen H. "An Examination of the Relationship Between Homicide Rates and Socio-Economic Factors," 1980.

Wahaibi, Mohammed A-M-Al. "Nomads in Al-Hejas Province: A Geographic Study of Nomads Near the City of Taif," 1980.

University of Oklahoma

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1946 GRADUATE PROGRAM FOUNDED: (Ph.D.) 1965

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 3 M.A., 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 13 M.A., 14 Ph.D.
NOT IN RESIDENCE: 16 Ph.D.

CHAIR: Neil Salisbury

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman, Admissions Committee, Department of Geography, University of Oklahoma, Norman, Oklahoma 73019
Telephone (405) 325-5325

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography offers opportunities leading to the M.A. and Ph.D. degrees with programs tailored to fit the interests and needs of each student. Although the department specializes in several traditional areas of the discipline, we encourage students to develop new and innovative approaches to geographic research and career development. On-going programs of research in both basic and applied areas provide students with the opportunity to obtain first-hand experience in geographic problem-solving. Among the areas of research concentration are: environmental assessment, climatic change and its impacts, geographic information systems, spatial organization and spatial modeling, natural resources, historical geography, American minorities, spatial diffusion, and fluvial geomorphology.

Students have a chance to relate to a variety of strong University programs: courses and faculty in other departments (frequently with regional and city planning, law, history, geology, economics, sociology, anthropology, marketing, botany, and-civil engineering), interdisciplinary programs (such as the Science and Public Policy Program and the Southwest Center for Human Relations Studies), and research offices (such as the Bureau of Government Research, the Bureau for Business and Economic Research, the Bureau of Water and Environmental Resources Research, the Oklahoma Geological Survey, the Oklahoma Climatological Survey, and the Oklahoma Biological Survey). Close connections are maintained with the Department of Geography at Oklahoma State University, which offers complementary activities and opportunities.

The Department is housed in the new Social Sciences Center. Its facilities include a full-service remote computing terminal in the building, linked to the university IBM 370-158 computer; two TSO lines; Tektronix 4010 and 4631; two 30-inch Calcomp plotters; a digitizer; a darkroom and cartographic production facilities, including a Brown 400 copy camera; and collections of maps, air photos, and other imagery.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University operates with two semesters and one eight-week summer session. Admission decisions are based on an evaluation of transcripts, letters of recommendation, GRE aptitude scores, and any other material that an applicant wishes to be considered. Graduate assistantships and other kinds of financial aid are available each year.

STAFF:

Marvin W. Baker, Jr., Ph.D., Syracuse, 1970, Associate Professor—urban, environmental policy, Latin America, Anglo-America

Charles E. Barb, Jr., Ph.D., Washington, 1974, Associate Professor of Civil Engineering and Geography—urban information systems, geocoding, computer graphics, urban transportation

Daniel R. Fesenmaier, Ph.D., Western Ontario, 1980, Assistant Professor—quantitative methods, spatial organization

James M. Goodman, Ph.D., Northwestern, 1963, Associate Professor—physical environments, geomorphology, Native American resources and land use in the American Southwest

John M. Harlin, Ph.D., Iowa, 1975, Assistant Professor—quantitative methods, climate, geomorphology

John A. Harrington, Jr., Ph.D., Michigan State University, 1980, Assistant Professorr—biogeography, climatology, remote sensing

Michael Libbee, Ph.D., Syracuse, 1975, Assistant Professor of Geography and Education—geographic education, research methods, cultural

Edward J. Malecki, Jr., Ph.D., Ohio State, 1975, Associate Professor—urban systems, diffusion, urban and regional development, research methods

Richard L. Nostrand, Ph.D., UCLA, 1968, Associate Professor—historical, social and cultural geography of ethnic groups, Anglo-America, the American Southwest

Neil E. Salisbury, Ph.D., Minnesota, 1957, Professor—natural resources and resource use patterns, fluvial morphology and landscape systems,

Fred M. Shelley, Ph.D. candidate, Iowa, Assistant Professor—political, locational conflict analysis

Stephen M. Sutherland, Ph.D., Illinois, 1963, Associate Professor—climatic change, weather modification, physical

Gary L. Thompson, Ph.D., Michigan State, 1968, Associate Professor—economic, transportation, regional analysis, Soviet Union

Bret Wallach, Ph.D., UC, Berkeley, 1968, Associate Professor—cultural, historical, resources

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:
Ph.D.:

Giles, Herbert Oliver. "A Study of the Relationships Between Life Styles and Residential Energy Consumption," 1980.* Mf., University Microfilms.

Overton, Jerry. "Impact of Rural Water Districts on Land Use Change in Oklahoma," 1980.* Mf., University Microfilms.

Master's:

Butler, Rachel Coppock. "Oklahoma School Land Management Policy and Practice, 1889-1980: A Geographical Perspective," 1980.*

Dunn, Charles William, Jr. "Identifying the Prairie-Forest Transition Using Remote Sensing: A Comparative Analysis," 1980.*

Dunn, Constance Stewart. "Influences on Land Use Changes at the Rural-Urban Fringe," 1980.*

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1946 GRADUATE PROGRAM FOUNDED: 1952

DEGREES OFFERED: M.S., M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 26 Masters, 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 44 Masters, 13 Ph.D.
NOT IN RESIDENCE: 10 Masters, 5 Ph.D.

CHAIRMAN: Thomas J. Maresh

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Thomas J. Maresh, Department of Geography, Oregon State University, Corvallis, Oregon 97331
Telephone (503) 754-3141

PROGRAMS AND RESEARCH FACILITIES: The Department specializes in the fields of resource geography, environmental geography, physical geography, and applied economic geography. The typical graduate program contains a core major, research methodology, and a related minor. One language is required for the Ph.D. Minors may be partly or wholly in a second field of geography or may be integrated from the wide range of relevant disciplines and fields represented on this land grant university campus. Master's degree candidates may elect either a thesis or a non-thesis option.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Admission requirements:* 3.00 GPA in last two undergraduate years and three letters of recommendation. Quarter system. *Financial aid:* Teaching and research assistantships.

STAFF:

Robert E. Frenkel, Ph.D., UC, Berkeley—biogeography, conservation

Oliver H. Heintzelman, Ph.D., Washington, Professor Emeritus—recreation resources

Richard M. Highsmith, Jr., Ph.D., Washington—agricultural, land resources use

Philip L. Jackson, Ph.D., Kansas—climate, agricultural land use

J. Granville Jensen, Ph.D., Clark, Professor Emeritus—biotic resources, resource geography of Mexico

A. Jon Kimerling, Ph.D., Wisconsin—cartography, remote sensing

James F. Lahey, Ph.D., Wisconsin, Professor Emeritus—climatology, air photo interpretation, remote sensing

Thomas J. Maresh, Ph.D., Illinois—economic, industrial, mineral

Gordon E. Matzke, Ph.D., Syracuse—biotic resources, zoogeography, conservation

Keith W. Muckleston, Ph.D., Washington—water resources

Mary Lee Nolan, Ph.D., Texas A&M—responses to hazards, recreation

Ray M. Northam, Ph.D., Northwestern—urban, transportation

James R. Pease, Ph.D., Massachusetts—land use planning, resource planning

Charles L. Rosenfeld, Ph.D., Pittsburgh—applied physical geography, hydrology, geomorphology

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1937 GRADUATE PROGRAM FOUNDED: 1948

DEGREES OFFERED: M.S., Ph.D.

GRANTED 7/1/80-6/30/81: 4 M.S., 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 21 Masters 17 Ph.D.
NOT IN RESIDENCE: 6 Masters 10 Ph.D.

HEAD: Ronald F. Abler

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Ronald Abler, Head, Department of Geography, 302 Walker Building, University Park, Pennsylvania 16802
Telephone (814) 865-3433

PROGRAMS AND RESEARCH FACILITIES: Individual graduate programs are built around fifteen research interests:

American Landscape: Visual properties of the American environment; origin and character of differences in landscape from place to place; symbolism of natural and artificial landscapes in American culture, past, present, and future.

Behavioral Geography: Environmental cognition; cognitive mapping; place preferences of inter-regional migrants; residential site selection and intra-urban migration; micro-spatial behavior of individuals and groups.

Communications Systems: Geographical organization and social impacts of postal, telephonic, and cable television networks; national and international information flows; effects of communications media on culture.

Cultural Geography of Anglo-America: Spatial patterns in American life, material and non-material, past and present; problems in general cultural theory with special reference to northeastern United States.

Cultural Geography of Southeast Asia: Population problems; mobility and migration; economic development; transportation; urbanization.

Environmental Pollution Control: The Department of Geography participates in Penn State's master's program in environmental pollution control; numerous options exist for individual specialization.

Geographic Analysis: Cartography; computer modeling; computer graphics and data display; structure and properties of geographic data systems; use of normative models in research design; statistical methods and applications; simulation; structural analysis.

Geography of the Developing World: Problems of regional development in Africa, Latin America, Southeast Asia, southern Europe, economic geography of South Asia, radical theories of economic development.

Geographic Theory: Structure of geographic inquiry; nature of the science of geography; geographic thought within the history of science; systems theory and location theory; phenomenological bases of geographical inquiry.

Human Geography of the U.S.S.R.: Problems of demographic and economic development in the Soviet Union (in cooperation with the University's Soviet Language and Area Center).

Human Use of Environment: Structure and dynamics of man-environment systems; cultural ecology; resource assessment and allocation; land use management; agricultural systems and development in the Third World; energy systems analysis.

Industrial Location: Industrial location theory; spatial analysis of manufacturing systems; problems of industrial development; factors of localization of manufacturing.

Macro-spatial Analysis in Regional and Urban Development: Public policy and location of public and private facilities; regional economic analysis; metropolitan spatial structure; transportation and modernization processes; space-distorting properties of communications systems; spatial diffusion processes; regional and urban planning.

Population Problems: Evolution of present spatial patterns of population growth and characteristics; population problems in developing societies; population distribution and redistribution, emphasis on United States.

Regional Economic Development: Problems of regional income inequalities within the developed nations; planning for optimal socio-economic growth within the context of a multi-regional system.

The Department has no specific course requirements. Programs of study are arranged with advisors and committees to suit individual needs and professional aims. A thesis, or two research papers, is required for the M.S. degree.

The Department occupies excellent facilities on a beautiful campus. Available facilities include several computer systems: IBM 3033, E&S Picture System, APPLEs, etc.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University follows the term system. Each term (fall, winter, spring, and summer) is ten weeks. Penn State will shift to a semester calendar in 1983-1984.Applicants must have maintained during their junior and senior years overall grade point averages equivalent to 3.0 (A = 4.0) for admission. GRE scores must be submitted with application materials. The Geography Department offers on a competitive basis a number of teaching and research assistantships each year. Half-time appointments carry a stipend of $4350 for three terms plus a grant-in-aid to cover all tuition fees for the academic year. Other awards include: grants-in-aid; University Fellowships; Faculty Aide positons.

STAFF:

Ronald F. Abler, Ph.D., Minnesota, 1968, Professor—history of geography, geography of communications systems, urban, cartography

Roger M. Downs, Ph.D., Bristol, 1970, Professor—behavioral, environmental cognition

Rodney A. Erickson, Ph.D., Washington, 1973, Associate Professor; Associate Professor of Business Administration; Director of the Pennsylvania Economic Analysis Program—economic, urban, regional economic development

Ronald Eyton, Ph.D., Illinois, 1974, Associate Professor—remote sensing, air photo interpretation

Peter R. Gould, Ph.D., Northwestern, 1960, Professor—methodology, human

C. Gregory Knight, Ph.D., Minnesota, 1970, Professor—environmental systems, cultural ecology, Africa

Peirce F. Lewis, Ph.D., Michigan, 1958, Professor—American landscapes

E. Willard Miller, Ph.D., Ohio State, 1941, Professor Emeritus—minerals, geography of manufacturing

Allan L. Rodgers, Ph.D., Wisconsin, 1950, Professor—industrial location, economic geography of the U.S.S.R. and Italy, regional economic development

Paul D. Simkins, Ph.D., Wisconsin, 1961, Professor—population, migration, Latin America

Frederick L. Wernstedt, Ph.D., UCLA, 1953, Professor—Southeast Asia, tropical, climatology

Anthony V. Williams, Ph.D., Michigan State, 1968, Associate Professor—human, computer applications, quantitative techniques, geographic information systems

Lakshman Yapa, Ph.D. Syracuse, 1969, Associate Professor—economic development, third world, political economy, spatial diffusion, quantitative methods, South Asia

Wilbur Zelinsky, Ph.D., UC, Berkeley, 1953, Professor—cultural, historical, population, North America

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Huegel, Daniel P. "Financing Public Education in Pennsylvania: An Equity Assessment," 1981.* Mf., The Pennsylvania State University.

Master's:

Fontanazza, Robert L. "Optimality and Acceptability in Land Use Planning" and "Experiments with an APL Entropy Maximizing Algorithm," 1980.*

Horgan, Joseph M. "The Geography of International Oil: An Analysis of World Crude Oil Export Flows," 1980.*

Kwan, Mi Yee Carmen. "Soft Energy Planning: An Estimate of Energy Consumption and Conservation Potential in the Residential Sector of Centre County," 1981.*

Ridgley, Mark A. "Plazas of Madrid: A Structural Analysis" and "Precipitation and Groundwater Levels in South Florida: A Time Series Analysis," 1980.*

University of Pennsylvania

REGIONAL SCIENCE DEPARTMENT

DATE FOUNDED: 1958 **PH.D. PROGRAM FOUNDED: 1958 (GRADUATE FACULTY OF ARTS AND SCIENCES)**

DEGREES OFFERED: A.M., Ph.D.

GRANTED 7/1/80–6/30/81: 13 M.A., 5 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 44
NOT IN RESIDENCE: 26

CHAIRMAN: Stephen Gale
GRADUATE GROUP CHAIRMAN: Ronald E. Miller

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Admission Chairman, Regional Science Department, University of Pennsylvania, 3718 Locust Walk, 130 McNeil/CR, Philadelphia, Pennsylvania 19104
Telephone: (215) 243-8412

PROGRAMS AND RESEARCH FACILITIES: Regional Science is an interdisciplinary social science department concerned with the locational behavior of individuals and groups, institutions and governments. In addition to studying the spatial distribution and redistribution of specific activities and actors (e.g., firms, households), the field is also concerned with structure and development of national and regional social and economic systems. In practice, the orientation of the field has also led to very close relationships among theoretical research, planning, and policy in both the public and private sectors.

Study in the Department of Regional Science has historically led to a variety of job opportunities both in the United States and abroad. These have included teaching and research at universities (in departments of economics, geography, environmental science, city and regional planning, and public policy); research positions in public and private agencies; and specialists working with planning commissions, resource and area development agencies, and in firms which are engaged in marketing, land development, transportation, and industrial location.

The Degree of Master of Arts (A.M.)—The master's degree provides the student with basic theory and analytical tools for research. The degree prepares graduates for entry into middle level professional positions.

Programs are available leading to joint master's degrees in regional science and city planning (A.M./M.C.P.), in regional science and public policy (A.M./M.A.P.P.), and in regional science and regional planning (A.M./M.R.P.). Joint programs generally require from two to three years of study.

The Degree of Doctor of Philosophy (Ph.D.)—The Ph.D. program provides highly individualized training in theory, methods, and research in regional science. The degree prepares candidates for university research and teaching, as well as for advanced work in a number of fields.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID:
Admissions—Applications are welcome from students, professionals, and scholars in a wide range of fields. Students are required to take the Aptitude Test of the Graduate Record Examination (GRE) and to have proficiency in English. Applicants whose active language is English ordinarily submit results of the Test of English as a Foreign Language (TOEFL). Information on the GRE and TOEFL is available from the Educational Testing Service, Princeton, New Jersey, and Berkeley, California, or from the United States Information Service located in offices of a United States Council General abroad.

Some applicants may need additional mathematical preparation for entrance into courses. Many courses, for example, require some knowledge of calculus. Arrangements can be made to provide such preparation when the candidate is otherwise well prepared for graduate work.

Financial Aid—The University offers a limited number of fellowships to Ph.D. students. Applications for financial aid for the 1982–83 academic year must be filed by February 1, 1982.

The number of grants offered through the University for first-year students is necessarily limited and the competition is keen. Prospective students who need assistance should therefore apply to other sources as well (e.g., foundations, government).

FACULTY:

W. Bruce Allen, Ph.D., Northwestern, 1969, Professor of Regional Science and Transportation—microeconomic analysis of location and transportation

James Bennett, Ph.D., MIT, 1978, Assistant Professor of Regional Science and Conflict Analysis and Peace Research—modeling structural change, regional political and economic development

Peter D. Blair, Ph.D., Pennsylvania, 1976, Assistant Professor of Regional Science—energy system modeling and simulation, energy policy analysis

Robert C. Douglas, Ph.D., Pennsylvania, 1978, Adjunct Assistant Professor—American economic history, regional and urban development, spatial market systems analysis

Thomas Fogarty, Ph.D., Pennsylvania, 1978, Assistant Professor of Regional Science and Conflict Analysis and Peace Research—regional political economy, social choice, location and policy games

Masahisa Fujita, Ph.D., Pennsylvania, 1972, Associate Professor of Regional Science—location theory, regional and urban growth and planning

Stephen Gale, Ph.D., Michigan, 1969, Associate Professor of Regional Science, Conflict Analysis and Peace Research, City and Regional Planning, and Public Policy Analysis, and Chairman—urban information systems, locational decision-making, philosophy of social sciences

Aaron Gellman, Ph.D., MIT, 1957, Adjunct Professor of Regional Science—transport management and the process of innovation

Ralph Ginsberg, Ph.D., Columbia, 1966, Professor of Regional Science—spatial demography, stochastic models, statistical analysis, and organization theory

Norman J. Glickman, Ph.D., Pennsylvania, 1969, Associate Professor of City and Regional Planning and Regional Science—economic analysis of spatial problems, urban economics, impact analysis

Phyllis Kaniss, Ph.D., Pennsylvania, 1978, Lecturer on Regional Science—evolutionary theory, hierarchy theory, analysis of informational processes in social and biological systems

Janice F. Madden, Ph.D., Duke, 1972, Associate Professor of Regional Science and Undergraduate Chairman—spatial labor economics and demography

Ronald E. Miller, Ph.D., Princeton, 1961, Professor of Regional Science and Chairman of the Graduate Group—input-output analysis, applications of calculus of variations and maximum principle techniques

Elizabeth M. Petras, Ph.D., SUNY, Binghamton, 1981, Assistant Professor of Regional Science—political economy, urban and rural sociology, community development, migration, immigration

Thomas A. Reiner, Ph.D., Pennsylvania, 1963, Professor of Regional Science and City and Regional Planning—regional planning and urbanization in developing nations, normative modeling, planning theory

Tony E. Smith, Ph.D., Pennsylvania, 1969, Professor of Regional Science—theoretical foundations of spatial interaction behavior

Daniel R. Vining, Ph.D., Pittsburgh, 1974, Associate Professor of Regional Science—applied statistics, ecological models of urban change, migration

Philip A. Viton, Ph.D., UC, Berkeley, 1977, Assistant Professor of Regional Science and Transportation—economics of urban transportation, regulation and environmental issues

Alan Wilson, M.A., Cambridge, 1964, Adjunct Professor of Regional Science—spatial modeling

James Zucchetto, Ph.D., Florida, 1975, Assistant Professor of Regional Science—ecological modeling and theory, regional energy analysis, energy-economic relationships, environmental impact and evaluation

TITLES OF DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Kohlhase, Janet. "The Effect of the New Demography on Labor Supply and Housing Demand: A Demand System Approach," 1981.

McHone, Warren. "The Effects of Local Public Sector Activities on Real Property Investments of Industrial Firms in Suburban Communities," 1980.

Sawyer, Charles H. "Nonsurvey Techniques for Estimating Regional Input-Output Coefficients from National Tables: Static and Dynamic Comparisons for the State of Washington," 1981.

Smolka, Martim. "Location Theory and Urban Economics: A Spatial Extension of Sraffa's Critique of Neoclassicism," 1980.

Yang, Chung-Hsin. "Urban Spatial Structure with Local Public Goods: Optimum and Equilibrium," 1980.

University of Pittsburgh

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1943 GRADUATE PROGRAM FOUNDED: 1943

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 2 M.A., 3 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 22 M.A., 8 Ph.D.
NOT IN RESIDENCE: 0 M.A., 2 Ph.D.

CHAIRMAN: Hibberd V.B. Kline, Jr.

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Department of Geography, 4S01 Forbes Quadrangle, University of Pittsburgh, Pittsburgh, Pennsylvania 15260
Telephone (412) 624-5508

PROGRAMS AND RESEARCH FACILITIES: The Department offers a broad array of courses and seminars carrying graduate credit. These are arranged in programs which relate to faculty specialties within the Department, and draw to varying degrees upon the resources of other social science departments and graduate units throughout the University. The following programs may be undertaken:

The department offers two M.A. programs: a research-oriented program focusing on course work and thesis research, and an applications-oriented program focusing exclusively on course work.

Studies leading to the Ph.D. in geography stress research in the form of a dissertation. Course work, however, is required in preparation for the comprehensive examination.

Student participation in the formulation and improvement of existing programs is encouraged.

Emphasis is placed on quantitative analysis as well as on the traditional methodologies. Students have full access to the DEC10 batch and time-sharing system of the Computer Center, to computer terminals and data resources of the Social Science Computer Research Institute, and to calculators in the department. The Department is equipped for instruction in cartography, photo-interpretation and remote sensing.

The Department occupies modern and spacious facilities including integral seminar and laboratory rooms.

Areas of Specializations: Specializations include: Economic Geography (emphasizing urban and transportation), Cultural Geography (emphasizing cultural diffusion and population), Resources Geography (emphasizing environmental studies and public policy). Regional emphases of the department include Latin America, East Asia, Africa, and the United States.

Related Programs: The geography department maintains close relationships with the Latin American Program, the Asian Studies Program, the Social Science Computer Research Institute, and the University Center for Social and Urban Research. The library of the East Asian section is rated among the ten most important collections of Chinese and Japanese materials in the country. A professional bibliographer in Hillman Library supports departmental research. Geography employs a full-time professional cartographer.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University of Pittsburgh is on a three-term academic calendar. The Fall term begins after Labor Day and ends before Christmas; the Winter term begins after the New Year and ends at the third week in April. The Spring term begins before the first of May and ends in mid-August. In the Spring term, courses are also given in a Spring and Summer Session, each seven and one-half weeks long. Since the geography program covers all three terms, the student has the option of the terms in which he/she will earn residence and make progress toward his/her degree objective.

Admission requirements for full graduate standing are a "B" average at an accredited undergraduate institution, or a Master's degree from a recognized department or institution. Transcripts of all previous study and letters of recommendation are also required. There are no limitations as to subject matter previously studied.

The requirements for the M.A. degree include two terms of full residence, which may be earned through part-time attendance, and a comprehensive examination. Students who seek a degree through the applications-oriented program must in addition take certain courses and present seminar or independent study papers for evaluation. Students in the academically-oriented program present and defend a thesis.

Requirements for the Ph.D. degree include six terms of full residence beyond the baccalaureate degree. Two terms of residence may be transferred from another institution with a Master's degree or its equivalent, and some additional residence may be granted by transfer under appropriate circumstances. At least two terms of residence must be earned by full-time attendance. Other requirements for the Ph.D. are a preliminary examination given early in graduate study in the department; mastery of research tools, which may include a foreign language or languages, is arranged on an individual basis between the student and his/her faculty advisor, subject to the approval of the faculty; a comprehensive examination; an oral overview of the dissertation proposal; and finally, an oral defense of the dissertation.

A variety of financial assistance is available, including departmental teaching fellowships, Mellon and other University fellowships, and scholarships. Pennsylvania residents are entitled to a tuition subsidy. Many of these stipends and grants provide support for all three terms of the academic year. Part-time academic employment often is available in the Advising Center for the College of Arts and Sciences, in the School of General Studies (evening), at the regional campuses of the University, and in other institutions in the Pittsburgh area.

STAFF:

Chiao-min Hsieh, Ph.D., Syracuse, 1953, Professor—cultural, East Asia

Branden B. Johnson, Ph.D., Clark, 1980, Assistant Professor—environmental policy, resources

Karel J. Kansky, Ph.D., Chicago, 1963, Professor—transportation, research methodology, cartography

Hibberd V. B. Kline, Jr., Ph.D., Wisconsin, 1941, Professor and Chairman—physical, Africa, cartography, air photo interpretation/remote sensing

Leonard I. Kuntz, Ph.D., Louisiana State, 1970, Associate Professor—urban

Oswald Schmidt, M.Ed., Pennsylvania State, 1940, Emeritus —population, South Asia

William J. Smole, Ph.D., Chicago, 1964, Professor—cultural, Latin America

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Ajao, Florence Aduke. "Nigeria's Yobe Irrigation Scheme: 1959 to 1978," 1980.* Mf., Univ. Microfilms.

Biswas, Liny. "Hinduism in a Dynamic Urban Setting: The Temples and Shrines of Calcutta," 1980.* Mf., Univ. Microfilms.

Lavenere-Wanderley, Laura Lopes. "Employment and Housing Conditions in the Industrial Area of Santa Luzia (State of Minas Gerais, Brazil)," 1981.* Mf., Univ. Microfilms.

Master's:

Ozark, Mark A. "Constraint-oriented vs. Preference-oriented Approaches to Explaining Metropolitan Lifestyles," 1980.* Mf., Univ. Microfilms.

Johnson, Howard K. "A Reconnaissance Study of Differential Factors Affecting Housing Prices for Two Dallas Neighborhoods," 1981.* Mf., Univ. Microfilms.

Portland State University

GEOGRAPHY DEPARTMENT

DATE FOUNDED: 1959   GRADUATE PROGRAM FOUNDED: 1969

DEGREES OFFERED: M.A., M.S., M.A.T., M.S.T.

GRANTED 7/1/80–6/30/81: 4

GRADUATE STUDENTS IN RESIDENCE: 13
NOT IN RESIDENCE: 13

HEAD: D. Richard Lycan

FOR FURTHER INFORMATION WRITE TO: Geography Department, Portland State University, P.O. Box 751, Portland, Oregon 97207
Telephone (503) 229-3916

PROGRAMS AND RESEARCH FACILITIES: The Geography Department offers the degrees of Master of Arts, Master of Science, Master of Arts in Teaching, and Master of Science in Teaching. In addition to general pre-doctoral study, other programs are offered for students who intend to enter the fields of urban and regional planning, environmental policy formulation, and natural resources management.

The M.A.T. and M.S.T. degrees offer advanced training for high school teachers of geography and social studies.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: For admission to graduate study a student normally should have completed the minimum preparation for an undergraduate major in geography with a 3.0 average in all upper division work, in addition to meeting University admission requirements. Students with majors in other fields are encouraged, if they can demonstrate ability, to pursue graduate work in geography. Applicants are requested to submit scores for both the aptitude and the advanced geography sections of the Graduate Record Examination and the names and addresses of three faculty members of colleges previously attended or persons who can be contacted by the Geography Department for recommendations. Applicants for whom English is a second language are required to present a minimum TOEFL score of 550.

The student will plan a program of study with an adviser during the first term of residence which must include a minimum of 30 graduate-credit term hours in geography, of which at least 15 hours must be in 500-level courses, including the following three seminars: Proseminar in Geography, Geographic Thought and Literature, and Research Design. All graduate students are required to attend the department's non-credit colloquia.

After a student has completed at least 12 credits in residence in geography with an average grade of B or higher and has satisfied any deficiencies noted at the the time of admission, the student is eligible to take the required comprehensive examination, which is provided and graded by the student's committee. If failed, the student may be allowed to retake portions of the examination or may be advised to take additional course work. Students seeking the M.A. degree must demonstrate their competence in the use of a foreign language for geographic research; those preparing for an M.S. degree must show proficiency in advanced quantitative methods in geography or an equivalent research technique. Upon successful completion of the comprehensive examination and successful demonstration of the required competence, the student is advanced to candidacy.

Students in the M.A. program must complete a thesis. Those in the M.S. program may choose between thesis and non-thesis options. The thesis option is appropriate for students intending to pursue Ph.D. studies, whereas the non-thesis option is designed for students who are preparing for careers in such areas as government service or private industry. Candidates who elect to write a thesis take a minimum of 45 credits including 6 credits in Geog. 503 Thesis. The thesis option requires the presentation of the student's independent research into a topic approved by the student's graduate committee. It normally involves field work and is an original contribution to knowledge in the field of geography.

Candidates electing the non-thesis option take a minimum of 54 credits including the presentation of a research paper. The M.S. research paper is normally the outgrowth of a geography seminar, in which case up to 3 credits may be taken in Geog. 501 Research. The research paper is submitted to the student's graduate committee. A final oral examination by the student's committee includes defense of the thesis or research paper.

STAFF:

James G. Ashbaugh, Ph.D., UCLA—urban, North America, Pacific Northwest
Clarke H. Brooke, Jr., Ph.D., Nebraska—human, ecosystems conservation, Middle East
Dale E. Courtney, Ph.D., Washington—historical, Latin America
John O. Dart, Ph.D., Washington—geomorphology, conservation
Alexander R. Gassaway, Ph.D., Clark—economic, Europe (on leave 1980–81)
Daniel M. Johnson, Ph.D., Arizona State—climatology, hydrology
Fritz L. Kramer, Ph.D., UC, Berkeley—cartography, historical, cultural
D. R. Lycan, Ph.D., Washington—demography, cartography, quantitative methods
Thomas M. Poulsen, Ph.D., Wisconsin—U.S.S.R., Eastern Europe, world affairs
Larry W. Price, Ph.D., Illinois—biogeography, geomorphology, Arctic/alpine
Willert Rhynsburger, Ph.D., Washington—urban systems, East and Southeast Asia

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Olson, Dennis A. "The Parcelization of the Open Range, A Conflict in Land Use: Grazing Rights versus Residential and Recreation Land Sales in Klickitat County, Washington," 1980.

Priest, Barbara J. "Preliminary Inventory of Lifeline Systems and Evaluation of Seismic Hazards in Reno and Sparks, Nevada," 1981.

University of Rhode Island

DEPARTMENT OF GEOGRAPHY AND MARINE AFFAIRS

DATE FOUNDED: 1962 **GRADUATE PROGRAM FOUNDED: 1967**
GRADUATE PROGRAM IN MARINE AFFAIRS FOUNDED: 1969

DEGREES OFFERED: Master of Arts in Geography (with a marine related emphasis), Master of Marine Affairs (M.M.A.), Master of Arts in Marine Affairs (M.A.M.A.)

GRANTED 7/1/80–6/30/81: 16

GRADUATE STUDENTS IN RESIDENCE: 62

CHAIRMAN: Lawrence Juda

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Professor Lawrence Juda, Chairman, Department of Geography and Marine Affairs, University of Rhode Island, Kingston, Rhode Island 02881
Telephone (401) 792-2596

PROGRAMS AND RESEARCH FACILITIES: The department currently offers three master's degrees in two tracks: the two-year master's degree in marine geography (M.A.), and a two-year master's degree in marine affairs (M.A.M.A.). Both degrees require the completion of a thesis. In addition a one-year master of marine affairs degree (M.M.A.) is offered to persons with prior experience in marine-related affairs, a requirement that can be satisfied by at least five years of practical experience in a marine-related field. In geography the following competencies are offered by the faculty: (1) political geography with special reference to the North American, North Atlantic, European, and Southeast Asian regions; (2) urban geography, especially as related to the urban waterfront; (3) environmental assessment and impact analysis; (4) economic geography and location analysis; (5) cartography; and (6) quantitative methods. Within marine affairs the following courses or areas of concentration are offered: (1) coastal zone law and usage; (2) port and marine transportation geography; (3) marine geography, including aspects of exploitation and control in the coastal zone and deep ocean; (4) geography of island systems; (5) marine recreation; and (6) fisheries and maritime law.

Research facilities include the University's IBM 370/155 computer, and Broomal M2000 Plotter. In addition specialty libraries in marine affairs, fisheries, and coastal zone regional information centers are available. The Claiborne Pell Marine Science Library at the nearby Narragansett Bay Campus was designated the National Sea Grant Depository in 1971.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. M.A. in marine geography requires a minimum of 30 credits, including six for thesis research; M.A. in marine affairs requires 45 credits, including six for thesis research; and the Master of Marine Affairs requires 30 credits and a major paper. Admission requirements: for the M.A. in marine geography, equivalent of 27 credits in geography or allied fields; M.A. in marine affairs, graduation from an accredited college; and Master of Marine Affairs, five years experience in marine areas or completed advanced degree in marine related fields. Graduate assistantships range from approximately $3600 to $4000 and tuition and fees are remitted for the academic year. NSF nominations submitted to Graduate School.

STAFF:

Lewis M. Alexander, Ph.D., Clark, 1949, Professor—political, marine, North America, North Atlantic Basin, Europe

Francis X. Cameron, J.D., Pittsburgh, 1971, Associate Professor—coastal zone law, fisheries law and management

Lawrence Juda, Ph.D., Columbia, 1973, Associate Professor—international ocean law, politics, and organization; federal ocean policy and organization

Gerald H. Krausse, Ph.D., Pittsburgh, 1975, Assistant Professor—cartography, island systems and urban geography, Southeast Asia

Bruce E. Marti, A.B.D., Florida, Instructor—economic geography, port geography, maritime transportation

Aloys A. Michel, Ph.D., Columbia, 1959, Professor and Dean, Graduate School—Europe, Soviet Union, South Asia

Dennis W. Nixon, J.D., Cincinnati, 1975, Assistant Professor—international marine law, maritime institutions

Niels West, Ph.D., Rutgers, 1973, Associate Professor—coastal environmental use and planning, environmental impact analysis, marine recreation, quantitative methods

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Baker, Dudley S. "Major Forest Product Shipments Through New England Ports," 1981.

Hering, Philip I. "Maritime Boundary Disputes as a Constraint to the Commercialization of Ocean Thermal Energy Conversion in the Caribbean," 1981.

Johnson, George R. "Municipal Sewage Treatment: Problems and Considerations," 1980.

Kelberg, Sharon. "Energy Facility Siting in the Coastal Zone: The Pursuit of the Decision Making Process," 1981.

Starr, Carder. "The Feasibility of Increased Utilization of the Georges Bank Herring Stock," 1980.

Taylor, Gerald H. "Fuel Saving Methods for the Commercial Fishing Fleet," 1980.

Vincent, Martin J. "Auction as an Alternative Method of Selling Fish in New England," 1980.

Rutgers University

GRADUATE PROGRAM IN GEOGRAPHY

DATE FOUNDED: 1956

DEGREES OFFERED: M.A., M.S., M.Phil., Ph.D.

GRANTED 7/1/80–6/30/81: 7 Masters, 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 25 Masters 12 Ph.D.
NOT IN RESIDENCE: 11 Masters 7 Ph.D.

DIRECTOR: James K. Mitchell

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Director, Graduate Program in Geography, Department of Geography, Rutgers College, Rutgers University, New Brunswick, New Jersey 08903
Telephone (201) 932-7809

PROGRAMS AND RESEARCH FACILITIES: The Rutgers program is characterized by varied course offerings, rich faculty resources, strong interdisciplinary ties, access to unrivalled research opportunities and facilities, and firm links with policy management agencies in state and federal governments. It is also the largest and most comprehensive geography graduate program in the New York and Philadelphia metropolitan regions.

Faculty currently work in such areas as urban water resource management, hazards research, environmental planning and decision making, coastal geomorphology and coastal zone management, regional development, human ecology, perception of urban environments, processes of urbanization, medical, behavioral, historical, cultural, and social geography. Faculty and students contribute to the *Rutgers Geography Discussion Papers* series. Several titles are published each year.

Students can pursue courses of study based on a flexible combination of required and elective courses. Close ties are maintained with the Center for Coastal and Environmental Studies, Center for Urban Policy Research, Agricultural Experiment Station, and a variety of interdisciplinary departments and programs throughout the University.

Rutgers is convenient to several of the country's largest research libraries and to a vast range of research and funding institutions and public agencies. Batch processing and timesharing are provided through an IBM 360/67 computer.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. Teaching assistantships with full remission of tuition are available. The stipend is approximately $5500. Similar compensation is provided by several research assistantships. University fellowships and tuition scholarships are also available.

STAFF AND ASSOCIATES:

Baruch Boxer, Ph.D., Chicago, 1961, Professor—international environmental issues, China

John E. Brush, Ph.D., Wisconsin, 1952, Professor—population and settlement, South Asia

George W. Carey, Ed.D., Columbia, 1964, Professor—urban, social ecology

Thomas A. Clark, Ph.D., Iowa, 1975, Assistant Professor—urban planning, regional development

Susan Caris Cutter, Ph.D., Chicago, 1976, Assistant Professor—environmental management, community attitudes toward pollution

Michael R. Greenberg, Ph.D., Columbia, 1969, Professor—regional economic development, quantitative methods, environmental management

William Hamilton, Ph.D., Oregon State, 1980, Assistant Professor—cartography, computer mapping, remote sensing

Briavel Holcomb, Ph.D., Colorado, 1972, Associate Professor—urban, social, perception

Robert M. Hordon, Ph.D., Columbia, 1970, Associate Professor—fluvial geomorphology and hydrology

Robert W. Lake, Ph.D. candidate, Chicago, Assistant Research Professor—urban and social

James K. Mitchell, Ph.D., Chicago, 1973, Professor—resource management, coastal and marine geography, human response to hazard

George H. Nieswand, Ph.D., Rutgers, 1970, Professor—environmental management and planning, systems analysis

Karl F. Nordstrom, Ph.D., Rutgers, 1975, Associate Professor—beach process analysis, coastal land use and shoreline development

Norbert P. Psuty, Ph.D., Louisiana State, 1966, Professor—physical, coastal landforms, remote sensing

William H. Renwick, Ph.D., Clark, 1979, Assistant Professor—fluvial geomorphology, environmental geomorphology, applied climatology

Damaris Rose, Ph.D. candidate, Sussex, Adjunct Instructor—social geography

Robert W. Roundy, Ph.D., UCLA, 1976, Assistant Professor—medical geography, environment and development in the Third World, human ecology

Andrew P. Vayda, Ph.D., Columbia, 1956, Professor—human ecology, economic development and environmental problems

Peter O. Wacker, Ph.D., Louisiana State, 1966, Professor—historical, cultural, Anglo-America

Grant F. Walton, Ph.D., Rutgers, 1973, Professor—pedology, natural resource planning

To be named: one additional position in urban-economic geography, July 1981.

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Hinshalwood, Sophie Gruys. "The Dutch Culture Area of the Mid-Hudson Valley," 1981.

Maloney, S. "Periodic Markets in Tamil Nadu, India," 1981.

San Diego State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1914 GRADUATE PROGRAM FOUNDED: 1956

DEGREES OFFERED: M.A.

GRANTED 7/1/80-6/30/81: 5

GRADUATE STUDENTS IN RESIDENCE: 37
NOT IN RESIDENCE: 9

CHAIRMAN: Ernst C. Griffin

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Bob R. O'Brien, Graduate Advisor, Department of Geography, San Diego State University, San Diego, California 92182
Telephone (714) 265-5437

PROGRAMS AND RESEARCH FACILITIES: A flexible curriculum complemented by careful advising permits the department to design a program tailored to the professional goals of each M.A. candidate. Students also benefit from a long tradition of close faculty-student contact.

A wide variety of teaching specialties is represented in the department but the main strengths are in the following subdivisions of the field: (a) conservation and environmental studies; (b) urban and transportation geography; (c) cartography and remote sensing; (d) geomorphology; (e) Latin America. Graduate students are urged to study in one or more of the above concentrations. Applied programs are available leading to positions in categories (a), (b) and (c) above.

The department has excellent physical facilities. In addition to well-equipped classrooms, the department has a cartographic laboratory, field and photogrammetric equipment, graduate assistant offices, a class "A" weather station, and a reading room. An excellent map collection of approximately 100,000 sheets is located in the main library. Geography cooperates in a Social Science Research Center, with 20 interactive terminals to on and off campus computers including a VAX, a PDPII, and a CDC 3300; the Center also has an RJE for batch input to an IBM 360/50 and a CYBER 750/175.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Two Master of Arts degree plans are available: one which requires a thesis, and a second which requires two research papers. Limited assistantships are available for qualified students on a competitive basis. Semester System.

Larry R. Ford, Ph.D., Oregon, 1970, Professor—urban, urban design, cultural

Barbara E. Fredrich, Ph.D., UCLA, 1975, Associate Professor—Latin America, vegetation, cultural

Ned H. Greenwood, Ph.D., Ohio State, 1963, Professor—soils, environment, human ecology

Ernst C. Griffin, Ph.D., Michigan State, 1972, Professor—Latin America, cultural

Harvey E. Heiges, Ph.D., Washington, 1968, Professor—urban, spatial interaction, urban transportation, industrial

Warren A. Johnson, Ph.D., Michigan, 1969, Professor—natural resources, cultural

Elmer A. Keen, Ph.D., Washington, 1965, Professor—economic, marine resources, East Asia, cultural

E. J. Conrad Kiewiet de Jonge, Ph.D., Clark, 1951, Professor—climatic and structural geomorphology, air photo interpretation, history of geography

David S. McArthur, Ph.D., Louisiana State, 1969, Associate Professor—physical, coastal and fluvial geomorphology, quantitative methods

Bob R. O'Brien, Ph.D., Washington, 1965, Professor—conservation, outdoor recreation

Philip R. Pryde, Ph.D., Washington, 1969, Professor—environmental quality, water resources, Soviet Union

Imre E. Quastler, Ph.D., Kansas, 1971, Professor—transportation, urban

Frederick P. Stutz, Ph.D., Michigan State, 1970, Professor—transportation analysis, urban systems, quantitative methods, computer applications

Julie A. Winkler, M.A., Minnesota, 1977, Assistant Professor—climatology, meteorology

Richard D. Wright, Ph.D., Kansas, 1967, Professor—cartography, map analysis

Charles C. Yahr, Ph.D. Illinois, 1956, Professor—cultural, South and Southeast Asia, United States

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Giossi-Barnes, Linda Jean. "Expansive Clay Soils and Ground Movement: Selected Problem Sites in San Diego County, California," 1981.* Mf., Univ. Microfilms.

Krausmann, William J. "An Analysis of Several Variables Affecting the Occurrence and Size of Wildfires in San Diego County, California," 1981.* Mf., Univ. Microfilms.

Schlansky, Mark Howard. "Restructuring of the Airline Industry Under Regulation: The Domestic Route Network," 1980.* Mf., Univ. Microfilms.

Steinbaugh, Charles James. "Policies and Land Use Impacts of Naval Special Warfare at Camp Kearny, Niland, California," 1980.* Mf., Univ. Microfilms.

Sugimoto, Toshifumi. "Overseas Investment by Japanese Firms with Special Reference to the San Diego Region," 1980.* Mf., Univ. Microfilms.

San Francisco State University

DEPARTMENT OF GEOGRAPHY AND HUMAN ENVIRONMENTAL STUDIES

DATE FOUNDED: 1937 GRADUATE PROGRAM FOUNDED: 1965

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 8

GRADUATE STUDENTS IN RESIDENCE: 29
NOT IN RESIDENCE: 31

CHAIRPERSON: Jean Vance

FOR FURTHER INFORMATION WRITE TO: Steven R. Pease, Graduate Advisor, Department of Geography and Environmental Studies, San Francisco State

University, 1600 Holloway Avenue, San Francisco, California 94132
Telephone (415) 469-2049

PROGRAMS AND RESEARCH FACILITIES: The M.A. program is directed toward a broad base of knowledge in geography. The department has an interest in meeting the needs of planners, cartographers, and professional geographers as well as those intending doctoral studies. Opportunities to do concentrated work do exist, particularly in several sub-fields: regional planning, environmental studies, geographic techniques, physical, regional, cultural-historic, and urban-economic. Research facilities include a photocartographic laboratory, a map library, access to the college computer center and environmental field stations.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester System. Completion of a minimum 30 units of work in geography including four graduate seminars and a Master's thesis or examination option; no foreign language requirement. Individualized programs reflecting the interests and career goals of each student are developed insofar as faculty with those interests are available. A minimum of 3 semesters needed for completion of course work; limited summer program. Admission requirements—15 undergraduate semester hours in geography with B average for last two academic years (deficiencies in undergraduate program to be made up without counting toward required graduate hours); three letters of recommendation. Only a few assistantships are available for advanced students already in residence.

STAFF:

Lawrence E. Band, Ph.D., UCLA, 1981, Lecturer—landform geography, water resources

Roger J. Crawford, Ph.D., Washington, 1969, Associate Professor—regional planning, environmental impact and design, urban transportation

Burton L. Gordon, Ph.D., UC, Berkeley, 1954, Professor—field study, biogeography, Europe

Richard F. Hough, Ph.D., Wisconsin, 1963, Professor—cultural, Japan, field study

Max C. Kirkeberg, M.S., Wisconsin, 1961, Associate Professor—geographic education, cultural, San Francisco, Africa

Hans-J. Meihoefer, Ph.D., Washington, 1968, Professor—geographic methodology, environmental management, agriculture

Steven R. Pease, Ph.D., Wisconsin, 1977, Associate Professor—climatology-meteorology, physical, environmental problems, remote sensing

Robert D. Picker, Ph.D., Washington, 1962, Professor—economic, environmental management, U.S.S.R.

Georg Treichel, M.A., UC, Berkeley, 1969, Associate Professor—biogeography, environmental studies, human ecology, transportation

Jean Vance, Ph.D., Clark, 1958, Professor—urban, cultural

John E. Westfall, Ph.D., George Washington, 1968, Professor—historical, quantitative, computer applications, population

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Selby, William Arthur. "Occurrence and Impact of Summer Precipitation in the White Mountains, California and Nevada," 1981.

Stropes, Susan Sally. "Reserve Capacity in a Public Transportation System: Case Study of Golden Gate Transit," 1981.

San José State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1965 GRADUATE PROGRAM FOUNDED: 1966

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 6

GRADUATE STUDENTS IN RESIDENCE: 35
NOT IN RESIDENCE: 12

CHAIRMAN: Michael P. McIntyre

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Lester Rowntree, Graduate Coordinator, Department of Geography, San Jose State University, Washington Square, San Jose, California 95192
Telephone: (408) 277-3463

PROGRAM AND RESEARCH FACILITIES: The program comprises advanced studies in a required core and specialization in a selected field. The region of interest or the topic of research specialization, consonant with faculty interests and university resources, is broadly framed to provide flexibility in developing the candidate's study focus. Several areas of concentration within geography may be selected. However, the candidates choosing an emphasis in land-use analysis and mapping based on both conventional and remotely sensed imagery find their work facilitated by the department's well-equipped laboratory which features an electronic density slicer, an electronic planimeter/digitizer, a zoom transfer scope, a zoom stereoscope, a copy camera, and numerous cartographic devices. A few graduate students regularly work on funded land-use projects.

ACADEMIC PLAN AND ADMISSION REQUIREMENTS: The program, containing a thesis and a non-thesis option, consists of 30 semester units, the equivalent of one full academic year. Minimal university admission requirement is a 2.5 grade average. Generally there are no financial aids. Semester system.

STAFF:

Richard A. Ellefsen, Ph.D., UC, Berkeley, 1968, Professor—urban, land use, remote sensing, California, India

Allan R. Fishman, Ph.D., Illinois, 1971, Professor—economic, conservation, Anglo-America, Europe

Michael P. McIntyre, Ph.D., Ohio State, 1951, Professor—physical, economic, Pacific, Far East, national parks

Duilio Peruzzi, Ph.D., Michigan, 1963, Professor—cartography, remote sensing, land use, Europe

Lester B. Rowntree, Ph.D., Oregon, 1971, Professor—cultural, urban, California, research methods

David E. Schwarz, Ph.D., Kansas, 1976, Associate Professor—remote sensing, cartography, human

Raymond W. Stanley, Ph.D., UCLA, 1954, Professor—political, geographic thought, Latin America, California

Bill H. Takizawa, Ph.D., Illinois, 1971, Professor—economic, natural resources, cartography, East Asia

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Thelin, Gail. "Landsat Digital Data: A Source for Land-Cover Polygon Mapping," 1980.

White, Barbara. "Residential Mobility in Santa Clara County, California, Before and After Property Tax Reform," 1981.

University of South Carolina

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1963 GRADUATE PROGRAM FOUNDED: 1963

DEGREES OFFERED: M.A., M.S., M.A.T.

GRANTED 7/1/80–6/30/81: 4 Masters

GRADUATE STUDENTS IN RESIDENCE: 17
NOT IN RESIDENCE: 6

CHAIRMAN: Julian V. Minghi

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Director of Graduate Studies, Department of Geography, University of South Carolina, Columbia, South Carolina 29208
Telephone (803) 777-5236

PROGRAMS AND RESEARCH FACILITIES: The department offers graduate programs in geography leading to the Master of Arts, Master of Science, and Master of Arts in Teaching degrees. The M.A. and M.S. programs are designed to prepare students for further graduate study and for employment in such areas as planning, business, government service, and teaching. The M.A.T. program, offered in cooperation with the College of Education, prepares students to teach in the public schools or to pursue further graduate study in the teaching field and in professional education.

The department offers training in fundamental geographic skills and the opportunity for advanced study and research in a variety of fields. Recommended curriculum specializations reflect faculty interest and competency and include Cartography and Remote Sensing, Cultural-Historical, Overseas Development, Recreational, and Urban. Coursework clusters also include Economic and Applied Geography, Environmental Perception and Behavioral Geography, History of Geography, and Regional Studies.

Research facilities include a well-equipped cartographic-photographic laboratory, run by a full-time graphics supervisor, and Remote Sensing and Computer Mapping Teaching and Research Laboratories, equipped with CRT terminals, two graphic digitizers, a digital color densitometer, stereo-facet plotter, satellite image color compositing equipment, and a variety of photo interpretation viewing and measuring instruments. The department maintains a weather station on campus and has comprehensive files of meteorological data including computer tape records. The University library, a member of the select Association of Research Libraries, contains more than 3 million processed volumes; its Map and Air Photo Depository holds 165,000 sheet maps, 1500 atlases, and 45,000 air photos.

The department has excellent facilities for data analysis and computer oriented projects. These include several electronic calculators, a Graf-pen digitizer, keypunch, Tektronix 4013 graphics terminal and CRT terminals. Access to the main university computer (Amdahl V6–II) is readily available through terminals in the department and in the Social and Behavioral Sciences Lab. A vast set of statistical and computer mapping software is available on the system. The department employs a systems analyst and has access to programming and consulting services in the Social and Behavioral Sciences Lab.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* The degree programs require a minimum of 30 semester hours of graduate work. Small, informal classes and seminars offer students the chance to work closely with the faculty, while flexible program requirements offer the opportunity to take related work in other University departments. Specialization in the M.A. and M.S. programs is attained through the writing of a thesis in addition to at least 24 semester hours of coursework. Knowledge of a foreign language is not required unless a student intends to do field work abroad. The M.A.T. program concentrates on coursework and requires neither a thesis nor a foreign language proficiency. M.A.T. students normally take from 6 to 15 credits in professional education and from 15 to 24 credits in geography. Master's degree students may accelerate their progess by taking advantage of the two summer sessions offered each year. Each summer the department sponsors a field trip in the Southeast for entering students. *Admission Requirements:* Applications are welcome at any time, and students may matriculate at the beginning of any semester or summer session. In support of any application, a student is required to submit official transcripts of all previous study, Graduate Record Examination scores, two letters of recommendation, and a brief written statement describing career objectives and probable specialties. M.A.T. program applicants may elect to submit scores on the National Teachers Examination

(NTE) in lieu of the GRE. The Department does not require an applicant to have an undergraduate major in geography; rather it requires evidence of general intellectual ability. *Financial Aid:* Graduate assistantships carry stipends beginning at $3600 for approximately 14 hours per week for the academic year, and include a waiver of general tuition fees. Stipends usually are increased over subsequent semesters of residence. A limited number of summer assistantships ($800 per session) are also available. Course fees for assistants are currently $100 per semester. The normal deadline for Fall semester assistantship applications is March 15; the corresponding deadline for Spring semester applications is December 10.

STAFF:

Allen D. Bushong, Ph.D., Florida, 1961, Associate Professor—history of geography, source materials, cultural, Middle America

David J. Cowen, Ph.D., Ohio State, 1971, Professor and Director of Social and Behavioral Sciences Laboratory—economic, locational analysis, quantitative

John F. Jakubs, Ph.D., Ohio State, 1974, Associate Professor—urban, social, housing, quantitative methods

Robert L. Janiskee, Ph.D., Illinois, 1974, Associate Professor—recreation, resources, environment, futures

John R. Jensen, Ph.D., UCLA, 1976, Associate Professor—remote sensing, cartography

Charles F. Kovacik, Ph.D., Michigan State, 1970, Associate Professor—historical, human, North America

Robert E. Lloyd, Ph.D., Pennsylvania State, 1974, Associate Professor—behavioral, quantitative methods, urban

Paul E. Lovingood, Jr., Ph.D., North Carolina, 1962, Professor—migration, recreation, computer graphics

Julian V. Minghi, Ph.D., Washington, 1962, Professor—political, Europe

Lisle S. Mitchell, Ph.D., Ohio State, 1967, Professor—urban-economic, recreation

John C. Purvis (part-time), M.S., South Carolina, 1969, Teaching Associate—meteorology

Anthony Sas, Ph.D., Clark, 1956, Associate Professor—political-military, Europe, Southeast Asia

Richard G. Silvernail, Ph.D., North Carolina, 1960, Professor—resources, geographic education, small area analysis

William R. Stanley, Ph.D., Pittsburgh, 1966, Professor—transportation, political, developing regions

Theodore R. Steinke, Ph.D., Kansas, 1979, Associate Professor—cartography

John J. Winberry, Ph.D., Louisiana State, 1971, Associate Professor—cultural-historical

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Bushman, Phillip C. "Potential Market Areas of Shopping Centers: A Descriptive Model," 1981.

Klemas, Deborah. "A Comparative Interpretation of Multitemporal Landsat Images of Winyah Bay Region, South Carolina," 1981.

NOT IN RESIDENCE: 10

HEAD: Edward Patrick Hogan

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Charles F. Gritzner, Graduate Program Coordinator, Department of Geography, South Dakota State University, Brookings, South Dakota 57007
Telephone (605) 688–4511

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography offers graduate students the opportunity to earn the Master of Science degree. The graduate curriculum is organized through formal courses, seminars, internship experiences and supervised research. Special programs can be taken through a cooperative program with the EROS Data Center. Internships are available with planning districts, governmental agencies and business and industry. The Department of Geography is housed in new facilities in Scobey Hall. The H.M. Briggs Library contains the largest geography collection in the state. The South Dakota State University Research and Data Processing Center, the Remote Sensing Institute and the Institute of Social Science for Rural and Urban Planning offer related facilities to benefit the student.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: A minimum of thirty semester credits (30) are required for the Master's degree, of which at least 17 must be earned in the major. The thesis accounts for 6 of these credits. Financial aid includes several Graduate Teaching Assistantships.

Southern Illinois University—Carbondale

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1936 GRADUATE PROGRAM FOUNDED: 1949

DEGREES OFFERED: M.A., M.S., M.S.Ed., Ph.D.

GRANTED 7/1/80–6/30/81: 6 Masters 0 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 7 Masters 9 Ph.D.
NOT IN RESIDENCE: 3 Masters 8 Ph.D.

CHAIRMAN: David M. Sharpe

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Secretary, Department of Geography, Southern Illinois University, Carbondale, Illinois 62901
Telephone (618) 536–3375

PROGRAMS AND RESEARCH FACILITIES: The Geography Department offers Masters' and Ph.D. degrees with concentrations in PHYSICAL-ENVIRONMENTAL SYSTEMS (energy and moisture concepts as they affect local hydrology, soils, natural vegetation, agriculture and landforms); NATURAL RESOURCES MANAGEMENT (the role of resources in economic development and regional planning from a physical, technological, social, economic, and geographical viewpoint; public policy choices for land, air, and water quality management); and URBAN AND REGIONAL PLANNING (the role of demographic, socioeconomic, political, and historical phenomena as they affect spatial policies for urban and regional organization; public and private resource-allocation criteria, planning agency structure and philosophy). Courses dealing with research techniques include the management of spatial data bases, elementary and multivariate statistical models, specialized computer mapping, forecasting methodologies, and principles of research. The graduate program is based upon an interdisciplinary problem-solving perspective and major linkages exist within the university with many other departments

The department is housed in the College of Liberal Arts close to the university's main library and the two I/O areas of our IBM 370/158 System. Interactive computing facilities and a computer programmer are also present in the department and computer digitizing facilities are available. Fully equipped cartographic and climatological laboratories are maintained by the Geography Department. The university library is one of the largest in North America with over 1.8 milion volumes and over 100,000 flat maps served by a full-time librarian.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: All graduate applicants must request application forms for admission. These must be completed and returned to the department by February 15 to ensure consideration for admission and financial support for the Fall semester. Application includes letters of recommendation, transcripts, and a statement of professional goals. All applicants are requested to take the Graduate Record Exams (GRE's) and submit these with their applications. Every applicant is considered for financial assistance and is notified by April 15 of the department decision. Financial awards include teaching assistantships, research assistantships, and University fellowships.

STAFF:

David G. Arey, Ph.D., Clark, 1968, Associate Professor—environmental planning, air quality, land use management

Southern Illinois University—Edwardsville

DEPARTMENT OF EARTH SCIENCE, GEOGRAPHY AND PLANNING

DATE FOUNDED: 1957 GRADUATE PROGRAM FOUNDED: 1966

DEGREES OFFERED: M.A. and M.S. in Geography, Master of City and Regional Planning

GRANTED 7/1/80–6/30/81: 15

GRADUATE STUDENTS IN RESIDENCE: 35
NOT IN RESIDENCE: 16

CHAIRPERSON: Harry B. Kircher

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairperson, Department of Earth Science, Geography and Planning, Box 45, Southern Illinois University-Edwardsville, Edwardsville, Illinois 62026
Telephone (618) 692-3620

PROGRAMS AND RESEARCH FACILITIES: Master's degrees in Geography and in City and Regional Planning are offered by the department, emphasizing a problem solving approach. The geography degree accommodates specialization in cultural, economic, regional and physical geography. Planning emphasizes a systems approach incorporating budgeting and management together with land-use planning and design.

The Master of Arts requires a thesis. For the Master of Science two research papers are required. Both degrees require proficiency in quantitative techniques. Students may take either the 48-hour geography Masters or the 72 quarter-hour degree in urban planning. Internships are available. To date, student and faculty research has centered on problems related to the Greater St. Louis Area and the State of Illinois. Topics include problems of air and water quality, mine subsidence, transportation, area development, historic origins, environmental assessment, urban regional resource allocations, and the teaching of geography and earth science.

The department has a complete cartographic lab and design studio featuring new modern equipment. The department also has a computer workshop with interactive terminals, graphic display terminals, a flatbed plotter, and decwriter terminals. There is also a complete design workshop containing all equipment for construction of three-dimensional models.

Many students receive training in land-use planning and geographic analysis by working in the University's Office of Area Development.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University operates on the quarter system with out-of-state fees approximately $730 per quarter. Graduate admission ordinarily requires a B average or better, but conditional acceptance may be granted in special circumstances. Fellowships and teaching assistantships pay $1800 to $3600 per year plus tuition depending on assignments.

FULL-TIME AND PART-TIME STAFF:

Areas of staff specialty include four staff members in Earth Science, nine staff members in Geography, and six staff members in Urban Planning. Five of the urban planners are APA members. Part-time staff are utilized to supplement teaching of such specialties as photogrammetry and thematic mapping. Environmental assessment is interdisciplinary.

Deipica Bagchi, Ph.D., Oregon State, Assistant Professor—resource geography
William B. Baker, Ph.D., Nebraska, Professor—cultural, historical geography
Donald W. Clements, Ph.D., Southern Illinois, Associate Professor—urban quantitative techniques
Robert P. Frost, Ph.D. candidate, Oklahoma, Instructor—physical geography
Dorothy J. Gore, Ph.D., Wisconsin, Associate Professor—engineering, geology

Charles F. Hess, Ph.D., Michigan State, Professor, APA—regional planning and water resources

Norman C. Johnsen, M.A., Syracuse, Assistant Professor, APA—planning administration

Alfred Kahn (part-time), M.S., Denver, Professor, APA—environmental planning

Harry B. Kircher, Ph.D., Clark, Professor and Chairperson—economic geography, conservation

Robert L. Koepke, Ph.D., Illinois, Professor—area development, industrial location

Fred A. Lampe, Ph.D., Kansas, Associate Professor—geographic techniques, educational geography, Europe

Carl S. Lossau, Ph.D., Northwestern, Professor, APA—urban and regional planning

Loran D. Marlow, Ph.D., Southern Illinois, Associate Professor—earth science

Robert E. Mendelson (part-time), M.U.P., Illinois, Associate Professor, APA—housing

Halsey W. Miller, Ph.D., Kansas, Professor—environmental and urban geology

Donald Strohmeyer, M.R.P., Kansas State, Associate Professor, APA—design and physical planning

Noble R. Thompson, Ph.D., Tennessee, Associate Professor—Latin America, cartography

Charles A. Thornton, Ph.D., Tennessee, Associate Professor—quantitative techniques, transportation planning

Ronald E. Yarbrough, Ph.D., Tennessee, Associate Professor—earth sciences, environmental impact

University of Southern Mississippi

DEPARTMENT OF GEOGRAPHY AND AREA DEVELOPMENT

DATE FOUNDED: 1912 GRADUATE PROGRAM FOUNDED: 1966

DEGREES OFFERED: M.A., M.S. in Geography, M.S. in Economic Development

GRANTED 7/1/80–6/30/81: 5 Masters

GRADUATE STUDENTS IN RESIDENCE: 18
NOT IN RESIDENCE: 4

CHAIRMAN: Robert W. Wales

FOR CATALOG AND FURTHER INFORMATION WRITE TO: For Geography Dr. Jesse O. McKee, and for Economic Development, Dr. Tim Hudson, Department of Geography and Area Development, S.S. Box 5051, University of Southern Mississippi, Hattiesburg, Mississippi 39401
Telephone (601) 266–7193

PROGRAMS AND RESEARCH FACILITIES: The department offers graduate programs leading to the Master of Arts and Master of Science in Geography and the Master of Science in Economic Development.

The degree programs in geography stress concentrations in atmospheric science, urban and regional planning, environmental planning, economic geography, population and cultural systems, and cartographic techniques balanced by staff specialties in a variety of other systematic and regional areas. All programs emphasize fieldwork, the application of technical skills, and the development of a research capability in a particular concentration of geography. All geography master's programs require a minimum of 36 credit hours—including thesis.

The program in Economic Development is offered jointly with the Mississippi Research and Development Center. The objective of the 42-hour program is to prepare individuals for leadership/practitioner positions at national, regional, state or community levels in the broad areas of economic development, with emphasis on industrial location analysis. The collaborative arrangement with the Mississippi Research and Development Center, probably the most comprehensive economic development agency in the country, is a main feature of the program.

The Department of Geography and Area Development occupies the second floor of the ten-story Johnson Science Tower. The department's facilities include well-equipped classrooms, darkroom, weather station, cartography-remote sensing laboratory, and quantitative laboratory. Laboratory equipment includes a color additive viewer, Zoom Transfer Scope, Zoom 70 Stereoscope and other visual image interpretation equipment, a coordinate digitizer, Decwriter IV and other computer terminals, and access to a Calcomp plotter and Tektronix 4010 CRT associated with the University's Xerox Sigma 9 computer, on which major mapping and statistical software has been implemented. The facilities of the Mississippi Research and Development Center are also available to students working under any departmental degree plan. The department publishes *The Mississippi Geographer*.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University is on the semester system.

Candidates must be accepted by the University Graduate school. Admission to the departmental program is based on GPA, GRE score, three letters of recommendation, the experience record of the student, and the compatibility of his interests with those of the faculty.

Financial Aid: University grants-in-aid, various types of internships, fellowships, and teaching or research assistantships include stipend plus waiver of out-of-state tuition. March 1st is the deadline for applicants seeking financial aid in Geography or Economic Development. Applications for admission without aid will be considered until late spring. Notification of aid awards will be made by April 15.

STAFF AND ASSOCIATED FACULTY:

Dorlan L. Anderson, M.B.A., University of Southern Mississippi, 1975, Lecturer—economic development, economic analysis, urbanization and development

Huntley H. Biggs, Ph.D., Vanderbilt, 1970, Lecturer—industrial development, rural economic development, land use

Ralph D. Cross, Ph.D., Michigan State, 1968, Professor—climatology, meteorology, water resources, watershed management

Kenneth J. Goodwin, M.B.A., Mississippi College, 1973, Lecturer—community development, urban economics

Tim W. Hudson, Ph.D., Clark, 1980, Assistant Professor—economic development, political, urban, Caribbean

Robert J. Landry, MURP, Mississippi, 1974, Assistant Professor—urban and regional planning, community development, industrial development, local energy management

Jesse O. McKee, Ph.D., Michigan State, 1972, Professor—cultural/social, historical, population and human resources, Africa

William M. Roberts, Ph.D., Washington, 1964, Professor—political, economic, location analysis, economic development, U.S.S.R.

Kenneth C. Wagner, Ph.D., North Carolina, 1953, Lecturer—industrial development, economic development, urban sociology

Robert W. Wales, Ph.D., Kansas, 1973, Associate Professor and Chairman—environmental planning, land use planning, resources management, field techniques, Latin America

Donald L. Williams, Ph.D., Kansas, 1977, Assistant Professor—cartography, remote sensing, aerial photo interpretation, computer graphics, and biogeography

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Adams, James Edwin. "An Analysis of Factors Contributing to Peak Gage Height in Four Subbasins of the Chickasawhay River, Mississippi," 1980.

Barker, Mitzi C. "The Characteristics and Resettlement Patterns of Condominium Displacement in the Denver Area," 1981.

Calderon, E. Carlos. "Delineating the Small Town CBD: The Case of Purvis and Sumrall, Mississippi," 1981.

McKnight, James P. "A Geographical Study of Selected Factors in the Conversion of Prime Agricultural Land to Non-Agricultural Uses in Northeast Lamar County, Mississippi," 1981.

Price, Daniel Richard. "The Southern Pulp and Paper Mill, Monticello, Mississippi," 1981.

Southwest Missouri State University

DEPARTMENT OF GEOGRAPHY AND GEOLOGY

DATE FOUNDED: 1972 GRADUATE PROGRAM FOUNDED: 1979

DEGREES OFFERED: M.S. in Resource Planning

GRANTED 7/1/80–5/30/81: 3

GRADUATE STUDENTS IN RESIDENCE: 24

HEAD: Milton D. Rafferty

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Professor David Castillon, General Graduate Advisor, Department of Geography and Geology, Southwest Missouri State University, Springfield, Missouri 65802
Telephone (417) 836-5607 or 5800 (department office)

PROGRAMS AND RESEARCH FACILITIES: The Master's of Science in Resource Planning is designed to provide professional training in resource planning activities that include land resource planning; mineral resources exploration and evaluation; map construction; aerial photograph interpretation and analysis; open space and recreational planning; and computer-based resource analysis and evaluation; and to develop professional resource managers of renewable and nonrenewable natural resources.

The Department of Geography and Geology is housed in Temple Hall which was completed in 1971. Research facilities include: x-ray diffraction; scanning electron microscope; atomic absorption unit; seismic apparatus; gravimeter; and a complete line of surveying and field equipment. An exceptionally good line of equipment is available to support cartography, aerial photo and remote sensing courses. Optical plotters, including ER-55, Kelsh and Zeiss C-8, are housed in modern photogrammetry and cartography laboratories. SMSU also has on-line capability with advanced computer-based land resource analysis systems, including R-GRID, IMGRID, CENTRO, LOCATE, and SYMAP.

Field work is an integral part of the resource planning program. Hands on experience is obtained through work in internships and in the Center for Resource Planning and Management. The department's map library is the largest of its kind in the region with more than 250,000 maps and a growing aerial photo collection. The new SMSU library completed in 1980 adjacent to Temple Hall includes a modern map library designed by department faculty.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University operates on the semester system and has an active summer program of eight weeks. Students seeking admission should request application papers from the Admissions Office. All students must take the GRE. Transcripts and letters of reference must be submitted. Full admission requires a 3.0 average or better, but probational admission may be granted to students with lower grade point averages.

Teaching and research assistantships are available which include waiver of out of state fees.

STAFF:

David Castillon, Ph.D., Michigan State, 1972—physical, environmental, geomorphology, field methods, soils

John Catau, Ph.D., Michigan State, 1973—urban, land use planning, open space and recreation planning

William Cheek, Ph.D., Michigan State, 1976—economic, quantitative methods, research methods, housing

Russel Gerlach, Ph.D., Nebraska, 1974—cultural and ethnic geography

Elias Johnson, Ph.D., Oklahoma, 1977—cartography, remote sensing, climatology

V.E. Kurtz, Ph.D., Oklahoma, 1960—remote sensing, photogrammetry

Erwin Mantei, Ph.D., Missouri-Rolla, 1965—geochemistry, geochemical techniques

Donald McInnis, Ph.D., Missouri-Columbia, 1970—meteorology, climatology

James Miller, Ph.D., Wisconsin, 1971—paleontology, biostratigraphy

Thomas Moeglin, Ph.D., Nebraska, 1978—engineering and environmental geology, soils

Milton Rafferty, Ph.D., Nebraska, 1970, Department Head—historical economic geography, population, Missouri

Burl E. Self, Jr., Ed.D., Oklahoma State, 1978—resource planning, urban and regional planning

Ronald Shaklee, A.B.D., Kansas—resource planning, urban and regional planning

Kenneth Thomson, Ph.D., Utah, 1970—economic, karst geology, geologic mapping

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Bush, Bruce A. "Investigation of Groundwater Quality in Unincorporated Greene County, Missouri," 1980.

University of Southwestern Louisiana

DEPARTMENT OF GEOGRAPHY AND CITY AND REGIONAL PLANNING

DATE FOUNDED: 1954 GRADUATE PROGRAM FOUNDED: 1963

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Dennis K.
Ehrhardt, Box 4-3531, USL Station, Lafayette, Louisiana 70504
Telephone (318) 264-6072

PROGRAMS AND RESEARCH FACILITIES: M.A. program in geography. Twenty-four hours course work plus thesis or 36 hours (non-thesis option). No language requirement. Cartography required if not taken as an undergraduate. The program includes city and regional planning as an area of concentration.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. For admission require 2.5 (on a 4.0 scale) undergraduate grade point average and minimum of 18 hours of geography, but will admit on probation students with lower grade-point averages. Graduate assistantships available on competitive basis pay $3600 for two semesters. Assistants teach two sections of freshmen each semester or assist in research.

STAFF:

O. Douglas Abington, Ph.D., Louisiana State, 1973, Assistant Professor—physical, fluvial geomorphology

Henry W. Bullamore, Ph.D., Iowa, 1978, Assistant Professor—urban, social, political

Dennis K. Ehrhardt, AICP, Ph.D., Iowa, 1972, Professor—urban, social, urban planning

David C. Johnson, Ph.D., Washington, 1976, Assistant Professor—urban planning, population

Charles C. Oldham, Ph.D., Ohio State, 1977, Assistant Professor—transportation, quantitative methods, planning

Timothy F. Reilly, Ph.D., Missouri, 1972, Assistant Professor—Africa, Soviet Union, Far East, Europe

Emmett F. Stallings, Ph.D., Florida State, 1970, Associate Professor—water resources, economic

State University of New York at Albany

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1966 GRADUATE PROGRAM FOUNDED: 1970

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 6

GRADUATE STUDENTS IN RESIDENCE: 15
NOT IN RESIDENCE: 3

CHAIRMAN: Floyd M. Henderson

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Admissions Office, College of Arts and Sciences, State University of New York at Albany, 1400 Washington Avenue, Albany, New York 12222
Telephone (518) 457-8683

PROGRAMS AND RESEARCH FACILITIES: The master's program in geography is designed to provide individually designed specialization for students preparing for a variety of careers in business, government, or for doctoral work at another university. The department emphasizes training in the systematic fields and techniques through core specialties in: behavioral and social geography, cartography, computer techniques, energy and natural resource management, remote sensing, spatial and mathematical modeling, transportation systems, and urban and regional planning.

From these core areas each student devises, with his advisor, a program track specific to his or her own interests and academic background. The department internship program offers practical on-the-job experience with private businesses and state agencies such as the New York State Departments of Transportation, Energy, Environmental Conservation, Commerce, Sea Grant Program, local and governmental planning commissions, and county governments.

Work towards the M.A. includes 30 credit hours, of which at least 22 must be in geography. Supportive courses are available in the University's School of Criminal Justice, Graduate School of Public Affairs, Sociology, and Computer Science among others. Students are required to enroll in either a graduate research seminar or, with permission, a thesis program, and pass a comprehensive departmental oral examination.

Facilities available for support of the departmental program include the University Libraries with over one million items, the State Education Library, and well-equipped cartography and remote sensing laboratories including interactive graphics and digital image processing facilities linked by remote terminals to the University's UNIVAC 1100/82 computer. In addition to department and university facilities, location in the state capital affords ready access to the extensive resources of federal, state, regional and municipal agencies within the city.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University operates on the semester plan with additional Summer Sessions. Current University assistantships which carry stipends of $1950 to $4750 are available. The $1950 award carries, in addition, a waiver for half of the tuition. Students are also funded through foundation grants and governmental contract research. In addition there are State University scholarships, National Science Foundation Graduate Traineeships, and the New York State Scholar Incentive Program. Students are required to submit GRE aptitude scores if requesting financial aid.

STAFF:

Stanley F. Blount, Ph.D., Northwestern, 1962, Professor—physical, resource management

Michael W. Dobson, Ph.D., Kansas, 1977, Assistant Professor—visual processing and map design, cartography, computer applications in cartography

W. Wayne Heiser, Ph.D., Northwestern, 1965, Associate Professor—Europe, U.S.S.R., political, energy resources

Floyd M. Henderson, Ph.D., Kansas, 1973, Associate Professor—remote sensing applications in land use, urban, and agriculture

Paul D. Marr, Ph.D., UC, Berkeley, 1967, Associate Professor—urban and regional planning, urban, coastal zone management

John S. Pipkin, Ph.D., Northwestern, 1974, Associate Professor—urban, computer and quantitative techniques, behavioral geography, transportation

Christopher J. Smith, Ph.D., Michigan, 1974, Associate Professor—behavioral and social, mental health and well-being, locational conflicts, "sense of place", research methods

James E. Vitale, Ph.D. (civil engineering), Pittsburgh, 1977, Assistant Professor—freight and passenger transportation planning, transportation economics, energy and environmental analysis, spatial and mathematical modeling, quantitative methods, urban and regional planning

John W. Webb, Ph.D., Minnesota, 1958, Professor (Dean, College of Social and Behavioral Sciences)—human, especially settlement and population, Europe

ADJUNCT PROFESSORS:

David T. Hartgen, Ph.D. (transportation planning), Northwestern, 1973—transportation

Sambamurthy Thyagarajan, M.C.P., Ohio State, 1963—urban and regional planning

State University of New York at Binghamton

GEOGRAPHY DEPARTMENT

DATE FOUNDED: 1945 GRADUATE PROGRAM FOUNDED: 1966

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 6

GRADUATE STUDENTS IN RESIDENCE: 19
NOT IN RESIDENCE: 2

CHAIRMAN: John W. Frazier

FOR CATALOG AND FURTHER INFORMATION WRITE TO: John W. Frazier, Chairman, Department of Geography, State University of New York at Binghamton, Binghamton, New York 13901
Telephone (607) 798-2755

PROGRAMS AND RESEARCH FACILITIES: The M.A. degree in geography may be earned by following one of three tracks:

Track 1: General Geography—Designed for students interested in geography within a liberal arts context. Provides disciplinary foundation along classical lines, which can lead to teaching careers, or, combined with history, economics, or other social sciences, can lead to interdisciplinary work in scholarly areas such as conservation, environmental management, economic development, and international studies.

Track 2: Analytical Geography—This track is designed to educate students as geographical/spatial analysts, with particular emphasis on environmental and land use planning. Among the essential components are cartography, remote sensing, field techniques, computer mapping, and mass-data processing. Its objective is career preparation in these areas. To fulfill this goal, practical experience obtained from internships and field research will be integrated into the formal curriculum.

Competence resulting from this training also provides the option of pursuing the Ph.D. degree.

Track 3: Geography and Urban Planning—Designed to educate students in urban analysis and planning, with particular emphasis on the integration of the environmental, urban-economic, and institutional aspects of planning. Among the essential components of this program are geographic techniques, urban seminars, environmental concerns such as water management, community involvement, and practical experience through internship programs. Similar to Track 2, graduates will be able to work for public and private agencies as well as pursue advanced degrees.

A non-thesis option is available in all tracks.

Extensive use is made of the IBM 370/155 computing system which includes a variety of statistical, simulation, and graphic routines in data analysis and plotting. Departmental facilities include modern cartography, remote sensing, air photo interpretation, and physical geography labs, computer terminals, digitizer, map library, classrooms, lecture halls, and library.

The department publishes the annual *Proceedings of the Applied Geography Conference*, and quarterly publishes *Research in Contemporary and Applied Geography*.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Admission requirements: Bachelor's degree, or its equivalent, and a reasonable background in geography. The department may require up to five courses of undergraduate work without credit to make up undergraduate deficiencies. Graduate assistantships are offered. Teaching and research assistantships and planning internship stipends are available to qualified candidates. Apply to Dr. John Frazier, Chairman, Department of Geography, SUNY-Binghamton, Binghamton, New York 13901

STAFF:

Morris Budin, Ph.D., New School for Social Research, 1954, Professor—urban planning, economic geography, quantitative

Joseph H. Butler, Ph.D., Columbia, 1960, Professor—water resources, economic, Latin America

John Frazier, Ph.D., Kent State, 1976, Assistant Professor—urban-social, retailing, hazards, field methods

Norah F. Henry, Ph.D., Kent State, 1976, Assistant Professor—social, cartography, medical, field methods, computer mapping

Shin-yi Hsu, Ph.D., UCLA, 1967, Associate Professor—cartography/remote sensing, quantitative methods, diffusion of innovations

Joseph M. Missavage, M.R.P., Cornell, 1954, Adjunct Associate Professor—urban and regional planning (part-time)

Burrell Montz, Ph.D., Colorado, 1980, Assistant Professor—natural hazards, environmental planning, population and resources management

Richard F. Place, J.D., Union College, Albany, [illegible]—legal aspects of planning (part-time)

Nicolay Timofeeff, Ph.D., Columbia, 1967, Associate Professor—quantitative methods, physical

Joseph E. Van Riper, Ph.D., Michigan, 1939, Emeritus Professor

State University of New York at Buffalo

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1962 GRADUATE PROGRAM FOUNDED: 1963

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80-6/30/81: 6 M.A., 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 33 M.A. 10 Ph.D.
NOT IN RESIDENCE: 1 M.A. 2 Ph.D.

CHAIRMAN: Ross D. MacKinnon

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Director of Graduate Studies, Department of Geography, State University of New York at Buffalo, 415 Fronczak Hall, Amherst, New York 14260
Telephone (716) 636-2722

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography offers graduate training leading to the degrees of Masters of Arts and Doctor of Philosophy. The general areas of concentration supported by the department are: Urban and Regional Analysis, Geographic Information Systems and Computer Cartography, Physical Geography and Environmental Analysis, and International Trade.

Opportunity is provided for students interested in pursuing professional careers in government or business, and for those interested in teaching and research. Because many graduates of the M.A. program seek employment in transportation, land use, and natural resource planning and management, a number of courses and research activities emphasize the planning aspects of these fields. Training in the computer manipulation of geographic data sets supports this planning interest. Some of the M.A. programs, such as those in Cartography and International Trade, offer internships in business and government.

Many of the teaching and research activities of the department make heavy use of modern computer technology. The department maintains one of the largest libraries of geographically oriented software in the world, and in addition to standard, university-wide facilities, the department's Geographic Information Systems Laboratory is equipped with a Nova-Eclipse minicomputer system which is used to operate a modern, high-speed interactive graphics and digitizing facility. Cartographic and photographic laboratories are available for instructional and research use and special laboratory facilities are also available for students working on various problems in physical geography and related environmental areas.

The M.A. program may be completed in three semesters. Entering students take a first-semester program which emphasizes the acquisition of a broad background in a variety of substantative areas of the discipline as well as the development of operational skills in such areas as computer applications and statistics.

During the third semester, each student must undertake a major research project demonstrating his or her technical competence and ability to integrate the various aspects of his or her area of specialization.

The departmental Ph.D. program admits superior students who desire in-depth research and technical training as a prelude to careers in education, government, and industry. Programs are designed on an individual basis and students are required to demonstrate acceptable levels of skill in areas such as mathematics, computer applications and statistics.

In addition, the Department, in cooperation with the School of Management, has a joint M.A.-M.B.A. degree option in International Business and World Trade. Students seeking admission to this option must apply to and be accepted by both academic units, they must complete some 76 hours of graduate study, and they must take 6 graduate-level hours of language. Upon completion, the M.A. in Geography, the I.T.C. certificate, and the M.B.A. degree will be awarded.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The university operates on the semester plan with additional Summer Sessions.

There are graduate assistantships awarded to qualified students and the department also attempts to provide summer support for qualified students. In addition, Graduate School Fellowships are available on a universitywide competitive basis.

Applicants must submit GRE scores (verbal and quantitative only), two letters of recommendation, transcripts, and a brief essay detailing their educational objectives and professional interests.

STAFF:

Athol D. Abrahams, Ph.D., Sydney, 1971, Associate Professor—fluvial geomorphology

David Brophy, Ph.D., Wisconsin, 1977, Assistant Professor—cartography

Hugh Calkins, Ph.D., Washington, 1972, Associate Professor—land use, urban and regional planning, geographic information systems

Edgar C. Conkling, Ph.D., Northwestern, 1962, Professor—international trade, land use theory, industrial location

Charles H. V. Ebert, Ph.D., North Carolina, 1957, Professor—pedology and soils geography, environmental impact studies, physical land use problems

Daniel A. Griffith, Ph.D., Toronto, 1978, Assistant Professor—economic, spatial statistics, urban

John S. Haupert, Ph.D., Syracuse, 1955, Associate Professor—arid lands, agricultural, political, Middle East and North Africa

Richard Jarvis, Ph.D., Cambridge, 1975, Associate Professor—biogeography, fluvial geomorphology, climatology, quantitative

Barry Lentnek, Ph.D., Johns Hopkins, 1966, Associate Professor—regional analysis, development, Latin America

Ross D. MacKinnon, Ph.D., Northwestern, 1968, Professor—transportation, quantitative, migration models

Duane F. Marble, Ph.D., Washington, 1959, Professor—geographic information systems, travel behavior, urban

David M. Mark, Ph.D., Simon Fraser, 1977, Assistant Professor—digital terrain models, computer mapping, fluvial geomorphology

James E. McConnell, Ph.D., Ohio State, 1969, Professor—international business and world trade, industrial location, regional development

Richard A. Mitchell, Ph.D., Iowa, 1964, Associate Professor—quantitative, urban

David A. Smith, Ph.D., Michigan, 1959, Associate Professor—transportation, Western Europe

Grant Thrall, Ph.D., Ohio State, 1976, Associate Professor—spatial economic theory, public goods

Michael Wasilenko, M.A., Ohio State, 1975, Cartographic Technician—computer graphics, cartography

Michael Woldenberg, Ph.D., Columbia, 1968, Associate Professor—fluvial geomorphology, network theory

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Foster, Stephen. "Improvements in the Efficiency of Raw Milk Transportation and their Effects on the Spatial Structure of the Dairy Industry," 1981.

Glick, Barry. "The Spatial Organization of Cancer Occurrence: Theoretical and Empirical Perspectives," 1981.

Master's:

Cheng, Snuo-ling. "Spatial Analysis of Interregional Migration with Imperfect Information Flows," 1981.

Johnson, Timothy. "Evaluation and Improvement of the Geographic Information Systems Design Model," 1981.

Kelly, Paul. "Automated Positioning of Feature Names on Maps," 1981.

Morano, Robert. "Location of Outdoor Public Recreational Facilities for Children in the Context of Community Participatory Planning," 1980.

Walker, Joseph. "Landsliding on Talus Slopes at Letchworth State Park, Western New York," 1980.

Woelke, O'Neil. "The International Competitive Position of the United States Auto Industry," 1981.

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 5 M.A. 9 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 16 M.A. 14 Ph.D.
NOT IN RESIDENCE: 2 M.A. 11 Ph.D.

CHAIRMAN: Robert G. Jensen

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. John Mercer, Chairman of Admissions Committee, Department of Geography, 343 H.B.

Crouse Hall, Syracuse University, Syracuse, New York 13210
Telephone (315) 423-2605/2606

PROGRAMS AND RESEARCH FACILITIES: The department offers a diversified graduate program for a wide variety of student interests, providing significant choice for depth and breadth of geographical inquiry. Programs are matched to student interests through a system of advisory committees; continuous interaction between graduate students and departmental faculty is sought. Emphases within the range of alternatives open to students include cultural, economic, political, and social geography, cartography and geographic information systems,urban and regional development, historical geography, man-environment relationships and area studies. In recent years, foreign area research has sent students to Eastern Europe, the Soviet Union, East Africa, and Latin America. The Joint Oxford-Syracuse Project (JOSP), facilitated by Dellplain Assistantships, provides a long-term impetus for historical field research on Latin American population and colonial settlement patterns.

The department is part of the Maxwell Graduate School of Citizenship and Public Affairs, which is especially strong in the area of public policy, both domestic and foreign. The department participates actively in the following interdisciplinary programs of the Maxwell Graduate School: Development Planning; Metropolitan Studies; International Relations; Public Affairs; American Studies; The Foreign and Comparative Studies Program which includes: East African Studies, Latin American Studies, South Asian Studies, Soviet and East European Studies. Work in geographic information systems includes digital cartography, map design, and studies of government policy on mapping and geographic data. Supporting work in photogrammetry and remote sensing is provided by the Department of Forest Engineering in the SUNY College of Environmental Science and Forestry. Opportunities for graduate research and tutorials exist with the Urban Forest Research Project, U.S. Forest Service, on questions ranging from the role of vegetation in the urban ecosystem to land use and environmental policy alternatives for metropolitan regions.

Staff offices, classrooms, the graduate student room and the Preston E. James Library are in an air-conditioned building at the center of campus, near the libraries and the computing center. In 1977 the Syracuse University Cartographic Laboratory moved to spacious, environmentally-controlled quarters in Heroy Geology Building. The Laboratory, which includes a complete cartographic darkroom and student laboratory space, provides vital support to the department's teaching and research functions. Assistance for instructional and research purposes is provided by the full-time Staff Cartographer and his assistants. The Laboratory makes available to students its Hewlett-Packard minicomputer, plotter and digitizer.

The department is characterized by an open intellectual environment, flexibility in designing programs of study for individual students, and an emphasis on competent empirical application of research skills. A wide variety of courses, seminars, colloquia, and individualized work is offered. Each year a number of distinguished geographers are brought to Syracuse for special lectures and seminar sessions. The department maintains a monograph series, and a discussion paper series to which faculty and graduate students regularly contribute. A list of discussion papers, one of the most active series in the country, is available upon request.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. *Academic Plan:* The M.A. degree requires 30 credit hours, culminating in either a Master's thesis or two Master's papers, and a final oral examination on materials relevant to the student's work. This option provides scope for either breadth or topical depth within the Master's program; the decision is made by the student in consultation with faculty advisers, according to the student's needs, interests, and long range goals. The Ph.D. degree entails an additional 30 credit hours of courses both inside and outside the department, the writing of an approved dissertation proposal, the satisfactory completion of a combined written and oral qualifying examination, and finally, the successful completion of the doctoral dissertation. Students wishing to enter the Ph.D. program with a Master's degree in hand from another institution are expected to have formed a reasonably clear idea of dissertation plans to facilitate construction of a doctoral program of study. All applicants are encouraged to correspond with individual faculty regarding their special interest in any aspect of the Syracuse program in geography. *Admission:* The department does not subscribe to specific numerical criteria for evaluations of applications; minimum levels normally acceptable, however, for the undergraduate grade point average are about 3.0 (on a 4.0 basis) and for the GRE examinations a combined level of 1100 or above. Samples of written work may be submitted on a voluntary basis (these cannot be returned) to help the department evaluate applications on an individualized basis.

Applicants must submit transcripts, three letters of recommendation, and GRE scores on the Verbal, Quantitative, and Analytic Tests. The Advanced Geography GRE score is optional. *Financial Aid:* Teaching assistantships, research assistantships, and various fellowships are available. Annual stipends vary from about $4500 to $5000 plus remission of 9 to 12 hours of tuition per semester, making the total value of the awards worth about $8500 to $9000. Applicants should specify clearly any special regional or topical interests because certain forms of financial aid are so categorized. Applications are invited for a Cartographic Teaching Assistantship and for Dellplain Assistantships in Latin American Geography.

STAFF:

John A. Agnew, Ph.D., Ohio State, 1975, Associate Professor—political, social, urban

David J. de Laubenfels, Ph.D., Illinois, 1953, Professor—biogeography, climatology, urban physical environments, circum-Pacific

Robert G. Jensen, Ph.D., Washington, 1964, Professor—economic, regional development, Soviet Union

D. Michael Kirchoff, M.A., Wyoming, 1972, Staff Cartographer—cartographic design and production, cartographic management and planning

Donald W. Meinig, Ph.D., Washington, 1953, Maxwell Professor of Geography—historical, cultural and social, United States

John Mercer, Ph.D., McMaster, 1971, Associate Professor—urban, political, research methods

Mark S. Monmonier, Ph.D., Pennsylvania State, 1969, Professor—cartography and mapping, geographic information systems, automated map design, mapping policy

F. Douglas Muschett, Ph.D., Michigan, 1976, Assistant Professor—environmental policy-resource management, air quality, environmental impact of energy and economic development

James L. Newman, Ph.D., Minnesota, 1968, Associate Professor—population, diet-nutrition, Africa

David J. Robinson, Ph.D., London, 1967, Associate Professor—historical, urban, Latin America

David E. Sopher, Ph.D., UC, Berkeley, 1954, Professor—social, cultural (religions, languages, popular culture), South Asia

John H. Thompson, Ph.D., Washington, 1949, Professor—economic, urban and regional planning problems, United States, New York State

ADJUNCT FACULTY:

Rowan A. Rowntree, Ph.D., UC, Berkeley, 1973, Project Leader, Urban Forest Research—land use ecology, environmental policy

Ralph A. Sanders, Ph.D., Minnesota, 1974, Research Scientist, Urban Forest Research—urban, quantitative methods, North America

PROFESSOR EMERITUS:

Preston E. James, Ph.D., Clark, 1923, Maxwell Professor Emeritus of Geography.

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Telephone (215) 787–7691

PROGRAMS AND RESEARCH FACILITIES: The objectives of the Master's program are to prepare students for further study and for jobs in government, industry, and planning. Throughout the program, the major emphasis is placed on training in research techniques and the development of analytical skills that can be applied to problem solving of a geographic nature. Specifically, the department offers core concentrations in data handling techniques and applied geography. The data handling concentration is designed to train the student in cartographic design, computer mapping and remote sensing techniques while the applied concentration provides training for the development of analytical skills used in solving problems related to store location, health care delivery systems, land use planning and environmental policy planning.

The department places some emphasis on the geography of urban areas and metropolitan regions, and the Philadelphia area is used as a laboratory for research. In addition, close ties are maintained with the Urban Studies Program and urban oriented faculty in other departments.

Basic requirements in addition to those prescribed by the Graduate School are (1) a final comprehensive examination and (2) successful completion of either eight courses plus a thesis, or eleven courses. Geography 406 (Geographic Methodology), 404 (Quantitative Methods in Geographical Research), and 464 (Field Methods) are required courses for all students. The full-time student normally takes three or four courses (9-14 semester hours) in a regular semester; the part-time student takes fewer than 9 semester hours. Thus, the full-time student who chooses the non-thesis option will normally need to spend a minimum of three full semesters in residence.

Graduate courses are offered in field methods, quantitative techniques, research design, remote sensing, cartography, computer techniques, regional analysis, land use, the physical environment, economic geography, urban geography, and social and cultural geography. In addition, practical experience is available through supervised teaching and internships.

The department is in Gladfelter Hall, a modern building housing the social science departments. Space and equipment for cartography, air photo interpretation, direct access to the computer, and graduate seminars are contained within the department. Some frequently-used map, book, and journal resources are in the department library; others are in nearby Paley Library. All graduate students are provided with a desk and office space readily accessible to faculty offices and department facilities.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester System. *Admission:* by Graduate School, based upon departmental evaluation of undergraduate transcript, two letters of recommendation, and GRE scores (verbal and quantitative). *Financial Aid:* Teaching assistantships and research assistantships, which carry tuition remission plus a stipend, are available. In addition, limited funds are available for tuition remission alone.

STAFF:

David J. Cuff, Ph.D., Pennsylvania State, 1972, Associate Professor—physical, cartography, energy

Roman A. Cybriwsky, Ph.D., Pennsylvania State, 1972, Associate Professor jointly with Urban Studies—urban, social, neighborhoods

Lane J. Johnson, Ph.D., Clark, 1960, Professor—urban, methodology, settlement systems

John W. Pawling, Ph.D., Michigan State, 1970, Associate Professor—physical, aerial photo interpretation, physical landscapes

George F. Rengert, Ph.D., North Carolina, 1971, Associate Professor—cultural, population, crime

Carolyn J. Ryan, Ph.D., Clark, 1964, Associate Professor—urban, economic, land use planning

Marilyn Silberfein, Ph.D., Syracuse, 1971, Associate Professor and Chairperson—cultural, Africa, environmental perception

John C. Western, Ph.D., UCLA, 1977, Assistant Professor—urban social, cultural, South Africa

William J. Young, Ph.D., Tennessee, 1971, Associate Professor—economic, market areas, health care, energy resources

University of Tennessee

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1914 GRADUATE PROGRAM FOUNDED: 1928

DEGREES OFFERED: M.S., Ph.D.

GRANTED 7/1/80–6/30/81: 4 M.S., 0 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 13 M.S. 11 Ph.D.
NOT IN RESIDENCE: 3 M.S. 5 Ph.D.

HEAD: Sidney R. Jumper

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Sidney R. Jumper, Department of Geography, University of Tennessee, Knoxville, Tennessee 37916
Telephone (615) 974-2418

PROGRAMS AND RESEARCH FACILITIES: *Programs:* The M.S. and Ph.D. programs permit graduate students to gain both broad and specialized competence and to pursue their own research interests. The department is particularly well-qualified to direct studies in the geography of rural and non-metropolitan areas. Other strengths are systems-oriented physical geography; urban geography; geography of economic development; historical geography; and regional geography of the United States (especially the South and Appalachia) and Latin America.

The Master's program requires a minimum of 45 quarter hours including 9 hours credit for thesis. Specific course requirements for the Doctoral program are determined by faculty committee in accordance with interests and needs of the student. Master's degree normally prerequisite to Ph.D. program. A minimum of 15 hours of collateral work, a reading knowledge of one foreign language, and competence in appropriate techniques are required. Written and oral preliminary examination; oral final examination.

Research facilities: The department is convenient to libraries and a wide range of related departments. The University Computer Center is unusually accessible to students and offers excellent short courses and other aids for users. Cartographic, photographic, computer graphics, and remote sensing equipment and a map library are available in the department. The department is currently a partner to research contracts with the National Science Foundation, the Department of Energy, and the Oak Ridge National Laboratory, involving participation by and financial aid for graduate students. Departmental contacts with Tennessee Valley Authority and Oak Ridge National Laboratory have led directly to the employment of graduate students and degree recipients.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University of Tennessee operates on a quarter system. New graduate students may begin their work during any quarter, although the fall quarter is preferred. Applicants should write to the Department of Geography for particulars on submitting applications. A "B" or higher undergraduate grade average is normally required for admission to a degree program, although admission in a probationary status may be granted to those with lower averages. Students seeking financial aid should file completed applications no later than February 15. Official transcripts of all previous college work, verbal and quantitative scores from the Graduate Record Examination, and at least three letters of recommendation are required.

Several forms of financial aid are available through the department. These include a number of teaching and other types of assistantships which carry a waiver of all tuition and maintenance fees in addition to a stipend. Several part-time research positions have been funded through a contract between the department and the Resource Analysis Group of Oak Ridge National Laboratory. Support is also normally available through research grants and contracts awarded to members of the faculty. University fellowships are available, and applications may be obtained by writing directly to the Vice Chancellor for Graduate Studies and Research.

STAFF:

Charles S. Aiken, Ph.D., Georgia, 1969, Professor—rural, agricultural, Anglo-America, U.S. South

Thomas L. Bell, Ph.D., Iowa, 1973, Associate Professor—urban, location theory, transportation, quantitative methods

Leonard W. Brinkman, Ph.D., Wisconsin, 1964, Associate Professor—historical, Anglo-America, Appalachia

James R. Carter, Ph.D., Georgia, 1973, Assistant Professor—thematic cartography, computer graphics, climatology

Ronald A. Foresta, Ph.D., Rutgers, 1979, Assistant Professor—public policy and land use, urban systems modeling, resource management

Edwin H. Hammond, Ph.D., UC, Berkeley, 1951, Professor—land-surface systems, land forms, concepts and methods

Sidney R. Jumper, Ph.D., Tennessee, 1960, Professor and Head—utilization of resources, agricultural, economic

Robert G. Long, Ph.D., Northwestern, 1949, Professor Emeritus—Latin America, Asia, cartography

Clarence W. Minkel, Ph.D., Syracuse, 1960, Professor and Dean of Graduate School—Latin America, geography of development

Charles T. Paludan, Ph.D., Denver, 1975, Associate Professor—remote sensing, physical, cartography (assigned to U.T. Space Institute, Tullahoma, Tennessee)

Lydia Mihelic Pulsipher, Ph.D., Southern Illinois, 1977, Assistant Professor—historical, cultural, rural development, Caribbean

Bruce A. Ralston, Ph.D., Northwestern, 1976, Assistant Professor—transportation, urban, quantitative methods, diffusion theory

John B. Rehder, Ph.D., Louisiana State, 1971, Associate Professor—cultural, rural settlement, remote sensing

Theodore H. Schmudde, Ph.D., Wisconsin, 1960, Professor—environmental impact of rural land uses, soils, recreational settlement, field methods

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Master's:

Ambrosia, Vincent G. "Terrain Cover and Shadow Discrimination From Landsat Data of the Great Smoky Mountains National Park," 1980. *Mf., Univ. Microfilms.

Bing, Patricia B. "Geographical Metamorphosis in Old West Knoxville, Tennessee," 1981. *Mf., Univ. Microfims.

Foehner, Nora L. "The Historical Geography of Environmental Change in the Copper Basin," 1980. *Mf., Univ. Microfilms.

Jenks, Carolyn E. "The Effects of Environmental Amenities on Student Migration Patterns at the University of Tennessee, Knoxville," 1981. *Mf., Univ. Microfilms.

Texas A&M University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1968 GRADUATE PROGRAM FOUNDED: 1968

DEGREES OFFERED: M.S., Ph.D.

GRANTED 7/1/80-6/30/81: 5 M.S.

GRADUATE STUDENTS IN RESIDENCE: 12 M.S. 3 Ph.D.
NOT IN RESIDENCE: 1 Ph.D.

HEAD: Campbell W. Pennington

FOR CATALOG AND FURTHER INFORMATION WRITE TO: The Registrar,
Texas A&M University, College Station, Texas 77843
Telephone (713) 845-1031
For information about department: Head, Department of Geography
Telephone (713) 845-7141

PROGRAMS AND RESEARCH FACILITIES: The department is broadly interested in human and physical geography as exemplified by staff interests listed below. Associated departments in the College of Geosciences provide excellent opportunities for graduate level work in geology, meteorology, and oceanography, while other colleges of the University are able to support advanced study in a variety of natural resources, planning and social science areas.

Specialized interests, many of which are shared by the staff-at-large, include: analysis of man-land relationships with emphasis upon diffusion, technological innovation, and adaptation of social, political, and economic systems; historical geography of settlement and interlinked development of the Atlantic world, with a focus upon various parts of Europe, North America, Middle America and the Caribbean; the social construction of the everyday landscape; culture history of watercraft and their significance as agents of diffusion; cross-cultural and cross-environmental study of environmental perception and cognition; environmental decision-making and its effects upon the cultural landscape; the impact of natural hazards; availability of energy resources; plant migration and speciation; origins of domesticated plants and agricultural systems; soil development as an environmental indicator of landscape chronology; electron microscope investigations of weathering processes; factors affecting urban residential land value; urban environmental quality; spatial impact of residential property taxes; and both qualitative and quantitative methods in geography. The department maintains a Cartographic Service Unit as a research and teaching support facility. Services of the campus Computer Center and the Electron Microscopy Center are available to students.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Texas A&M University is on the semester system. *Admission requirements:* Bachelor's degree and approval by Department Head, 1000 minimum on GRE. Research, teaching assistantships are available.

STAFF:

George F. Bass, Ph.D., Pennsylvania, 1964, Professor—nautical archeology, Mediterranean culture history

Robert S. Bednarz, Ph.D., Chicago, 1975, Assistant Professor—economic, urban

Earl Cook, Ph.D., Washington, 1954, Professor—environmental and resource analysis

Peter J. Hugill, Ph.D., Syracuse, 1977, Assistant Professor—social, historical, United States

Clarissa T. Kimber, Ph.D., Wisconsin, 1969, Professor—plant geography, Caribbean

Christopher Müller-Wille, M.A., Chicago, 1974, Lecturer/Production Supervisor—cartography

Campbell W. Pennington, Ph.D., UC, Berkeley, 1959, Professor and Head—historical geography of the United States, Middle America

Charles Leroy Smith, Ph.D., Georgia, 1977, Lecturer—military geography, Soviet Union

Joseph Sonnenfeld, Ph.D., Johns Hopkins, 195[illegible], Professor—behavioral geography, extreme environments

Frederick van Doorninck, Jr., Ph.D., Pennsylvania, 1967, Associate Professor—nautical archeology

Kenneth L. White, Ph.D., UC, Riverside, 1976, Assistant Professor—physical, soils,geomorphology, cartography

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Lange, Debra. "A Place-Name Study of Gillespie County, Texas," 1981.

Pecotte, Allen. "Aspects of the Phytogeography of Crowley's Ridge, Arkansas," 1981.

Vavra, Amzi. "Orientation in the Designed Environment: Route-finding in a Hospital Complex," 1981.

Walter, Elizabeth. "The Effects of Trail Use on the Vegetation of Petit Jean State Park, Arkansas," 1981.

Wilson, David. "Variation in Property Tax Assessment in Bryan and College Station, Texas," 1981.

The University of Texas at Austin

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1949 GRADUATE PROGRAM FOUNDED: 1950

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 3 M.A., 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 18 M.A. 4 Ph.D.
NOT IN RESIDENCE: 4 M.A. 4 Ph.D.

CHAIRMAN: George W. Hoffman

FOR CATALOG AND FURTHER INFORMATION WRITE TO: The Graduate Advisor, Department of Geography, University of Texas at Austin, Austin, Texas 78712
Telephone (512) 471-5116, 5117

PROGRAMS AND RESEARCH FACILITIES: The graduate program is designed to train modern geographers in specialized areas of research and teaching. The Department places particular emphasis on the interrelationships among seven fields: physical, cultural, remote sensing, urban, political and economic geography, and environmental analysis. The program is oriented to research, although course work may be suggested to remedy academic deficiencies. Students are strongly encouraged to undertake supporting work in allied fields. Ordinarily, a graduate student, especially one at the Ph.D. level, is expected to integrate a thematic specialization with a regional interest. All incoming graduate students are strongly urged to select individual faculty advisors immediately.

University research centers with which the Department has strong and active ties include the Population Research Center, Water Resources Research Center, Bureau of Business Research, Bureau of Economic Geology, Center for Advanced Transportation Studies, the L. B. J. School of Public Affairs, Graduate Program in Energy and Mineral Resources, and Energy Studies Center. Special area study programs include Latin America, Middle East, Asia, and Europe. Facilities available for student use include a computer center based on a CDC 6600 and a research cartography and remote sensing laboratory, map library, and computational equipment housed within the Department.

Every graduate student will undertake a course on issues and research in geography during his first year of residence. For the master's degree, students must complete 30 to 36 hours of course work with a minimum average grade of B. In addition, proficiency must be demonstrated in one foreign language or in quantitative analysis, and a thesis or two research papers must be written and approved. For the doctorate, students must complete a master's degree or the equivalent, demonstrate proficiency in two foreign languages or one foreign language and quantitative methods, and complete a course in history and philosophy and one in issues and research in geography (if not completed at the master's level). Students are admitted to candidacy upon the successful completion of examinations on geographic methodology and philosophy, the candidate's fields of special research, and dissertation proposal. The Ph.D. degree is granted upon the successful defense of the dissertation.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* Semester System. *Admission Requirements:* (1) Admission to Graduate School, by application; (2) A score of 1000 (combined quantitative and verbal) on the Graduate Record Examination; (3) A "B" average for the last two years of college. Some departmental discretion may be exercised on an individual basis. *Financial Aid:* Fellowships, Scholarships, Teaching Assistantships, Research Assistantships, Cartographic Assistantships, and Map Clerk positions.

STAFF:

Bharat Bhatt, Ph.D., Syracuse, 1979, Assistant Professor—social-cultural, comparative urban, South Asia

**M. George Bowden, Ph.D., Texas, Adjunct Associate Professor*—geographic education

**Alfred W. Crosby, Jr., Ph.D., Boston, 1961, Professor*—environmental, ecological, medical (American Studies)

Christopher Shane Davies, Ph.D., Indiana, 1970, Associate Professor—urban

William E. Doolittle, Ph.D., Oklahoma, 1979, Assistant Professor—historical, cultural

Robin W. Doughty, Ph.D., UC, Berkeley, 1971, Associate Professor—cultural, historical ecology

**David J. Eaton, Ph.D., Johns Hopkins, 1977, Associate Professor*—environmental (L.B.J. School of Public Affairs)

Paul Ward English, Ph.D., Wisconsin, 1965, Professor—cultural, Middle East

George W. Hoffman, Ph.D., Michigan, 1950, Professor—economic, political, East-West Europe

Robert K. Holz, Ph.D., Michigan State, 1963, Professor—remote sensing, cartography, North Africa

**David L. Huff, Ph.D., Washington, 1960, Professor*—spatial design of market systems, consumer spatial behavior (School of Business)

J. Richard Jones, Ph.D., Boston, 1977, Assistant Professor—geomorphology, biogeography, quantitative methodology, coastal zone management

**Lorrin G. Kennamer, Ph.D., George Peabody, 1952, Professor*—geographic education, Anglo-America (Dean, UT School of Education)

Ian R. Manners, D. Phil., Oxford, 1969, Associate Professor—Middle East, environmental resource management

James Nasuti, Ph.D., Hawaii, 1978, Assistant Professor—physical, climatology, Asia

Larry L. Patrick, Ph.D., Pittsburgh, 1977, Assistant Professor—Latin America, cultural

* Part-time

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

[illegible], James Andrew. "Imlil: A Modern Moroccan Geography," 1981.

Master's:

Coleman, Anne W. "Observations about the Leasing of the Outer Continental Shelf for Petroleum Exploration, The Case of Texas," 1981.

Dietrich, Wyatt. "Lignite Leasing and Landowner Perceptions of Surface Mining in Bastrop County, Texas," 1980.

Mabry, Jo. "United States Uranium Resources," 1980.

University of Toledo

DEPARTMENT OF GEOGRAPHY AND PLANNING

DATE FOUNDED: 1963 GRADUATE PROGRAM FOUNDED: 1970

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 1

GRADUATE STUDENTS IN RESIDENCE: 16
NOT IN RESIDENCE: 12

CHAIRMAN: Eugene N. Franckowiak

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Donald W. Lewis, Graduate Adviser, Department of Geography and Planning, University of Toledo, Toledo, Ohio 43606
Telephone (419) 537-2545

PROGRAMS AND RESEARCH FACILITIES: The Master of Arts program is designed to provide a background within the context of departmental faculty interests and related university offerings.

The master's program with geography specialization is designed to provide the opportunity for individualized programs in (a) economic geography; (b) urban geography; (c) environmental perception; (d) physical geography; (e) conservation and management of natural resources; and, (f) international/foreign area development.

The Master's program with planning specialization is designed individually to provide the opportunity for work in (a) urban planning and development; (b) regional planning and development; (c) environmental planning; and, (d) health planning. Appropriate agency internships are an integral part of the planning specialization.

Opportunities for instruction and research are enhanced by close association with graduate programs in economics, sociology and anthropology, psychology, public administration, geology, biology, and in some areas within the colleges of business administration, engineering, and law.

The department occupies newly renovated quarters including modern laboratories. Students have easy access to the facilities of the university libraries (with over one million volumes) and specialized facilities in law, map collections, and government documents. All students have easy access to the regional as well as the university and departmental computation services and to a centralized technological media center.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID:

The program is on the quarter system. All students must complete a minimum of 45 hours of approved study including a nine-quarter hour thesis. There is a comprehensive examination for admittance to candidacy. Also required is either appropriate supervised teaching assistant experience or a planning internship. For most students, two academic years are needed to complete the program.

Applicants should hold a bachelor's degree in geography or a related field. Others are admitted who are willing to take additional appropriate work. Usually a student will present a GPA of at least 2.7 (4.0 scale) and must score satisfactorily on the aptitude Graduate Record Examination.

Graduate teaching assistantships, University and other fellowships, and remunerative half-time graduate planning internships are available to most qualified applicants.

STAFF:

Robert M. Basile, Ph.D., Ohio State, 1953, Professor—physical especially climatology, micro-climatology, soils

Basil A. Collins, Ph.D., Michigan, 1973, Associate Professor—Middle East and North Africa, cultural, history of geographical thought

Walter T. Edelen, M.C.P., Georgia Institute of Technology, 1960, Adjunct Associate Professor—urban and regional planning and development, planning administration

S. Lewis Ellis, M.A., Toledo, 1973, Adjunct Assistant Professor—housing and urban redevelopment, urban planning

Byron E. Emery, Ph.D., Michigan, 1963, Professor—political, cultural, regional development planning

Eugene N. Franckowiak, Ph.D., Michigan, 1973, Associate Professor—cartography, Latin America especially Andean America, environmental perception

Barry F. Hersh, M.U.P., New York University, 1972, Adjunct Assistant Professor—urban and regional planning, zoning and land use

Lawrence A. Hoffman, Ph.D., Johns Hopkins, 1950, Professor—economic especially development, East and South Asia especially India, historical urban

Donald W. Lewis, Ph.D., Ohio State, 1966, Professor—neighborhood revitalization, environmental planning and resource management, Anglo-America

William A. Muraco, Ph.D., Ohio State, 1971, Professor—economic especially location theory, urban, quantitative research methods

Eugene H. Naujock, M.S., Wisconsin-Milwaukee, 1969, Adjunct Assistant Professor—urban planning and administration, census data analysis

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's

Nesper, Richard P. "Locational Dimensions of Outdoor Coin Telephones: An Assessment of Urban Spatial Associations, Revenue Generation, and Consumer Search," 1981.

Towson State University

DEPARTMENT OF GEOGRAPHY AND ENVIRONMENTAL PLANNING

DATE FOUNDED: 1955 GRADUATE PROGRAM FOUNDED: 1970

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 6

GRADUATE STUDENTS IN RESIDENCE: 33
NOT IN RESIDENCE: 2

CHAIRPERSON: James E. DiLisio

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Wayne McKim, Graduate Coordinator, Department of Geography and Environmental Planning, Towson State University, Towson, Maryland 21204
Telephone (301) 321-2966

PROGRAMS AND RESEARCH FACILITIES: The program is designed to provide a broad mastery of the field through a balanced curriculum of topical and regional studies with research experiences. Requirements for the M.A. are the successful completion of 30 semester hours with thesis (36 semester hours without thesis), and a reading knowledge of a modern foreign language or competency in statistical techniques.

The University is situated in the suburban area north of Baltimore. Libraries and research facilities of several large universities and government agencies of Baltimore, Washington, and Philadelphia are within a short distance of the campus. An ample collection of the principal geographical books and periodicals is contained in the library on campus.

An air-conditioned building houses the department and its special facilities which include well-equipped cartography/air photo laboratories, map library, department library, electronic calculators, and audio-visual materials. Computer telecommunications terminals in the department are linked to a UNIVAC 1106 on campus.

The Department has operated a successful internship program since 1970. Internships are available with several private firms and public agencies at the federal, state, and county levels.

Papers in Geography, a discussion paper series, is published by the department and graduate student input is encouraged.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. Admission is based on evaluation of individual applicant's experience, transcript of previous course work, and personal references. Conditional admission to a qualifying program may be granted for those lacking prerequisites. Financial aid includes Graduate Assistantships and paid work within the department.

FULL-TIME STAFF:

Norman R. Diffenderfer, M.A., Nebraska, 1943, Associate Professor—Anglo-America, soils and plant geography

James E. DiLisio, Ph.D., Oklahoma, 1975, Assistant Professor—economic, quantitative, energy

Kenneth Haddock, Ph.D., Michigan State, 1975, Assistant Professor—medical, Latin America

Hlib S. Hayuk, M.A., Wisconsin—Milwaukee, 1967, Assistant Professor—Soviet Union, population

Curtis V. Martin, M.A., Clark, 1953, Associate Professor—Europe, urban, political

Wayne L. McKim, Ph.D., Northwestern, 1974, Associate Professor—Africa, cultural

Ralph C. Scott, Ph.D., Georgia, 1972, Assistant Professor—meteorology, climatology, geomorphology

Marshall L. Stevenson, M.A., East Carolina, 1968, Assistant Professor—cartography

PART-TIME STAFF:

George Beishlag, Professor Emeritus—geography of Maryland

John Dillon, Baltimore County Office of Planning and Zoning—principles of zoning

David Firman, Professor Emeritus—Asia, environmental studies

Walter H. Kratzmeier, Baltimore County Office of Planning and Zoning—principles of planning, urban design

Robert Marriott, Baltimore County Office of Planning and Zoning—planning implementation, comprehensive planning

Donald Outen, Regional Planning Council—urban systems

Peter M. Zimmerman, Attorney at Law—environmental law

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Koontz, Michael. "Spatial Economic Prerequisites for Short Line Railroad Revitalization: The Maryland Midland Railway," 1981.*

Patoka, Israel C. "The Spatial Distribution of Vehicle Accidents on an Urban Highway: A Case Study of the Jones Falls Expressway," 1981.*

University of Utah

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1947 GRADUATE PROGRAM FOUNDED: 1948

DEGREES OFFERED: M.A., M.S., Ph.D.

GRANTED 7/1/80–6/30/81: 5 Masters, 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 15 Masters 5 Ph.D.
NOT IN RESIDENCE: 13 Masters 1 Ph.D.

CHAIRMAN: Roger M. McCoy

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Director of Graduate Studies, Department of Geography, University of Utah, Salt Lake City, Utah 84112
Telephone (801) 581-8218

PROGRAMS AND RESEARCH FACILITIES: The Department offers programs leading to Ph.D., M.A., or M.S. degrees. The Master's degree usually requires a thesis, but with departmental approval a non-thesis option may be selected. The Department offers a broad program in systematic and regional geography, techniques, and methodology. Areas of specialization are: Quaternary studies involving geomorphology and climatology applied to paleoenvironmental analysis; urban-economic studies; and natural resources analysis. Strong ties are maintained with allied departments within the University and with many local, state, and federal planning and resource management agencies. The Department faculty cooperate in University-wide regional programs.

Cartographic facilities include a large laboratory and complete reproduction facilities, with a large copy camera and darkroom. The Department's Geographic Research Laboratories have various funded projects mapping land use and resources. Equipment includes a density slicer, map and image digitizers, minicomputer, image compositor, and zoom transfer scope.

The Department places emphasis on field and laboratory techniques and quantitative methods. A growing library of computer mapping and statistical programs is maintained in the Department and at the University Computer Center.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Quarter system. Candidates must be accepted by the University's Graduate School. A 3.00 G.P.A. is required for acceptance. Candidates should have three letters of recommendation and GRE scores sent directly to the Graduate Studies Committee. There are several teaching assistantships ranging in stipend from $3000 to $3600, plus a waiver of tuition. Research assistantships, part-time project work, and summer employment are available. Applications for graduate school and for assistantships are due February 15. Internships may be arranged with federal, state, and local public agencies.

FACULTY:

Elizabeth K. Burns, Ph.D., UC, Berkeley, 1974, Assistant Professor—contemporary North American metropolitan structure and planning, roots and directions of urban change

Donald R. Currey, Ph.D., Kansas, 1969, Associate Professor—geomorphology and Quaternary stratigraphy of mountain and desert environments in the Western U.S.

Albert L. Fisher, Ph.D., Johns Hopkins, 1954, Professor—systematic and applied political geography, boundaries, distribution of elites, Europe, Utah

Morris E. Johnson, M.C.P., MIT, 1951, Adjunct Professor—visual quality of urban environments; process for comprehensive planning; plan implementation

Jeanne Kay, Ph.D., Wisconsin-Madison, 1977, Assistant Professor—historical changes in natural environments, cultural ecology

Paul A. Kay, Ph.D., Wisconsin-Madison, 1977, Assistant Professor—climatology, Holocene environments and climates, dendrochronology

James W. King, Ph.D., Northwestern, 1964, Associate Professor—cultural and economic geography in Africa and the Middle East

Chung-Myun Lee, Ph.D., Michigan, 1961, Professor—air photo-remote sensing applications to land use analysis; land use planning; population migration and distribution; East Asia; economic geography

Roger M. McCoy, Ph.D., Kansas, 1967, Professor and Chairman— remote sensing applications to hydrology, fluvial geomorphology, and resource mapping

Merrill K. Ridd, Ph.D., Northwestern, 1963, Professor—remote sensing and applied geomorphology in resource mapping and land use planning, cartography

Harry J. Schuler, Ph.D., Indiana, 1977, Assistant Professor—transportation, urban planning and public policy, economic geography, human geography

ADJUNCT FACULTY AND PROFESSORS EMERITI:

Richard D. Chong, Master of Architecture, UCLA, 1974, Adjunct Assistant Professor—urban planning and design

Vasyl M. Gvosdetsky, Ph.D., Kiev, 1936, Professor Emeritus—soils, physiography, Soviet Union

H. Bowman Hawkes, Ph.D., Ohio State, 1947, Professor Emeritus—climatology, physiography, geographic education, Europe

Robert P. Huefner, D.B.A., Harvard, 1972, Adjunct Professor—planning administration, local government

Lee Kapaloski, Ph.D. candidate, Colorado, J.D., Utah, Adjunct Assistant Professor—environmental law and planning

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Petersen, James F. "Morphometric Analysis of Piedmont Scarps, Northern Wasatch Front, Utah," 1981.*

Rogers, Garry F. "Photographic Documentation of Vegetation Change in the Great Basin Desert," 1980.*

NOT IN RESIDENCE: 8

CHAIRMAN: Canute VanderMeer

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Program Coordinator, Department of Geography, University of Vermont, Burlington, Vermont 05405
Telephone (802) 656-3060

PROGRAMS AND RESEARCH FACILITIES: The M.A. degree is general in character rather than specialized and requires thirty graduate credits, including six devoted to a thesis. Faculty interests span most systematic aspects of geography. Technique competence includes cartography, remote sensing, and quantitative methods. Regional interests and field experience are virtually world-wide in scope. Vermont, the Lake Champlain Basin, and adjacent areas in Canada and Northern New England provide diverse settings for interesting field work. Among the facilities are a library with a fine collection on Vermont and Canada; a map library; a DEC 2060 computer system with plotter and graphics terminal; and well-equipped cartographic and remote sensing laboratories.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system plus summer sessions. Admission requirements are detailed in the Graduate College Bulletin. Applicants should present twelve semester hours or their equivalent in geography and supporting courses in related fields. Persons applying for financial assistance as well as admission should have applications with all supporting materials including GRE scores in the Graduate College by March 1. Most New England students from outside Vermont may be eligible for in-state tuition rates. The Department has six Graduate Teaching Fellowships. The Graduate College has fellowships and scholarships.

STAFF:

H. Gardiner Barnum, Ph.D., Chicago, 1965, Associate Professor—regional and historical geography of Europe, urban, cartography

Andrew R. Bodman, Ph.D., Ohio State, 1978, Assistant Professor—economic, urban, planning, quantitative methods

Daniel W. Gade, Ph.D., Wisconsin, 1967, Professor—cultural, biogeography, South America, Western Mediterranean

Aulis Lind, Ph.D., Wisconsin, 1968, Associate Professor—physical, remote sensing of environment, water resources

Harold A. Meeks, Ph.D., Minnesota, 1964, Associate Professor—physical, rural land use, U.S.S.R., United States, New England

Edward J. Miles, Ph.D., Syracuse, 1958, Professor—political, Canada, Africa, historical geography of the United States and Canada

Charles C. Ryerson, Ph.D., Southern Illinois, 1977, Assistant Professor—applied climatology, physical, computer cartography

Canute VanderMeer, Ph.D., Michigan, 1962, Professor—agricultural, China, Southeast Asia

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Anderson, Katharine. "Volunteer Apple Trees in Vermont," 1981.*

Ehrlich, Jonathan D. "Changing Form and Function in the Central Business District of Tempe, Arizona 1940-1980," 1980.*

Gent, Cathleen L. "The Impact of Large-Scale Wind Machines on Landscape Aesthetics," 1981.*

Morrison, Victor I. "Farmland Conservation: Westford, Vermont," 1981.*

Stahill, John. "Farms With Non-Contiguous Land Parcels in Southern Chittenden County, Vermont 1964 to 1977," 1981.*

Teer, Jacqueline DeGraff. "Spatial and Structural Changes in Vermont Manufacturing Since World War II," 1981.*

Virginia Polytechnic Institute and State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1975 GRADUATE PROGRAM FOUNDED: 1979

DEGREES OFFERED: M.S.

GRANTED 7/1/80-6/30/81: 0

GRADUATE STUDENTS IN RESIDENCE: 15

CHAIRMAN: Charles M. Good

FOR CATALOG AND FURTHER INFORMATION WRITE TO: James B. Campbell, Graduate Advisor, Department of Geography, Virginia Polytechnic Institute and State University, Blacksburg, Virginia 24061
Telephone (703) 961-6886 or 5841

PROGRAMS AND RESEARCH FACILITIES: The department is in the College of Arts and Sciences and offers the M.S. in geography. The program prepares students for a variety of careers as geographers in business, government, research and planning, teaching, or for doctoral work at another university. The M.S. degree requires a minimum of 45 quarter hours of credit, including three core courses—the History and Philosophy of Geography, Geographic Research Design, and a choice among three offerings in particular geographic techniques. Students are encouraged to pursue their own interests and to explore offerings in allied disciplines. The department is notably strong in the cartography-graphics-remote sensing area and also in cultural geography, the human geography of tropical regions, physical geography, and geographic education.

The university library contains two million volumes, including an excellent collection of serial publications in geography and worldwide coverage of maps and atlases. Departmental facilities include a Spatial Analysis Laboratory, containing a variety of peripheral computing equipment and featuring interactive computer graphics, supported on-line by the university's IBM 370/158 systems and Honeywell Multics System. There is also a remote sensing laboratory, darkroom, and remodeled cartography laboratory in the department area as well as a small departmental library containing the major geographical periodicals.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Admission Requirements*—The graduate program is open to qualified students holding a Bachelor's degree from an accredited college. Nongeography majors are encouraged to apply. At least a B average for junior and senior years is expected. Individual students' backgrounds and interests will be considered in developing programs and course requirements. Quarter System. *Financial Aid*—Departmental Graduate Assistantships-Stipend $2430-$4860 for three quarters. Some tuition scholarships also available. Graduate students pay no out-of-state fees.

STAFF:

Susan R. Brooker-Gross, Ph.D., Illinois, 1977, Assistant Professor—urban social
James B. Campbell, Ph.D., Kansas, 1976, Associate Professor—physical, remote sensing
Charles M. Good, Ph.D., Chicago, 1970, Professor—cultural, medical, Africa
Lawrence S. Grossman, Ph.D., Australian National, 1979, Assistant Professor—cultural ecology, resources, Oceania
Alan M. MacEachren, Ph.D., Kansas, 1979, Assistant Professor—cartography, environmental perception
Thomas A. Maraffa, ABD, Ohio State, Assistant Professor—urban-economic, quantitative
Robert W. Morrill, Ph.D., Clark, 1973, Assistant Professor—political, geographic education

Bonham C. Richardson, Ph.D., Wisconsin, 1970, Associate Professor—cultural, historical, Caribbean

ASSOCIATED PROFESSORS IN OTHER DEPARTMENTS:

James R. Bohland, Ph.D., Georgia, 1970, Associate Professor and Chairman, Urban Affairs—population, settlement, computer applications

Donald Daidone, M.S.L.S., Western Michigan, 1976, Assistant Professor and Assistant Social Science Librarian—history of cartography, map librarianship

University of Washington

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1935 GRADUATE PROGRAM FOUNDED: 1935

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 13 M.A., 3 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 46 M.A. 16 Ph.D.
NOT IN RESIDENCE: 6 M.A. 13 Ph.D.

CHAIRMAN: Richard L. Morrill

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Professor William B. Beyers, Graduate Advisor, Department of Geography, University of Washington, Seattle, Washington 98195
Telephone (206) 543-5843

PROGRAMS AND RESEARCH FACILITIES: Individual graduate programs are built around seven research specialties:

Social geography: population and welfare: The study of human population and their settlements, including their size and kind, by ethnicity and race, and by level of well-being and health.

Urban geography/urban studies: The study of the economic base of cities, their internal social and economic structure, including transportation, urban facilities location, medical care, and aspects of social justice and the city.

Regional development and industrial geography: Regional development theory, regional policies, regional economic analysis, industrial location, and linkage studies, location theory and modeling, interregional transfer of technology, corporate spatial behavior and the geography of multinational firms.

Trade and transportation: Flows, network and traffic patterns, practical aspects of operating transportation systems, models of trade and transportation activities.

Environment and natural resource management: Physical processes affecting the landscape, interaction of human activities with the physical environment, land use, energy, agriculture, recreation, environmental planning, impact assessment, natural hazards, environmental quality, water use, methods of resource analysis, public policy analysis, multiple-objective decision-making techniques.

Cartography: Cartographic design and production, automated mapping, techniques of spatial analysis, and graphic communication theory.

The departmental curriculum is flexible, and programs of study are individually arranged to suit the needs of the students. A thesis is required in the M.A. program, which may be devoted to a single topic or may be composed of several high-quality research papers.

The university library contains four million volumes and maintains a separate Edward L. Ullman Geography Library with subscriptions to 500 periodicals and an extensive collection of atlases. Departmental facilities include a spatial analysis laboratory containing several interactive graphics terminals, a micro-computer system, digitizer, and plotter, all tied into the university's CDC CYBER 170/750 main research computer and a VAX 11/780 computer which is devoted to instructional use. There is also a fully-equipped cartography lab, two darkrooms, and extensive cartographic equipment located in the department.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The university operates on a quarter system. Admission to the Graduate School requires a minimum gradepoint average of B (3.0 on a 4.0 scale) during the junior and senior years. Students holding the Master's degree must meet this minimum scholastic requirement, but should also have achieved a higher than B average for graduate studies completed. Applicants must take the GRE. Information for prospective graduate students may be obtained by writing to the Graduate Program Advisor.

THE FACULTY

William B. Beyers, Ph.D., Washington, 1967, Professor (also Graduate Program Advisor)—regional science, economic geography, location theory, regional analysis, environment of the Pacific Northwest

Kuei-sheng Chang, Ph.D., Michigan, 1955, Associate Professor (also School of International Studies)—economic geography of China, historical geography of exploration, Third World development

Douglas K. Fleming, Ph.D., Washington, 1965, Associate Professor (also Undergraduate Advisor)—transportation geography (especially ocean and air), regional organization of Western Europe

David C. Hodge, Ph.D., Pennsylvania State, 1975, Associate Professor—urban social and political geography, mass transportation, spatial equity, research methods

W. A. Douglas Jackson, Ph.D., Maryland, 1953, Professor (also School of International Studies)—political systems, nature and culture, Soviet Union, Canada

George H. Kakiuchi, Ph.D., Michigan, 1957, Associate Professor (also School of International Studies)—Japan, agriculture, internal migration, regional geography

Jaime C. Kooser, Ph.D., UC Berkeley, 1980, Assistant Professor—public facility location theory, time geography, social geography, energy policy, resource development

Günter Krumme, Ph.D., Washington, 1966, Professor—economic geography, regional economics, location theory, organization and decision theory, European regional development and planning

Marion E. Marts, Ph.D., Northwestern, 1950, Professor (also University Ombudsman)—water resources, conservation, resource policy

Jonathan D. Mayer, Ph.D., Michigan, 1977, Assistant Professor—urban geography (including historical), transportation, medical geography, geographic philosophy and methods

Richard L. Morrill, Ph.D., Washington, 1959, Professor (also Department Chairman)—spatial organization, migration, diffusion and population, regional planning and development, inequality

John C. Sherman, Ph.D., Washington, 1947, Professor—cartography, graphics communication, remote sensing

Morgan D. Thomas, Ph.D., Queen's (Belfast), 1954, Professor (also Associate Dean for Academic Programs, The Graduate School)—regional economics, regional planning and development, technical innovation

Joseph Velikonja, Ph.D., University of Rome (Italy), 1948, Professor (also School of International Studies)—social and political geography, international migration, immigrants in America, Eastern Europe

Carl E. Youngmann, Ph.D., Kansas, 1972, Associate Professor—cartography, computer graphics, population

Craig ZumBrunnen, Ph.D., UC, Berkeley, 1973, Associate Professor (also School of International Studies)—natural resource management and conservation, environmental quality, methods of resource analysis, physical, Soviet Union

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Alexander, Robert Houston. "Adaptation of Land Use to Surficial Geology in Metropolitan Washington, D.C.," 1981.* Mf., Univ. Microfilms.

Wayne State University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1921   GRADUATE PROGRAM FOUNDED: 1932

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 5

GRADUATE STUDENTS IN RESIDENCE: 5
NOT IN RESIDENCE: 19

CHAIRPERSON: Robert D. Swartz

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairperson,
Graduate Committee, Department of Geography, Wayne State University, 225 State
Hall, Detroit, Michigan 48202
Telephone (313) 577-2701

PROGRAMS AND RESEARCH FACILITIES: The graduate program emphasizes the education of professionals with a broad foundation in geography which will enable them to undertake successfully careers in research, teaching, and community service. Instruction is offered leading to the degree of Master of Arts by thesis or essay option. The core curriculum is followed by specialized work with emphasis on gaining practical experience while the student learns. The department's internship program allows limited credit to be earned for on-the-job training/experience. Applied geographic work in retail location analysis, land use planning and cartography is typical of internship positions.

Of many university-wide facilities, the following deserve special mention: the university and nearby public libraries which together contain more than 3.5 million volumes and 150,000 maps with outstanding special collections in urban affairs, ethnic studies, folklore, Eastern Europe, the Soviet Union, the History of Technology, and the Great Lakes region; the centers for Afro-American Studies, Black Studies, Urban Affairs, American Studies, Soviet and East European Studies, Instructional Technology, Business Research, and the Merrill-Palmer Institute.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID:

To be admitted to the Department, an applicant should have an undergraduate major in geography or its equivalent, but intellectual ability, professional potential, and an abiding interest in geography are the main criteria for admission. Each application is judged individually and each program is tailored to the needs and desires of the individual student.

Several types of financial aid in the form of assistantships, fellowships, scholarships, work-study internships, and loans are available from the Department or the Graduate School. Departmental awards usually carry a minimum grant of $3700 and a waiver of tuition fees. Applications for financial aid for the 1982-83 academic year should be submitted before March 1, 1982.

STAFF:

Fred E. Dohrs, Ph.D., Northwestern, 1950, Professor—political, Soviet Union, Eastern Europe

Robert J. Goodman, Ph.D., Northwestern, 1948, Professor—visual techniques, historical

Judith I. Parkhurst, Ph.D., Illinois, 1975, Assistant Professor—geomorphology, physical environments, ecology, cartography

Robert Sinclair, Ph.D., Northwestern, 1955, Professor—economic-urban, Europe

Robert D. Swartz, Ph.D., Northwestern, 1967, Associate Professor and Chairperson—marketing, urban, Latin America

Bryan Thompson, Ph.D., Clark, 1971, Associate Professor—ethnic settlement, urban

PART-TIME STAFF:

Chester Bolling, B.A., Wayne State, 1973—computer graphics/cartography; Director, Computer Graphics, Detroit Edison Company

Margaret Crawford, Ph.D., Michigan, 1973—cultural, China and Japan

Ernando Minghine, M.A., Wayne State, 1970—world regional and physical

John R. Ponton, Jr., M.A., British Columbia, 1972—physical, coastal environmental; Black & Veatch (consulting engineers)

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Keoppl, Martin. "Reality, Epistemology and Environmental Planning—Towards a New Paradigm," 1981.

Sonnenberg, Johannes. "Structural Changes in the Village of Eichstetten After World War II," 1981.

West Virginia University

DEPARTMENT OF GEOLOGY AND GEOGRAPHY

GRADUATE PROGRAM FOUNDED: 1971

DEGREES OFFERED: M.S. (M.A. program in process of approval)

GRANTED 7/1/80–6/30/81: 0

GRADUATE STUDENTS IN RESIDENCE: 5
NOT IN RESIDENCE: 2

CHAIRMAN FOR GEOGRAPHY: Graham D. Rowles

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Gregory A. Elmes, Department of Geology and Geography, West Virginia University, 316 White Hall, Morgantown, West Virginia 26506
Telephone (304) 293-5603, ext. 21

PROGRAMS AND RESEARCH FACILITIES: Graduate study in geography at West Virginia University offers the student a unique opportunity to tailor an interdisciplinary program of study to his or her interests. As part of a combined department with major strengths in geology (a Ph.D. program, and over 65 students in residence), the geography faculty have emphasized the human aspects of environmental problems. Geography students are encouraged to design a program that combines some geology with geography and other disciplines in studying both applied and theoretical problems of resource development. Strengths of the faculty lie in the study of energy resource development and utilization, with emphasis on coal, and the social, economic, and environmental impacts of the coal energy system. The new M.A. program offers students the opportunity to emphasize human, social and cultural aspects of Appalachian geography.

The university offers an excellent opportunity to study Appalachian and other developing regions through programs such as the Regional Research Institute, the Gerontology Center, the College of Mineral and Energy Resources, Health Services Research Center, and the West Virginia Geological and Economic Survey.

Departmental facilities include a large library of maps and air photos, darkroom and photographic equipment, plus access to data processing and computer graphics facilities. Office and research space is provided for graduate students.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: West Virginia is on a semester system beginning in mid-August.

A bachelor's degree from an accredited college or university with a minimum grade point average of 2.5 is required, and 3.0 is recommended for financial aid. Students may be required to supply scores from the GRE. Graduate teaching and research assistantships are available on a competitive basis and pay approximately $3200 for nine months plus a tuition waiver.

FULL-TIME AND PART-TIME STAFF:

Frank J. Calzonetti, Ph.D., Oklahoma, 1977, Assistant Professor—spatial modeling, technology assessment, energy policy, resources

Gregory A. Elmes, Ph.D., Pennsylvania State, 1979, Assistant Professor—spatial modeling, research methods, transportation, quantitative methods

Richard S. Little, Ph.D., Syracuse, 1961, Associate Professor—applications of information-system technology to regional planning and development, physical

Kenneth C. Martis, Ph.D., Michigan, 1976, Associate Professor—political, resource and environmental policy, urban

Graham Rowles, Ph.D., Clark, 1976, Associate Professor—geography of the elderly, social, urban, planning

Ruth Anderson Rowles, M.S., Wisconsin, 1976, Assistant Professor (part-time)—cartography

One (1) position to be filled Summer 1981.

ADJUNCT:

Robert E. Behling, Ph.D., Ohio State, 1971, Associate Professor of Geology—glacial geology, geomorphology, weathering in cold desert regions of Antarctica

Alan C. Donaldson, Ph.D., Pennsylvania State, 1959, Professor of Geology and Department Chairman—sedimentology, stratigraphy

Henry W. Rauch, Ph.D., Pennsylvania State, 1972, Associate Professor of Geology—hydrogeology and water quality, environmental geology

Western Illinois University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1917 GRADUATE PROGRAM FOUNDED: 1947

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 7

GRADUATE STUDENTS IN RESIDENCE: 28
NOT IN RESIDENCE: 5

CHAIRMAN: A. Richard Longwell

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Arlin D. Fentem, Chairman, Graduate Committee, Department of Geography, Western Illinois University, Macomb, Illinois 61455
Telephone (309) 298–1646 or 1648

PROGRAMS AND RESEARCH FACILITIES: The department offers three options within its M.A. degree program: thesis; non-thesis; and development plan or project report. All programs share a balanced core of experience in four areas: theory and methodology, physical, cultural, and regional. Beyond this, candidates may choose to concentrate in resource and regional analysis (including cartography and remote sensing), physical, cultural and regional geography, or regional and rural planning. The thesis option is intended for those who plan to enter a doctoral program and/or do serious research; the non-thesis option provides a broad background in geography verified by comprehensive examinations in six areas following course work; the development plan report is designed for those who intend to enter the planning field. The report, followed by an oral examination, is ordinarily developed as part of an internship assignment with a planning agency.

Department facilities are housed in Tillman Hall and include: the University's Map Library and reading room with 140,000 maps, 14,000 air photos, and 2,500 atlases; office space for all full-time graduate students; cartography laboratories with copy cameras, enlarger-reducers, graphic arts darkroom, headliner and photo typesetter, and programs for computer mapping; remote sensing laboratory with zoom transfer scope, Bausch and Lomb interpretation system, dual stereoscope, mirror stereoscopes and imagery light tables; a well-equipped earth materials analysis lab with access to an x-ray diffractor, spectroscope, and other instrumentation; meteorology and microclimatology facilities including a weather station and an Alden weather chart recorder; computer facilities that include a key punch, a computer terminal and a continuous mode Numonics electronic digitizer. Supporting university facilities include a new one-million volume library with computer bibliographic search and PLATO; IBM 370/155 computer with 2 million bytes storage, telecommunication links to a CDC Cyber 72 computer, Data General Eclipse minicomputer, and a CALCOMP plotter. The editorial office of the *Journal of Geography* and the Central Office of the National Council for Geographic Education are accommodated by the department.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Degree programs require 32 semester hours of credit except that concentration in regional and rural planning requires 38 hours. Western Illinois University operates on a semester system beginning late August and ending mid-May. Eight- and four-week summer sessions are offered simultaneously. Admission requires that the applicant have a Bachelor's degree from an accredited institution and an overall grade-point average of at least 2.5 (on a 4-point scale), or a grade-point of at least 2.75 for the last two years of undergraduate work. Applicants should have completed at least 24 semester hours of geography. The Graduate Record Examination is required.

Department graduate teaching, cartographic and editorial assistantships are awarded to 15 students each year, and an additional four to six students, usually in the second year of graduate study [illegible] supported by public planning agencies in cooperation with the Institute for [illegible] Rural and Community Studies mentioned above. Assistants receive monthly stipends and their tuition charges are waived.

FULL-TIME AND PART-TIMESTAFF:

John J. Alford, Ph.D., Kansas, 1968, Professor—paleogeography, climatology

John V. Bergen, Ph.D., Indiana, 1964, Professor—map curator, human, Anglo-America, air photo

Ronald M. Beveridge, Ph.D., Illinois, 1958, Associate Professor—political, geographic thought and methodology, Middle East

John F. Blauvelt, M.S., Colorado, 1962, Assistant Professor—cultural, Middle East

Arlin D. Fentem, Ph.D., Wisconsin, 1974, Associate Professor—agriculture, Anglo-America, thematic cartography

Robert E. Gabler, Ed.D., Columbia, 1957, Professor—physical, geography in education, Europe

David W. Ganyard, Ph.D., Ohio State, 1967, Associate Professor—economic, historical, Africa

Donald W. Griffin, Ph.D., Clark, 1963, Professor—urban geography, regional planning, rural development

Fred E. Kohler, Ph.D., Ohio State, 1971, Associate Professor—water resources, climatology, meteorology

Lawrence T. Lewis, Ph.D., Clark, 1971, Associate Professor—quantitative methods, urban

A. Richard Longwell, Ph.D., Nebraska, 1974, Professor—field methods, Middle America

Ronald E. Nelson, Ph.D., Nebraska, 1970, Professor—historical-cultural settlement, Soviet Union

Siyoung Park, Ph.D., Minnesota, 1977, Assistant Professor—urban, regional planning, geography of development

Richard L. Rieck, Ph.D., Michigan State, 1976, Assistant Professor—Pleistocene geomorphology, physical, remote sensing

Russell G. Swenson, Ph.D., Wisconsin-Milwaukee, 1977, Assistant Professor—cultural, environmental perception, human ecology

James W. Vining, M.A., Oklahoma, 1963, Associate Professor—conservation, soils

HEAD: Wayne L. Hoffman

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Studies Advisor, Department of Geography and Geology, Western Kentucky University, Bowling Green, Kentucky 42101
Telephone (502) 745–4555/6

PROGRAMS AND RESEARCH FACILITIES: The topical emphases in Western Kentucky University's graduate geography programs include social, physical, urban, and economic geography, and city and regional planning. Regional emphases are possible in Africa, Latin America, and North America.

Programs and Requirements—The Master of Science Degree, designed to prepare students for a variety of jobs and to become candidates for the Ph.D., requires a minimum of thirty semester hours of coursework, a thesis (or additional coursework in lieu of a thesis), plus either a reading knowledge of one language (French, German, or Russian) or a demonstrated proficiency in quantitative techniques in geographical research.

The Master of Arts in Education Degree with a Geography Major requires a minimum of twenty-one hours in geography and nine hours of education courses.

The department also administers the Master of Public Service Degree in City and Regional Planning, an interdisciplinary program designed to train public officials for service at local and state levels.

Graduates of the Geography and Planning Program are serving in a variety of discipline-related jobs around the country, and some are in both geography and planning Ph.D. programs in several major universities.

Research facilities in new quarters include all standard laboratories, closed-circuit TV, a CDC computer terminal and access to a 360–40 computer, the College Heights Weather Station and State Climatology Center, a map library, and the university's graduate library.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Admission Requirements:* An undergraduate degree with G.P.A. of 2.8 or higher (on a 4.00 scale), or a combined GRE score of 800. Semester System. *Financial Aid:*

A number of teaching and research assistantships are available with stipends ranging between $2700 and $3000 for the academic year.

STAFF:

S. Reza Ahsan, Ph.D., Florida, 1963, Professor—cartography, air photo interpretation, remote sensing, Latin America, Eastern Africa

James M. Bingham, M.A., Memphis State, 1965, Ph.D. candidate, Indiana State, Assistant Professor—economic, urban, city and regional planning, Southeastern United States

Doral Glen Conner, M.S., Western Kentucky, 1976, Assistant Professor—geomorphology, aviation meteorology; State Climatologist

Nicholas Charles Crawford, Ph.D., Clark, 1977, Associate Professor—geomorphology, hydrology, climatology

James L. Davis, Ph.D., Northwestern, 1964, Professor and Vice President of Academic Affairs—urban transportation, economic, North America

Ronald R. Dilamarter, Ph.D., Iowa, 1972, Professor—geomorphology, cartography, karst studies

Edmund E. Hegen, Ph.D., Florida, 1962, Professor—regional development, conservation of resources, geographic thought, Latin America

Wayne L. Hoffman, Ph.D., Florida, 1970, Professor and Head—city and regional planning, urban, economic

Mark Lowry II, Ph.D., Syracuse, 1973, Professor—city and regional planning, urban, social

Conrad T. Moore, Ph.D., UCLA, 1972, Associate Professor—resource management, biogeography, environmental perception

Tyrel G. Moore, M.S., Tennessee, 1975, Ph.D. candidate, Tennessee, Instructor—historical, city and regional planning, cultural

Albert J. Petersen, Ph.D., Louisiana State, 1970, Associate Professor—cultural, geographic education, geographic thought, Great Plains

Claude E. Pickard, Ph.D., Nebraska, 1969, Professor—economic, settlement patterns, manufacturing, North America

L. Michael Trapasso, Ph.D., Indiana State, 1980, Assistant Professor—climatology, geomorphology, remote sensing

DATE FOUNDED: 1905 GRADUATE PROGRAM FOUNDED: 1964

DEGREES OFFERED: M.A., M.A.T.

GRANTED 7/1/80–6/30/81: 4

GRADUATE STUDENTS IN RESIDENCE: 14
NOT IN RESIDENCE: 3

CHAIRMAN: Joseph P. Stoltman

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Charles F. Heller, Graduate Adviser, Department of Geography, Western Michigan University, Kalamazoo, Michigan 49008
Telephone (616) 383-1839

PROGRAMS AND RESEARCH FACILITIES: The M.A. degree program in Geography provides a solid foundation in the subject and at the same time permits specialization. Thirty hours of approved graduate credits must be completed, with at least twenty hours in geography. All students take seven hours of core courses in Geographic Research and Quantitative Methodology, then develop a three-course concentration (minimum) in one of five areas: Community Development and Planning, Economic and Urban Geography, Environmental and Resource Analysis, Physical Geography, or one of four regional specialties.

A 30-hour M.A.T. degree program in Geography is designed to improve the classroom teacher's competencies in the teaching of geography. Substantive content in geography and related disciplines is combined with professional development in elementary or secondary education.

The Department possesses fully-equipped cartography, aerial photo, and quantitative laboratories which include a map enlarger, lettering and scribing equipment, reproduction and darkroom facilities, sketch masters, height finders, mirror stereoscopes, electronic desk calculators, an electronic analog computer, CRT and hard-copy remote terminals.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Graduate courses are concentrated in the Fall and Winter semesters, although graduate study may be accelerated by utilizing fully the trimester schedule of the University. Students with a 2.7 grade-point average (A = 4.0) during the last four semesters of undergraduate work are eligible for admission to the program. University and Departmental Harrison Fellowships with no duties are available to highly-qualified students, and a number of Graduate Assistantships are granted to eligible students each year. Assistantships coincide with the Fall and Winter semesters (September through April), and in 1981-82 they will pay $4000. Applications for financial assistance must be supported by two letters of recommendation and transcripts of undergraduate work. All Fellows and Assistants are provided office space, and the same is normally true for all other graduate students.

STAFF:

David G. Dickason, Ph.D., Indiana—economic development, quantitative methods, South Asia

Val L. Eichenlaub, Ph.D., Ohio State—climatology, Anglo-America, physical

Rainer R. Erhart, Ph.D., Illinois—remote sensing, physical, biogeography

Charles F. Heller, Ph.D., Illinois—socioeconomic, urban social, historical

George F. Hepner, Ph.D., Arizona State—land use analysis, quantitative analysis, environmental problems

Thomas W. Hodler, Ph.D., Oregon State—cartography, hydrology, remote sensing

Oscar H. Horst, Ph.D., Ohio State—physical landscapes, peasant societies, Latin America

Eugene C. Kirchherr, Ph.D., Northwestern—urban, planning and zoning, Subsaharan Africa

Philip P. Micklin, Ph.D., Washington—U.S.S.R., conservation, environmental impact assessment

Eldor C. Quandt, Ph.D., Michigan State—population, Scandinavia, ethnic studies

Henry A. Raup, Ph.D., Illinois—national parks, conservation, Western Europe

Joseph P. Stoltman, Ed.D., Georgia—geographic education, cultural, Latin America

George Vuicich, Ph.D., Iowa—geographic education, urban, quantitative methods

Western Washington University

DEPARTMENT OF GEOGRAPHY AND REGIONAL PLANNING

DATE FOUNDED: 1960 **GRADUATE PROGRAM FOUNDED: 1966**

DEGREES OFFERED: M.S.

GRANTED 7/1/80-6/30/81: 3

GRADUATE STUDENTS IN RESIDENCE: 14
NOT IN RESIDENCE: 16

CHAIRMAN: James W. Scott

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. James W. Scott, Department of Geography and Regional Planning, Western Washington University, Bellingham, Washington 98225
Telephone (206) 676-3278

PROGRAMS AND RESEARCH FACILITIES: The M.S. Program in Geography and Planning provides for concentrations in either geography or planning. A number of core courses are taken by all students in the program, followed by specialized courses, seminars, colloquia or studios in one or the other of the concentrations.

For those specializing in geography there are opportunities for research in Climatology, Biogeography, Urban Economic Geography, and Historical Geography.

For those specializing in planning, research opportunities are offered in Environmental Planning, Regional Development, Small Town and Rural Planning, and Water Resource Planning and Management.

The department has an extensive map collection organized by a full-time curator; a media laboratory under the direction of a staff cartographer; a cartographic laboratory; graduate research room; graduate offices; departmental Tektronix vector graphics terminal, Tektronix interactive digitizing plotter and Calcomp plotter; and access to the university's IBM 360/50 computer and interactive terminal system.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Quarter system, including summer. An undergraduate major in geography or planning with grade point average 3.0 (4-point system) or better is normally required for admission to graduate degree status. Teaching assistant stipends are $3,924 for the academic year; application deadline March 15, 1982. This deadline is especially important to those who apply for financial assistance. In addition the department has three scholarships it disburses each year; one for $1,200 and two for $800. Application for these is required by April 15, 1982.

STAFF:

Janet R. Collins, B.S., Western Washington, 1974, Map Curator

Howard J. Critchfield, Ph.D., Washington, 1952, Professor—climatology, Southwest Pacific (Washington State Climatologist)

Eugene A. Hoerauf, M.A., Oregon, 1969, M. Libr., Washington, 1976, Cartographer

Kenneth J. Lengren, Ph.D., Wisconsin, 1979, Assistant Professor—quantitative methods, remote sensing, computer cartography, water resources

Robert L. Monahan, Ph.D., McGill, 1959, Professor—resources, Northlands, Canada (Director, Canadian-American Studies)

Debnath Mookherjee, Ph.D., Florida, 1961, Professor—South Asia, urban geography, planning (Director, Urban and Regional Planning Program)

Gilbert A. Peterson, Ph.D., Washington, 1975, Associate Professor—regional planning, computer graphics

Franklin C. Raney, Ph.D., UC, Davis, 1962, Associate Professor—water resources, biogeography, soils (on leave, Spring 1982)

James W. Scott, Ph.D., Indiana, 1971, Associate Professor—historical, cultural, population (Director, Center for Pacific Northwest Studies)

Richard G. Smith, Ph.D., Wisconsin, 1965, Associate Professor—landforms, United States, Canada, Arctic, conservation

Thomas A. Terich, Ph.D., Oregon State, 1973, Associate Professor—urban and regional planning, coastal studies, environmental hazards

Robert W. Teshera, Ph.D., Washington, 1970, Associate Professor—political, United States, Canada

Manfred C. Vernon, J.D., Berlin, Ph.D., Stanford, Honorary Lecturer in Political Geography, Environmental Law, Law of the Sea

ADJUNCT FACULTY:

Richard H. Berg, Ph.D., Washington, 1970, Associate Professor—remote sensing, quantitative methods, water resources

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

Brownson, John M.J. "Jajj Studies: A Meta-Geographic Enquiry," 1981.*

Grant, Patrick S. "The Evolution of Ferry Service in the San Juan Islands, Washington: A Study in Historical Geography," 1981.*

Webster, Gerald R. "The Economic Impact of Canadian Tourism in Whatcom County, Washington: An Examination of Selected Factors Influencing Canadian Cross-Border Activity," 1980.*

University of Wisconsin

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1928 GRADUATE PROGRAM FOUNDED: 1928

DEGREES OFFERED: M.S. (Geography), M.S. (Cartography), Ph.D. (Geography)

GRANTED 7/1/80-6/30/81: 12 Masters, 1 Ph.D

GRADUATE STUDENTS IN RESIDENCE: 28 M.S. 13 M.S. (Cart.) 25 Ph.D.
NOT IN RESIDENCE: 6 Ph.D.

CHAIRMAN: William M. Denevan

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Committee on Graduate Appointments, Department of Geography, The University of Wisconsin, Madison, Wisconsin 53706
Telephone (608) 262-2138 (Department)
(608) 262-3861 (Graduate Office)

PROGRAMS AND RESEARCH FACILITIES: The Department offers a broad range of programs in systematic and regional geography, and a separate M.S. program in cartography. The Department cooperates freely in both graduate instruction and research guidance with numerous other departments of the University. It plays an active role in such interdisciplinary programs as African Studies, American Institutions, Asian Studies, Ibero-American and Luso-Brazilian Studies, Population Studies, Urban and Regional Planning, Environmental Studies, and Water Resources.

An unusual variety of facilities for graduate study and research exists in Madison. Grouped conveniently in Science Hall with the Geography Department are the Geography Library, the University's Map and Air Photo Library, the Cartographic Laboratory, and a geomorphology laboratory. Only a few hundred yards separate Science Hall from the central University Library and the State Historical Society Library. Nearby are specialized reference libraries and the main computing center of the University. Madison, the state capital, houses most divisions of the state government and several federal agencies.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The types of financial assistance include the following appointments:

Teaching Assistantships: Duties ordinarily include about 5 to 8 hours per week of classroom teaching, for which the salary currently ranges from $4633 to $7318 for the academic year.

Project and Research Assistantships: Duties involve the assistance of either staff members in their research projects or under the supervision of the Director of the University Cartographic Laboratory. Such duties total not more than 20 hours per week. The salaries currently range from $5481-$6141.

University Fellowships: These awards, requiring no departmental duties, are available through a competitive program administered by the Graduate School. They currently yield $6408 for the academic year, plus remission of nonresident tuition fees. Advanced Opportunity (Minority) Fellowships are also available.

Departmental Fellowships: The Department awards two Whitbeck Fellowships and one or two Trewartha Fellowships.

Appointments are usually for 9 months (September to June, inclusive) and holders normally are exempt from the non-residence tuition fee which currently is $1384 per semester, although they must still pay fees which are currently $680 per semester.

STAFF:

Waltraud Brinkmann, Ph.D., Colorado, 1973, Associate Professor—climatology, natural hazards (also Director, Center for Geographic Analysis, Institute for Environmental Studies)

Reid Bryson, Ph.D., Chicago, 1948, D.Sc., Denison, 1971, Professor—climatology, environmental science (also Meteorology; Director, Institute for Environmental Studies)

Martin T. Cadwallader, Ph.D., UCLA, 1973, Associate Professor—urban, economic, quantitative analysis

William M. Denevan, Ph.D., UC, Berkeley, 1963, Chairman and Professor—cultural ecology, humid tropics, historical, Latin America

Daniel F. Doeppers, Ph.D., Syracuse, 1972, Associate Professor—urban-social, Southeast Asia, historical

Francis D. Hole, Ph.D., Wisconsin, 1943, Professor—soils, conservation, Wisconsin (also Soil Science)

Carol B. Jenner, Ph.D., Maryland, 1975, Assistant Professor—climatology, quantitative methods

James C. Knox, Ph.D., Iowa, 1970, Professor—geomorphology, paleohydrology

Joel L. Morrison, Ph.D., Wisconsin, 1968, Professor—cartography, mapping

Phillip C. Muehrcke, Ph.D., Michigan, 1969, Professor and Director, U.W. Cartographic Laboratory—cartography, mapping

Daniel R. Muhs, Ph.D., Colorado, 1980, Assistant Professor—soils, geomorphology

Robert C. Ostergren, Ph.D., Minnesota, 1976, Assistant Professor—history, conservation, Northern Europe, North America

Robert D. Sack, Ph.D., Minnesota, 1970, Professor—political, economic, geographic thought

Clare Stapleton, Ph.D., Northwestern, 1977, Assistant Professor—applied economic, population

Thomas R. Vale, Ph.D., UC, Berkeley, 1973, Associate Professor—biogeography, natural resources

David Ward, Ph.D., Wisconsin, 1963, Professor—historical, urban, social, North America, Europe (also Associate Dean, Graduate School)

Benjamin Wisner, Ph.D., Clark, 1977, Assistant Professor—Africa, development

David Woodward, Ph.D., Wisconsin, 1970, Professor—cartography, mapping, history of cartography

George H. Dury, Professor Emeritus

Richard Hartshorne, Professor Emeritus

Clarence W. Olmstead, Professor Emeritus

Arthur H. Robinson, Professor Emeritus

Randall D. Sale, Professor Emeritus

Henry S. Sterling, Professor Emeritus

Glenn T. Trewartha, Professor Emeritus

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Mersey, Janet. "An Analysis of Two-Variable Choropleth Maps," 1980.

Metz, John. "Recent Dynamics in Wisconsin Beech Stands," 1980.

Rouder, Jane. "Matthew Maury's Whale Maps: A Chapter in the History of Thematic Biological Cartography," 1980.

University of Wisconsin—Milwaukee

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1916 GRADUATE PROGRAM FOUNDED: 1963

DEGREES OFFERED: M.A., M.S., Ph.D.

GRANTED 7/1/80–6/30/81: 2 Masters, 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 14 Masters 10 Ph.D.
NOT IN RESIDENCE: 15 Masters 14 Ph.D.

CHAIRMAN: Donn K. Haglund

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman, Graduate Administrative Committee, Department of Geography, University of Wisconsin-Milwaukee, Milwaukee, Wisconsin 53201
Telephone (414) 963–4866

PROGRAMS AND RESEARCH FACILITIES: Areas of faculty strength and emphasis are urban geography, climatology, Latin America, and Europe and the U.S.S.R. Research by staff members and students on North America and the Northern Lands, and in terrain morphometry, regional geomorphology, soils geography, biogeography, cartography, settlement geography, maritime cultural geography, and the geography of the humid tropics is also pursued actively.

The research programs in urban geography emphasize city-region relationships, internal structure, comparative urban geography and historical evolution of cities and metropolitan areas, as well as relations of urban functions and land uses to transportation and metropolitan planning. The Department of Urban Affairs and The School of Architecture and Urban Planning as well as the Urban Research Center, strengthen geographical work in the urban field.

Training in climatology is supported by the standard courses in meteorology and hydrology. Available facilities include radiation-detecting and other meteorological equipment, a field station which includes a variety of ecosystems, and the Center for Great Lakes Studies. Research is being conducted currently on the climates of the Soviet Union, on energy and water budgets, air pollution, long range forecasting, and climatic change.

Emphases in Latin America are historical (European discovery and exploration), rural and abandoned settlements, agricultural, and the humid tropics. Research is assisted by a campus Center for Latin American Studies. Current research by staff and graduate students is being pursued in Argentina, Brazil, Colombia, Ecuador, Mexico, and Venezuela.

The Europe and U.S.S.R. program, supported by an undergraduate Certificate Program in Russian and East European Studies, involves both topical and regional analysis, with considerable emphasis on climate and population of the U.S.S.R., urban geography of West Germany, and comparative analysis of the East European countries.

The Department has an excellent Soils Laboratory, Cartographic and Remote Sensing Laboratory, and a Map Library, and computer facilities. The American Geographical Society Collection containing 600,000 items, including many rare items, is now housed at UWM, and is open to everyone without charge.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system, fall semester ending before Christmas; summer session. About six teaching assistantships (stipend currently $4722 to $4878 for 33.3% positions); students may compete for University of Wisconsin Fellowships (stipend currently $5714). There are also opportunities for Research and Project Assistantships, nonresident tuition remission fellowships, and fellowships for minority or financially disadvantaged students (AOP).

STAFF:

Karel Bayer, Ph.D., Charles University, Prague, 1960, Associate Professor—meteorology, dynamics of climate, Great Lakes research, urban climatology
Barbara Borowiecki, Ph.D., Wisconsin, 1962, Professor—terrain morphometry, regional geomorphology, Eastern Europe
Michael Day, Ph.D., Oxford, 1979, Assistant Professor—geomorphology, biogeography, environmental analysis
Clinton R. Edwards, Ph.D., UC, Berkeley, 1962, Professor—historical, maritime, Latin America
Robert C. Eidt, Ph.D., UCLA, 1954, Professor—rural settlement, Latin America, geochemistry, soils geography
Robert Ericksen, Ph.D., Iowa, 1980—quantitative and spatial analysis, computer cartography
James J. Flannery, Ph.D., Wisconsin, 1956, Associate Professor—cartography, remote sensing, geography education
Donn K. Haglund, Ph.D., Pennsylvania, 1958, Associate Professor—economic, Canada, the Arctic
Lutz Holzner, Dr. rer. nat., Wurzburg, 1964, Professor—urban, Western Europe, comparative urban
Frank E. Horton, Ph.D., Northwestern, 1966, Professor and Chancellor—urban, quantitative
Harold M. Mayer, Ph.D., Chicago, 1943, Professor (also Center for Great Lakes Studies)—urban, transportation, city and metropolitan planning, North America
David H. Miller, Ph.D., UC, Berkeley, 1953, Professor—meteorology, hydrology (joint appointment with Geological Sciences)
Harold M. Rose, Ph.D., Ohio State, 1960, Professor—population, behavior in the urban environment
Norman R. Stewart, Ph.D., UCLA, 1963, Associate Professor—pioneer settlement, Latin America
Ruth Stoveken, M.S., Wisconsin, 1947, Assistant Professor Emerita
John C. Weaver, Ph.D., Wisconsin, 1942, Professor Emeritus

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Coffman, Jim. "Relict Valley Asymmetry in the Pleistocene Periglacial Zone of Southeastern Ohio," 19[illegible].

Master's:

Piepenburg, Kurt. "The Origin of Fluting on an Escarpment in Wisconsin's Driftless Area," 1981. (M.S.)

Sanders, John. "Aspects of Mesopotamian Settlement Geography: Field and Computer Analysis of Building Forms, Room Arrangements, and Circulation," 1980.

University of Wyoming

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1966 GRADUATE PROGRAM FOUNDED: 1966

DEGREES OFFERED: M.A., M.S.T., M.P.

GRANTED 7/1/80–6/30/81: 2

GRADUATE STUDENTS IN RESIDENCE: 17

NOT IN RESIDENCE: 12

CHAIRMAN: Lawrence M. Ostresh, Jr.

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Professor Lawrence M. Ostresh, Jr., Chairman, Department of Geography, University of Wyoming, Laramie, Wyoming 82071
Telephone (307) 766-3311

PROGRAMS AND RESEARCH FACILITIES: The Master of Arts (M.A.) and the Master of Science in Teaching (M.S.T.) programs at Wyoming emphasize four systematic specialties: cultural-political geography; physical geography; urban-economic geography; and environment and resource management. Curricula within these areas are individually tailored to the needs of each student, but include the attainment of at least two of the following geographic skills: computer cartography, quantitative methods, field methods, soils laboratory methods, air photo interpretation, and geographic analysis.

Cultural-Political Geography: This is one of the broadest Master's programs in the Department. It applies various areal viewpoints to the study of small regions, culture spread, settlement hierarchy, sequential occupance, and the perception of natural resources. In addition to their geography coursework, students are encouraged to take courses in political science, history and other social sciences.

Physical Geography: This program centers around the areas of geomorphology, archeology, and soils — especially pertaining to the Rocky Mountain area — and on paleoenvironments of the Quaternary as studied through landforms, soils, biogeography, palynology, and dendrochronology. A newly completed physical geography laboratory permits students to be trained in modern laboratory methods and techniques.

Urban-Economic Geography: Wyoming and the American West face a population explosion brought on by the development of their extensive energy resources. This provides an unparalleled opportunity for the geographic study of regional and community growth processes and the examination of the problems and promises they entail. The urban-economic program capitalizes on its accessibility to these growth related phenomena and emphasizes studies such as: The evolution of central place systems; migration patterns; locational analyses of new towns and public facilities; and the land use conversion process.

Environment and Resource Management: Energy related growth also provides opportunities for students to investigate a variety of critical probelms in resource management such as land use plannning for public lands, wildlife management, water resources, and the impact of development on environmental values. A combination of courses in geography, economics, law, natural science, recreation, and related fields provides an excellent interdisciplinary framework for this program.

In addition to the above geography programs, the Department offers a professional Master in Planning (M.P.) degree for students wishing to pursue training in *Community and Regional Planning*. The program is an interdisciplinary effort, involving various colleges and departments of the University. Its emphasis is on preparing individuals to function as effective regional, community, or environmental planning directors in Wyoming and other Rocky Mountain states.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan*—Plan A, with Thesis. Plan B with 2 papers. M.S.T. with one paper. *Admission Requirements*—Applicants evaluated on an individual basis. Undergraduate backgrounds in the social or natural sciences and the humanities accepted. Deficiencies can be remedied during the graduate program. *Financial Aid*—full-time Graduate Assistantships, paying a minimum of $5,175 plus remission of tuition fees. *Semester System* —At least 2 semesters in residence.

STAFF:

Ronald Beiswenger, Ph.D., Michigan, 1972, Associate Professor—conservation, environmental studies, world resources, biogeography

Hans Bleiker, Ph.D., M.I.T., 1972, Associate Professor—community and regional planning, problem-solving, decision-making processes

Robert H. Brown, Ph.D., Chicago, 1957, Professor—political and settlement geography, Wyoming, geographic thought

Phillip M. Fowler, Ph.D., Iowa, 1969, Associate Professor—urban, quantitative methods, economic

Lawrence M. Ostresh, Ph.D., Iowa, 1973, Associate Professor—location analysis quantitative methods, urban-economic, cartography

Richard G. Reider, Ph.D., Nebraska, 1971, Associate Professor—soils, geomorphology, climatology

One additional faculty will be appointed.

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

McDonald, John. "Soil Characteristics on Abandoned Mine Spoils in Southwestern Wyoming," 1980.

Stroup, Richard. "Mathews, Indiana: A Case Study of Changing Occupance Patterns in a Middle Western Village," 1981.

CANADIAN UNIVERSITIES

University of Alberta

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1957 GRADUATE PROGRAM FOUNDED: 1960

DEGREES OFFERED: M.A., M.Sc., Ph.D.

GRANTED 7/1/80–6/30/81: 16 Masters, 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 39 Masters 17 Ph.D.
NOT IN RESIDENCE: 15 Masters 2 Ph.D.

CHAIRMAN: R. Geoffrey Ironside

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Department of Geography, University of Alberta, Edmonton, Alberta, Canada T6G 2H4
Telephone (403) 432-3274

PROGRAMS AND RESEARCH FACILITIES: Individual graduate programs vary with the interests and training of the candidate. Minimum programs comprise three full-year courses for M.A./M.Sc. candidates who have completed four-year specialized degrees, and one course for Ph.D. candidates. A thesis is required of all graduate students, but there are no formal language requirements. All M.A./M.Sc. candidates must complete a course in cartography (if they have not previously done so) and a course in research methods.

In addition to access to a major library and computing center, research facilities include very generous photographic, cartographic and computing services; the University Map Collection; the Boreal Institute; research labs (geomorphology, population); and meteorological instrumentation near Edmonton.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* The teaching year extends from early September to mid-April, and is divided into two terms broken at Christmas. Some courses extend over the full period, but most are only half-year (one term).

Admission Requirements: A baccalaureate degree with at least second-class standing (65%) in the last two years of undergraduate work, and the approval of the Department. *Financial Aid:* (1) Fellowships, Scholarships and Bursaries—Supported by University, Provincial and foundation funds. Valued at up to $6000 for master's candidates, and up to $7500 for doctoral candidates. (2) Graduate Assistantships—Valued at $4600 to $6900 dependent on qualifications. Approximately 12 hours per week on departmental duties is required during the 8-month academic year. (3) Intersession Bursaries—A certain number, valued at $2080, are available to support thesis research by resident graduate students. (4) Additional assistance—Available periodically from various agencies in connection with departmental and faculty research projects.

STAFF:

John F. Bergmann, Ph.D., UCLA, 1959, Associate Professor—historical, Latin America

Michael C. Brown, Ph.D., McMaster, 1970, Associate Professor—karst geomorphology, microclimatology

Ian A. Campbell, Ph.D., Colorado, 1968, Professor—fluvial processes, arid lands

Robert B. Charlton, Ph.D., Toronto, 1970, Associate Professor—meteorology

John H. England, Ph.D., Colorado, 1974, Associate Professor—glacial, Arctic, Quaternary

Kenneth J. Fairbairn, Ph.D., Melbourne, 1968, Associate Professor—socioeconomic studies, consumer behavior

Keith D. Hage, Ph.D., 1957, Chicago, Professor—meteorology

M. John Hodgson, Ph.D., Toronto, 1973, Associate Professor—location/allocation analysis

R. Geoffrey Ironside, Ph.D., Dunelm, 1965, Professor and Chairman—industrial location policy, rural planning

Edgar L. Jackson, Ph.D., Toronto, 1974, Associate Professor—natural hazards, perceptions and attitudes, recreation, energy

Denis B. Johnson, Ph.D., Belfast, 1969, Associate Professor—documentary film making, retail structure

Leszek A. Kosinski, Ph.D., Warsaw, 1958, Professor—population, Eastern Europe

Arleigh H. Laycock, Ph.D., Minnesota, 1957, Professor—hydrology and water resources

Edward P. Lozowski, Ph.D., Toronto, 1970, Associate Professor—meteorology

Harold J. McPherson, Ph.D., McGill, 1967, Professor—mountain geomorphology, environmental quality, natural hazards

NOT IN RESIDENCE: 2 Masters, 2 Ph.D.

ACTING HEAD: H.O. Slaymaker

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Registrar's Office, University of British Columbia, Vancouver, B.C., Canada V6T 1W5. Further information: Department of Geography, University of British Columbia, Vancouver, B.C., Canada V6T 1W5
Telephone (604) 228-2020, 3246

PROGRAMS AND RESEARCH FACILITIES: M.A., M.Sc., Ph.D. Programs:

A. Physical Geography, Emphasizing Climatological and Geomorphological Processes—

1. Climatology: heat and water balances of active surfaces; energy balances at the micro, synoptic and macro scales; urban climatology; synoptic climatology; solar energy.

2. Geomorphology: energy and mass balance studies in the Coast Mountains and Lower Fraser Valley of B.C.; physical processes in alpine, sub-alpine, and arctic areas; permafrost.

B. Human Geography, Emphasizing Locational and Regional Analysis, and Humanistic, Behavioral and Ecological Approaches—

1. Locational and Regional Analysis: Spatial organization and interaction including network studies; intraurban geography, emphasizing policy studies; regional structure, development and policy; resource use and allocation, especially the location and use of commercial energy.

2. Humanistic, Behavioral and Ecological Approaches: historical studies with a humanistic emphasis of society and land in the light of changing values, perceptions and technology; social and behavioral studies of urban groups and urban spatial structures; ecological adaptations of land-based cultures, including past and present human ecology in Middle American lowlands.

The regional emphases of the department include Canada (especially western Canada and the Arctic); Southeast and East Asia (especially China); the Soviet Union and Eastern Europe; and Latin America. Courses are available in methodology, philosophy of geography, and techniques appropriate for research in a broad area.

Interdisciplinary Programs—Participation in the Arctic and Alpine, Hydrology, Resource Science, Urban and Transportation, Asian and Slavonic and International Studies programs of the University.

Field Studies—Ongoing projects in the Western Arctic and Cordilleran regions of Canada and special projects in Latin America. Field work may be supported under grants to faculty members.

Other Facilities—In department: Extensive map and air photo holdings of B.C.; considerable calculating capacity; geomorphological and climatological laboratory; office space for graduate students. In university: second largest library in Canada; access to AMDAHL 470 V/6, Model II computing system with mapping and graphic capabilities; Graduate Student Centre.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan*—Academic year, September 1–August 31. Two terms: September 1–December 21, January 3–April 30.

Admission Requirements—Honours or major degree in geography with at least upper Second Class Standing or a grade point average of 3.0 on a 4-point scale. Applicants from related fields will be considered.

Financial Aid—Scholarships: H.R. MacMillan fellowships and U.B.C. Graduate Faculty fellowships are open to superior students. Applications are made through the Head of the Department. Canada Council, Commonwealth, Ford Foundation, C.M.H.C. and D. of T. Fellowships are tenable at U.B.C. Applications are made directly to these organizations. Teaching assistantships with competitive stipends are available during the eight-month academic year (September to early May). There are other assistantships for the Summer Session.

STAFF:

M. J. Bovis, Ph.D., Colorado, 1974, Assistant Professor—geomorphology, snow avalanche hazards, statistical analysis

J. D. Chapman, Ph.D., Washington, 1958, Professor—economic (manufacturing and energy), philosophy of geography (leave 1981-82)

M. Church, Ph.D., U.B.C., 1971, Associate Professor—geomorphology

Richard Copley, M.A., UC, Berkeley, 1961, Senior Instructor—cultural/historical, East Asia

P. Dearden, Ph.D., Victoria, 1978, Visiting Assistant Professor—landscape evaluation and land use planning

K. Denike, Ph.D., Pennsylvania, 1973, Assistant Professor—urban, quantitative methods, transportation

J. S. Duncan, Ph.D., Syracuse, 1978, Assistant Professor—urban/social geography, South Asia

A. L. Farley, Ph.D., Wisconsin, 1960, Professor—cartography, air photo interpretation, Pacific Northwest

Walter G. Hardwick, Ph.D., Minnesota, 1963, Professor—public aspects of urban development

R. C. Harris, Ph.D., Wisconsin, 1964, Professor—historical, Canada

S.R. Harris, M.A., Ohio State, 1976, Visiting Assistant Professor—urban-social, historical

John Hay, Ph.D., London, 1970, Professor—climatology (solar radiation and synoptic)

David Ley, Ph.D., Pennsylvania State, 1972, Associate Professor—urban, social, theoretical

J. Ross Mackay, Ph.D., Montreal, 1949, Research Professor Emeritus—arctic geomorphology, cartography, Canadian Western Arctic

M.A. MacOwan, M.A., York, 1977, Visiting Assistant Professor—economic development, environmental cognition

T. G. McGee, Ph.D., Wellington (New Zealand), 1969, Professor and Director, Institute for Asian Research—Third World cities, East and Southeast Asia

Margaret E. A. North, M.A., Kansas, 1961, Senior Instructor—plant geography (leave 1981-82)

Robert N. North, Ph.D., U.B.C., 1968, Associate Professor—economic development, U.S.S.R. (leave 1981-82)

T. R. Oke, Ph.D., McMaster, 1967, Professor—climatology (urban and micro)

J. Lewis Robinson, Ph.D., Clark, 1946, Professor—Canada, philosophy of geography

Marwyn Samuels, Ph.D., Washington, 1971, Associate Professor—historical, China, philosophy of geography

Alfred H. Siemens, Ph.D., Wisconsin, 1964, Associate Professor—cultural, Latin America

H. O. Slaymaker, Ph.D., Cambridge, 1968, Professor and Acting Head—fluvial geomorphology/hydrology, British Columbia

Robert H. T. Smith, Ph.D., Australian National, 1962, Associate Vice President and Professor—economic, Third World

J. K. Stager, Ph.D., Edinburgh, 1962, Associate Dean and Professor—Canadian Arctic (leave 1981-82)

D. Steyn, Ph.D., British Columbia, 1980, Assistant Professor (part-time)—boundary layer meteorology

Graeme Wynn, Ph.D., Toronto, 1974, Assistant Professor—historical, Canada

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Master's:

Bell, A. "Terrain Mapping and Regional Slope Stability Evaluation in the Fraser Canyon, B.C.," 1980.

Francoeur, R.G. "The Subjective Geometry of Regional Space: A Cross Cultural Enquiry," 1980.

Fujii, G.T. "The Revitalization of the Inner City: A Case Study of the Fairview Slopes Neighbourhood, Vancouver, B.C.," 1981.

Graham, S. "Retail Trade Area Analysis: A Survey of Practitioners in Greater Vancouver," 1981.

Jones, D.P. "Particle Vibration at the Boundary in Turbulent Shear Flow," 1980.

Miles, M.J. "Bank and Slope Morphology as an Indicator of Arctic Terrain Stability," 1980.

Rochlin, M. "Urban Transport in Developing Countries: The *Peseros* of Mexico City," 1981.

Scarnell, A.R. "Market Networks and Marketing Behaviour: The Organization of Trade in Southern Vera Cruz, Mexico," 1980.

University of Calgary

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1961 GRADUATE PROGRAM FOUNDED: 1961

DEGREES OFFERED: M.A., M.Sc., Ph.D.

GRANTED 7/1/80-6/30/81: 7 Masters, 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 20 Masters 6 Ph.D.
NOT IN RESIDENCE: 3 Masters 3 Ph.D.

HEAD: Mario B. Giovinetto

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Program, Department of Geography, The University of Calgary, Calgary, Alberta, Canada T2N 1N4
Telephone (403) 284-5584

PROGRAMS AND RESEARCH FACILITIES: Programs of graduate study are offered in most fields of Geography at the Masters and the Doctoral level and all involve course work and a dissertation. The majority of present graduate students are at the Masters level and are working in the fields of: geomorphology, biogeography, climatology, resource utilization, urban and economic studies, social and historical geography. A similar emphasis occurs at the Doctoral level where programs are available in many areas of human and physical geography including the geography of resources. Faculty and graduate studies focus primarily upon Western Canada and the Americas.

The department has well-equipped laboratories for cartography, soils, biogeography, geomorphology, and climatology (includes the University Weather Research Station) and has materials and equipment for field work, air photo interpretation and quantitative analysis (including: Tektronix graphics and Diablo hard copy terminals linked to the University's Computer Centre which houses Honeywell Multics and IBM 360-50 computers; a large digitizer linked to an IBM keypunch; and an Apple II computer with 48K of memory and floppy disk).

Geography is an active participant in the work of the Kananaskis Centre for Environmental Research (situated in the Kananaskis Valley), the Institute for Transportation Research and programs on Resources and the Environment, Urban Studies, and Latin American Studies. The University Library has good geography holdings with large collections of current periodicals, government documents, and maps.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* Year system; two four-month sessions (September—April), and an inter-session normally dedicated to thesis work (May—August).

Admission Requirements: Baccalaureate degree with an average of at least B in the work of the last two undergraduate years and recommendation of the department. Early application is advised as offers of departmental financial aid are usually made by January for September entry.

Financial Aid: Graduate research, teaching, and service assistantships range from $9000 to $11,000 (plus remission of fees and travel allowance) depending upon the particular assistantships and year of study at Calgary.

University and Provincial awards range to $9000 (details in the Faculty of Graduate Studies Calendar). In addition graduate students may be eligible for awards offered by The Canada Council, National Research Council, Central Mortgage and Housing Corporation, Transportation Commission, and other agencies.

STAFF:

Brenton M. Barr, Ph.D., Toronto, 1968, Professor—industrial location, regional economic development, Soviet Union, Western Canada

Lawrence D. Cordes, Ph.D., British Columbia, 1973, Associate Professor—biogeography, soils, wildland ecosystems

Michael R. C. Coulson, Ph.D., Kansas, 1966, Associate Professor—cartography, urban

Wayne K. D. Davies, Ph.D., Wales, 1964, Professor and Associate Dean, Faculty of Graduate Studies—urban, methodology, political

Mario B. Giovinetto, Ph.D., Wisconsin, 1968, Professor and Department Head—physical climatology, climatic change, glaciology

Alfonso Gonzalez, Ph.D., Texas, 1962, Professor—Latin America, socioeconomic development, population, world regions

Louis Hamill, Ph.D., Washington, 1963, Associate Professor—renewable resources, wildland environments, recreation and tourism, landscape analysis

Stuart A. Harris, Ph.D., London, 1968, Professor—geomorphology, soils, Quaternary studies

Peter D. Herrem, M.A., Minnesota, 1971, Instructor—cultural and historical geography

David R. W. Jones, Ph.D., London, 1964, Associate Professor—international trade, political, cultural and economic geography of the Tropics

Herbert G. Kariel, Ph.D., Iowa, 1962, Professor—social, diffusion, perception, mountain regions and national parks

Arthur G. Limbird, Ph.D., Michigan State, 1971, Associate Professor—soils, environmental analysis

Richard P. Momsen, Jr., Ph.D., Minnesota, 1960, Professor—Brazil, Latin America, applications of remote sensing to regional analysis

Lawrence C. Nkemdirim, Ph.D., London, 1967, Professor—climatology, hydrology

Lynn A. Rosenvall, Ph.D., UC, Berkeley, 1972, Associate Professor—historical and cultural, Southwest Pacific

Derald G. Smith, Ph.D., Johns Hopkins, 1973, Associate Professor—fluvial geomorphology

Nigel M. Waters, Ph.D., Western Ontario, 1977, Associate Professor—transportation, economic, analytical methods

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Cadden, Patrick Guthrie. "The Public Sector as Urban Employer: The Local Importance and Locational Distribution of Public Employment in Alberta," 1980.

Master's:

Dyson, Ian Witton. "Recreational Carrying Capacities: A Review and an Application in an Intensively Used Recreational Area," 1980.

Headdon, David K. "Physical Site Characteristics of Abandoned Coal Mine Spoil Heaps: York Creek Mine, Coleman, Alberta," 1980.

Kostaschuk, Raymond Allan. "The Late-Quaternary History of the Bow River Valley Near Banff, Alberta," 1980.

MacDonald, Glen Michael. "Post-Glacial Peleoecology of the Morley Flats and Kananaskis Valley Region, Southwestern Alberta," 1980.

Meaney, Annette Marie. "The Cashew Industry of Ceara, Brazil: A Study of Local Agro-Industry," 1980.

Pearce, Cheryl Marie. "An Evaluation of Satellite-Generated Information for Monitoring Rangelands in Southeastern Alberta," 1980.

Pennock, Daniel John. "Development of a Fragility Classification and its Application to All-Terrain Vehicle Use in an Area near Bragg Creek, Alberta," 1980.

Carleton University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1957 GRADUATE PROGRAM FOUNDED: 1966

DEGREES OFFERED: M.A. (Ph.D. possible in cooperating departments)

GRANTED 7/1/80–6/30/81: 8 M.A.

GRADUATE STUDENTS IN RESIDENCE: 22
NOT IN RESIDENCE: 27

CHAIRMAN: T.P. Wilkinson

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Supervisor of Graduate Studies, Department of Geography, Carleton University, Colonel By Drive, Ottawa, Ontario, Canada K1S 5B6
Telephone (613) 231-2641

PROGRAMS AND RESEARCH FACILITIES: The M.A. program of the Department offers instruction and research guidance in the fields of Cultural and Historical Geography, Urban and Economic Geography, Rural and Resource Development, Cartography, Physical Geography, and Geotechnical Science. Within these areas a high level of flexibility is available in the formulation of the student's program, so long as it falls within the research interests of the department. Since effective pursuit of many geographical research problems requires a cooperative role from faculty, the student's research advisory committee may be drawn from several specialist groups from both within and outside the department.

Since the strength and scope of a graduate program is in large measure determined by the expertise and interests of the faculty members, the principal research interests of the various faculty members is elaborated below in some detail. In addition to these interests the Department has close liaison with other academic departments and with the Institute of Canadian Studies, the School of International Affairs, the Institute of Soviet and East European Studies of the University, and with researchers in several Federal Government Departments. Study and research are supported by highly qualified staff in the fields of data processing, computer mapping, cartography, and instrument design and fabrication. Detailed descriptions are available of laboratory facilities for physical geography and geotechnical studies, cartography and computer mapping, and other services and facilities. While the main cartographic interest within the department is in computer mapping, a Cooperative Program in Cartography with Queen's University, Kingston, Ontario allows for broader exposure to this subfield. Carleton University's location in Ottawa also provides access to more than 50 specialized libraries, many of which are in Federal Government Departments. The National Library, National Archives, and Statistics Canada are among the important data sources.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The minimum requirement for the M.A. is five credits of which the thesis has a value of two. Registration may begin in the fall, winter, or summer term. The minimum *admission requirement* is normally a B.A. or B.Sc. Honours degree or its equivalent with upper second (B) standing. Other applicants may be accepted into a Qualifying Year program.

Financial Assistance: Carleton University offers graduate scholarships and assistantships in amounts comparable to those available from other Ontario universities. Other fellowships and scholarships are available from the Ontario Government, Canada Council, National Research Council, Central Mortgage and Housing Corporation, and other organizations.

FACULTY INTERESTS:

Duncan M. Anderson, M.Sc., Western Ontario—outdoor recreation land use; land classification, alternative energy developments, regionalism in Canada

David Bennett, Ph.D., Liverpool—geography of social well-being; spatial variations in quality and equality in life in Canada; geography of income in Canada; geography and philosophy; factorial ecology, urban growth, intra-urban change

John Clarke, Ph.D., Western Ontario—historical geography of Eastern Canada: archives and statistical aspects; rural settlement in developing areas (primarily Canada); population change, ethnic origins, land tenure systems and land speculation in Ontario; urban historical geography

Barbara E. Farrell, M.A., Carleton—cartography, cartographic and geographic education

Michael F. Fox, M.A., Carleton—intra-urban location, instructional development and remote sensing applications

J. Peter Johnson, Jr., Ph.D., McGill—Pleistocene and recent history of northern Labrador, visual perception and geography

David B. Knight, Ph.D., Chicago—cultural-historical and political geography of developing areas, notably Canada, Southern Africa, and the Southwest Pacific; geographies of the mind and mental maps; political and religious authority and nationalist ideology and their impact on landscape, territorial organization, and notions of territoriality; history of geographic thought

Gordon C. Merrill, Ph.D., UC, Berkeley—cultural geography of the Caribbean, developing countries of the Third World, particularly Swaziland, Lesotho and Botswana, with emphasis upon the role of non-governmental agencies in the development process

R. O. Ramseier, D.Sc., Laval, Adjunct Professor, Atmospheric Environment Service—active and passive microwave remote sensing of ice and oceans, material properties of ice, applied glaciology, development of operational microwave systems.

D. Michael Ray, Ph.D., Chicago—system growth and spatial dynamics; urban and regional development in Canada; quantitative methods

M. W. Smith, Ph.D., British Columbia—microclimatology; soil thermal and moisture regimes (especially freezing soils); permafrost; climate variability; computer simulation

D.R.F. Taylor, Ph.D., Edinburgh—spatial analysis, regional and rural development in the Third World countries, especially Africa; applied aspects of geographic information systems and computer assisted cartography

Gordon D. Taylor, M.A., British Columbia, Adjunct Professor, Assistant Director, Research and Analysis, Office of Tourism, Federal Government—geography of recreation and tourism in Canada and internationally

J. Kenneth Torrance, Ph.D., Cornell—chemical, mineralogical, and physical influences on geotechnical behavior of soil, especially post-glacial marine clays; modification of soil behavior; soil freezing and frost heave; vegetation establishment on mine waste; soils and land use

John E. Tunbridge, Ph.D., Bristol—evolution of contemporary urban distributions from pre-industrial antecedents; urban historical and cultural heritage and conservation issues

A. Iain Wallace, D.Phil., Oxford—industrial geography; freight transportation; regional economic development; the economic geography of Canada; economic geography in the context of epistemology and political economy

Thomas P. Wilkinson, Ph.D., Newcastle upon Tyne—sediment solute and bed load dynamics in streams; Quaternary palaeogeography and hydrology; environmental management processes; geography curriculum development

Peter J. Williams, Fil.Dr., Stockholm—properties and behavior of earth materials, especially physical and thermal properties of freezing soils; geotechnical application of such studies: highways, pipelines, etc.

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Ashcroft, Robert James. "Intrametropolitan Branch Banking: Ottawa, 1930-1979," 1980.* Mf., National Library, Ottawa.

Dodoo, Irene Naa Dodua. "Industrialization and Regional Integration in West Africa," 1980.*

Islam, Ruquiyah. "Social Well-being in Ontario: An Experiement in Parsimony," 1981.* Mf., National Library, Ottawa.

Jacobs, Colin. "Cooperatives and Development: The Case of Small Farmer Marketing in Muranga District, Kenya," 1981.* Mf., National Library, Ottawa.

MacLachlan, Iran R. "Catastrophe Theory and Urban Dynamics," 1981.* Mf., National Library, Ottawa.

Mudzinganyama, Nehemiah Shadreck Musami. "Internal Circulatory Labour Migration: The Positive Impact on Socioeconomic Development of the Eastern Region of Botswana," 1980.* Mf., National Library, Ottawa.

Sherstone, David Allan. "Photogrammetric Measurement of Discharge in Ice-choked Northern Streams During Spring Break-up," 1980.* Mf., National Library, Ottawa.

Tan, Yee Noon. "Urban Landownership and Urban Development in a West Malaysian Town: A Case Study of Alor Star, Kedah," 1981.* Mf., National Library, Ottawa.

University of Guelph

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1966 GRADUATE PROGRAM FOUNDED: 1968

DEGREES OFFERED: M.A., M.Sc.

GRANTED 7/1/80–6/30/81: 5

GRADUATE STUDENTS IN RESIDENCE: 15
NOT IN RESIDENCE: 8

CHAIRMAN: G. T. Bloomfield

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman, Graduate Committee, Department of Geography, University of Guelph, Guelph, Ontario, Canada N1G 2W1
Telephone (519) 824–4120, ext. 2171

PROGRAMS AND RESEARCH FACILITIES: The M.A. program emphasizes rural geography. It covers a wide range of faculty interests including historical studies, mathematical model building, decision making on the farm, rural land-use analysis, small settlements and rural planning, and rural (non-agricultural) resource analysis. The University Library is especially strong in nineteenth and twentieth century agricultural sources and the Department has an extensive agri-data bank. There is close cooperation with the personnel and resources of the Ontario Agricultural College.

The M.Sc. program emphasizes a physical, quantitative approach including both field and laboratory experimentation and measurement. Areas of faculty interest include slope stability and strength of landforming materials; aeolian sediment transport; periglacial processes; Quaternary landforms; coastal processes; and vegetation-geomorphic interrelationships. The department has fully equipped geomorphology labs. There is close cooperation and interaction with geology and soil science faculty in the Department of Land Resource Science and with Agricultural Engineering (Hydrology).

Students interested in resource analysis may register in the joint Geography/Centre for Resource Development programs (both M.A. and M.Sc.). Research opportunities are also available through the Rural Development Outreach Program. The Department is a participant in the programs of the newly-established University School of Rural Planning and Development.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Trimester system. Admission requirements: a B average in honours Geography or equivalent. Financial aid in the form of Teaching Assistantships ($4000 per year) with additional support from research funding and scholarships. M.A. and M.Sc. programs require course work and thesis. The Geography/C.R.D. program may be taken by course work and research paper only.

STAFF:

Gerald T. Bloomfield, Ph.D., Nottingham, 1964, Professor—urban-industrial, transport, New Zealand

Fredric A. Dahms, Ph.D., Auckland, 1966, Professor—geography and planning, historical geography of settlements

Robin G. Davidson-Arnott, Ph.D., Toronto, 1975, Associate Professor—geomorphology, coastal studies

Barry D. Fahey, Ph.D., Colorado, 1971, Associate Professor—periglacial geomorphology, permafrost

Anthony M. Fuller, Ph.D., Hull, 1972, Associate Professor—agricultural, rural development, Italy (also Director, Rural Development Outreach Program)

G. Patrick Gough, M.A., Wisconsin, 1960, Assistant Professor—manufacturing, transportation

Alun E. Joseph, Ph.D., McMaster, 1976, Assistant Professor—delivery of services, quantitative techniques

Philip D. Keddie, Ph.D., Waterloo, 1976, Associate Professor—agricultural, rural settlement, Canada

Kenneth Kelly, Ph.D., Toronto, 1968, Associate Professor—cultural, historical geography of Ontario, Latin America

Reid D. Kreutzwiser, Ph.D., Western Ontario, 1978, Assistant Professor—resource management, recreation

Julius A. Mage, Ph.D., Waterloo, 1974, Associate Professor—agricultural, rural Canada

Michael R. Moss, Ph.D., Sheffield, 1973, Associate Professor—biogeography, biotic resources, environmental pollution

William G. Nickling, Ph.D., Ottawa, 1976, Associate Professor—geomorphology, aeolian sediment transport, slopes

Barry E. Smit, Ph.D., McMaster, 1977, Associate Professor—agricultural, quantitative methods

Kok-Chiang Tan, Ph.D., London, 1966, Associate Professor—political, economic development, Southeast Asia, China, the Third World

Jacqueline S. Wolfe, Ph.D., McMaster, 1976, Associate Professor—political, rural planning

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Davis, L. Strath. "An Ecological Analysis of the Productivity of Agro-Ecosystem in Southern Ontario," 1980.* Mf., National Library, Ottawa.

Kavolak, Larry. "Shear Strength of Some Frozen Coarse Earth Materials," 1980.* Mf., National Library, Ottawa.

Keizer, Holly. "The History and Durability of Shore Protection Structures in the Town of Stoney Creek," 1981.* Mf., National Library, Ottawa.

Langille, Douglas. "Transportation Barriers and the Intra-Urban Mobility of the Elderly," 1981.* Mf., National Library, Ottawa.

Szudy, Richard. "Storm Runoff Generation in a Humid-Temperate First-Order Drainage Basin," 1980.* Mf., National Library, Ottawa.

Université Laval

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1948 GRADUATE PROGRAM FOUNDED: 1970

DEGREES OFFERED: maîtrise ès arts(M.A.), doctorat ès lettres (Ph.D.)

GRANTED 7/1/80–6/30/81: 13 M.A., 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 50 M.A. 7 Ph.D.
NOT IN RESIDENCE: 48 M.A. 15 Ph.D.

CHAIRMAN: André Hufty

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Directeur, Etudes de 2e et 3e cycles, Département de Géographie, Université Laval, Québec, Québec, Canada GIK 7P4
Telephone (418) 656–2512

PROGRAMS AND RESEARCH FACILITIES: *Programs:* (1) Physical Geography and Geomorphology, (2) Cultural Geography, (3) Social and Economic Geography, emphasis on North America, (4) Cartography, (5) Toponymy, and (6) Geographical Bases of Planning (Aménagement). The latter program is integrated in a university-wide multi-disciplinary program. *Research Facilities:* Well-equipped physical geography and cartographic laboratories; numerous desk calculators; digital plotter; APL terminal connected to computer center; digitizer and micro-processor; computer center consisting of IBM 360 (model 50) and IBM 370 (model 155) located adjacent to department; excellent library facilities including one of the most complete map libraries in Canada. As the university is situated in the provincial capital and historical and cultural center of French Canada, numerous government facilities and archives are available. The department also enjoys close relations with the Center for Northern Studies and Center for Regional Planning and Development.

The department also publishes a quarterly geographical review, *Cahiers de géographie de Québec.*

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* Two 15 week trimesters, September to May. *Admission:* An honours degree (Canada) or equivalent degree is necessary for admittance to the M.A. program. The doctoral program requires a candidate to have a Master's degree or its equivalent. A speaking knowledge of the French language is necessary though theses may with permission be written in English. *Financial Aid:* A number of teaching and research assistantships are offered.

STAFF:

Michael Allard, Ph.D., McGill, Associate Professor—geomorphology (on leave 1981-82)

Marcel Bélanger, D. d'U., Grenoble, Professor—cultural, geographic thought, Québec

Jacques Bernier, Ph.D., Edinburgh, Associate Professor—political, Africa

Luc Bureau, Ph.D., Minnesota, Associate Professor and Editor, Cahiers de géographie de Québec—rural perception, planning

Paul Bussières, D.E.S., Laval, Associate Professor—economic, transportation, geography of energy

Peter Brooke Clibbon, D. ès L., Laval, Professor and Director, Interdisciplinary Program in Regional Planning (Graduate Level)—land use, rural and recreational planning (aménagement)

Serge Courville, Ph.D., Montréal, Assistant Professor—historical geography

Rodolphe De Koninck, Ph.D., Singapore, Professor—cultural, problems of developing countries, Southeast Asia

Paul-Yves Denis, D. ès Ph. y L. (geografía), Cuyo, Argentina, Professor—Latin America, urban

Jean-Claude Dionne, D. d'U., Paris, Assistant Professor—geomorphology, Quaternary

Louise Filion, Ph.D. candidate, Laval, Instructor—biogeography

Louis-Edmond Hamelin, D. d'U., Grenoble, Professor—general geography, Canada, the North (on leave)

André Hufty, D. ès S., Liège, Professor—climatology

Francois Hulbert, Docteur de 3e cycle, Rennes, Associate Professor—regional and urban planning (aménagement), economic

Michel Jurdant, Ph.D., Cornell, Assistant Professor—ecology, biogeography

Jacques Letarte, Diplôme de l'Ecole Pratique des Hautes Etudes, Paris, Professor—cartography, photo interpretation

Dean Louder, Ph.D., Washington, Professor—social, cultural, population

Jean Raveneau, Docteur de 3e cycle, Strasbourg, Professor—thematic and computer mapping, population

Gilles Ritchot, D. d'U., Strasbourg, Professor—geomorphological cartography, structural geomorphology, urban forms (on leave 1981-82)

Benoît Robitaille, Ph.D., Laval, Assistant Professor—northern studies

Joël Rouffignat, Docteur de 3e cycle, Bordeaux, Assistant Professor—transportation and communications, agricultural geography, Third World

Maurice Saint-Yves, M.A., Laval, Professor—geographic education, regional geography, Canada

Marius Thériault, Ph.D. candidate, Laval, Instructor—climatology, quantitative methods

Germain Tremblay, D. ès S., Paris, Associate Professor—geomorphology

Louis Trotier, L. ès L., Laval, Professor—urban (vice rector)

Paul-Yvon Villeneuve, Ph.D., Washington, Professor—urban social, theoretical geography, quantitative methods, Canada

Eric Waddell, Ph.D., Australian National, Associate Professor—cultural, Oceania

GRANTED 7/1/80–6/30/81: 7 M.A., 0 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 27 M.A. 8 Ph.D.
NOT IN RESIDENCE: 10 M.A. 1 Ph.D.

HEAD: A.J.W. Catchpole

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Chairman, Graduate Studies Committee, Department of Geography, The University of Manitoba, Winnipeg, Manitoba, Canada R3T 2N2
Telephone (204) 474-9256

PROGRAMS AND RESEARCH FACILITIES: Graduate research opportunities are available in many aspects of human geography, notably in such fields as agricultural, cultural, historical, population, rural settlement, urban and industrial geographies, and in land utilization and resource management, regional development, tourism and recreation, and environmental cognition. In physical geography, research training exists mainly in climatology, geomorphology, hydrology, and associated studies of natural hazards. Most graduate research focusses on western Canada, but recent theses have included India and Africa. Studies of Winnipeg and other Manitoban settlements, especially in the North, continue to be numerous. Ample scope exists for research on recreation and other resources of Manitoba, the cultural and historical geographies of the Prairies, and the spectrum of economic activities in this region. Energy balance and hydroclimatological investigations, erosion and mass wasting studies of slopes, and fluvial geomorphology dominate research endeavours in Manitoban physical geography.

The University's IBM 370-168 computer has extensive geographic representation devices, and is available to graduate students. The Department has Olivetti-Underwood Programma 652 and 101 computers and electronic calculators. It possesses a geomorphological research laboratory, cartographic facilities, and a map library. The Dafoe, Science and Engineering libraries house approximately 900,000 volumes and possess a large range of materials pertinent to geographical research. Interdisciplinary units on campus include the Agassiz Centre for Water Studies, the Centre for Transportation Studies, and the Natural Resource Institute. Off campus, a unique facility for those wishing to pursue research in historical geography is Winnipeg's recently acquired archives of the Hudson Bay Company.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: M.A. program: 1 year of courses (in Geography and related fields) plus thesis. Admission with 'B' standing in Hons. or advanced Geography degree. Admission with 'B' in B.A. (Gen.) degree, Geography major, requires a pre-M.A. year of courses. Ph.D. program: 2 years of courses plus thesis; admission with M.A./M.Sc. Geography. Graduate student support programs in the form of University Fellowships and graduate teaching and service assistantships are available up to $6600.

STAFF:

J. S. Brierley, Ph.D., Edinburgh, 1972, Associate Professor—agricultural, Caribbean, Western Canada

W. J. Brown, Ph.D., London, 1965, Associate Professor—geomorphology, natural hazards

A. J. W. Catchpole, Ph.D., Durham, 1966, Professor and Head—climatology, climatic change

R. H. Foster, Ph.D., UC, Berkeley, 1975, Assistant Professor—urban planning, transportation, Canada and U.S.A.

B. Kaye, Ph.D., London, 1977, Assistant Professor—historical, Western Canada, cultural, Europe

Z. Mieczkowksi, Ph.D., Moscow. 1954, Associate Professor—tourism and recreation, U.S.S.R.

J. D. Milton, Ph.D., Western Australia, 1978, Assistant Professor—climatology

D. W. Moodie, Ph.D., Alberta, 1972, Professor—historical, cultural, Western Canada

W. Norton, Ph.D., McMaster, 1973, Associate Professor—historical settlement geography, spatial analysis

J. R. Rogge, Ph.D., London, 1968, Associate Professor—population, Africa, Middle East

J. I. Romanowski, Ph.D., Washington, 1970, Assistant Professor—land resource management

H. L. Sawatzky, Ph.D., UC, Berkeley, 1967, Associate Professor—land utilization and planning, recreation, Latin America

V. Smil, Ph.D., Pennsylvania State, 1972, Professor—energy and the environment, China

G. C. Smith, Ph.D., McMaster, 1974, Associate Professor—environmental cognition, quantitative methods

L. P. Stene, Ph.D., Western Ontario, 1976, Assistant Professor—geomorphology

R. C. Tiwari, Ph.D., Reading, 1964, Associate Professor—urban, India, Africa

D. Todd, Ph.D., London, 1975, Associate Professor—regional development planning, economic

PROFESSOR EMERITUS:

T. R. Weir, Ph.D., Wisconsin, 1951, Professor—Anglo America, remote sensing, cartography

DEGREES OFFERED: M.A., M.Sc., Ph.D., Diploma in Environmental Remote Sensing

GRANTED 7/1/80-6/30/81: 6 Master's, 4 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 25 Masters 14 Ph.D.
NOT IN RESIDENCE: 4 Masters 5 Ph.D.

CHAIRMAN: J. Brian Bird

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Affairs, Department of Geography, McGill University, 805 Sherbrooke Street West, Montreal, Quebec, Canada H3A 2K6
Telephone (514) 392-5700

PROGRAMS AND RESEARCH FACILITIES: The Department offers integrated programs of study within the following fields. The major locations of research are northern Canada, Quebec, and the Caribbean. The research and supervision interests of the department fall into the following clusters: (A) Urban Geography: emphasizing studies of the social milieu of the multi-cultural city; of the service location-allocation problem; of spatial interaction; and of the climatic environment. (B) Geography of Development: emphasizing studies around the themes of "development," "underdevelopment," and "unequal development" in their historical context and with contemporary application; centre-periphery relationships; and the cultural, ecological, economic, and political responses to such relationships. (C) Terrain Analysis: emphasizing studies of fluvial and landslide processes, and stream and slope development; of glacial and periglacial processes and landforms; of Quaternary landscape evolution; and of coastal processes. (D) Environmental Studies: emphasizing biogeography, including waste-land revegetation and plant distributions; hydrology, including water quality and snowmelt; soils, including pedogenesis and nutrient cycling; permafrost; climatology, including bio- and urban climatology; and savanna ecology. (E) Remote Sensing: emphasizing studies of the use of remote sensing techniques in the analysis of the physical landscape and patterns of human activity. (F) Recreation and Tourism: emphasizing studies of the spatial and environmental features of recreation and tourism systems at the international, regional, and local levels, with particular attention to impact on land use, carrying capacity, local societies, cultures, economies, and ecology, the development of management strategies, and recreation demand and travel behavior. (G) Cultural Ecology: emphasizing studies of cultural adaptation to urban and non-urban environments; of land use and resource utilization from the perspectives of energy flow and economic, social, and ideological behavior; the ecology of tropical agriculture; land claim problems; and northern hunting systems.

The Department has close association with the Centre for Developing-Area Studies and the Urban Planning Program, and the Centre for Northern Studies and Research.

The Geography Department is located in a new building, has excellent cartographic and remote sensing facilities, and maintains biogeography, hydrology, pedology, and geomorphology research laboratories with a full range of equipment. The Tropical Research Room and University Map Library are located within the same building, as is the University Computer Centre. The Department has ready access to the materials and facilities of the Centre for Northern Studies and Research and the Centre for Developing Area Studies. Many members of staff participate fully in the work of these Centres. The University maintains field stations at Mount St. Hilaire (close to McGill), Schefferville (northern Quebec), and Bellairs (Barbados). These stations can provide accommodation, facilities, and support for research in any field.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Graduate studies are administered by the Faculty of Graduate Studies and Research and a Departmental Graduate Affairs Committee; admission requirement is that of Honours degree (Canada) or equivalent specialization (U.S.)—a qualifying year is possible; Master's degree requires two resident sessions, while Ph.D. requires two years in addition to Master's degree; M.Ed. is conducted in conjunction with the Faculty of Education; all degrees (except M.Ed.) require thesis; normally 12 or more departmental assistantships (full or half-time) and research assistantships are awarded: in 1980-81, Master's $6000 and Ph.D. $6300 for 8 months, 12 hours work per week; competitive summer stipends of up to $1000; assistance is also available for fieldwork through research project funds. The Diploma Program requires one year including research paper.

STAFF:

Warwick Armstrong, Ph.D., Victoria, New Zealand, 1970, Associate Professor—resource and development, Third World (Latin America)

J. Brian Bird, M.A., Cambridge, 1949, Professor and Chairman—geomorphology, Arctic and Caribbean

J. H. Bradbury, Ph.D., Simon Fraser, 1977, Assistant Professor—economic, Canada

Michael A. Carson, Ph.D., Cambridge, 1967, Professor—engineering geomorphology, with special reference to landslides and fluvial processes

R. Norman Drummond, Ph.D., McGill, 1965, Associate Professor—cartography, Quebec

N. Enright, Ph.D., Australian National, 1979, Assistant Professor—biogeography

Gordon Ewing, Ph.D., McMaster, 1971, Associate Professor—urban, behavioral

Ruth Fincher, Ph.D., Clark, 1980, Assistant Professor—urban

Benjamin Garnier, M.A., Cambridge, 1943, Professor—climatology, Caribbean and Southeast Canada

Theo L. Hills, Ph.D., McGill, 1967, Professor—cultural ecology, Caribbean

W. B. Kemp, M.A., Michigan State, 1962, Auxiliary Professor—human ecology

John E. Lewis, Ph.D., Illinois, 1972, Associate Professor—bioclimatology, physiological climatology, urban climatic environments

Jan Lundgren, Ph.D., Stockholm, 1964, Associate Professor—economic development, Caribbean and Quebec

Thomas Meredith, Ph.D., Cambridge, 1979, Assistant Professor—biogeography

T. R. Moore, Ph.D., Aberdeen, 1971, Associate Professor—soils

L. Müller-Wille, D. Phil., Westfalische Wilhelms-Universitat, 1971, Associate Professor—polar

Sherry Olson, Ph.D., Johns Hopkins, 1965, Associate Professor—social, urban

John T. Parry, Ph.D., McGill, 1965, Professor—air photo interpretation, Canada

DEGREES OFFERED: M.A., M.Sc., Ph.D.

GRANTED 7/1/80-6/30/81: 10 Masters, 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 16 Masters 15 Ph.D.
NOT IN RESIDENCE: 6 Masters 4 Ph.D.

CHAIRMAN: Michael J. Webber

FOR CATALOG AND FURTHER INFORMATION WRITE TO: The Chairman,
Department of Geography, McMaster University, 1280 Main Street West, Hamilton,
Ontario, Canada L8S 4K1
Telephone (416) 525-9140, ext. 4534

PROGRAMS AND RESEARCH FACILITIES: Research is conducted by the members of the staff in their areas of specialization.

The research facilities include a large map library, cartographic and calculating equipment, laboratories for work in geomorphology, microclimatology (including a field laboratory), pedology, and remote sensing, and direct access to the University Computing Centre (IBM 7040 and C.D.C. 6400).

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Admission Requirements:* A standing of Class I (A) or upper Class II (B plus) in previous academic work. *Financial Aid:* 1. National Research Council Fellowships. 2. C.M.H.C. Scholarships for urban-related research. 3. Canada Council Doctoral Fellowships. 4. University Scholarships. 5. Assistantships: Candidates for the Ph.D.: from $8,000, candidates for M.A. or M.Sc.: from $6,300. Assistantships entail 10 hours per week of teaching or research during the September–April academic year. *Academic Plan:* Year, from mid-September to early April, divided into two terms.

Memorial University of Newfoundland

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1960 GRADUATE PROGRAM FOUNDED: 1968

DEGREES OFFERED: M.A., M.Sc.

GRANTED 7/1/80-6/30/81: 4

GRADUATE STUDENTS IN RESIDENCE: 9
NOT IN RESIDENCE: 7

HEAD: Dr. M. Staveley

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Michael Staveley, Department of Geography, Memorial University of Newfoundland, Elizabeth Avenue, St. John's, Newfoundland, Canada A1B 3X9
Telephone (709) 737-7417/8

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography at Memorial University offers programmes leading to the M.A. and M.Sc. degrees. Students may commence their programme in Fall, Winter, or Spring semesters, the programme of study and research normally requiring two years of full-time work. Candidates are required to take at least six one-semester graduate courses in the programme agreed upon with the Head of the Department and a supervisor appointed from the faculty. Courses in other disciplines may be taken and candidates may be required to take an examination in a foreign language should the research require it. The second year of study will normally be devoted to the writing of a thesis.

The Departmental map library serves as a depository for Canadian Government maps and maintains an extensive collection of maps, atlases, and aerial photographs. Included within the Department are a fully equipped and professionally staffed cartographic production laboratory and photo-mechanical reproduction services. The Department has an automated mapping unit with a remote typewriter terminal linked to the University IBM 370/158 computer system. Other computer hardware housed in the Department includes key punch and digitizer that can be used in conjunction with PDP 12 and Calcomp drum plotter located on campus. Departmental research laboratories also include facilities for palynology, soil analysis, and flume and rainfall simulator studies with a supporting technical workshop. Equipment for field research includes a departmental vehicle.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Memorial University operates on a semester system. Admission requires a Bachelor's degree with Honours or its equivalent. Applicants without this qualification may be admitted with the requirement that additional undergraduate courses be taken at the discretion of the Department and with the approval of the Committee on Graduate Studies. A certificate of proficiency in English is required if the applicant's native language is other than English or if he has not received his undergraduate instruction in English.

Limited fellowships—bursaries and grants are available from the Province, the University or the University's Institute of Social and Economic Research. The Department also provides teaching and research assistantships of varying amounts according to ability and need.

STAFF:

William H. Allderdice, Ph.D., Columbia, 1972, Associate Professor—economic, rural, Latin America

Telephone (514) 270–4115

PROGRAMS AND RESEARCH FACILITIES: The Department offers programs of study in physical and human geography. In physical geography, they include climatology, geomorphology and biogeography; and in human geography, population, urban and rural, economic, medical. Remote sensing, cartography and spatial analysis are other fields plus regional geography, especially Québec and East Asia. The Department has a spatial analysis laboratory equipped with a digitizer, a graphic display and seven terminals, and other laboratories in geomorphology, palynology and remote sensing.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Year divided into two four-month periods from September to May. Admission to the M.S. is a B.A. or equivalent. Knowledge of the French language is necessary. Assistantships are available. Students are required to complete at least three periods for the M.S. with or without a dissertation and six periods for the Ph.D. with a thesis.

University of Ottawa

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1951 GRADUATE PROGRAM FOUNDED: 1954

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 5 M.A., 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 27 M.A. 14 Ph.D.
NOT IN RESIDENCE: 12 M.A. 4 Ph.D.

CHAIRPERSON: Peter G. Johnson

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Committee, Department of Geography, University of Ottawa, 165 Waller, Ottawa, Ontario, Canada K1N 6N5
Telephone (613) 231-2395/2396

PROGRAMS AND RESEARCH FACILITIES: The Geography program emphasizes 1) economic, urban, rural and social geography; 2) geomorphology, biogeography and resource management; 3) computer cartography and remote sensing; and 4) quantitative methods. There is a strong interest in applied and policy oriented work. Principal regional applications are in Canada, South America and South Asia.

In the M.A. program, two semesters of seminars and supervised readings are followed by an examination of the thesis proposal and thesis. The Ph.D. Geography program is composed of two major research papers prepared under supervision (one of which may be replaced by coursework), a comprehensive examination, dissertation proposal, and dissertation.

Students have access to one of the best-equipped university computer centers in Canada, including facilities for computer cartography, as well as a large map and air photo library. Ottawa furthermore offers numerous specialized federal government libraries and the facilities of embassies and consulates. The campus is located near these facilities in the city center.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Located in North America's only major bilingual University (English and French), the Department offers courses and supervision in both English and French. The bicultural character of the Department provides the benefit of exposure to both the English-North American and French schools of thought. Unilingual candidates are admitted to the program in Geography, but are expected to acquire a basic knowledge of the second official language of Canada. _Admission Requirements:_ Minimum of B (second class) standing in previous academic work. Exceptions are considered. _Financial Aid:_ Up to $7000 for Ph.D. students; up to $5000 for M.A. students. Funds are derived from teaching assignments, research assistantships, staff contracts and grants, and Graduate School Scholarships. Applicants seeking departmental funding are required to make applications to external scholarships, e.g., SSHRC, NRC, CMHC, OGF, etc. _Application Deadline:_ To be considered for funding, applications must be received by March 15.

*_Denis St-Onge, D. ès Sc., Louvain, 1962, Professor_—applied geomorphology, earth science and planning

Harishankar Srivastava, Ph.D., Florida, 1961, Professor—political, South Asia

*_Guy Steed, Ph.D., Washington, 1966, Professor_—economic, manufacturing, regional development

Barry Weller, Ph.D., Northwestern, 1969, Associate Professor—urban and regional development, public policy analysis, transportation

**Rolf Wesche, Ph.D., Florida, 1967, Associate Professor*—rural, economic development, South America

*Members of School of Graduate Studies

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Appana, Mohan. "Product-plant Assignment in North American Automobile Assembly," 1981.* Mf., University Microfilms.

Master's:

Bezada, Maximiliano. "Champlain Sea Sediments and Landforms in the Alexandria Map Area," 1981. Mf., Univ. Microfilms.

Kent, Thomas. "Implications of the Carrying Capacity Concept as Applied to Kluane National Park, Yukon Territory," 1981.* Mf., Univ. Microfilms.

Leverton, David. "Vegetation, Microclimate and Soil as Influenced by Altitude, Slope and Exposure, Grizzly Creek, St-Elias Mountain Range, Yukon Territory," 1981.* Mf., Univ. Microfilms.

Moore-Hishon, Doreen. "An Examination of the Microdistribution of *Salsola pestifer nels.* in Relation to a Number of Environmental Conditions on the Tailings of an Iron Mine as a Preliminary to Revegetation," 1980.* Mf., Univ. Microfilms.

Turcotte, Huguette. "Les idéologies et le discours urbanistique," 1981.* Mf., Univ. Microfilms.

Queen's University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1960 GRADUATE PROGRAM FOUNDED: 1965

DEGREES OFFERED: M.A., M.Sc., Ph.D.

GRANTED 7/1/80–6/30/81: 8 Masters, 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 28 Masters 11 Ph.D.
NOT IN RESIDENCE: 8 Masters 5 Ph.D.

HEAD: Brian S. Osborne

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. John Holmes, Chairman, Graduate Committee, Department of Geography, Queen's University, Kingston, Ontario, Canada K7L 3N6
Telephone (613) 547-2796

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography offers programs of study leading to the M.A., M.Sc., and Ph.D. degrees. The areas of interest in which graduate work is undertaken are:

1. Urban and economic geography focusing on intra-urban geography, political economy of cities and regions, regional development and public policy, diffusion and spatial interaction.
2. Geomorphic and pedologic processes with emphasis on contemporary land forming processes, watershed analysis, pedology and soil microscopy.
3. Historical geography with particular emphasis on the exploration, settlement, and urban historical geography of Canada and North America.
4. Cartography concentrating on perception and map design, the planning of national mapping programs, and historical cartography.
5. Climatology with emphasis on micro-climatology.

The Ph.D. degree is offered in the fields of Urban-Economic Geography, Historical Geography, and Geomorphic and Pedological Processes.

The libraries at Queen's University offer very good collections in the social and physical sciences. The resources available for research on Canada are exceptional. Other research facilities include the university's IBM 360-50 computer, the departmental digital minicomputing system PDP-11/VO3, a Calcomp plotter and other graphic devices. Departmental cartography laboratories house a Saltzman projector, a type-setting machine and a photogrammetry and photo interpretation laboratory. The Geomorphology and Climatology laboratories are well instrumented: soils equipment includes a magnetic separator, atomic absorption spectrophotometer, a differential thermal analyser, together with the equipment for a conventional wet chemical laboratory. Field reconnaissance and research facilities include a field vehicle, mobile field laboratory, and instrumentation equipment such as a deep-drill, a neutron probe, stream gauges, and many other items.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID:

The Master's student entering the program with an Honours Bachelor's degree or equivalent is required to be in residence for a minimum period of one academic session of two semesters. For holders of the General Bachelor's degree or equivalent two academic sessions in residence are required. The Master's program consists of either: (a) four semester courses and a thesis weighted as one half of the total program, or (b) six semester courses plus a thesis weighted as one quarter of the total program.

Admission to the Ph.D. program requires a Master's degree or its equivalent. Doctoral students are required to complete a minimum of four semester courses, to take a comprehensive examination, and to complete a dissertation.

Teaching assistantships in undergraduate geography courses are awarded for the eight-month academic year (two semesters) on a competitive basis. Geography graduate students are eligible to compete for university fellowships. In 1981-82, the level of support for incoming full-time graduate students, from all sources, will not be less than $6200.

FULL-TIME AND PART-TIME STAFF:

J. B. Cannon, Ph.D., Washington, 1969, Assistant Professor—economic, regional development

H. W. Castner, Ph.D., Wisconsin, 1964, Associate Professor—cartography, map design, thematic mapping, historical cartography of Russia

R. Gilbert, Ph.D., British Columbia, 1974, Assistant Professor—geomorphology, physical limnology and oceanography

P. G. Goheen, Ph.D., Chicago, 1970, Associate Professor—urban, historical

J. Holmes, Ph.D., Ohio State, 1974, Assistant Professor—political economy of cities and regions

W. G. Lovell, Ph.D., Edmonton, Alberta, 1980, Killam Research Associateship—historical, cultural, Latin America

J. H. McCaughey, Ph.D., McMaster, 1972, Associate Professor—microclimatology

G. McGrath, M.A., Cambridge, 1960, Associate Professor—cartography, air photogrammetry and interpretation, surveying, Africa

E. G. Moore, Ph.D., Queensland, 1966, Professor—urban, behavioral, residential location and public policy

A. Nash, Ph.D., Cambridge (pending), Post-doctoral Fellow—historical demography.

E. D. Ongley, Ph.D., Sydney, 1971, Associate Professor—geomorphology, drainage network and slope studies, water resources and environmental management

B. S. Osborne, Ph.D., Southampton, 1967, Professor—human, historical, cultural

J. B. Riddell, Ph.D., Pennsylvania State, 1969, Associate Professor—Africa, development, spatial interaction

R. I. Ruggles, Ph.D., London, 1958, Professor—historical, historical cartography, U.S.S.R.

G. K. Rutherford, Ph.D., Vollebekk, Norway, 1959, Professor—soils, agricultural, land systems analysis, tropical areas

A. N. Spector, Ph.D., Ohio State, 1978, Assistant Professor—behavioral, quantitative, urban

R. Stock, Ph.D., Liverpool, 1981, Assistant Professor—regional development, medical geography, Africa

A. M. Taylor, D.Phil., Oxford, 1955, Professor Emeritus—political, technology and environment, historical

R. R. Tinline, Ph.D., Bristol, 1973, Associate Professor—medical, information systems, diffusion

W. J. Vreeken, Ph.D., Iowa State, 1972, Assistant Professor—soils, water resources

M. H. Yeates, Ph.D., Northwestern, 1963, Professor and Dean of the School of Graduate Studies—urban, economic, regional analysis

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Levine, Gregory James. "In God's Service: The Role of the Anglican, Methodist, Presbyterian, and Roman Catholic Churches in the Cultural Geography of Late 19th Century Kingston," 1980. Mf., National Library, Ottawa.

Master's:

Baril, Evelyn. "Native Households in Winnipeg," 1981. Mf., National Library, Ottawa.

Belec, John Patrick. "Researching the Interrelationship Between Residential Mobility and Local Political Participation," 1980. Mf., National Library, Ottawa.

Bjerkelund, Ingrid E. "Accumulation of Heavy Metals in *Cladophora* Below the Guelph Sewage Treatment Plant, Ontario," 1981. Mf., National Library, Ottawa.

Ealey, Donald Ross. "Regionalism and the Articulation of Modes of Production: The Spatial Division of Labour in the Colonial Gold Mining Industry in Ghana, 1870-1930," 1981. Mf., National Library, Ottawa.

Kemp, Robin A. "Pedogenesis on the Canadian Shield Near Lake Mackensey, Lennox and Addington," 1981. Mf., National Library, Ottawa.

Nelson, William L. "An Analysis of the Effects of Texture on the Peripheral Perception of Map Symbology," 1981. Mf., National Library, Ottawa.

Nuttall, Alan Jay. "The Success of Government Settlement Policy on the Ottawa Huron Territory, 1853-1898," 1981. Mf., National Library, Ottawa.

Taylor, Gordon. "The Mississauga of Kingston: A Study in Ethnohistory," 1981. Mf., National Library, Ottawa.

University of Regina

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1966 **GRADUATE PROGRAM FOUNDED: 1972**

DEGREES OFFERED: M.A., M.Sc.

GRANTED 7/1/80–6/30/81: 2

GRADUATE STUDENTS IN RESIDENCE: 7
NOT IN RESIDENCE: 4

HEAD: Alexander H. Paul

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. A. H. Paul, Head, Department of Geography, University of Regina, Regina, Saskatchewan, Canada S4S 0A2
Telephone (306) 584–4223

PROGRAMS AND RESEARCH FACILITIES: The M.A. and M.Sc. programmes include lectures, seminars, intensive field work and dissertation. The originality of the dissertation is a prerequisite for the degree. Though the programmes are individualized, students are encouraged to do interdisciplinary work. The systematic fields emphasized are urban, rural, climatology, economic, and resources, especially water and recreation. Adequate facilities for cartography, air photo interpretation, computer analysis, and graphics are available.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: For details write to the Head.

STAFF:

Edmund H. Dale, Ph.D., Alberta, Professor—political, political-urban, Commonwealth Caribbean

Alexander H. Paul, Ph.D., Alberta, Associate Professor and Head—climatology, recreation, water resources, Western Canada

Abul H. Sahir, Ph.D., Minnesota, Associate Professor—cultural, geographic thought, rural

Hans G. Schlichtmann, Ph.D., Tubingen, Associate Professor—thematic cartography, cultural, Western Europe

Adrian A. Seaborne, Ph.D., Swansea, Assistant Professor—economic, Canada

Paul Simpson-Housley, Ph.D., Otago, Assistant Professor—cultural, perception, resources,methodology

TITLES OF THESES COMPLETED 7/1/80-6/30/81:

Master's:

French, John Reid. "A Review of Recreational Carrying Capacity and Lakeshore Development Regulations: Implications for Saskatchewan," 1981.

Troyer, A. Elizabeth O. "Causes of Regina's Rental Housing Shortage and Its Effects on Residential Satisfaction, 1972-1978," 1981.

University of Saskatchewan

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1960 GRADUATE PROGRAM FOUNDED: 1963

DEGREES OFFERED: M.A., M.Sc., Ph.D.

GRANTED 7/1/80-6/30/81: 5 M.A., 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 1 Masters 4 Ph.D.
NOT IN RESIDENCE: 8 Masters 1 Ph.D.

HEAD: R. Keith Semple

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. A. K. Chakravarti, Chairman, Graduate Studies Committee, Department of Geography, University of Saskatchewan, Saskatoon, Saskatchewan, Canada S7N 0W0
Telephone (306) 343-2252

PROGRAMS AND RESEARCH FACILITIES: The department focuses graduate training and research in the areas of regional development and environmental studies. Research is encouraged in both human and physical geography with emphasis on economic, urban, cultural, biogeographical, climatological, geomorphological and hydrological problems. Thesis and dissertation topics traditionally have been formulated within a northern Canada or Prairie setting.

Programs in geography may be coordinated with programs in other departments and colleges. There is close contact and special cooperation with the Institute for Northern Studies which conducts summer field training in the arctic at the Rankin Inlet research station.

The Department of Geography is housed in the Arts Building and is fortunate to have lecture and seminar rooms, cartographic and physical laboratories as well as faculty and student offices located together in one unit. The technical facilities for research available are: IBM 370 and DEC-2060 computers with statistical packages and programs for research in social and physical sciences, a modern cartographic laboratory with complete photomechanical processing, a map and air photo library and an up-to-date collection of major journals in geography and in related fields.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan:* The academic session (divided into two terms) extends from mid-September until early April, leaving spring and summer free for conducting field work or writing research papers or the thesis.

Admission Requirements: Graduate College admission requires the equivalent of the University of Saskatchewan four year degree of B.A. or B.Sc. with a minimum of second class or B standing. Students with less than these prerequisites may be admitted on a probationary basis with department and College permission.

Financial Aid: Financial support for directed work in geography is available both during academic session and summer period. Graduate Scholarships and Teaching Fellowships may range from $4,950 to $5,550 for a year. Departmental assistantships and individual research project assistantships of varying amounts are also available during the academic year and for the Summer Session. The Institute for Northern Studies offers travel grants to students of the Geography Department for doing field work in the North. Further information regarding travel grants to support research in northern areas may be obtained from the Secretary, Institute for Northern Studies, University of Saskatchewan, Saskatoon.

STAFF:

S. Shamim Ahmad, M.A., Clark, 1965, Assistant Professor—underdeveloped lands, medical

O. William Archibold, Ph.D., Simon Fraser, 1975, Associate Professor—biogeography, northern environments, quantitative

William Barr, M.Sc., McGill, 1965, Professor—Arctic and Pleistocene geomorphology, Soviet arctic

Robert M. Bone, Ph.D., Nebraska, 1962, Professor and Director, Institute for Northern Studies—Northern Development, Soviet Union

Aninda K. Chakravarti, Ph.D., Wisconsin, 1967, Professor and Graduate Chairman—climatology, agricultural, South Asia

John E. FitzGibbon, Ph.D., McGill, 1977, Assistant Professor—geomorphology, northern environments, hydrology

Ka Iu Fung, Ph.D., London, 1979, Associate Professor—urban, cartography, remote sensing, China

Milford B. Green, Ph.D., Ohio State, 1980, Assistant Professor—economic, quantitative

John G. McConnell, M.A., Toronto, 1965, Associate Professor—historical, northern development, North America

Alan G. Phipps, Ph.D., Iowa, 1978, Assistant Professor—economic, urban and regional planning

Ronald Rees, M.A., Toronto, 1960, Associate Professor—urban, historical Europe

J. Howard Richards, Ph.D., Toronto, 1954, Professor—land use, regional development and planning

R. Keith Semple, Ph.D., Ohio State, 1969, Professor and Head—quantitative analysis, development, locational analysis

Michael R. Wilson, Ph.D., Oregon, 1973, Associate Professor—biogeography, anthropogeography, Latin America

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80–6/30/81:

Ph.D.:

Stone, Donald N. G. "Alberta's and British Columbia's Crown Lands Policies (1931–73): Some Attitudinal and Behavioural Responses by Frontier Agriculturalists Towards Those Policies," 1980.

Master's:

Forsdick, John D. "A Terrain Sensitivity Analysis for Trail Development and Impact in the Proposed Grasslands National Park," 1981.

Goode, Donald Peter. "Public Response to a New Recreation Area: The Example of Lake Diefenbaker, Saskatchewan," 1981.

Grismer, Glen B. "Squatter Settlement in Saskatchewan 1878–1886," 1981.

Magill, Bonnie L. "Temperature Variations in Southern Saskatchewan, 1921–1970: Regional Identifications of Trends," 1980.

Schindelka, C. Roger. "Local Employment Participation, Residential Infrastructure Location and Rural Industrial Commuting," 1981.

University of Sherbrooke

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1963 **GRADUATE PROGRAM FOUNDED: 1966**

DEGREES OFFERED: M.Sc.

GRANTED 1/1/80–1/1/81: 3

GRADUATE STUDENTS IN RESIDENCE: 8
NOT IN RESIDENCE: 34

DIRECTOR: Jean-Marie Dubois

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Département de géographie, Faculté des Arts, Université de Sherbrooke, 1500 Boul. Université, Sherbrooke, Québec, Canada J1K 2R1
Telephone (819) 565–4521

PROGRAMS AND RESEARCH FACILITIES: Specialization in Spatial Organization in Regional Planning, Small Towns and Societies in Rural Environment, Remote Sensing and Cartography, Quaternary Studies, and Applied Geography. The Department has a physical geography laboratory and a remote sensing field laboratory. An official research program is held with the Lennoxville Experimental Farm of Agriculture Canada.

The cartography laboratory is well-equipped including and EAI Pacer 100 Computer with tracing table and a Bendix digitizer system. In addition the University possesses an IBM 360-65. The Department works in close association with the University Regional Planning Research Centre.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Admission Requirements:* An Honor Degree (Canada) or equivalent degree (U.S.A.). A speaking knowledge of the French language. *Academic Plan:* Year divided into semesters from September to May. *Financial Aid:* 10 assistantships of $2000 available each year.

STAFF:

Jean-Jacques Boisvert, D.d'U., Grenoble, 1954, Associate Professor—climatology

Ferdinand Bonn, Ph.D. (geography), Strasbourg, 1975, Associate Professor—geopedology, biogeography, remote sensing

Jean Castonguay, M.A. (geography), Sherbrooke, 1974, Assistant Professor—automated cartography, informatic

Roch Choquette, licence d'enseignement secondaire, M.A. (geography), Sherbrooke, 1970, Associate Professor—teaching of geography

Jean-Marie Dubois, Ph.D. (geography), Ottawa, 1980, Director of the Department of Geography, Associate Professor—air photography, Quaternary geomorphology

Robert Gagnon, Ph.D. (geography), Aix, 1971, Professor—economic, agricultural, quantitative

Hugh Gwyn, Ph.D. (geology), Western Ontario, 1971, Associate Professor—Quaternary geology and geomorphology

Bernard Lauriol, Ph.D. (geography), Montreal, Assistant Professor—Quaternary geomorphology

Denis Morin, Ph.D. (geography), Liège, Assistant Professor—social, urban

Roger Nadeau, Ph.D. (geography), Aix, 1975, Associate Professor—tourism, recreation, regional

Romain Paquette, Ph.D., McGill, 1968, Professor—behavioral, geography of underdeveloped countries, geography of the Caribbean area

André Poulin, M.A. (geography), Montreal, 1969, Associate Professor—geomorphology, land use, man's impact on environment

Marcel Pouliot, M.A. (geography), Laval, 1970, Associate Professor—transportation, communication, public policies

Michel Rheault, M.A. (geography), Ottawa, 1973, Assistant Professor—cartography

Jean-Marie Roy, D. d'U., Grenoble, 1951, Professor—history of geographical thought, political, regional

Oleg Stanek, Ph.D. (architecture), Brno, Czechoslovakia, 1952, M.A. (economics), Prague, 1949, Professor—planning, economics, geography of socialist countries

TITLES OF THESES COMPLETED 1/1/80–1/1/81:

Master's:

Clavet, Daniel. "Approche géomorphologique dans la détermination du potential d'accueil salmonicole des rivières des principales régions physiographiques du Québec," 1980.

Gauthier, Maurice. "Développement interne et intérêts internationaux dans l'Archipel des Comores," 1980.

Langlois, Denis. "Le transport en commun interurbain entre moyenne et petite ville; le cas de Sherbrooke et d' East Angus," 1980.

Simon Fraser University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1965 GRADUATE PROGRAM FOUNDED: 1965

DEGREES OFFERED: M.A., M.Sc., Ph.D.

GRANTED 7/1/80–6/30/81: 2 M.A., 3 M.Sc., 0 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 12 M.A. 8 Ph.D.
NOT IN RESIDENCE: 4 M.A. 1 Ph.D.

CHAIRMAN: E. J. Hickin

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Secretary, Graduate Studies Committee, Department of Geography, Simon Fraser University, Burnaby, British Columbia, Canada V5A 1S6
Telephone (604) 291-3322

PROGRAMS AND RESEARCH FACILITIES: Students may specialize in the three basic branches of geography: cultural, economic, and physical, though considerable intersub-disciplinary work is also pursued. The department takes a special interest in developing theoretical and conceptual frameworks in the systematic fields of geography. Current research, in addition to work in the immediate area, is being undertaken in the United Kingdom, the U.S., and in the Canadian North.

Facilities for advanced work include well-equipped cartography, geomorphology, biogeography, and climatology laboratories. In addition the University possesses an IBM 370/155 computer, with Calcomp and Tectronics plotters.

Thesis work is currently being undertaken in the following areas: Plant Geography, Urban Social Geography, Resource Analysis, Meandering Rivers, Computer Cartography, etc.

M.A. Program consists of either 30 trimester credits of course work, or 20 credits and a thesis (10 credits). Students must give evidence of their research ability by the satisfactory completion *either* of a thesis (counting for 10 credits) *or* of two extended essays based on assignments carried out as part of the work in graduate courses.

M.Sc. Program. Students must give evidence of their research ability by the satisfactory completion of a thesis and 20 hours of course work.

Ph.D. Program consists of a basically unstructured program, successful passing of a set of qualifying examinations and the completion of a dissertation.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Trimester System.* Entrance to degree program possible on January 1st, May 1st or September 1st each year. Last dates for application to the Trimester selected are: September 30, January 31, and March 15 respectively.

M.A. Program. To gain admission student applicants must present evidence that they are adequately prepared in terms of the extent of their undergraduate training and the level of their scholarly ability. Normally, admission is granted to students who have achieved at least a "good" second class standing in their undergraduate work ("B", "B+", "A"). Students from United Kingdom universities, generally, will be accepted only if they have achieved a "first" or "upper second". In exceptional cases students may be admitted who are able to present alternative evidence of their academic ability.

M.Sc. Program. Students should normally hold a B.Sc. degree, or equivalent, in an honors program with at least a good second class standing (3.0 G.P.A.) in Geography or a related discipline; where the candidate's first degree is not in Geography, he/she should have at least 12 semester hours or the equivalent in upper division Geography courses.

Students with a general degree must have 30 semester hours or the equivalent in upper division Geography courses.

Ph.D. Program. Admission is only granted when the department has evidence that a candidate is able both to complete formal course work at the most advanced level and to produce a satisfactory dissertation.

Other requirements. In both cases the student is expected to show or acquire competence in statistical techniques, problems and principles of geographic methodology, and, in addition, a student may be directed to acquire an adequate knowledge of a language other than English which would be relevant to his/her studies.

Financial aid. The department can normally offer a total of four one-semester, part-time teaching assistantships to M.A. and M.Sc. candidates and eight assistantships to doctoral candidates, at the current salary of $2945.00 and $3490.00 per semester respectively (that is, $5890.00 per two semesters for M.A.'s and M.Sc.'s and $6980.00 per two semesters for Ph.D. candidates). Continuation of assistantships beyond one semester depends upon satisfactory teaching performance. In addition, once during a program of study, a stipend at an M.A./M.Sc. rate of $2945.00 and at at Ph.D. rate of $3490.00 is usually available after three semesters of graduate work. Other forms of support may be available from time to time on specific departmental research projects.

STAFF:

M. L. Barker, Ph.D., Toronto, 1972, Associate Professor—resource studies, behavioral geography, Western Canada

R. C. Brown, Ph.D., Michigan State, 1967, Associate Professor and Dean of Arts—agricultural, resource development

C. B. Crampton, Ph.D., Bristol, 1956, Professor—pedology and terrain analysis

F. F. Cunningham, Dip. Ed., Durham, F.R.G.S., Professor—geomorphology, Latin America, relations between landscape science and landscape art

J. C. Day, Ph.D., Chicago, 1970, Professor and Director of MRM Program—resource and environmental management, water management

M. E. Eliot Hurst, Ph.D., Durham, 1966, Professor—economic behavior, socialist geography, imperialism

L. J. Evenden, Ph.D., Edinburgh, 1970, Associate Professor—urban and social geography

E. M. Gibson, Ph.D., British Columbia, 1970, Associate Professor—urban cultural geography, methodology

T. I. Gunton, Ph.D., British Columbia, 1981, Assistant Professor—urban and regional planning, resources management

R. Hayter, Ph.D., Washington, 1973, Associate Professor—economic, manufacturing, locational analysis

E. J. Hickin, Ph.D., Sydney, 1971, Associate Professor—geomorphology

R. B. Horsfall, Ph.D., Johns Hopkins, 1969, Assistant Professor—cultural, environmental psychology, medical geography

I. Hutchinson, Ph.D., Simon Fraser, 1977, Assistant Professor—biogeography

P. M. Koroscil, Ph.D., Michigan, 1970, Associate Professor—cultural, historical, Canada

A. MacPherson, M.A., Edinburgh, 1950, Professor—urban climatology, Western Europe, cultural

T. K. Peucker, D.Phil., Heidelberg, 1966, Associate Professor (Geography/Computing Science)—economic, quantitative, computer cartography

J. T. Pierce, Ph.D., London School of Economics, 1976, Assistant Professor—urban economic, rural resource management

G. A. Rheumer, Ph.D., Illinois, 1953 Associate Professor—historical, British Columbia

A. C. B. Roberts, M.A., Waterloo, 1977, Instructor—remote sensing, cultural-historical

M. C. Roberts, Ph.D., Iowa, 1966, Professor—fluvial geomorphology, field methods, urban hydrology

R. B. Sagar, M.Sc., McGill, 1959, Associate Professor—climatology, glaciology

P. L. Wagner, Ph.D., UC, Berkeley, 1953, Professor—cultural

J. W. Wilson, M.Sc., 1947, M.R.P., 1951, North Carolina, Professor—urban and regional planning

S. T. Wong, Ph.D., Chicago, 1968, Associate Professor—resources management, population studies, quantitative methods

University of Toronto

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1935

DEGREES OFFERED: M.A., M.Sc., Ph.D.

GRANTED 7/1/80-6/30/81: 11 Masters, 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 23 Masters 28 Ph.D.
NOT IN RESIDENCE: 6 Masters 4 Ph.D.

CHAIRMAN: John N.H. Britton

FOR CATALOG AND FURTHER INFORMATION WRITE TO: The Chairman, Department of Geography, University of Toronto, Toronto, Ontario, Canada M5S 1A1
Telephone (416) 978-3377

PROGRAMS AND RESEARCH FACILITIES: The M.A. and M.Sc. programs normally take a year, and comprise either a thesis and at least one graduate course, or a research paper and at least three graduate courses (or six half courses). A collaborative Master's program in environmental studies provides the opportunity to take core courses and undertake an internship outside the Geography Department. The Ph.D. is essentially a research degree requiring the preparation of a doctoral thesis which meets the standard of a publishable research monograph. This program requires at least two years in residence after the M.A.

The department is prepared to supervise graduate research in climatology, geomorphology, pedology and land management, resource management and environmental hazards, cultural and social geography, historical geography, philosophy and history of geography, industrial geography, regional development, transportation analysis, quantitative analysis, and urban geography. The department conducts and provides for research on Canada, the United States and other areas where members of staff have active research interests, particularly Latin America, the U.S.S.R., Western and Central Europe, Africa, and East Asia.

The University library, with some three and a half million volumes, and special libraries near the campus comprise the largest collection of books and documents in Canada. Computing facilities available on campus include an IBM S/360/65, S/370-165, and DEC System 1060. Computer research facility provides specialized services, i.e., graphics, real-time computing, and data acquisition.

Departmental facilities include cartographic laboratories, laboratories and a field station for climatology and geomorphology, computer programming assistance and research rooms for graduate students.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan*—Year system, with entrance in September. *Admission Requirements*—Minimum requirement is a bachelor's degree from a recognized university within the last five years with at least upper second class standing or its equivalent. Exceptions permitted in unusual circumstances. *Financial Aid*—Teaching and Research Assistantships carrying stipends of $3650 to $4200 are available and involve not more than ten hours work per week. Fellowships (University of Toronto, Social Sciences and Humanities Council of Canada, Central Mortgage and Housing Corporation, Natural Sciences and Engineering Research Council Canada, Transportation Development Agency, etc.) $5100 to $9350 requiring no services. Summer employment in department often available.

GRADUATE FACULTY:

Howard F. Andrews, D.Phil., Sussex, 1970, Associate Professor—social geography and methodology

Alan M. Baker, Ph.D., Chicago, 1976, Associate Professor—urban, spatial analysis

Larry S. Bourne, Ph.D., Chicago, 1966, Professor and Director, Centre for Urban and Community Studies—urban, regional analysis

John N. H. Britton, Ph.D., London, 1966, Professor and Chairman—industrial, spatial interaction, regional economic analysis

Rorke Bryan, Ph.D., Sheffield, 1967, Professor—slope processes, soil erosion, wildlife and parks conservation

Michael Bunce, Ph.D., Sheffield, 1970, Associate Professor—agriculture, rural land use

Ian Burton, Ph.D., Chicago, 1962, Professor—environmental hazards, perception and decision-making in resource management

Leslie Curry, Ph.D., New Zealand, 1959, Professor—climatology, analytic and statistical models in geography

William G. Dean, Ph.D., McGill, 1959, Professor—Pleistocene geomorphology, Ontario geography, cartography, the North

Neil C. Field, Ph.D., Washington, 1956, Professor—U.S.S.R., economic geography (industrial and agricultural)

J. H. Galloway, Ph.D., London, 1965, Professor—Latin America, historical

Brian Greenwood, Ph.D., Bristol, 1970, Professor—geomorphology, sedimentology, coastal studies

Angelo P. Grima, Ph.D., Toronto, 1970, Associate Professor—natural resources and environmental management

F. Kenneth Hare, Ph.D., Montreal, 1950, Professor—dynamic and physical climatology, ecology

Alan V. Jopling, Ph.D., Harvard, 1961, Professor—geomorphology, sedimentology, hydrology

Donald Kerr, Ph.D., Toronto, 1950, Professor—industrial, metropolitan growth

James T. Lemon, Ph.D., Wisconsin, 1964, Professor—historical, urban, social

Joseph A. May, Ph.D., Toronto, 1968, Associate Professor—philosophy of geography, history of geography

Thomas F. McIlwraith, Ph.D., Wisconsin, 1973, Associate Professor—historical and cultural geography of North America

Aidan McQuillan, Ph.D., Wisconsin, 1975, Associate Professor—historical geography of North America

John Miron, Ph.D., Toronto, 1974, Associate Professor—urban, economic, quantitative methods

D. Scott Munro, Ph.D., McMaster, 1975, Associate Professor—microclimatology

Edward C. Relph, Ph.D., Toronto, 1973, Associate Professor—cultural, philosophy of geography, analysis of present day landscapes

Edward C. Relph, Ph.D., Toronto, 1973, Associate Professor—cultural, philosophy of geography, analysis of present day landscapes

James W. Simmons, Ph.D., Chicago, 1964, Professor and Graduate Coordinator—urban

Jacob Spelt, Ph.D., Utrecht, 1955, Professor and Vice-Dean, Faculty of Arts and Science—urban, historical

Geza Szeicz, Ph.D., Reading, 1970, Associate Professor—climatology, water balance, crop growth

J. J. van der Eyk, Ph.D., Wageningen, 1957, Professor—pedology, land management, airphoto interpretation, photogrammetry

Rodney R. White, Ph.D., Bristol, Associate Professor—transport geography, regional design, Africa

Joseph B. R. Whitney, Ph.D., Chicago, 1969, Professor—resources, East Asia, political

Anne V. T. Whyte, Ph.D., Johns Hopkins, 1972, Associate Professor—environmental perception and behavior

University of Victoria

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1949 GRADUATE PROGRAM FOUNDED: 1966

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80-6/30/81: 7 M.A., 0 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 14 M.A., 1 Ph.D.
NOT IN RESIDENCE: 13 M.A., 1 Ph.D.

CHAIRMAN: W. R. Derrick Sewell

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Mr. L. T. Ghobrial, Faculty of Graduate Studies, University of Victoria, Victoria, British Columbia, Canada V8W 2Y2
Telephone (604) 477-6911, ext. 404, 407

PROGRAMS AND RESEARCH FACILITIES: The Geography Department concentrates its major efforts in four fields. North America and the Pacific Region are the main regional foci while urban economic, resource management, and geographical techniques are the three other systematic emphases. Research is being undertaken on Canadian topics, East and Southeast Asia, and Polynesia. The urban-economic group is involved in studies of environment and behaviour, regional development, transportation, and tourism. Within the resources group current research is concerned with water and coastal resources, hazards, recreation, impact assessment, climatology, and forest management policies.

The facilities of the departmental map library and university library have been developed to support this concentration of research effort. Computing facilities and advanced cartographic equipment are available for research purposes. The Department publishes the Western Geographical Series and has produced 20 book-length titles reflecting both the Department's research interests and those of invited contributors. A discussion paper series, the Cornett Papers, is also produced.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: A baccalaureate degree from a recognized university, or its equivalent, with a "B" average (70%) for the last two years is generally considered the minimum required for admission. Students whose native language is not English are required to provide evidence that their knowledge of English is sufficient to allow them to proceed with their studies. Overseas students should not make provision to travel to Canada until they have actually been admitted by the Faculty of Graduate Studies and have evidence of financial resources to allow them to pursue their studies here. The minimum residence requirement for a Master's degree is the equivalent of one full winter session of study (15 units), but most students should expect to spend tw academic years in residence. For the degree of Doctor of Philosophy at least the equivalent of two full winter sessions of study beyond the Master's level or three full winter sessions of study beyond the Bachelor's level, and satisfactory completion of the prescribed program are required. Thesis topics are agreed upon after consultation with a supervisory committee and normally reflect the course work taken by the graduate concerned. The Winter Session is divided into two terms—the first, September to December; the second, January to May.

University of Victoria Fellowships of $4,375, applicable to the session September to April, are awarded by the Faculty of Graduate Studies to students of high academic standing registered full-time in the Faculty. Upon recommendation of the Department, these Fellowships may be accompanied by a Summer Supplement of $1700, applicable to the period May to August, inclusive, for students working full-time on their studies during that period. A very limited number of Fellowships of 8,225 for a twelve-month period are awarded on a competitive basis to truly exceptional students in the University. Part-time Laboratory Instructorships, ranging from $1100 to $2400, applicable to the session September to April, are awarded by the Department. These instructors are assigned two to six contact hours per week, together with preparation and marking, during the period September to April. National Research Council Graduate Scholarships and Bursaries and Central Mortgage and Housing Corporation Fellowships may be awarded subject to conditions laid down by these agencies. Information regarding Canada Council and other Graduate Awards may be obtained from the Faculty of Graduate Studies.

STAFF:

Gerald M. Barber, Ph.D., Toronto, 1974, Associate Professor—urban, transportation, economic, quantitative

Michael C. R. Edgell, Ph.D., Birmingham, 1967, Associate Professor—physical, biogeography, landscape evaluation, Australia

Charles N. Forward, Ph.D., Clark, 1958, Professor—urban, port functions, urban historical, Canada

Harold D. Foster, Ph.D., London, 1968, Associate Professor—physical, applied geomorphology, hydrology, natural hazards, renewable energy

Leslie T. Foster, Ph.D., Toronto, 1975, Assistant Professor—recreational geography, water resources, policy analysis

Patricia P. Gilmartin, Ph.D., Kansas, 1980, Assistant Professor—cartography, remote sensing

Charles H. Howatson, M.A., British Columbia, 1947, Associate Professor—geology, air photo interpretation, western Canada

David C. Y. Lai, Ph.D., London, 1967, Associate Professor—East Asia, Hong Kong Overseas Chinese, China, industrial, urban

Malcolm A. Micklewright, Ph.D., Washington, 1970, Associate Professor—economic, regional planning and development

Peter E. Murphy, Ph.D., Ohio State, 1970, Associate Professor—urban, community planning, tourist management, quantitative

J. Douglas Porteous, Ph.D., Hull, 1969, Professor—urban, planning, behavioral, humanistic, Latin America

William M. Ross, Ph.D., Washington, 1972, Associate Professor—resources, political, legal, coastal management, fisheries

W. R. Derrick Sewell, Ph.D., Washington, 1964, Professor and Chairman—resources, behavioral, policy analysis, water, energy

Stanton E. Tuller, Ph.D., UCLA, 1971, Associate Professor—physical, climatology, heat balance, Japan

Rudolph Wikkramatileke, Ph.D., London, 1955, Professor—South and Southeast Asia, economic and cultural

Colin J. B. Wood, Ph.D., McMaster, 1970, Associate Professor and Graduate Advisor—resources, conflict resolution, economic, quantitative

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Bunny, Gary. "Log Buildings in Southern B.C. Pioneer Adaption to Housing Need in the Kettle Valley and Chilcotin," 1980.

Burr, Kevin. "An Investigation of Littering Behaviour in a Provincial Park," 1980.

Fraggalosch, Audrey. "The Institutional Barriers to Public Participation in Energy Planning in British Columbia: The Case Study of the Cheekye-Dunsmuir 500 Kv. Transmission Line," 1981.

Higginbottom, Gary. "Agricultural Land Preservation and Its Implications for Housing Construction Costs in Greater Victoria," 1980.

Sturko, Derek. "A Building Evaluation of the Gordon Head Student Hall of Residence, University of Victoria," 1980.

Sullivan, Mike. "Threats to the Independence of the Elderly Poor in Downtown Victoria, B.C.," 1981.

Tozer, Dave. "State Intervention, the Community Movement and the Neighbourhood Improvement Program in James Bay, Victoria," 1981.

University of Waterloo

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1962 GRADUATE PROGRAM FOUNDED: 1965

DEGREES OFFERED: M.A., Ph.D.

GRANTED 7/1/80–6/30/81: 11 M.A., 3 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 21 M.A. 7 Ph.D.
NOT IN RESIDENCE: 15 M.A. 9 Ph.D.

CHAIRMAN: Christopher R. Bryant

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Ellsworth LeDrew, Graduate Officer, Department of Geography, Faculty of Environmental Studies, University of Waterloo, Waterloo, Ontario, Canada N2L 3G1
Telephone (519) 885-1211, ext. 3404

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography is an integral part of the Faculty of Environmental Studies comprising the Department of Geography, School of Urban and Regional Planning, Department of Man-Environment Studies, and the School of Architecture. Although the graduate programs in Geography and in the School of Urban and Regional Planning are separate and independent, they strongly complement one another. Faculty in Geography and in Planning are readily accessible to all students and there is a constant dialogue between the Geography and Planning graduate students.

The Department offers training and research guidance at the Master's and Doctorate levels. The fields of research specialization are (1) resource analysis (social, economic, and ecological aspects), (2) economic (industrial, rural, regional development), (3) urban, (4) recreation, (5) physical, (6) techniques (air photo interpretation, remote sensing, computer mapping, model-building, statistical analysis). For Honors B.A. (or equivalent) graduates in Geography, there are two routes for the M.A.—(1) the Thesis M.A., and (2) the Course Work M.A. Requirements for the Course Work M.A. are four graduate courses and the completion of a research paper. Within the Course Work M.A. there is a Resource Management Option which is open to students with either geography or non-geography honours degrees (or equivalents).Requirements for the Thesis M.A. are three graduate courses and a thesis. For the Ph.D. (after the M.A. degree) course requirements vary with the background and needs of the candidate. A dissertation is mandatory, and competence in a language other than English is expected.

Excellent cartographic, photo interpretation, and computer facilities are available.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID:

Academic Plan—3 Terms (September-December; January-April; May-August) *Admission Requirements*—M.A.: B standing (75%) in Honours B.A. or equivalent. Ph.D.: Must possess M.A. (or equivalent) and first class standing. *Financial Aid*—Department Assistantships with a maximum value of $5016 for two terms.

STAFF:

James H. Bater, Ph.D., London, 1969, Professor—Soviet Union, industrial

Christopher R. Bryant, Ph.D., London, 1970, Associate Professor and Chairman—rural, quantitative methods

Ronald A. Bullock, Ph.D., London, 1969, Associate Professor—cultural, historical, Africa

Trudi Bunting, Ph.D., Toronto, 1975, Assistant Professor and Undergraduate Officer—urban

Aubrey Diem, Ph.D., Michigan, 1961, Professor—regional, Europe

Douglas Dudycha, Ph.D. candidate, London, Lecturer—quantitative methods, computer cartography

Christian Dufournaud, Ph.D., Toronto, 1980, Assistant Professor—resources management, multivariate methods

David K. Erb, Ph.D., McGill, 1963, Professor—tropical geomorphology, air photo interpretation, resource inventory

James S. Gardner, Ph.D., McGill, 1968, Professor—Alpine and arctic geomorphology, environmental hazards and impact studies, geographic education

Leonard Guelke, Ph.D., Toronto, 1974, Associate Professor—geographic thought, cartography, historical, Africa

B. Hyma, Ph.D., Pittsburgh, 1971, Associate Professor—population, developing countries

Robert M. Irving, Ph.D., Minnesota, 1966, Professor—rural, Canada

R. Johnson, Ph.D., Minnesota, 1972, Assistant Professor—recreation

Andrzej Kesik, Ph.D., Marie-Curie Sklodowska, 1959, Associate Professor—air photo interpretation, geomorphology, geomorphological surveying

Ralph R. Krueger, Ph.D., Indiana, 1959, Professor—land use, regional planning and development, Canada

Ellsworth LeDrew, Ph.D., Colorado, 1976, Assistant Professor—climatology, remote sensing

B. Matthews, Ph.D., Cornell, Professor and University President—soils geography

Geoffrey R. McBoyle, Ph.D., Aberdeen, 1969, Associate Professor—climatology, geographic thought and methodology

Alexander G. McLellan, Ph.D., Glasgow, 1967, Associate Professor—glacial geomorphology and field studies

Bruce Mitchell, Ph.D., Liverpool, 1969, Professor—natural resources, quantitative methods

George Mulamoottil, Ph.D., Delhi, Associate Professor, Associate Dean, Graduate Affairs—resource management, environmental planning

Peter H. Nash, Ph.D., Harvard, 1958, Professor—future ekistics

J. G. Nelson, Ph.D., Johns Hopkins, 1959, Professor and Dean, Faculty of Environmental Studies—resources, landscape history

E. Roy Officer, M.A., Wisconsin, 1958, Assistant Professor—historical, political, geographic thought

Richard E. Preston, Ph.D., Clark, 1964, Professor and Associate Chairman—urban, regional development

Lorne H. Russwurm, Ph.D., Illinois, 1964, Professor—urban systems, rural-urban fringe

David F. Walker, Ph.D., Toronto, 1971, Associate Professor—industrial, location theory, regional development

Geoffrey Wall, Ph.D., Hull, 1971, Associate Professor—recreation, tourism, resources

University of Western Ontario

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1938 GRADUATE PROGRAM FOUNDED: 1946

DEGREES OFFERED: M.A., M.A.T. (Geography), M.Sc., Ph.D.

GRANTED 7/1/80–6/30/81: 6 Masters, 2 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 11 Masters 17 Ph.D.
NOT IN RESIDENCE: 14 Masters 9 Ph.D.

CHAIRMAN: N. L. Nicholson

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Coordinator of Graduate Affairs, Department of Geography, University of Western Ontario, London, Ontario, Canada N6A 5C2
Telephone (519) 679-6853

PROGRAMS AND RESEARCH FACILITIES: The Department is prepared to supervise research within the principal interests of its faculty, but particularly in the research foci of urban and regional studies, social geography, recreation and rural studies, physical geography, and quantitative theory and spatial systems. The University offers opportunities for course work and research in Western Hemisphere studies and the Department has close ties with the Departments of Anthropology, Botany, Economics, Geology, History, Political Science and Psychology and the Faculties of Business Administration, Engineering, Science and Education.

The Master's thesis (or research paper in the case of the M.A.T.) and the Ph.D. dissertation represent the end products toward which the individual's program is directed. Most students and many faculty members participate in the forum on Geographical Methodology. Additional course work, determined on an individual basis, and a field camp make up the course requirements for either the Master's or the Ph.D. degree.

Facilities in the Social Science Centre include well-equipped laboratories in geomorphology, pedology, and biogeography, a cartographic division with two full-time cartographers and a map library of over 175,000 sheet-maps and 1300 atlases, with three full-time curators. The Department's computer facilities include remote PDP-10 terminals, a digitizer, analog plotters and full-time programming consultants. Students also have access to the University's Cyber 73-14 (CDC 6400) system and on-line facilties to IBM 360/65, CDC 660 and Univac 1108. The Department maintains a geomorphology field station on Lake Erie. Study space is provided for each graduate student. Students and faculty publish the semiannual geographical journal *Ontario Geography*. Each year several noted geographers from other universities and agencies are invited to give visiting lectures and seminars in the Department.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: Semester system. Master's applicants must have either an Honors Bachelor's degree or equivalent in Geography with at least a B average from a recognized university, or have a degree in another program with at least a B average and have completed course work to the satisfaction of the Department. Ph.D. applicants who hold a Master's degree or equivalent are accepted at the discretion of the Department. Financial aid is available to qualified students through University Scholarships, teaching assistantships, and scholarships from outside agencies. Write to the Coordinator of Graduate Affairs for details of current policy.

FACULTY:

E. M. Bjorklund, Ph.D., Chicago, 1955, Associate Professor—cultural

R. W. Butler, Ph.D., Glasgow, 1973, Associate Professor—recreational

D. G. Cartwright, Ph.D., Western Ontario, 1973, Associate Professor—Canadian studies

K. B. Cawker, Ph.D., Simon Fraser, 1978, Assistant Professor—biogeography and palynology

Wilfrid Laurier University

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1960 GRADUATE PROGRAM FOUNDED: 1967

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 5

GRADUATE STUDENTS IN RESIDENCE: 9
NOT IN RESIDENCE: 11

CHAIRMAN: Houston C. Saunderson

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Dr. Jerry Hall, Graduate Officer, Department of Geography, Wilfrid Laurier University, Waterloo, Ontario, Canada N2L 3C5
Telephone (519) 884-1970, ext. 288

PROGRAMS AND RESEARCH FACILITIES: The Department of Geography offers courses and research guidance at the Master's level in the fields of: (1) applied physical geography, (2) cultural and historical geography, (3) economic and urban geography, and (4) resources management.

There are two options from which a graduate student may choose. The thesis option normally involves completion of a minimum of four term courses and a thesis. Participation in graduate colloquia and field trips is normally required.

The non-thesis option allows completion of the M.A. program through course work. Nine term or equivalent graduate courses are required. As well the student is restricted to a maximum of four term courses in any one of the general areas of geography offered by this department. Cartographic and computer facilities are available.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: *Academic Plan*—Academic Year, September to April. *Admission Requirements*—A minimum of second class honours or B standing in the graduating year of an Honours Program in Geography or its equivalent. *Financial Aid*—Department Teaching Fellowships with a value of $3500 from September-April. Additional Teaching Fellowships valued at $1750 are available in the summer months. University scholarships valued at $1700 are also available. In addition, Research Assistantships are available from faculty research grants.

STAFF:

Barry N. Boots, Ph.D., Rutgers, 1972, Associate Professor—locational analysis, urban, quantitative

Jerry A. Hall, Ph.D., Clark, 1973, Associate Professor—physical, resources, climatology

C. Grant Head, Ph.D., Wisconsin, 1971, Associate Professor—historical, cultural, cartography

Alfred Hecht, Ph.D., Clark, 1972, Associate Professor—economic, urban

Kenneth Hewitt, Ph.D., London, 1967, Professor—natural hazards, mountain environments, ecological theory

Ian A. McKay, M.A., Western Ontario, 1966, Assistant Professor—cultural, historical

John H. McMurry, Ph.D., Michigan, 1950, Professor—resources, land and wildlife management

Russell W. Muncaster, Ph.D., Clark, 1972, Associate Professor—urban, quantitative, economic

Helen E. Parson, Ph.D., Kentucky, 1976, Assistant Professor—resources, rural

Houston C. Saunderson, Ph.D., Toronto, 1974, Associate Professor—geomorphology, sedimentation

Allan Sawchuk, M.A., Manitoba, 1974, Lecturer—climatology, quantitative methods

Gunars Subins, Ph.D., Western Ontario, 1974, Associate Professor—physical, geomorphology

Richard Turkheim, M.A., Western Ontario, 1976, Lecturer—resources management, water resources, public policy and planning

Herbert A. Whitney, Ph.D., Michigan, 1962, Associate Professor—geographic thought and method, cultural, historical

Bruce S. Young, Ph.D., Natal, 1972, Professor—economic, tourism, developing world

TITLES OF THESES COMPLETED 7/1/80–6/30/81:

Master's:

Asamoah, Kofi. "Periodic Market Systems in Southeast Ghana: A Study of Their Spatial Relations for Development Planning," 1980.

Burns, Cathy. "Perception of Shopping Centre Images: An Empirical Study," 1980.

De Boer, Peter. "Agricultural Land Search Behavior: A Study of Agricultural Relocation and Expansion in the Niagara Fruitbelt," 1981.

University of Windsor

DEPARTMENT OF GEOGRAPHY

DATE FOUNDED: 1965 GRADUATE PROGRAM FOUNDED: 1967

DEGREES OFFERED: M.A.

GRANTED 7/1/80–6/30/81: 3

GRADUATE STUDENTS IN RESIDENCE: 15
NOT IN RESIDENCE: 2

CHAIRMAN: Anthony Blackbourn

FOR CATALOG AND FURTHER INFORMATION WRITE TO: Graduate Secretary, Department of Geography, University of Windsor, Windsor, Ontario, Canada N9B 3P4
Telephone (519) 253–4232, ext. 446

PROGRAMS AND RESEARCH FACILITIES: Instruction and research guidance are offered by the Department in the fields of Climatology and Geomorphology; Historical Geography; Regional Studies, particularly of Latin America, Arctic Canada, the Soviet Union, Western Europe, and South Asia; Resource and Industrial Geography; Urban Geography and Planning; Population; and Medical Geography. Interdisciplinary programs are available with other Departments in the University, and with other universities, in both physical and regional geography.

The University of Windsor is located on the Detroit River close to the downtown areas of both Windsor and Detroit, and to Wayne State University and the University of Michigan. The University has an IBM 3031 computer, and a new library of 1,000,000 volumes. The Department of Geography is located in Windsor Hall, with map library, cartography and physical geography laboratories, and graduate study space. The Department operates a well-equipped climatological station on campus, and offers an Arctic program at Frobisher Bay, N.W.T.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The University of Windsor offers graduate courses in the September–December and January–April semesters, though courses can be taken in Inter-Session and Summer School.

Normally a B+ average in a four-year Honors Program in geography or its equivalent (90 credits in Geography out of 132 undergraduate credits) from a recognized University admits to a one-year program. Candidates from other disciplines are admitted to a two-year program. Five semester-length courses, a language or computer skills requirements, and a thesis complete the M.A. degree.

Financial aid is available to excellent students through University teaching assistantships, and fellowships to a maximum of $7200, as well as from Province of Ontario graduate fellowships, Canada Council, National Research Council, and Central Mortgage and Housing Corporation.

STAFF:

Anthony Blackbourn, Ph.D., Toronto, 1968, Associate Professor and Chairman—industrial, Europe

York University

GRADUATE PROGRAMME IN GEOGRAPHY

DATE FOUNDED: 1962 GRADUATE PROGRAMME FOUNDED: 1967

DEGREES OFFERED: M.A., M.Sc., Ph.D.

GRANTED 7/1/80-6/30/81: 4 Master's, 1 Ph.D.

GRADUATE STUDENTS IN RESIDENCE: 17 M.A. 4 Ph.D.
NOT IN RESIDENCE: 11 M.A. 4 Ph.D.

DIRECTOR: J. David Wood

FOR CATALOG AND FURTHER INFORMATION WRITE TO: J. David Wood, Director, Graduate Programme in Geography, York University, Downsview, Ontario, Canada M3J 1P3
Telephone (416) 667-3740

PROGRAMMES AND RESEARCH FACILITIES: A doctoral programme is offered in four fields of specialisation: biogeography; cultural-historical geography; resource analysis; and urban-economic geography. The Ph.D. degree is seen as a research degree, and students are not expected to take many courses.

Opportunities for research at the M.A. level are available in most of the main branches of geography. Students wishing to specialise in biogeography can opt for an M.Sc. degree. The M.A./M.Sc. candidate chooses one of two programmes: (a) two full courses or equivalent and a thesis, (b) three full courses or equivalent and a research paper. The completion of M.A./M.Sc. requirements normally takes at least twelve months, and it is expected that full-time M.A./M.Sc. students will complete all requirements within two academic years. The Programme has a large faculty who have completed their undergraduate and graduate training in a great number of different institutions. The result is that the faculty encompass a wide variety of interests and points of view. Facilities for graduate work in Geography are housed mainly in the Ross Building, and include office and workroom space, a departmental library, an electronic map digitizer, remote APL terminals and a physical geography laboratory equipped for a wide range of analytical work including soil, water, pollen, and vegetation analysis. Holdings of the Scott Library at York are extensive both in Geography and in cognate fields. In addition there are significant libraries and archives elsewhere in Metropolitan Toronto. The University's computer facilities are based on ITEL AS-6 and DEC 10, and the department employs its own full-time programmer.

ACADEMIC PLAN, ADMISSION REQUIREMENTS, AND FINANCIAL AID: The academic session extends from mid-September until late March, leaving spring and summer free for writing the thesis or research paper, or conducting field work. The basic admission requirement at the M.A./M.Sc. level is a four-year first degree after senior matriculation or an Honours degree from a recognized university, or with equivalent qualifications, and with at least B (second class) standing. Certain courses have specific prerequisites, and these are listed in the Calendar of the Faculty of Graduate Studies. Applicants to the doctoral programme should expect to complete their M.A./M.Sc. by the time they enter the Ph.D. programme.

The programme normally can offer teaching assistantships to all full-time graduate students. Some graduate (research) assistantships are also available. In addition, first class students may be offered a York scholarship which is currently valued at $3000. Geography students are also encouraged to apply for awards offered by a variety of external agencies including the Ontario Government (Ontario Graduate Scholarships), Social Sciences and Humanities Research Council of Canada, Central Mortgage and Housing Corporation, Natural Sciences and Engineering Research Council Canada and the Transportation Development Agency.

GRADUATE FACULTY:

Frank A. Barrett, Ph.D., Michigan State, 1973, Associate Professor—cultural, migration, medical

Ronald Bordessa, Ph.D., Liverpool, 1971, Associate Professor—urban, perception studies, geographic theory

Ian A. Brookes, Ph.D., McGill, 1970, Associate Professor—geomorphology, Pleistocene environments

James M. Cameron, Ph.D., Glasgow, 1970, Associate Professor—historical, Canadian pioneer settlements, migration

J. Tait Davis, Ph.D., Clark, 1960, Professor—economic, urban, regional economic development and planning, Kenya

William C. Found, Ph.D., Florida, 1966, Professor—economic, rural resource use, quantitative methods, computer-aided instruction

Donald B. Freeman, Ph.D., Chicago, 1971, Associate Professor—economic, transportation and trade, quantitative methods, Africa

James R. Gibson, Ph.D., Wisconsin, 1967, Professor—historical and contemporary geography of Russia

Bryn Greer-Wootten, Ph.D., McGill, 1968, Associate Professor—urban, internal structure of cities, quantitative methods, research methodology

Conrad E. Heidenreich, Ph.D., McMaster, 1970, Professor—cultural, site analysis, Indians of North America

Alan R. Hill, Ph.D., Belfast, 1968. Associate Professor—ecology, resource management

H. Peter M. Homenuck, Ph.D., Cincinnati, 1969, Associate Professor—urban, community and regional planning

Martin C. Kellman, Ph.D., Australian National, 1967, Professor—biogeography, tropical environments

William C. Mahaney, Ph.D., Colorado, 1970, Associate Professor and Chairman, Department of Geography, Atkinson College—pedology, geomorphology, Pleistocene environments

John U. Marshall, Ph.D., Toronto, 1968, Associate Professor—urban, regional systems of cities, research methodology

Bryan H. Massam, Ph.D., McMaster, 1969, Professor and Director, Graduate Programme in Geography—urban, public facility location problems, planning

H. Roy Merrens, Ph.D., Wisconsin, 1962, Professor—historical, North America

C. David Morley, Ph.D., Australian National, 1966, Associate Professor—urban, behavioral studies, recreation, geography and policy-making

Robert A. Murdie, Ph.D., Chicago, 1968, Associate Professor—urban, internal structure of cities, quantitative methods

Glen B. Norcliffe, Ph.D., Bristol, 1970, Associate Professor—economic, regional development, quantitative methods

John P. Radford, Ph.D., Clark, 1974, Associate Professor—urban historical geography, internal structure of cities

Arthur J. Ray, Ph.D., Wisconsin, 1971, Associate Professor—cultural, historical, North America

Edward S. Spence, Ph.D., Alberta, 1971, Associate Professor and Chairman, Department of Geography, Faculty of Arts—hydrology and water resources, resource management

Gerald E. Walker, Ph.D., UC, Berkeley, 1970, Associate Professor—cultural, rural, settlement and social structure, diffusion

John Warkentin, Ph.D., Toronto, 1960, Professor—historical, settlement of Canada, history of geography in Canada

Paul F. Wilkinson, Ph.D., Toronto, 1974, Associate Professor—recreation

Roy I. Wolfe, Ph.D., Toronto, 1956, Professor—recreation, transportation

J. David Wood, Ph.D., Edinburgh, 1962, Professor—historical migration, settlement and frontiers, Canada

TITLES OF THESES AND DISSERTATIONS COMPLETED 7/1/80-6/30/81:

Ph.D.:

Kuruneri, Christopher Tichaona. "The Urban Informal Sector in the Greater Salisbury Area of Zimbabwe: An Analysis of its Relative Viability as a Mode of Production," 1980.

Master's:

Bordessa, Karina. "A Corporate Suburb for Toronto: Lawrence Park 1905-1930," 1981.

Brown, Trevor. "Rootedness and the Hazardousness of a Place: Response to Hurricanes in Belize City, Belize," 1981.

• Carleton University, Ottawa 258
• McMaster University, Hamilton 270
• Queen's University, Kingston 278
University of Guelph 261
• University of Ottawa 276
• University of Toronto 289
• University of Waterloo 294
• University of Western Ontario, London 297
Wilfrid Laurier University, Waterloo 299
University of Windsor 301
• York University, Downsview 303
QUEBEC
• Université Laval, Quebec 263
• McGill University, Montreal 268
• Université de Montréal 274
University of Sherbrooke 284
SASKATCHEWAN
University of Regina 281
• University of Saskatchewan, Saskatoon 282

GRADUATE DEPARTMENTS OF GEOGRAPHY NOT LISTED IN THE *GUIDE*

CALIFORNIA
- California State College, Dominguez Hills
- California State College, Stanislaus

CONNECTICUT
- Central Connecticut State College
- Southern Connecticut State College

FLORIDA
- University of South Florida

ILLINOIS
- Roosevelt University

LOUISIANA
- Northeast Louisiana University

MASSACHUSETTS
- Boston State College
- * Harvard University

MINNESOTA
- Bemidji State University
- St. Cloud State University

NEVADA
- University of Nevada-Reno

NEW JERSEY
- Montclair State College
- William Paterson College

OREGON
- Oregon College of Education

PENNSYLVANIA
- California State College
- West Chester State College

TENNESSEE
- Middle Tennessee State University

TEXAS
- East Texas State University
- University of Texas at Dallas

UTAH
- Brigham Young University

WEST VIRGINIA
- Marshall University

CANADA, ONTARIO
- Trent University
